KAGO-1150 HONORS N.R.C. WITH DX BROADCAST 1/23

On Monday morning, January 23, 1961, from 3:00 to 3:30 a.m., E.S.T., Station KAGO in Klamath Falls, Oregon will present a Special DX Program for the National Radio Club. KAGO operates on 1150 kilocycles with 1,000 watts of power, and is directional eastward, which should make reception of KAGO quite possible at really long distances from Klamath Falls. This station was formerly known as KFJI, having changed its calls to KAGO (Kay-Go) in December of 1959. Many NRCers need this station in their logs, and here is the opportunity to fill that void, and log this much-sought station. Station WCOP in Boston is generally on AN Monday mornings, but they are probably the only other station which will be on 1150 at this time, so here's wishing KAGO and all you good NRC DXers good reception! We thank Mr. Ernie Carà, Program Director of KAGO for this Courtesy Program, and reports should be sent to him.

LEN KRUSE

As a result of their December 19th equipment test, Station KCEE-790 received 20 reports, from Washington (2), California (4), Pennsylvania (2), Massachusetts (2) and one from each of the following: New Jersey, Colorado, Texas, Iowa, Illinois, Minnesota, Ohio, New York, Rhode Island, and Ontario. Mr. Ed Hepp, the engineer who made this test was very pleased to learn how far out his station could be heard and wishes to thank the NRC and its members for their co-operation. (information from Len Kruse)

We urge all members when sending in their Musings Reports to the above address in Brooklyn, to use Eastern Standard Time throughout to avoid confusion, and also to give the frequencies of stations logged, and the date and time of these loggings, to help others who might want to try for these stations, and please double space!! Thank you.

Bob Kalish - 2214 Avenue T - Brooklyn 29, New York

DX this year so far has netted me four, and crazy enough, two of the four have been New Mexicans, hi. On 1/2, logged the WRKT-1300 s/on at 4:15, "Rocket Radio" with perfect signals. On 1/3, the f/c of KPBM-740 in Carlsbad, N.M. was logged with weak signals from 2-2:10. On 1/5, logged the f/c of KMGGM-730 in Albuquerque, NM. with fine signals. WKAT-1360 was off for some reason so WMFC-1360 in Monroeville, Ala. logged on f/c with fine signals. Noted CHNS-960 AN this day, but the Cuban on 1550 was off this week, so KREB was finally logged. Veries were fair, with nice letter from WGRC-1580, also letters from WADE-1210, KHSJ-1320 a very nice letter to replace card, and letters from CKPC-1380 and CFGT-1270, a two page reply in French after my French report for Christmas AN show. Also letter in either Dutch or Papamianto from PJA-10 655 - can't make out a word of it, hi! Twilight CX have been good, with such rare ones as WDBF WDCL WPOM WGOK WELE all in loud at 5:30-6:30 p.m. on 1/4. I wrote to WELM-1410 to request that they move their off period from Sunday to Monday AM. The CI is very friendly, so I hope for the best. On 1/7, logged WFLI-1070 on ET at 1:20 and f/c of WGHN-1370 in Grand Haven, Mich. from 2:45-3 way below WSPD but drug 'em out with loop - really a great piece of material. Mine is a four-foot loop with ten windings of #16 wire with Coaxial transmission lines to prevent pick-up. Veries received 1/7 from KCEE-790 in Tucson, nice hand written letter, and v/l from WCAW-680. 73.

Lefty Cooper - 438 East 21 Street - Brooklyn 26, New York

Anybody got an address for WFLI-1070? My letter returned to me by Lookout Mountain P.O. Thanks to Harv Epton for CKLS tip, but already verified, hi, and to Kermit G., CKTS also already verified. 1/9- Excellent CX, KYND-1580 on AN ET/M with S-8 signals a cinch; no CHWK though, but HIUA-1270 logged to 4:05 a.m. under WKYR after 3:59 a.m.

PLEASE PLACE MUSINGS PAGE 14 & DX DOWN THE DIAL PAGE IN PROPER PLACE.

Bryan Wilson - 220 Fifth Avenue - New Westminster, British Columbia

This is my first report since I joined the NRC, so I have a lot to say. First of all, I would like to say "hi" to everyone from the SW corner of British Columbia. I'll try to get a report in every issue and keep the DX NEWS thicker. Since I've become intensely interested in DXing, the total number of stations logged has shot from 100 to 383. My radio empire stretches from Boston to New Zealand, and from Monterrey to Anchorage. Since I speak only English and a little French, I have to let SSers and other languages slip by. Who knows? I might be able to get South America and never know it! DXing could be better except that I have only an ancient Sparton receiver which will be going to seed in a couple of years. I would get a better set made especially for DXing if I wasn't running low on fums at the present moment. My antenna is triangular in shape with about 50 feet of wire on each side, and about 30 feet high. Here are some notable new stations heard in November and December: CFAM-1290 Manitoba, KWKH-1130 Louisiana, KHOW-630 Colorado, KIRL-1070 Kansas, KHEY-690 Texas, KPOK-0440 Arizona, KOLT-1320 Nebraska (announcing the owner, QRA, watt power, etc. before the SSB), CKSW-1400 Saskatchewan, KVEL-1250 Utah, KQRS-1360 Wyoming (conducting f/c, thanks to list compiled by Amarillo DXers), KPAC-1250 Texas, WDXR-1560 Kentucky, and WHIE-1320 Georgia. Is there a new station in Anderson, Calif. on 1580 with 1,000 watta and a name that sounds like KPOM? I've fed the mailbox with veries to KIOA-940 Iowa, WWL-870 Louisiana, WDXR-1560 Kentucky, CHML-900 Ontario, KORL-650 Hawaii and KOB-770 New Mexico. The postman just raised my verie total to 43 with cards from KLO-1430 Utah and XEG-1050, and a nice letter from CJME-1300 Saskatchewan. So long and best DX to all in 1961. (Welcome to the NRC, Bryan, and we'll be looking for more! Ed.)

