New Stations and Calls

WHMA-Anniston Ala

100 w 1420 kc. WMRO-Aurora III 250w 1250 kc.

WFNC-Fayetteville N.C.250w 1340 kc. WCNY-Brooklyn N.Y.Education only. Change of calls--WIBC-Indianpolis changed from WGVA: KOME-Tulsa Okla. from KTFL: KSAN-San Francisco Calif.from KGGC.

KWTN-1210 kc., Watertown S.Dak. has not been deleted as reported in the NRC bulletin a few months ago, our report at that time was taken from the FCC News, but itseems as if KWTN has their license extended up to January 1st.1939. This information comes direct from our very good friend Olive Johnson-Watertown S.D. She was up to the Studio and talked with Manager Marsh Plowman, the FCC check of this station in on the Second Saturday from 4:50-5:10 CST. I think theres a mistake in this time as they are listed in the FCC News from 5:40-5:55 EST. (Thanks Olive for the information.)

. . بين عبير مين بين بين بين بين مين عبد من سه بين بين الدر الله الله إلى الله علي الله الله الله الله

The National Radio Club will make a SPECIAL OFFER for all of it's Members that will care to Subscribe for Radex the Yearly RATE will be \$1.40 Per year, all orders mailed direct to NRC Headquarters. This is a Special rate that Radex have made with Headquarters here. The price of Radex still remains \$1.75 so if you care to save the difference mail your \$1.40 into HQ at once. We do not know how long is offer will be good. If you have a friend that wants to join the NRC tell them to send in \$3.15 and receive RADEX and the NRC bulletin both for one year. This COMBINATION OFFER is good only up to OCTOBER 1st 1938..

We are pleased to pass on the latest corrections in the monthly frequency checks schedule. In our August issue we carried a up to Date list if you add these to them, you will have about as a correct list as we can furnish, this latest list was made possible by three wide a-wake DX'ers.Ed Feichtner-Erie Pa. Dick Cooper-Kittanning Pa. and Joe Becker-Hamilton 0.

Starting October 3rd, the bulletin will be issued weekly, please note we want to furnish you members with the very latest news, and to do this we will hold up two open pages untill the day we go to (Cont Page: 7)

We're back again, right through the front door and by the looks of things you will have a hard time keeping us out. One good thing though we didnt arrive on the first of the month or we might have been thrown

we didn't arrive on the first of the month or we might have been thrown in the waste basket. Next month the cloumn may have its wings clipped. With the inception of a weekly publication on October 3rd, we will have a more difficult time stretching the news. So, gentleman, if you want a lengthy affair, don't forget to send each and every bit of DX news.

Joe Becker is right in there with a nice tip concerning KTFL. Joe says that they have changed call letters to KOME and that they will soon go on the air. We originally predicted that they would change call befor going on the air but we guessed the call as KOCW. Thanks for the news, Joe. We stand corrected in part. KOME will use 1310 Kcs.

--WE TOLD YOU SO--

As predicted in last months column, WGVA 1050 kcs., Indianpolis Ind will change call letters befor going on the air. We guessed it 100% correct when we picked the likely call as WIBC. A clipping from an Indiana paper says that the station is well under construction and that they will be identified as WIBC. Prognosticator?? Definitely!! (Pardon us for blowing our own horn, but if we didnt blow it, who would.)

--QUACK, QUACK---

Harry: "Does that Mrs.Blabber talk much?"

Larry: "Does she! You ought to have seen how sunburned her tongue was when she got back from her vacation.

A clipping from Montreal gives us this information. "A new link to the CBC basic network, station CHGB opens Thursday, Sept.8th. CHGB is located at Ste.Anne De La Pocatiere. The new station will operate with 100 watts power and will be fed NBC prgrams through the CBC." Since we are not informed as to the frequency of the new CHGB, we cannot tell you where to look for them...so we hereby appoint Bill Stone to investigate the matter and advise us of his findings. Better tell us what province that city is located in, Bill.

KXOX have already verified a goodly number of NRC reports. They are sending out a printed card with the call in half-inch outline letters. Entire printing is in black on regular cards. Ken Rogers signs for the station.

WCOU were on all morning September 13th with a transcribed musical program and state election results. They stayed on right through the monthly checks and GRM'ed those stations on 1210 kcs. Bill Stone first reported WCOU on August 20th but we did not hear of any other early morning tests from them.

