JAN 4	CFLC	Brockville	Ont 1450	N R C	4:00 -	5:00 AM
11	WBLJ	Dalton	Ga 1230	N R C	3:00 -	4:00 AM

CARROLL SETH-ERIE PA Here's one of the thrills that keep a guy going in this hobby. I played around with another Signal Corps man while in an Army hospital-talking by the hour and could he talk. Said he was heading back to a prairie radio station when his discharge came through and promised to do his best by us. I didnt believe him-anyhow the very first time at the dials since getting home,I pull in KVGB on a 3:00 AM Test. Sent a report and said their announcer sounded like that beanpole from Ft Dix. Of course it was. Happy old reunion and he wants to put on some test programs and maybe if I tell him you guys are friends of mine,he'll dedicate a few for the NRC. Harold Hardy is the name,engineer by trade and announcer when the staffs gone home and he can play jives at the xmitter. I still dont believe it. (Well Carroll he also wrote me-Ray)

The above was inserted account of listing KVGB's next test program. If you fellows want to report on that test,swell as Harold will be very glad to get them. Your reports will be verified. The former C.E. is now in the Army so your old reports are gone. However if KVGB dedicates a test or two to us you can again report and gain double milage for the BCB Contest. So if you fellows find time report to him often.

PVT LEN KRUSE Well boys here is your report from the west coast. Co "A" 2nd Sig Tng Bn Let me tell you DX is most outstanding and so pro-Camp Kohler, Calif. fitable to your log. My 1st Alaskan,KINY hrd several evenings ago,as they were signing off at 3:30AM EWT,now awaiting a verie from them. Recently was the thrill of hearing my 1st Hawaiian station, both KTOH and KGMB,really rolls in here on the west coast. Other last ones were KUIN during a special test from 4-4:20AM EWT on 10/3/43, also KTUC-KBND-KUTA-KOAC-KGB-KFSG-KYCA and CJVI. Of the total 59 Calif stations,I still need 6 to complete the state, they are KIEV-KFMB-KDON-KXO-KPPC and KFXM. My latest veries are from KFWB-KHJ-KGFJ-KRKO-KVEC-KEVR-KTBI-KENO-KGDM-KRNR-KGHL. How's that for some good DX fellows?

It would be appreciated if you members would use the number 15 in the address when writing here. Also is you have a Zone number in your city send it to us as it might help in getting your bulletin a day earlier.

TIPS and LPO REPORTS

CB Page 3

FRANK JOHNSON-PITTSFIELD, N.H. Veries coming in very slow, those received are from WCOP a letter by Roland C Hale c.e. and letter from WTMV by Agnes Mites. TO FULTON CREECH--When does WFIG test? I tried for WCBI but too much WEXL, and WLAK under them. Were KIT and KGVO on? they were out of my reach and above all where was WKPA? (Yes Frank KIT and KGVO were on, I missed KIT account of not having the right time with me at work but KGVO was very weak and were on from 3-4:30 AM a half hour longer than sked.--Ray)

FRED VAN VOORHEES-WHITESTONE N.Y. So far this season reports have gone to WJBO-WGIL-WPAT-WATW-WCBI-EXG and WEGO. The only verie is from WGIL. Tried for both KIT and KGVO but unable to hear a thing. Got WEGO this AM instead of KGVO. Hear WJW still in Akron and still on 1240. Be glad when they get off. Got WCBI with a great deal of difficulty, in fact very poor report due to WEXL and another one. (WEMP-WLAK) Hrd WDAK announcing as Columbus and WSAV but both under al-niters. WBLK was good on 1400. Wonder who was QRMing XEG this AM 10/10? Mostly played music of a popular nature. Hrd WDBO s-on at 4. Who is behind him? (KMJ Fresnn Fred-Ray) WALL is a daytimer here with WEIM audible behind him. Still not getting the DX I had hoped for, but plenty of time yet. More questions, What is the freq of these? WEAU-WKAQ-WPRA-KSJB-WHKY-WFNC-WJAG. Has anyone any info on KEEN-1400 kcs? The ruling of the Contest Manager is that WJBO and WGIL will count as NRC specials. COME ON BOYS HOW ABOUT ENTERING NOW??????

JOE BECKER-HAMILTON O. WCBI came thru very well, had no trouble with WEXL and I got nearly every word over WCBI. Max Williams did the first ann. then another announcer came on. They gave the NRC a nice plug and said it was a pleasure to dedicate to us and gave the tips from our bulletin. I also heard WLAK-WSAV-WDAK-WFIG-WGH-WMGA-WAML-KVOL, all were on and all were stronger than WEXL except WGH. WJW still on 1240 and WNOE and WJBK were strong as usual. (Well Joe its swell to again see a DX report from you. It has been a long time since you have reported--Ray)