Leo Fox - P.O. Box 68 - Star City, Saskatchewan

Hi, amrigos. Down to DX: 12/10, got up early so add one more devotee of s/on DXing. Added KLGA01600 7:18-7:25 a.m. RS, v/1 in 12/24. KASM-1150 7:32-7:34 ID heard, and KRBI-1310 7:47-7:55, many spot announcements. 12/13- KPMC-1560, 11:55 p.m. to 12:05 a.m., California #26, RS and NX. 12/14- Daylight DX, KUTT-1550 Fargo, 2:28-2:34, lunch hour here. Heard "Easy Money" phone number same date here. 12/15, EST, 1:15-1:16 had WSB-750 ID heard; also XEAK-690, 1:32-1:34 with English sked through San Diego - right? 12/18- KYA-1260 3:08-3:20; KMUR-1230, 3:36-3:34; KRDO-1230 with an ET (tone?) at 3:37; and CKDA-1220, 3:34-3:36 ending NX; CJOC off. 12/25- (Merry Christmas!) CJLX-800 of the DX heard 2:35-3:08; XEMO-860 3:15 on; CFOB-800 3:20 an ID; WRCV-1060 heard 3:44 with an ID and time EST, CFCN off; WRVA-1140 (first Virginia) 1:56 on with AN sked, and WCBS-880 4:03 an ID. 12/26- KOPR-550 1:20-1:30 religious program, U.S. Marines program 1:30; CJIB-940 2:00, NX, IDs, no CJGX which seems to be AN except Monday AMs. and KNEB-960 heard 8:10 p.m. sunset skip; no CFAC. 12/27-CKLG-730 under CKDM, time and ID, 3:12; and KUDY-910 Renton, Wash. under KISN, an ID 1:30 a.m. Christmas holidays have been profitable DX-wise, all DX has been on the new Rogers Majestic transistor radio. Total logged is now 425. Veries in: WJON KATL KLGA, about 20 reports out. 73s and HAMILTON FOR '62! (Dave Roys??)

G. Harley DeLeurere - 1 East 8 Street - Mounted Route 21 - Hobart, Indiana

Loggings since WBBA are as follows: 12/29- WINX-1600, Rockville, Md. on AN RS from 3:35-4:30 with plenty WWRL QRM. 12/30: KREB-1550, Shreveport, La. ex-KENT on RS from 8:55-9:15. 12/31: Nil. 1/1- WHB-710 Kansas City, Mo. on AN from 1:55-2:10. KCTA-1030 Corpus Christi, Tex. ex-KATR/KWBU on RS from 7:15-7:40 a.m. Radio Swan-1160, Great Swan Island, on RS from 9:00-9:47 p.m. with CMJK QRM. CMJK-1160, Camaguey, Cuba, on RS from 9:00-9:30 with Radio Swan QRM. 1/2: WNFJ-1450 Daytona Beach, Fla. on AN from 4:4:15. WDX-1150, Orangeburg, S.C. on RS from 4:57-5 with WTWP/WJJD QRM. WOMB-1460, Harrisburg, Pa. with WMBR QRM from 5:30-5:45 on RS. Reports were sent to the above plus the following: KPRC-950 WLCY-1380 WMBR-1460 WCTT-680 WNEP-1130 WRBL-1420 and WQXI 790. Verifications received since WTVB are as follows: WPCC-1410, Clinton, S.C.; WEAQ 790, Eau Claire, Wis.; WKYR-1270 Keyser, W. Va.; and WALM-1260 Albion, Mich. WPCC Radio, P.O. Box 565, Clinton, S.C. wants reports and will have a test program soon. WEAQ gives address as Hotel Eau Claire (TEmple2-3463). WKYR has two addresses: WKYR Building, Keyser, W. Va. and Fort Cumberland Hotel, Cumberland, Md. Interesting enough is the fact that WALM is affiliated with WFRL-1570. I didn't know that before, and I live in Albion. Veries received today, 1/3 are the following two: WKRK-1390, Murphy, N.C. (P.O. Box 306, VE7-3210, Childress Broadcasting Corp. of Murphy) and WBBA-1580, Pittsfield, Ill. (Phone 650, Pike Broadcasting Co. Inc.) Frank Luepke, SM said

(Harley DeLeurere) that my report was the first in my area at the time specified. He also said it was quite interesting that QRM was from WRFB. 73s from WPE9BBW & Co.

Michael Rice - Box 313 - Ann Arbor, Michigan

Yes, this is a musing - M-U-S-I-N-G. Since nearly two years of nega-musing and nega-DXing I am finally dropping a line to my favorite DX Club. Why, with all of the plees in the NEWS could anyone go that long without a Musing? I have no real excuse, just semi-bonafide answers. I have been building a radio station - one of those nasty commercial ones which uses records only as an excuse for commercials. Real, real nasty - it will be AN too. Wait, don't shoot - it's FM. Is this an excuse for not writing a Musing? No, but is all I can think of and it will have to do. I would go on and on and tell you about my latest DX but this would really be farcical as I haven't had ANY DX for at least a year and a half. Thus I have the feeling that I should use up at least a few more of my 30 lines but I have nothing to use them up. For those few of you who DX on FM too, let me give you a few details on the station. NOTE TO THE EDITOR - THIS IS NOT TO BE EDITED AS NON-AM MATERIAL.... More than a year ago, the Voice of Ann Arbor applied for an AM permit with the FCC. Finding that the area was not allowed to have any more AM permits, we asked for an FM permit and now are almost ready to go on the air. Our assigned frequency is 94.3 mg/s. and our effective radiated power is 262 watts. Our XR power is 250 watts. All of our equipment is by Gates Radio and our air date is now Feb. 20 with program tests about Feb. 8. That's about it! If any of you EGB DXers are broadminded enough, I would be happy to operate a Club DX Special some time in mid to late February. Let me know at the address above. With the hope that you all had a Merry Christmas and etc. This is 73s.

Jeff Lob - 93 Oakview Terrace - Short Hills, New Jersey

I hope you-all had a pleasant holiday as I did and got in some good DX as I did. Santa was very generous and brought me a 58" loop (of course, I helped him make it) which is really doing wonders for me. First logged VP4RD "Radio Trinidad" at their s/on at 5 a.m. a few weeks ago and get them regularly every morning at this time for about a half an hour. New ones heard are WINX-1600 WLIL/WPAL both on 730, WBEU-960, WGSR/WAPL on 1570, WDDT/WGOK/WIAM/WAYN all on 900, WHOS-800, WESN-1550 WTIK-690 WJAZ-960 WTRO-1330 WSGN-610 WESY-1580 WDLA-1270 and WKIN-1320. So far, only two Jamaicans received are JBC-750 and RJR-770. Also with the loop, picked up LDS-1180 signing off in back of WHAM at 5:45 p.m. Veries in from WPMP WYTI WOZK and WWNS who was extremely surprised that I picked them up on a frequency test one Sunday morning and said that they would play my tape on their news broadcasts during the day. Just last night I received AVROS on 600 kc/s. in Paramaribo Surinam talking in Dutch with a special program in Indian. It seems as if a good percentage of the population hails from India. They put in a beautiful signal, so sent tape with report. Anybody know their call or power? WRH says they send a nice letter. As I mentioned, our neighbors to the South are nightly visitors. Logged and positively ID are: YVMF-1120 YVQO-650 YVQB-670 YVKE-1100, YVMB-800, HJED-820 with beautiful signals in every night, and another Colombian on 840 which carries the same programs as HJED. Could this be HJKC? ZFY "Radio Demerara" 760 received at s/off at 9:50 p.m. (11:20 Guiana time). Most of the powerful Havanaans are in nightly. That's about all in the way of DX. Good DX to all. SHORT HILLS FOR '75!