WJEJ were on the same frequency with a similar program but signed off at 3:00 AM EST. They repeatedly asked for reports from DX fans and were heard to say that they were using a new transmitter. Perhaps they will have a few early morning testswith the same equipment later on. They are rather hard to hear since their signal is monitored in the daytime, so if you need them, keep looking for possible tests.

Harry Hawkins has been co spicuous by his absence from the list of reporters. What's happen up there in New Hampshire, Harry. Did youse burn out a tube. If you did, we'll pass the hat and buy you a new one cause we miss your reports. Let's have a postcard at least.!!

Bob Botzum tells us that KITE verified with a letter. The majority of the fellows who first reported KITE received a two-color mimeo'd card. Maybe these cards are all used up, so thers your chance, youse guys that prefer letter veries.

The FCC no longer list WTAQ as one of the stations required to check frequency each month. However, we note them on with a check on the second Tuesday from 4:15 to 4:30 EST. WTAQ operates on 1330 Kes. Try for them next month at the same time.

WIBX,1200 kcs., Utica New York has been sold to J.Curtis Willson and Emile J.Gough. The sale has not as yet been approved by the FCC but it remains as a formality. In as much as a change in ownership frequently means a change in call letters, we believe that you will be interested. Whether or not WIBX will change call remains to be seen, but if you need them, they will be checking frequency on October 10th at 3.00 to 4:10 and it might be a good time to add the to your log.

Nervous Young Man: "What do I have to pay for a Marriage License" Clerk (smiling): " Two dollars down, and your entire salary each week for the rest of your life"

Warren Routzahn bought a new car, you remember, but befor he finally decided he was looking at a roadster. Warren asks the salesman "How many will this car hold?" And the optimistic salesman says "Three, but if they are well acquainted six can get in!"

On Sept.15th, the Texas State Network, with key station in Dallas and Fort Worth will inaugurate service to 23 stations in 23 major Texas cities. The new network will furnish 17 hours per day of the best live talent. The new setup is headed by Elliot Roosevelt and consists of the following stations: KFJZ, KTAT, WRR, KXYZ, KABC, KGNC, KFYD, KBST, KGKL, KRBC, KPLT, KRRV, KCMC, KFRO, KGKB, KAND, WACO, KTEM, KNOW, KRIC, KLUF, KRIS and KRGV...

Harry Gordon tells us that XELO are on 670 kcs, rather than 580 as listed in the last Radex. Harry also adds that some station is QRM'ing CMBL on 750 kcs. after WJR signs off. We've heard the same thing and suggest that you keep after them to see what the other station is.And say gang, Harry is having a special set of headphones made. The new phones will have about 50 to 60 feet of cord.(I measured it Mr.Knight and its only 44½ feet.HG)Here's why...Harry was experiencing some very good DX on the morning of Sept.4th. The time was about 2:25 AM and he was tuned to a station on 1370 which he swears was something "red hot" and was patiently awaiting the call letters. Then at that unthinkable hour, he was called out of the room on business and when he returned the station had left the air. Harry vows that he'll never get caught like that again.

The increasing peroid of darkness means that additional stations are audible at their sign-on in the morning. Perhaps it would be a good idea to compile a list of sign on times, particularly of the hard-to-hear stations. How about it Pete Clarius? We've heard that you're quite a hand at such jobs. Heres a starter for you....CHSJ, 1120 kcs., St John N.B. sign on each morning at 5:00 AM EST. They are now heard quite well at that time.

Just another reminder...please do not forget to send Radex your list of stations for their proposed "Parade of the States" series of DX Progrems. This seems very worthwhile and we want NRC to back them.

Page 4

(Mr.Knight Cont)

That seems to wind up the column for this issue. Now that DX is on the mend, and the winter hobby becoming more interesting each day, we will be looking for more reports from our members. Please dont hesitate in telling us what you hear and when you hear it. It makes no difference whether you own a log of 100 or 1000... news is news without reports we have nothing to report. And dont delay either. We are reminded of the energetic business man who busted into his office on Monday morning to find the staff taking things rather easy. He say Here it is Monday Morning, tomorrow's Tuesday, the next day's Wednesday—half the week gone and nothing done. Well the DX season isn't exactly half gone, but is well under way. Let's dust off the dials and do a little early morning listening. Untill October the best of DX to youse all.