BILL BARRETT-DENVER, COLO Heard the KGVO special last night and it came in R 6-8 QSA 5 from 3-4:30 AM a half hour more than was expected because of equipment difficulties. The NRC was mentioned very often and the program was very enjoyable. They said that they would be on a nite on Xmas eve. My bulletin came here Saturday so I missed the KIT-WCBI specials but will be gunning next month. The CPC line-up really looks dandy especially WKPA tonite. Oct 12th is really going to be a busy morning, almost three hours. I have seven reports that have to be written, so I will have to get busy. (Yes Bill several members have been saying that their bulletins are not as prompt as they were. Talking to the Supt in Bflo he says they are on their way within 15 minutes after I deliver em and the hold ups are probably due to the increase volumn of mail that is in transit these days. He says that we will just have to take it until this situation is over. As said in last weeks issue the only remedy is by 1st class mail and to have that the members would have to send the extra as your club dues are based upon 3rd class mail for the bulletins. However if a member doesnt care to do this I am sure that he will bear with us and be thankful that his club will function throughout this war and although his bulletins may be a couple days late, never the less they will arrive. So boys that is the situation about the mail--Ray)

RAY (POP) EDGE-BUFFALO N.Y. Have reports out to WRJN-WCBI-KGVO-WEMP-WLAK and WMRF. Only verie is from WGIL and KGMB from last Mar 21st. Missed KIT account of having wrong time and shut off the alarm on the 12th and I did want WRBL. Well it looks as if my alarm isnt much good so will have to try to get Kenny back home. KGVO barely audible and I only got 2 announcements that I can be sure of in the entire hour and half. WCBI was easily hrd thru WEXL-WEMP as was WLAK. DX has been lousy past week with the exception of 1 nite when KFBK was R-9 and KNX-KFI and R-9 plus.

## NATIONAL RADIO CLUB DX NEWS

BCB Page 4      TIPS and LPO REPORTS      October 16 1943

LEFTY COOPER-BROOKLYN N.Y. Veries in from KFAM-WJPA. Reports this week to WSNY-KELO-KSJB-WRBL-WRRF-WEGO. 10/6 Tried for KIT, no go on western signals. KTSW on 1400 very weak testing. 10/8 Tried for WCBI, WHAT? didnt hear the clock; 10/10 No go on KGVO, my Scott gets image freqs of WAAT and WNEW on 1290 so I woke up the house by trying the Philco on the front room, and still got WAAT & WNEW on 1290, and so no KGVO. WEGO had a terrific signal on 1410 though testing. WIOD on-they're on Sun thru Sat then WQAM Sun thru Sat, alternate weeks. 10/11 Either WKPA didnt come on or they did their show in Spanish with about 5 watts output. I listened till 4:20 then gave up. 10/12 WSNY hrd s-off 12:07AM; WRRN off at 1:07AM. XELO hrd thru CKLW with woman fortune teller spouting at 1:20AM. Their address is XELO-El Paso Tex; WDBJ testing 1:22AM. KLRA on till way after 3AM on 1010 kc. WGRC test at 1:53AM; KSJB hard to hear but in there OK. Was that WEST testing with modulated whistles for their 1st half hour? KSJB easiest while this carrier was on with no xmissions as it cleared away QRM. WRBL gave us a swell show-live talent and a great build up and read our tips while they were in the clear. WLVA who has been a thorn in our side for several DX programs did it again from 3:30-3:50. Then WMFR cam on at 3:55 and WFTC at 4AM. I guess we'd better see if we can get WBLJ to change their date for they will be on a 2nd Tues same time as WRBL was. KGCU didnt come on. Many tests and checks listed in Freq Frolics.

DICK COOPER-KITTANNING, PA. Most of you know by the time that the WKPA DX program did not materialize. As yet the exact reason for the cancellation has not been ascertained, but you will be advised if and when I hear from Ed Kroen, manager of WKPA who was responsible for the cancellation. None of you can be any more disappointed for the cancellation than I am. I had written 50 or more letters to fellows who do not belong to our club and had the promises from many DXers that they would be on hand. I first learned of the cancellation from Roy Gallagher with whom I had made the arrangements. I called him on Sunday to give him the late tips to read in the DX callendar and it was then that he broke the news about the cancellation. He too was disappointed, since he has a keen interest in DX and wanted your reports. To those of you who have not received verifications from WKPA, I can assure you that you will get them if you write to Roy L Gallagher. If your report gets into Kroen's hands I doubt very much if you receive a verie. He's another of those station manager's that dont like us DXers for some reason. My peeve is that he gave Roy authority to go ahead with the program and then waited until the last minute to cancel it. If Mr Kroen answers my correspondance I'll pass along his excuse, whatever it may be. In the meantime I hope you fellows wont be too "sore" at the CPC for these DX programs that back fire. Occasionally it cant be helped and I'm sure all of you would rather have us continue arranging DX programs as we have been even though we do get a "dud" occasionally. The swell programs of KGVO-KSJB and WRBL helped offset the WKPA "dud".