Carroll Seth - 154 Parkridge - Buffalo 15, New York

Having a poor season here as local stations, especially WKEW are being heard all over the dial. Even Douglas Research Labs in Boston couldn't find the cause. They suggested it was in the antenna. I've tried verticals, doublets, and inverted Ls with no luck. Am thinking of ditching the Super-Pro and would appreciate comments by owners of the HQ-180. Subscribed to DXing Horizons last spring. Happy to see a new group in our hobby. We can always use a little help. Henry Tyndall's beatnik poetry just about scared me out of the field. Send news photos of local winter weather to C. C. Smith in Florida. It'll make him feel guilty down there in the sunshine. They don't plow out Ray Edge's street but I hear he's been bowling and he does get the bulletin out. We were giving it the usual first class service on December 24th at the Main Post Office in Buffalo. In fact, at 4:00 a.m., business was so light we were very glad to see it. Two New Year's Resolutions - 1 - Find Joe Knack's address from somebody. 2 - Win the Irish Sweepstakes and move to Jamestown where Pat Reilley could stand a little DX competition. Happy New Year!

TERRIFIC RESPONSE LATELY TO OUR PLEA FOR "MUSINGS!" - KEEP THEM COMING, DOUBLE SPACED!

Jeff Stewart - 3018 Washington Street - Amarillo, Texas

Well, just got through watching Washington clobber Minnesota, which delights me no end. From football to DX. Heard since last report: 12/19, WISH-1310 AM under WRR (by the way, WISH is Dage Roys' favorite station); KCEE-790, Tucson, testing all morning with Christmas Carols; WIVI-970 s/on at 4:25, thanks to tip from Alex Bowab, and KNCO-1050 Garden City, Kans. RS at 6:16 p.m. On 12/20, KQRS-1360, Rock Springs, Wyo. f/c from 3:15 to 3:30 (thanks, Bob Easterly). On 12/22, WSWW-1590, Platteville, Wisc. f/c at 1:15 and KRGI-1430, Grand Island, Neb. f/c ID at 1:52. On 12/26, KCRA, Sacramento, Cal. and KUBE Oceanside, Cal. both heard s/off at 3:00; WTIK-690 New Orleans, RS at 3:32; YNOL-825, Managua, booming in all morning on test; HIUA "Radio Caribe" 1270, heard with piano notes and them s/on at 4:00. On 12/29, WSMB-1350 New Orleans RS at 1:29 a.m.; KNOW-1490, Austin, Tex. RS at 1:48, KWMY-540 Fort Dodge, Ia. RS at 1:30 p.m. On 12/30, KMOR, Littleton, Colo. s/off at 2:00. On 1/1, KAKC-970 Tulsa, Okla. RS at 6:55 a.m. On 1/2, WHB-710, Kansas City Mo. RS at 3:15; WQXI-790, Atlanta test ID at 3:37; WPOW-1230 Terre Haute, Ind. RS at 3:39; KFWB-910, Oakland, Cal. RS at 3:58; KFAC Los Angeles, 1330, 4:01 RS. Thought I had them logged before, but didn't. Best catch of morning was KMIS, Portageville, Mo., 1050, 250 watts, TT, fighting it out with XEG at 3:04 a.m. Veries from KQRS, Rock Springs, Wyo. and KCEE Tucson, Ariz. who sent a letter, coverage map, and Christmas Card. By the way, thanks to Alex Bowab, Bob Easterly, Ken Hooker, E.C. Games, Lefty, Larry Fox, Fran Nittler, Bill Nittler, Eric Bristow, Jack Hathaway and Jim Ernst for Christmas Cards. Sure glad to see the NRC lining up some DX shows. Larry Godwin has several lined up from hard to hear stations in Alberta and British Columbia which he visited last summer. He said they'd be coming on soon. That about does it from Amarillo, so best of DX and 73s.

Bill Stone - Box 543 - Stouffville, Ontario

DXing excellent and I'm not kidding, all you gotta do, be there. 12/31- 1270-WLIK ET/TT/M off 1:38. OC after but no ID. TT on 540, 1390, 1550. Incidentally while listening to 540 tone, at 2:30 a.m. Cuban speaker gave hora, CM?? call in Camaguey, was not CMJJ, and off again, on air less than one minute. CBK off RS at 2:38. 29/12- WVOM-1270 Iuka, Miss. ET-TT-V 12:45 on. 28/12- WORA-1150 s/on at 4:36. 26th- YNOL DX real easy, CMK-1200 on RS s-9 4 a.m. on. 25th- A number of French Canadian stations on with special programs, CHLN ruled 550; Sam, your CKVM away under WOR on 710 here. KFYZ-550 s/off 2:52 RS; CBJ-1580 s/off 2. HJED-820 S-9 plus 3-3:30; TIQ-1200 top station 4-4:30, then CMDD took over, also picked up WADE-1210 on ET 4:40-5. 24/12- KNDY on f/c-TT IDs every two minutes 1:02-1:15; XELC-120 1:40-2 s/off RS. 23/12- WEPG-910 ET/TT 12:12-1:00; XEHC-960 on RS on both 22nd and 23rd. 22/12- WPEG-1550 ET 4:05-5. 19th- If KCEE played Christmas Carols, occasional tone Len, I got 'em. WTAR had XR troubles at time. CMAC-1030 RS 5:12-6:45 a.m., nice programming. XERH-1500 on RS 6:30-7 p.m., Mexican and Cuban stations all over dial; WTTN-1580 heard testing new 1 kw. XR. L;15-1:30 M/V. On 25th, from 1-1:30 a.m., the following French Canadian stations heard on these frequencies - 550 710 590 910 1060 1090 1150 1250 1300 1460 1470 so lots of choice, most went off right after special Mass. S/on 1380 WTOB at 4:55 a. (24th); KCLN-910 powerhouse up here at 5:30 a.m. s/on covers all. WFBL-1390 s/off 1:30 a.m., on at 5 a.m. Anyone got any ideas who two SS stations are under WIV? Fed ed on all IDs so far, easily copied till IDs come, then phooie. It's been a long time since I've seen an Ed Hill, Steve Walbridge report, and what is Callaman these days? You boys out in Far West and Colorado please put in times of receptions - big help, as most of us blokes are interested in those areas, I still get sick every time I look at West Coast states and Texas. On the latter, if Texas coming in, there's usually a Mexican or South American coming in louder - patience, we'll win.