Broadcast Band Reports. Broadcast Band Reports. NATIONAL POST_OBSERVER REPORTS

PRD2_RIO_DE_JANERIO-for IDA 1060 kc 10kw October 15th 3 to 4:00 AM EST Harry M Gordon-Erie Penn, Several of the members wrote into HG and asked if I ever did any DX ing, well boys I do DX and have been for the past 14 years, but as long as the ole bulletin, gets the reportsthat it does why should I take up the space where there are so many members that send in reports that are better than mine. But here goes for my report, Hi. For the month of September I will say that I havent had a better month for DX in the past three or four years, signals have been very strong, the major stations on the west coast could be heard with R\$7-9 signals almost any morning. September 4th heard XELO, KPPC, CJRC, KMPC, KFPY, KELAand Sept. 5th KOY, KSO, KXYZ, KFXM, Sept. 6th KMPC, KJBS, WOMI testing, a station on 980 kc, to weak to get calls at 4:30am also one on 760 kc at 4:40 to weak for calls but could have been KXA, KSAN 1420 kc, a new call for KGGC a new 24 hour station. Sept 7 KXOX testing KFAC at 4:15 with an R/9 plus, WSAZ 1190 testing, WLS, 4:40am testing SOS a spick on 1350 kc calling Allo Allo Allo Allo and playing the same number over and over, signal was R/7-9 $\zeta SA/3-5$ around 4:00 am EST, this is the third morning that I have heard them. September 8 KFJM testing and asking for reports, that Spick was on again this morning on 1350 at 4:00 am, KPLC at 4:15 with test, KFYO at 4:35 with test, KGCU, 4:40am with check. Also one other tip WCOU, 1210 kc has came on with their program every morning at 5:00am EST, you have to catch them signing on the air as thats the only time I have every heard them speak English all the rest of their program is in French. Heard them sign on the first time on Sept. 4 and every morning up to the 10th.

Cyrus Will-Kenilworth Ill.Well, Well look who's here, welcome to the BCB fold OM. Cy writes -In the past years my DX-ing has been confined mostly to short wave stations, but with the coming DX season I hope to log a good number of BCB stations. I dont have very many veries yet but hope to add many this fall and winter. Some of my BCB veries are: CFCO, CHWC, WACO, WAWZ, WCAH WEBQ, WEEU, WEAO, WGCM, WGST, WHAM, WHAZ, WJEJ, WMT, WNAD, WOW, WNBO, WPTF, WSUI, WWNC, WWVA, KABN, KFI, KGDY, KGNO KLZ, KOA, KVOO, KVOR, XES. Have logged a number of new ones for me in the past week but nothing exceptional. My receiver is a Hallicrafters Super Skyrider.

Bob Botzum-Reading Penna. New stations heard are, KITE, KTRI, KTKC, KXOK, WGAN, KDNT, CMKD, KPAB. So far KITE, KTRI, KTKC and KXOK have verified. KTRI imformed me that they have been on the air since July 12th. WGAN heard after 8pm DST regular. KPAB heard at sign off 1st Wed on Commercial test but not enough dope to send report. KDNT was heard till 3:39 am DST Sept 2nd on test program. (Bobs report cont Next Page)

Page 5

(NPO Reports Cont)
(Bob Botzum)Sept 8th between 9 an ilpm DST, the Cubans were extry strong and many U.S. stations were put in the back ground. Enclosed in my letter of verification from KTKC was Pat Reillys verification card. (P.S.I could play a dirty trick on Pat by keeping his verie Hi.) Tried for KYSM Sept. loth on freq Check without success, too much static, in fact past 3am ole man static was sticking his nose around again.