JOE ENZ-BROOKLYN N.Y. This is my first report since last spring, took my first chance I had to DX this AM 10/12 and conditions were good. WRBL came thru fine and gave our club tips etc but at 3:30 WLVA caused some interference, others hrd mostly on FCC were WDNC-WMFR-WPAY-WHBY-WIAQ-WJLS WADC-KTOK-KELD. XEG was R9 as usual, same as last winter mysterious spicks on 630-720-810-860-1000-1110-1330-1390-1470 kcs etc. Station behind WNOE drowning it out at times, wonder if it could be KSAN. (It was Joe) Tried for KGCU but too much interference. Would like to thank all the fellows who sent me their SWL cards, special mention to Bud Kopp, Rockford Ill, through whom I got over 50 cards.

COME ON FELLOWS HAVE YOU JOINED OUR BCB CONTEST? WELL WHATS KEEPING YOU FROM SENDING IN YOUR ENTRY. DO IT NOW. IT CREATES A LOT OF INTEREST AND IT A LOT OF PLEASURE EVEN IF YOU DONT WIN. THE DEADLINE IS NOVEMBER 1st

NATIONAL RADIO CLUB DX NEWS

October 16 1943 TIPS and LPO REPORTS BCB Page 5

NORM MAGUIRE Cont. Had KRE knocking out of my speaker this AM with Organ melodies. The program was R-9 Q-5 and consequently no chance for WCBI. Those Frisco stations are our most powerful outside the 2 locals and KFUN. Hrd WJLD yesterday AM for 1st time. Every do often I do manage to hear a new station. The CPC calendar sure looks fine. Hope that I can tune in a major portion of them. Will give KWAL another try. Last year managed to hear only one announcement out of them. Need them badly from Idaho. Will also try hard for those 2 Georgians. Have been tuning for KINY and KGMB for the past week with no success other than to hear KGMB very weakly this morning. Am still unhappy about my location here. The stations just dont come in like they did up the street with my old 130' antenna. Have an old umbrella antenna for my only receiving antenna at present and it isnt worth two-bits. About the KVOE DX. They are on the 7th of the month with a DX program from 3-3:30 AM EWT, dont know if you fellows back East can hear them or not. (They are on 1490 kcs Oh Boy-Ray)

ERIC BRISTOW-CHICAGO ILL Well I have started and have heard the following this month. WRBL-WBBZ-WMFR-WLVA-WCBI-WGH-WMAL-WSAV-KVOL-KIT-KPFW-WPAY-KSJB. Am in another contest with the URDXC to see who can hear the most states from Sept 15th to Mar 15th. I have 5 already. I do not intend to expose myself as I did last winter and I am still on days. I will try to be up for some of them. Last year I came home at 2:35 AM and would sit up late to get DX and got colds etc. So this year I will try for all the specials and some new ones. I am noting Police Calls and started to get one from each state. I have hrd Albany, Ga on the 5th and had a card back in 5 days. I have a NC-200 and they praised them as they use 2 of them down there. Was WKPA on? all I heard was a Mexican on 1150 kc.

BILL GABRIEL JR-LAKEWOOD O I couldnt quite bring in KGVO as it was warm here and WKPA didnt seem to show up. Am on CWT here but was up an hour ear early and then listened at 4AM CWT and still no New Kensington, Pa. Will be up this morning for some good DX I hope, (See Dick Coopers report)

Bill sent in these new FM Calls and with this space here they are;-

NATIONAL RADIO CLUB SHORT WAVE NEWS

SW Page 1

EASTERN WAR TIME THROUGHOUT

October 16 1943

IMPORTANT NOTICE

Jim Wedewer reports that he is no longer able to edit the Short Wave column due to the nature of his work. It is with regret that we break this news to you but we can thank Jim for the swell job he has done in the past. Until other arrangements are made please send your Short Wave reports direct to Club HQ here in Buffalo, 15, N.Y. and be sure to use that number 15 in the address. It would also be appreciated if you members would use the same system in sending in your reports as they appear in this issue, by frequencies and in their proper order, it also would be appreciated if you would leave a space between frequencies, so that they will be easily separated from one another. TUESDAYS will be the DEADLINE for reports. All reaching here on that day will be included in the bulletin that is mailed the following Saturday. REMEMBER the ADDRESS 325 Shirley Ave., Buffalo, 15, N.Y. Reports will be appreciated and I hope that many of you will take time out let the others know just what you are hearing and when. PLEASE try to be accurate as to freq and time. Your Editor here at Buffalo is not acquainted with the SW end of DXing so any errors you make cannot be corrected by me as I wouldnt know what was right or wrong. I have an idea in mind and if it will work or not has to be seen. I would gladly take on this extra work permanently if it were not for the work that has to be done around the home and of course the family must be considered as they cannot be left alone always. But no matter which way it goes you can be sure that your SW COLUMN WILL APPEAR as long as you report. So come on boys, show us those reports. Just one more note. It would be appreciated if your SW members would glance through the entire bulletin as there are times that some item will pop up at the last minute and we have to find some place other than the SW section for it. It may not always pertain to SW but may be some item about your club etc. So look your entire bulletin over.