Richard S. Brown - 5723 Bellona Avenue - Baltimore 12, Maryland

Hi Gang! This is my first report. I don't have much time for DX as I am a police officer here in Baltimore city. Thus far, the veries are as follows: WLS-890 CKWS-960 WDMV-540 Swan Island-1160 CHML-900. Stations heard are as follows: WFIL-560 WMP-580 WKAT-1360 XERF-1570 KXEL-1540 KOMA-1520. I have sent reports to these stations but I think in vain as I haven't yet received any replies. My hearing aid is a Hallicrafters SX-99 and an RME DB-23. I am using a double folded dipole antenna about 40' high, 35' long, 300 ohm lead-in. I'm a member of the great institution - I'm married, hi. I have a son about seven years of age. I would sure love to hear from some of the gang. Also, I am studying for my technician license. (Welcome to the NRC, Richard, and we hope to hear from you frequently. -Ed.)

Tom Shindlecker - Alpha Tau Omega House - Delaware, Ohio

Greetings and Happy New Year to all NRCers. I ended 1960 with somewhat of a flourish, at least as compared with my usual meagre DXing in the last year and a half. I brought the S-38E home from school to New Castle for Christmas Vacation and was able to add 20 new ones in just over two weeks. Back on Dec. 17, Radio Jamaica, Mandeville on 560 heard at 11:07 p.m. over WHBQ et al, followed on Dec. 18 by XELO-800 under CKLW for a first log on that station. This was at 1:00. Five minutes later WDAK-540 AN finally made it into my den, and KXOK-630 followed at 1:20. Dec. 19 brought CKKW-1320 at 1:07 with s/off, WITY-980 with same at 1:14, and KAJI over local WCAE on 1250 at 1:18. Next addition was WALG-1590 on Dec. 22 at 12:30 with s/off, topping local WAKR AN. A big opening into South Georgia and North Florida on Dec. 24 with WDVH-980 added at 5:18 p.m. completely topping CFPL WRC and WTRY. WGAJ made it on 910 at 5:30 and WGOV-950 also heard at the same time but WGOV not needed. KREB-1550 callchange rounded out Christmas Eve DX in at 6:04 p.m., over CBE and with WAAY in background. Four new additions on Dec. 28, beginning with AN WCAV-680 to complete Charleston, W. Va. at 1:20 topping the channel, WPAT-930 heard through WKY at 1:30 and a surprise in WYAM-1450 over the mess at 2:01. CFNB-550 AN for my second New Brunswick logging at 2:05 to round out the night. Dec. 29 found KOMI-1300 over WERE at 12:45 a.m., and KDWB call change on 630 at 1:12. The last two 1960 loggings were on Dec. 30, with long-awaited WDAS-1480 at s/off at 2:00, and WANE-1450 to complete Fort Wayne at 2:05. Just to start the New Year off right I logged WJAS-1320 on Jan. 1 at 6:30 p.m. So 1960 ended with only 40-plus stations added, but considering that I have been home only for a little over three weeks of the DX season, I can't really kick. My big disappointment during the vacation was failure to log TGUX-1020 and Radio Swan 1160, easily heard from college. 73s and best DX to all.

George Greene - 1527 Sunset Avenue - Akron 19, Ohio

Hi all! CLEVELAND in 62! The band seems to be open best to the South in the last several weeks. New stations are: 12/28- WJBK-1500 WOHO-1470 WBOC-960 BAL-1090 WAKY-790 WTAC-600 WTOB-1380. 12/30- WICU-1330. 1/1- KFJZ-1270. 1/2- WLAP-630 WCEM-680 WMT-600 and KFH-1330. Veries are from WINS-1010 (personal letter), WQXI-790 (personal letter) KPRC-950 (card). Chuch Engdahl, you can add WHK-1420 to your "Jimmy Fidler" list Also local WCUE-1150 used to carry him. WNCE in every day from when the daytimers s/off to an hour later. Also WLCY in each night very clear from the daytime stations' s/off time for a half hour. After that, they're not in till late at night. Heard station on Monday AM 1/2 at about 12:30. ID sounded like CGIX but I couldn't find the call listed. Could it be KGBS? (What frequency, George? -Ed.) Also heard KRLD at 5:30-6:30 EST on 1/3 with R'n'R. When did this come about? Reports out to WNBC-660 and KLCN-910. On all other frequencies daytime stations s/off at 5:15 as of 1/1 but on 1380 the daytime stations are on until 5:30. I wonder what the reason is? More next issue, 73s.

Tom Arko - 1472 South Nobles Road - Cleveland Heights 21, Ohio

Hi gang. Well with semester exams coming up the 18th through 24th, there will be no DXing for me the next couple of weeks. However, after the tests are over, I have until February 6th to DX. We sure have it easy, don't we, fellow collegians, hi. I have joined the National Drinking Fraternity "Tappa Kegga" and the National Petting Fraternity ("I Felta Thi"). One verie, WTAR-790, their form letter. Also received TLFC (SW, hi). The old AR-3 is falling apart after three years of (over)use and abuse. College virtually leaves me without a farthing to my name, so can't go blowing a bundle on a good rig as yet. I believe the "Cleveland Gang" is falling down on the job. Haven't seen reports in a long time from John Kaleal, Bill Klima (KNSRYJ) Ken and Bob Feaman, and our newest member, Bob Schafrick. Let's go men, shake a leg. What ever happened to Terry Cuthbert of Toronto? Did he drop from the Club? Still have reports out to: KMHL KTOE WGR WHTC and WIS. That's about it from here. 73s and H-A-M-I-L-T-O-N '62.

Hubert Buckner - 825 Virginia Avenue - Knoxville, Tennessee

I came home for Christmas and proceeded to fall and break my wrist, and so I'll be here for about five more weeks. I called WBIR and they are silent on Monday midnight to 5:00 a.m. Tuesday. I haven't gotten hold of WKGN as yet but I talked to the secretary and she said she thought they were on all the time. The Program Manager was supposed to call me back but he didn't. It would be nice to hear from some of the fellows whom I know to break up the monotony. (Come on back to Brooklyn, Hugh - we miss you! -Ed.)

REMEMBER, IT'S AMARILLO IN 1961! EVERYBODY PLAN TO GO!