Bill Stone-Toronto Ontario. Bill sends in a very nice report and it looks like he has benn plenty busy. For the week of Sept 3rd heard for new new stations, WHBL, WLBZ, KGA, CFCF, WEDC, KSAL and WFIL the latter was a test of their auxiliary xmitter, and will not count as a new verie. Heres that mystery Spick again, Bills says that he heard him on the 9th playing organ Music, the same number over and over again at 3:30am EST, then calling Allo Allo, Bill says its a Cuban(well at sounded like one to me also OM.) Heres Bills report for the past two weeks, Sept 3rd 1:45-2:00am EST--WEDC Chicago: 2:30-3:00 KSAL Salina: KFI and KNX booming in. Sept.4, reception bad, local static heavy. WATL heard for a new one from 3:52-4:25..Sept.5th 2:09-2:45 KXOX St Louis testing. Sept 6th, and 7th, static so bad you can hardly hear the local ones. Sept 8th, WGAN picked up at 8:00-9:00 PM EST, thanks to ED Feitchner. Sept 9th, WNBZ, WAZL and KGDE on FCC for new ones. Sept 11th KWOC heard testing from 2:30-3:00. KNX and KFI hammering in note they have been strong for the past two weeks.Sept.12th, Static bad, but KPAB giving a good signal up here, in spite of same. Sept. 13th, following heard-WCOU-1:00 WLBZ-1:15 WJEJ-for a new one, strong from 1:27-2:00.KYA-for another new one, 2:30-3:00. WISN testing 2:00-2:30; WBAL-2:20, WFBR-2:25, WAIM-3:15-3:30, with one swell program, worth fifteen minutes of anyones time, a real treat. KFVD-3:20, KOAM-testing 3:00-3:30, KVI-3:30, KFI and KNX nearly breaking the tubes, so strong. The coasters were fair below 1000 kcs, but KYA was the only one heard above that point. Sept 14th, WHLS heard on FCC 5:00-5:15, program messed up badly by WBLK on RB. KGKO, on 570 came in FB on their test. Other stations heard on Sept.11-KGLO at 1:45, WSIX at 2:15, KID at 3:00 with a test program, KNX and KFI booming in. KWJJ heard at 4:15. New veries here are:-CFCF, WATL, KGA, KXOK, WNBZ WAZL and WGAN.Reports out to:-KYSM, WCOU*", KSAL, WEDC, KGDE, KWOC, KPAB, WJEJ WLBZ-2 and WHLS. Not much DXing will be done the rest of this week, as I will be working late every night, and on friday,I start work at eleventhirty PM and work all night.

Arthur Brackbill-Lancaster Penna. By the way I started DX'ing this morning an added one new station---WBRK. Also heard KDNT and KPAB, but static was so bad I couldnt get any dope on them. Hope to swell the log in October when conditions may be better. There certainly is a bunch to shoot for. I'll try and get a report in for October.

Thomas Carberry-Buffalo N.Y.Tom says that he started his official DX season on Sept.10th, by trying for the FCC checks. He says, My success was terrible. I might as well sat down next to a vaccum cleaner and tried to get something out of that, the static was so bad. It was a funny nite I pulled in KNX and KSL with ease but the lower powered stations on the FCC tests just didn't show up. Speaking of frequency tests on my recent trip I saw the monitoring station outside of Chicago on the Great Lakes Naval Training Station ground. Everything was locked up when I was there so I didn't see so much of it.

<u>Dick Cooper-Kittanning Penna.</u> Had a swell night of DX on Sept.13th.Added 12 new ones (Cont next page) (NPO Reports Cont)
(Dick Cooper) as follows WCSH, WLBZ, WGAN (on untill lAM). WCOU with Maine Election returns to complete that state for me. Frequency checks gave up KWOC, KFAM, (2nd Tues 4:05-4:20). WSGN, KDLR, KOCY, KIUP, KRMC and WJEJ added same time with election results and asking for reports. Had KICA so loud I could have woke the entire neighborhood. Latest veries are letters from WSAI, WHAS and WRVA, which completes Virginia and a card KXOK. How can I coax a verie from KATE. Who signs for them?" I am hearing a carrier on 1050 kcs, may be WIBC. Heard a Spick at 4:00 am on 1150, but could not identify.

Warren Routzahn-York Penna. I have been up for the FCC checks this month so far and reception was very good except for Saturday morning. I added WGRM to my log and sent them a report. Heres some of the calls I heard and their signal strength. Thurs. -WFOY R/6, WFDF-R/7, KPLC-R/5, WGRM-R/6, WGCM-R/6, WAVE-R/9, and WCOC-R/7. Friday: -WJTN-R/7, WJAC-R/7, WBLK-R/7, WLEU-R/8, WSAY-R/7 and WRAW-R/7, Saturday: -WBNS-R/7, WCAZ-R/7, WQBC-R/6, WOMT-R/7, KYSM-R/7, KOVC-R/3, WMBR-R/7, and WHBQ R/7 plus.