Anthony Lagattuta - ETNSM - Operations Radio Lab. - N.A.S. - Norfolk, Virginia

Greetings again to all. I surely trust that all had a very Merry Christmas and a Happy New Year. Having taken a week's leave to N.Y.C. accounts for no report of the last issue of DX NEWS. On 12/30 it really gave me a lot of pleasure to meet two of our new members in Hampton, C. Wayne Alcott, 14, and Bruce Lyeth who is probably the youngest member. Bruce is 11 years old. So I really consider myself quite lucky to have met two such wonderful people. DX-wise, not much to report as have not DXed much. Of interest is a mysterious one which was heard here a few weeks ago. Call letters seemed to be WCDD on about 1005 kc/s. in Virginia Beach, Va. The signal was good, about one microvolt but modulation was very poor, especially on voice. The announcer seemed to be a teen-ager and the strange thing was that this station actually carried commercials! Haven't listened since then. Today 12/31 was sure I heard WNAR-1110 in Norristown, Pa. in the daytime but then it sounded like "WMUR." Anyone know? Daytime DX is still great, but with noise on occasion. I sometimes try grounding the end of some of my antenna with various impedances to get better DX, and sometimes it works. However, it takes so long to walk all the way out to the end of the antenna, that I lose valuable listening time. But I never get lots as I follow the antenna back to the building. Wayne and Bruce in Hampton get a lot more stations from North Carolina in the day than here, so may move to a place around here where rigging a wire towards the South will be easier. I surely would like to correspond with a lot of the NRCers, but am so lazy at times and just hate to sit down and write a letter. My veries show it. Someone would really do me a favor by telling me this. Is the Weyrich Log still printed and if so, how could one be obtained? Well, that is all for this week. Best of health success and DX to all. 73s. (Weyrich Log is no more, Tony - ed.)

Bruce G. Lyeth - 110 Hill Street - Hampton, Virginia

Hi! DX is OK here. I've logged six new stations this week. In early morning: WJAX-930 Florida 12/30; WCOJ-1420 Pennsylvania 1/1; WIBC-1070 Indiana 1/1. At twilight: WGTG-1590 North Carolina 12/30, WILZ-1590 Florida 12/30. At night: WMAQ-670, Illinois 12/29. I received 22 new stations in the month of December. I received a lot of stations I have logged before, during December, some of these are: WGAI WCAO WIP WSUN WSM WNBC WOR WSB WWL WRNL WBZ XEG WBT WRVA WYSR WWBZ WLCY WSAN WKBW WCKY ZNS WWVF and lots of others including a lot of local stations. I have reception reports out to WFAA-820 Texas; WNOR-1230 Virginia, WYSR-1250 Virginia, WDNC-620 North Carolina, WHO-1040 Iowa, WTID-1220 Virginia, WAVY-1350 Virginia, WCPS-760 North Carolina, WCMS-1050 Virginia and WCAO-600 Maryland. I received only one verification this week, a letter from WTAR-790 Virginia. I was glad to meet Anthony Lagattuta at Wayne Alcott's house Dec. 30. Well that's about all this week, and let's have more "Musings" from Virginia. 73.

C. Wayne Alcott - 125 Hill Street - Hampton, Virginia

Hi all! On Fri. Dec. 30 Anthony Lagattuta and a new member, Bruce Lyeth and myself had a very nice get-together. At 6:30 Anthony arrived from Norfolk, with his log and a few other interesting things. Then at 8:00 I called Bruce and he brought his log over. We had a very interesting QSO till 11:00. Thanks for coming over Anthony and Bruce and I really enjoyed the QSOs. By the way Anthony, I didn't find that station in Virginia Beach you told me about. You members probably saw a few weeks ago that I was going to DX a lot. Well, haven't DXed much because of too much noise across the band. On 12/29 found these new ones. WCCO-830 Minnieapolis, Minn. (night) for my 1st Minnesota station; KGBT-1530 Harlingen, Tex. (night); WGTG-1590 Greenville, N.C. (day) also heard the s/off of ZNS at midnight. On 12/31 found these new stations between 5 and 7 a.m. WPRO-630 Providence, R.I. for my first Rhode Island station; think I heard KFI-640 Los Angeles at 5:00 but am not sure; WYDE-850 Birmingham, Ala.; WSBT-960 South Bend, Ind.; WFTC-960 Kinston, N.C.; WATS-960 Sayre, Pa. WATS was clear at 5:00 but at 5:35 it was gone and WFTC and WSBT were both strong on 960 together; WBOP-980 Pensacola Fla. s/on at 5:40; WWWF-990 Fayette, Ala. s/on at 6:00; KRLD-1080 Dallas, Tex. On 1/1 found WBEM-780 Chicago Ill. On 1/2 found KSOX-1240 Raymondville, Tex; WGUY-1250 Bangor, Me. for my first in Maine (State #33); WBCR-1260 Christiansburg Va.; KLLL-1460 Lubbock, Tex. TT, WRAD-1460 Radford, Va.; WRVK-1460 Mt. Vernon, Ky. s/on 4:30; WMBR-1460 Jacksonville, Fla. s/on 5:55; WAAG-1470 Adel, Ga. with an ET at 4:25; WRDW-1480 Augusta, Ga. Does anybody know what Spanish station was broadcasting Rock 'n' Roll Music in English, but had announcements in Spanish? (What frequency, Wayne? -ed.) Well, this is all for this week - see you next week! 73s and come gang, let's have more reports from good old Virginia!