Joe Becker-Hamilton Ohio. Nothing new lately, but I have been hearing a Spick on 1350 kc a little after 3 am EST.I can hear him saying Hal-low Hal-low, then some music then Hal-low Hal-low again but cannot get any call letters. KXOK has verified but no verie as yet from WHLS, KYSM or KDNT, if these 3 verify I will have a 100% verified log. Sent WPAX my 43rd frequency check report this morning Static around here, has been rather severe an a frying sizzling noise, which interferes a lot. WNNY is still listed in Radex, but the FCC told me, that they are deleted. Just received a verie from KPFA, Helena Montana, heard them last April 8th. Got a card from Geo Jacobs of Cincinnati, who has arrange a program over WKRC for Sept 18, so you may hear my over the mike. SOS—Heard a station on 1420 from 2:40 to 3:30, Organ music up to Three then Orchestra music. Also heard one on 1210 kc from 3:34 untill 4:17am but could not get the calls. Both of these stations were on September 11

Ed Feichtner-Erie Penna.Dx has been good the past two weeks, West Coast stations coming in very good. I managed to pick up 30 new calls, bringing my log up to 1012 heard and 865 verified with about 40 reports out. Some of thr catchs were:-KUEB, KSAL, KSAN, WCOU, KLAH, KRBA, KTEM, KWEW, KAWM, WHLS, KRRV, and have heard several new FCC checks. (They will be on the front Page news, Editor.)

Pat Reilly-Jamestown N.Y. Pretty good month so far: -KTRI, KSAN, KDNT, KPAB, WCOU and KOCY for new ones. New veries in from KTRI, KTKC, and KXOK for 999, this other one has me about dopey, 0h yes sent another report to KYSM and, waiting for them to answer. Hi. Just got letters out to WCOU and KOCY and also wrote to KGU and KGMB.I just want to show Bill Stone that they can be gotten Hi. (Pat whats the matter with Bill cant he get KGU or KGMB, maybe I can give him one of my veries, Hi I have 12 now from KGU.Ed.). Also heard 2NR but not enough to write for a verie. How is the Spick on about 1135 or 1140 who fades out about 3 or 3:15, you can hear the weak carrier for a while afterwards, but can not catch a call or music. Another Spick yelling Allo Allo and music on about 1350 kc. (Pat you are the fourth one to report that one, WHO is it) Who is the K station that signs after WJBK has been going off for the FCC check, he gives the news untill about 3:05 EST. Last Thursday (Sept. 8th.) was about the best DX Ive heard, and there certainly was a big flock of them on the Air. WGRM asked to write to the Chief Engineer on their check. (Cont on Page 7.)

(NPO Reports Cont)
(Pat Reilly) Also heard a gink talking French om 1210 kc after 5 on Sept. 8th. (Check my report OM.HMG.) Have tried for WGAN but no success so far but I'll land them one of these bright days. Hi. #% [18]? # just heard WGAN sign off at 9 P.M. untill 6:30 tomorrow, why didnt I tune em in 15 minutes befor. Heres a little dope on the chain stations on the Coast KFPY has news flashes at 3 AM- CHSJ, 1120 is on daily at about 4:55 to 5:03. KORE has news at 3:00 AM. KGO has news at 2:00- KOIN has police news at 2:30- CFAC on untill about 1:45- KOH, has been on lately untill 4:00--CJRC on untill 2(Correction OM some mornings untill 3:00) When its 3:30 AM here it is 10 oclock in Hawaii. KHBC signs at 3:00 AM every monday or 9:30 Sunday Hawaiin time. KGER is on till 4 from Hotel Clark Studios.

Max Demuling-Eric Penna. Thunder and lighting, Static was the order of the past week. Nevertheless signal strength was good and logs should show substantial gains. Temperature varying from 50 to 62 deg. WCOU-Lewiston Maine 1210 kc heard Sept 8th at 5:00 AM EST, came on the air with English announcement, then the rest of prgram up to 5:20 was in French. KFAM-St Cloud Minn 1420 kc heard Sept 13th, signing off at 4:20 AM. KWTN-Watertown S.D. 1210 kc September 10th, Stated he was on tests the 2nd Saturdays from 5:40-5:55 AM. Contrary to reports of the reports of them being deleted. (Check front Page NEWS OM.) Unable to identify Spanish Speaking station heard several times on 1150 kc between 3:00 and 5:00 am. How many have you forgotten that KGKO 570 kc, have moved from Wichita Falls Texas to Fort Worth. Frequency checks helped with:-KYSM, KPAB, KDNT, WBRK, KWOC, KTOK, KOCY, WGIL, KOBH. Makes a total of 23 new ones from September 1st for the cle log.