Michael P. McDonald - Seven Star Lane - Concord, Massachusetts

I can only hope that all of you fellows had as wonderful a Holiday season as I had. I think that I have gotten in as much DXing as I did during the whole summer. 12/26: WTAR-790; WBEM-780 s/off at 1:28; a mystery on 790, playing music, whose carrier kept going on and off at short intervals; KMOX-1120; WBVP-1230; WNDR-1260; KXEL-1540 loud and clear; a Canadian on 780 with R'n'R in French; and an SS with the most distorted signal I have ever heard. 12/27 was a morning for the graveyarders: WBCB-1490; WWSC-1450; WABY-1400 and WHAV-1490 (first time I've heard them, even though they're only about 20 miles away). In addition WNJR-1430; WEAM-1390; WBNX-1380; WSAY-1370; WQAM-560 for a new state. 12/28 was a banner morning; I pulled in what is by far my best domestic catch. WRAL-1240, 250 watts, from Raleigh, N.C. and shortly afterwards my first SA on the BCB; Barranquilla Colombia on about 1090. I don't speak Spanish so I didn't recognize anything that sounded like call letters; could someone help? In addition on 12/28, WEVD-1330, WAVZ-1300, WLW-700, WCAU-1210, WOWO-1190, WWVA-1170, and a mystery TT on about 1380 - I heard him the morning before at 1:23 and this time at 12:30, both times with tones, and both times he went off the air without an ID within two minutes! 12/29- WTRY-980, WPEN-950, WTOP-1500, WJR-760, WSB-750, and WSM-650. 12/30- At 1:33 I tuned in on an f/c-TT by WDEV-550. They kept fading in and out under CFNB, but they IDed every half hour and were still there when I gave up and went to bed at 3:10! 1/2- WEEI-590 conducting some kind of test (music) until 1:52; WIP-610; WATE-620, WLW-700, WINZ-940, WHO-1040, CKGM-980 (they IDed only as "GM"*, SS on about 1070 - sounded like "Radio Santa Fe de Quatro Miglio"; WNAC-680 s/on at 4:52. WPDM-1470 s/on. 1/4 WOLF-1490 now AN; WTVB-1590 r/c-TT; WABV-1590. I don't imagine that any of us here in Massachusetts have much trouble with XERF or CHUB (as a matter of fact I can't usually get them) but we do have the same kind of trouble at the other end of the dial; there is a government range station at Hanscombe AFB in Bedford, less than five miles from here on 535 kc/s. which clutters up the band all the way up to 600, and which is on 24 hours a day, 365 (or 366) days a year with continuous B-E-D in code. Just thought I'd let you Texas etc. know that it isn't DX Heaven up here either. Well, I imagine I'll be reporting again in February, after exams, and in the meantime I'll be eagerly awaiting every issue.

Art Fregeau - 66 Locust Street - Bristol, Connecticut

DX lately pretty good; new loggings include WCOU-1240 WABY-1400 CHNS-960, new WBBX-1380 WHLO-640 KRMG-740 WCKR-650 WKIX-850 KDWB-630 XESM-1470 WQOK-1440 WPON-1460 Radio Trinidad-730 KPBM-740 on r/c, WORD-910 WRVM-680 and WOWW-860 daytime testing before RS soon. Reports are out to WNBC WDEE WOR CBM WSB WHYN WMCA WTYM WKIS WOWO WKOX WBZ WREB f/up WBIC KPBM WHAS WRVM WKEW WCCO WNEW and WOWW. Veries are in from WMAS WMCA WINF-d, WDEE WNBC CBM and WBZ. Received answers to CPC requests - KGGM will DX F b. 13, 1961 3:00 to 3:30 a.m. EST with a test program; KTOK will not DX due to expense of such a program, hi. KGGM will be bothered in the East by WIP and they are beamed away from the East, but tune in anyway. If they are not heard, why not send them a thank-you card to show your appreciation anyway? On to DX; Lefty, can you please tell me the power of WCAW-680 and WELM-1410? (WCAW 250 w. I believe; Kalish says 500 w. for WELM - ed.) These are the only two blanks in my log, hi. I'm still waiting for a verie from the WCPC-dx last 1/24. Am I the only one, hi? By the way, my WMAS/WLAS mystery has been solved. The call letters remain WMAS and the announcer has promised to enunciate the call letters more clearly in the future. How do WBZ and WBZA operate? Do they share air time or are they on simultaneously? Verie folder fails to state this - folder claims 24 hour operation, signing off at 12:07 a.m. Sunday and signing on 5:15 a.m. Monday. I guess that just about winds it up. 73s and hasta luego.

J. B. "Pat" Reilly - 628 Spring Street - Jamestown, New York

I want to thank the boys for the dozens and dozens of "get well" cards and for all the dozens of Christmas cards received here by me but sorry that I couldn't thank each one personally but unable to stay up long enough at one time. No DX here as yet, per doctor's orders but I'll start as soon as I can, have lost better than 35 lbs. at present, on a strict diet and haven't been out of the house yet - received a few veries back that were out for a long time - WISK since 3/17/59, KPON since a year ago @ WJAB and new CE sent back old WKTF and new call WKCW, as he found a huge pile of unanswered reports. Have been trying to get log up to date from last four or five DX NEWSes; guess I'd better warm up my set to see if it will work for me one of these days. See you all later. (God bless you, Pat, and we certainly do miss your wonderful DXing! -ed.)

Mike Silbert - 100 Winston - Hamilton, Ontario

CONVENTION CITY '62. Hi all! First of all I'd like to thank LBG for the phone call; my mother nearly fell out the window. Latest DX is like this: 4/12: WGTC f/c, KSTP-2R35, WAPI-2:05, WKZO-12:01, KATZ-12:35, CKX (my best Canadian, hi) 1:16. Dec. 7 netted me CJMS from 5:36-6 a.m. through the 5,000 watts of OC from local CHIQ. 19/12-WNOR-1230 2:00, WMTN f/c. 21/12-WLCY 4:49, WOBS 5:26. On Dec. 22 I briefly logged CHLX-800, unfortunately long enough to hear that they are going AN every day except Sunday AM; this being a present to their listeners on their first birthday, ugh! Might as well forget about IYZ. Dec. 23 brought in these new ones: WEBO s/on 5:30, WORK 5:36 WELM 5:59, WOTT 6:00 s/on. On Dec. 27 I received a letter from Harv Epton. I also owe letters to John McDonald, Chuck Engdahl and LBG bringing my total to four. Thanks for the tip Sam McLaughlan, I tried but nothing was there on 710. On 27/12 veries - CKX and KSTP letters and WLBR a card. 28/12 brought me veries from KDHL KTOE and WKCW and also a new nine transistor radio, which I hope to use for DXing. 12/29- This set's OK as far as I can see. I noted WDXR in S9 plus this morning on my new set. For the next while I'm going to use my new set for DX and see the performance it gives. 12/31- Well, we finally did it - we shuffled off to Buffalo and I'm going to meet Ray tomorrow. Ralph Johanns, Joes Richards Mens' Cancellation Shop (shoes) seem familiar? I bought a pair of shoes there. It's on Chippewa, near you? I was going to phone you but I found out you don't have a phone. I also had a nice long DX Gabfest with Ken "Casey" Bush, as friendly a guy as I ever met. 1/1- The tenth floor of Buffalo's Statler-Hilton wasn't too good for DX with CBW Winnipeg the strongest on the dial next to Ray's XERF of the U.S. (WKBW). At 11:00 New Year's Day I rang the doorbell of the house at 325 Shirley Avenue which was the start of a most pleasant visit. I've never seen so many veries in my life - wow! Hi! Finally, WJAB Westbrook logged S-8 on RS for my first Maine. Attention members of NRC, Hamilton will put in a bid for the 1962 Convention 4f and only if we can prepare the BEST bid for the Convention. Unless we are perfectly satisfied that the NRCers will receive the best Convention at the least price we will not enter a bid. 73s till next issue from our fair city. It's happened CKOC's going 24 hours. See DXDD.