Peter A. Clarius-Staten Island N.Y. Here is a summation of my best catches and veries that you might put in the bulletin: LR-1, KOH, KDYL, KWYO, (6 veries) KABR, KXO, KMO, KGIW, KEUB, KGAR, KGGM, CMGE, CMHJ, XEP, CBR, CJLS, KGCX, KID, KRLO, KEX, WSFA, and WALA. On tuesday morning Sept. 13 I was able to log a station which I have been trying to log for the last 5 years namely WJEJ 1210 kc.100w Hagerstown Maryland they killed t two birds with one stone. They gave out election returns and at the same time was able to test out their new 100w xmitter. They were very anxious for reports and promised to verify all that were correct.

Joe Becker-Hamilton Ohio. New ones heard are WGAN, KFAM, WGIL. New station for Charleston S.C. no call letters yet will operate on 1210 kc. 100 w nights and 250w days. WIBC formerly WGVA to take the air officially Sept.25, so they should be testing in a day or so. KTRI may test on First Thursday October 2:15 to 2:30 EST. Be a good idea to watch for them. 1155 heard and 1149 verified, sent WHLS, KDNT. and KYSM another report. Some one asked me when KVOX is on frequency check, they Tuesday do you know anything about this. (No OM I dont but will find out.)

(Front Page News Cont.)
press. Our mailing date will be changed and will mail all bulletins on
Modays, so you will have to have your news to the different Editors not
later than THURSDAY EACH week, but mail all late news DIRECT to HQ not
to arrive here any later than SATURDAY morning. We want to try and please all you members so if each and every one will try and help in what
ever way you can we will make a real up to Date bulletin. And let me
say that so far the NRC members are sure co-operate ing from the way
our last three bulletins have turned out. And I want to thank you all.
As its the members that make a DX Club Bulletin.Not the Chief Editor.HI

NATIONAL RADIO CLUB DX CLUB

Amateur Hi-Lights

All time E.S.T.

Cyrus Will-Editor 651 Brier St.,

Starting with the next issue the bulletin will be published week-

ly. At that time we plan to run the amateur section one week and the SWL section the following week. If however, enough reports are received it may warrant running the amateur section weekly instead of every other week. We need and want your reports, so what do you say fellows, how about them.

A chance to log a new country is offered by CNIAF who gives his location as Tangiers International Zone in Northern Africa. CNIAF has been heard here in Kenilworth with strong signals at 5:30 and 7:30 pm. He is on about 14.300 kc/s.

--VERIES RECEIVED--

Leo Herz-Chicago Ill. YN3DG, Nicaragua, which is 51 countries for Leo. Cy Will: GW5TJ, Wales, a new country and a VFB verie from the Op who QSL'ed promptly in 14 days.

THE SHORT WAVE LISTENER'S CORNER Cyrus Will-Editor 651 Brier Street Kenilworth Ill

Starting with the next issue this department will be ran every other week, alternating with the amateur section. Dont forget to send in yours news about your SWL cards. With your help we can make a very useful column out of this department.

To the newcomers, this section is devoted to the SWL exchang cards ect. With other SWL's. We print news about this field of radio and also with each issue we print about 25 GRA's of the SWL who exchange cards. Of these 25 about 7 are from foreign countries. You are invited to write to these QRA's and to exchange cards. The QRA's are from cards in my collection. When writing please mention the NRC and this SWL corner. --SWL CARD EXCHANGERS--

--DX PROGRAMS--

Dont forget that special DX program from TI4NRH dedication to the "NRC" on November 24, 1938 from 9-10pm EST. The frequency is 9.670 meg and the location at Heredia, Costa Rica Central America. Lets all tune for this Gala NRC Program and be sure to send a report.

--SPECIAL FLASH--

Leo Herz-reports that OZH 15.165 megs was heard testing for a relay to the U.S.A. at New York from 1-1:46pm EST and were heard R/7 QSA/5 They announced as "Danish SW Station". Lets all watch for this new station. (Editor) The QRA is "Postog Telegrafvaenet, Radioingenicertjenesten, Bernstorffsgade 32,1, Copenhagen, V., Denmark."

--HONOR ROLL FOR SEPTEMBER--

Leo Herz-Chicago Illinois, Cyrus Will-Kenilwarth Illinois, Bob Hoynes-London England and Art Johnson-Fort Hamilton N.Y. (Tnx fellows Ed) _____

--EDITORS CHATTER--

Starting with the October issue the NRC bulletin will be issued weekly. We are going to try hard to have a SW section every week. This depends wholly upon you SW listeners so lets have your help and your Editor will try his darnest to give you as fine a SW tips section as possible.

--VERIES SEPARTMENT--

Cyrus will-Kenilworth Illinois-VP3THE. It wont be long now befor we shall all be receiving veries once again. Be sure and let the rest of us know what veries you are receiving through this department. (Ed.)

--RATINGS OF OUR MEMBERS--

From the letters received we are under the impression that all members want their VAC and VIC ratings listed under both the SWBCB and Ham Phone stations. There fore when sending in your VIC and VAC rating be sure and add both your SWBCB and Phone stations togather. No CW stations please. When counting the totals of veries on hand count all veries as they are received on the SW band.

VAC RATINGS	VIC RATINGS	VERIES
Art Johnson- VAC-22	Art Johnson-VIC-89	Art Johnson- 576
Leo Herz - VAC- 4	Leo Herz -VIC-51	Leo Herz - 463
Lundberg - VAC- 1	Cyrus Will -VIC-33	Lundberg - 86
Cyrus Will - VAC- O	Lundberg -VIC-26	Cyrus Will - 79

Its going to be a lot of fun this winter to watch these ratings jump up. Come on Ken Miller and Bob Hoynes send me down your ratings and get in the fun. (Editor)

--NEWS FROM HERE-THERE & EVERYWHERE--

--N.P.O.SW REPORTS OF THE WEEK--

Leo Herz-Chicago Ill-Reports the following stations heard. --ASIA--

15.160 megs from 7:00am to 7:30am EST R/6-8 QSA/4-5..

--AFRICA--Radio Tenerife (Relaying Salamanca) 10.370 megs heard from 8-3:45pm EST R/7 QSA/4-5..

--EUROPE--All German and English stations are heard with VFB on the evening transmissions. DJD 15.200 megs is heard swell on Sundays mornings from 11:10 am-12:25pm EST at which time they broadcasta concert.

TPB-7 11.885 is still being heard fine at 8:30pm EST R/8-9 WSA/5..

2RO-4 11.810 megs, Heard R/7 QSA/5 and IRF, 9.830 megs R/6 QSA/5 on the North American Hour.

--CENTRAL AMERICA--

15.280 megs heard R/9 QSA/5 on Sundays at 8:00am EST.. TGWA 15.170 megs also heard on Sundays from 12:30-1:00pm EST with a R/7 QSA/5 signal.

Your Editor will have his receiver back in a few days and then will once again get in the harness and help the N.P.O. reports out. I want to thank our very able SW Editor for his fine help he has given me during the absebce of my receiver. With-out all the information he has sent down here to me we would have had a very meek SW section. Your Editor also wants to thank you all for the fine comments you have sent in regards to the past SW news publish in the NRC. It is my only desire to help you all out as much as possible and to make the SW news of such a nature that you will all be looking forward to each coming bulletins.

There has been much discussion of late in regards to certain veries received from certain stations that are not of the real calibre that DX fans want.

If the SW fans of the NRC wants these certain stations published let your Editor know.

Your Editor would also like to know what you members think or what feeling you have in regards to these so called FAKE VERIES.

Thanking you all and lets hear from you in the very near future and DONT FORGET to send these reports in.

Station HP5A, Panama City, Republic of Panama, d o not broadcast on 9604 kcs as listed last month, but the correct frequency is 11.700 kcs. Time of program September 24th, Saturday from 9 to 10 P.M. EST.Address: Star and Herald Theatre, Apartado 954. (This Correction was sent in by Herbert Tucker-along with a list of International Friendship Program that will appear in our next bulletin-We want to thank the IDA and Herb.