Doug Murray - P. O. Box 395 - Dartmouth, Nova Scotia

Hi Gang! It is about time you heard from Nova Scotia again before I get back to college. DX has been good although time has been limited. Heard both WINF and CBI on Dec. 5. Both weak. I doubt if many heard CBI as directional pattern is 75° East of North - toward Newfoundland - 24 hours. They protect WRVA. Wrote CFBC and asked if they planned to become AN like CHSJ. Reply negative except for Christmas and New Years. Their power now 10 kw. Listened for CJCJ Dec. 19 - not heard - where they on? Have not seen latest bulletin as I am home for Christmas - perhaps my question is answered there. Have been working on graveyard frequencies mostly in past month. CBAH (1490, Metegan N.S., 40 w.), WMID WRDW WILM. Nov. 21- WTVL. 25/11- WFPG-1450 12:02 a.m. EST. 5/12- WINF WRAL WITA (3:59 EST). 7/12- WRDO. 10/12 WAIL 1:23, WHOU s/off 1:00 EST, CJQC. 11/12- WSKI 9 p.m. EST. 13/12- WLAC WRDW WSAN. 17/12- XEDM TVND CMBL WEMP. 19/12- CFGT WSPR WBET WLDB. 24/12- CKFH WKIN WGBI (over WSBA and WRNL for five minutes). Caught WNIK on Dec. 17 on s/off at midnight EST. Signal S 7-8 and R 4-5. New Year's Resolution - more DX. Best of everything in the New Year to all, especially DX. (forwarded by Ray B. Edge).

Larry Stutzman - Box 294 - Filer, Idaho

Haven't written the past few weeks because of the holidays and mainly because there was nothing to report. I've written to three stations asking them if they could have DX programs. Today I got a reply from one, KFI, but they said they couldn't have the program on a Monday. Incidentally the other two stations are KGO and KMYC. Back on the KFI letter they said they had forwarded my letter to their PD. Now finally to DX. Here are my lost recent loggings. They are KUPD WWL KLUB KBRV KXOA KTRN KSAL KOMO KLEO KLZ and - that's it, for my loggings. For my most recent veries - they are KUPD KMYC KEX KXOA KFIV KLZ XERB and that one was in Spanish, except the letters of the station and the v/s. I got a letter from Bill Stone and he asked me to put down the times that I got the stations that I logged. So I guess I'll take up more space and do that. All times, EST. KUPD 2:43. WWL 3:00. KLUB 5:38 (p.m.), KBRV 5:55 p.m., KXOA 2:00 a.m., KTRN 3:23 a.m., KSAL 12:30 a.m., KOMO 2:00 a.m., KLEO 2:00 a.m., KLZ 1:55 a.m. 73s.

LET'S KEEP THE MAILMAN AT 438 BUSY! DEADLINES ARE TUESDAYS AND PLEASE DOUBLE SPACE.

Dave Holden - 7526 South Colfax Avenue - Chicago 49, Illinois

DX for the Christmas Holidays goes as follows. 12/21- 1:26 WSWW-1590 r/c under WAKR; 5:30 WMAX-1490 s/on. 12/23- 1:12, KMJ-580. 1:27, WVOK-690 test with R'n'R music; 2:19 CKCK-620, 3:20 CJAD-800 and at 3:48, CJLX. 4:08- WCAW-680; 4:14 KENS-680 test?? Help. 4:31- CJGX-940; 5:00 WIRC-630 s/on; 5:19 WPTF-680 and WCTT in at 5:30; 5:49 1490 WMDN s/on buried WOPA, Chicago's Little XERF; 5:54 WGR-550, Buffalo's XERF - right, Pop? 12/24- 1:04, KNDY-1570 under everyman's XERF. 1:43, WHMS-1490. 12/26- Over to relatives' and had to use their table radio, but!! 4:24 WMCA-570; 5:01 970 WERH s/on; 5:02 WORD-910; 5:09 550 WDBM; 5:13 570 WSHE; 5:23 590 WPLO; 5:29 550 WKRC s/on; 5:31 570 WKBN; 5:35 560 WHBQ; 5:46 620 KWFT; 5:50 580 WGAC; 5:59 850 WRUF. 12/27- 2:58 710 WHB; 3:01 730 CKDM. 12/28- 1:35, WLVK-1360 test; 4:59 1320 WHOK s/on. 12/29, 5:20 p.m. WJVA s/off; 5:20-5:30, 1580 sounded like WKCB but location not given. 12/31- 3:45, 1580 WLBA test with music. 3:54, 1400 WGSA test and 4:05, WETT way above WAKR, ending a good year. Happy New Year from CKX-1150 at 1:38 a.m. and 3:23 heard KDTH-1370 below WSPD needed for report I never sent. Replies are on the way to those who wrote me now that things have settled down. Totals: 678 heard, 236 verified. Only two veries (Swan and HJAT) for Foreign Contest so I'd better send out some reports soon. PS- Wayne Pierce, about that unknown asking for petitions to Washington, WBA Pittsfield, Ill. is doing that according to note in monthly sked. 73.

Ev Johnson - 504 16th Street - Mendota, Illinois

Hi fellows. The Holidays are over and hope some of those 50 reports out will be verified. Sure discouraging not to get replies after sending them. Expected to see a report from this DXer in 12/31 issue but none. Must have gotten lost Lefty. Don't know where I left off in last report so will start with DX from 12/12. On that AM Jamaica Broadcasting Co. was really strong with I believe Cricket game on 750 kc/s., also on 700, from Australia. KVGB-1590 s/off 12:07, said on Sunday at 8:30. KRAI-550 on for test, 2:30 till 2:40. KURL-730 per list; XERF off. KNDI-1270 came in fair until that Spanish which boys claim is KIUA, and KDJI f/c at 3:30. KOMO-1000 s/off at 4. KORL-650 weak. 12/15- KFSC-1220 r/c. KGBX-1260 RS at 11 p.m. 12/17- WLIJ-1580 r/c. KOGT-1600 test r/c 1-1:15. KOME-1300 RS 1:15-1:30. WCVS-1450 AN. 12/21- TGUX-1020 strong. 12/18- SS on 820 and 970, no ID. KAVL-960 AN. KFDF-1580 test. 12/24- Tubes blew so no DX till Christmas, then nothing new heard. 12/26- YNOL-dx very good - have veri but sent thank you letter and mentioned hearing them. WBNX-1380 AN. KWIZ-1480 RS 2:30. WLCY-1380 AN. 12/27- Not needed HJED good on 820. 12/30- WCAE-1250 said AN. KXLR-1150 Marchathon. 12/31- WLIK-1270 ET 1:16. WLBA-1580 ET 2:45. WRC-980 test 2:55. New Years only one needed one heard. WOGA-1450 Party. TGXA-1040 good. WALG-1590 Party AN. CKSB-1050 good on there, TT behind them. WPCF-1430 test. Xastro all over the dial. The best morning of the season Jan. 2 when I logged five needed ones. WJBM-1480 r/c. WGEA-1440 RS 1:30. JBC-700 Cricket. KUKO-1370 test 1:55. KGBS-1020 AN. 1/3- KPBM r/c 2-2:15, 740. WEZL-1590 r/c, WLPO-1220 r/c, WKLM-980 test 1-1:15, said regular. JBC-750 and 700 again, also Radio Trinidad. Cricket game from Australia. Veries since Dec. 12th- WETT-1590 WACT-1420 KMAR-1570 KMIN-980 CFOD-1470 WRVK-1460 and WGEA-1150. Guess I've said enough. Best DX and thanks for DXDD tips. 73s.

Ray H. Kraul - 6423 33rd Street - Berwyn, Illinois

What a miserable DX start for 1961 - one new logging: WAFC-900 f/c-TT 1/6 12:00-12:20 and announced as r/c. I was disappointed when I slept through alarm set for Monday the 2nd, but must have needed sleep after our New Year's Eve Party - hi! Veries total five - KBVM WCRR WITT WRRF and WNAV. This really isn't a very exciting report, is it? But I'm hoping to set a good example - that each member should report regardless of the number of loggings he has to report. One item may help someone else. Hoping I have more next time and let's see Hamilton in '62, Indianapolis in '63, and Berwyn as soon as I can find another member here.

AMEy Thising - Markham, Illinois

Happy New Year and I hope you had a good Christmas. I haven't been doing any DXing this season yet. I got a job over at grocery store and I go to High School so I don't have much time for DXing but I hope to get in some DX over the holidays. One good thing about working is I'll be able to get a Hammarlund. HQ-100 for next season anyway. The way things are so tied up on the band these days an S-38E is not very good. Is there any good ECB log out? I have an order for a Vane A. Jones Log since September 1960 and he said I would have to wait for my log and I am still waiting, hi. (The Jones Log is reported at the Printer's and should be ready for release momentarily.-ed.)

Alex Bowab - Box 539 - Atmore, Alabama

The veries this week are letters from WJMW-730 WAIL-1460 WSWW-1590 KBVM-1380, hand-written with CE's home address on envelope, form letter from WJBW-1230 that says AN except Monday, 1-6 a.m. Add to CX of Frequencies column. The total seems to be 128. Jim Crhtchett, are you counting that XEG card as a verie? They went me a card of advertising rates from Schwartz in Chicago, and I want to know what others think about it. 610 kc/s gets worse here with WCKR-610 going AN, joining WSGN and KILT at the game, all within 550 miles of here. 12/30- Finally got an ID out of WOKE-1340, who seems to be the latest addition to the (long) list of AN stations. KHOW-630 s/off 2:01, momentarily after KKOK s/off, thanks to Fran Nittler for tip on this one. WCHS-580 s/off 2:02. PM, KOKA-980 till 6:15 s/off, Negro programming. Was in Mobile the other day and saw WEIQ-1360's ~~two~~ towers; not on the air yet but what gets me is that they are listed in the phone book that came out last October. Saw a couple of billboards advertising them thus: "Soon, people of GOOD TASTE will be able to enjoy radio again - WLIQ." Unquote. Nuts, looks like another classican music station in the making! Groan. Can hardly see how Glen Kreidler got them as they have a null to NE to protect WWFC. Hi, Glen Kippel, are you a Beatnik? Got my Broadcasting Yearbook today. Don't know how I've done without it this long. In answer to a CPC letter, WDX-1150 says their engineering staff is so overworked already that they couldn't ask them to put on a DX. A few additions to C of F column: WJBW as mentioned, WMPS-680 silent Monday AM only, WAKE-1340, no silent period, WABB-1480, off Monday AM only. Others are in DXDD Column where these should have been in the first place. Now that the 63 Convention Battle is a three-way affair I believe I'd better revert to the silent status and remain neutral.

Roy H. Millar - P.O. Box 778 - Bellevue, Washington

'61 DX tale: Jan. 1- Taped 1050 with XEG off; CFGP on until 4:15 a.m., QRM'd in spots by French speaker (CKSB?) and SS (XED?), CJIC-1050 very weak, but logged briefly 5:01-5:06 a.m. with XEG still off, and just topping KLEN-Killeen, Texas as most distant 1050 logging. Jan. 3rd- RJR-720 fairly good right at 5:00 a.m. with ID; KXIV-1400 ID at 4:20 a.m., and logged intermittantly until 5:00 a.m. for first new 1400 logging since WGAP's DX on 3/16/59. Jan. 4th- KFTM-1400 s/on at 7:30 a.m.; just enough for a tape of announcement, then gone in the QRM. Veries: KONI-1480, KAIM-870 as mailman ignores me. Thanks, Ed H. for information on CHAK-860; they also DXed eight years ago from Aklavik on 1230 with Ed being one of those reporting reception. DX rather dead side again after the Christmas opening at this location, although New Year's Eve found a definite hetrodyne and a weak signal on about 1465-6 around 6:30-7 p.m. that may well have been the 400 kw. Monte Carlo TA; I just couldn't bring this up to a level where I could tell just what I had, but 1460 was unusually weak leaving the "split" well in the clear. Seemed to be no trace, even on the BFO shortly after 7:00 p.m. No claims, no report, ~~Pete Taylor, KHVH Radio, Honolulu, Hawaii~~ just dreaming, hi! 73

Pete Taylor - KHVH Radio - Honolulu 14, Hawaii

Hi, music lovers! Very little activity out this way. Will pass on bits of local info, however. KHVH-1040 is now silent Sunday mornings from 5:00-11:00 a.m. EST which as I baguely recall is similar to WHO's schedule. Also, KULA-690 is back on AN with jazz and pop music show. Am now doing the 5:30-9:00 a.m. wake-up show, which is quite a challenge considering that, let's face it, it definitely curtails one's social activities. Have a ball doing it, however. KHVH is non-rock, and I must admit that playing the type of music I dig for 3 and a half hours daily is the most. The DX NEWS copies still roll in with great reports of Carribbean reception, which makes me wonder if I shouldn't really lug the HQ-160 back to Miami and concentrate on the Latins. KNDI-1270 is completely automated, with girl (taped) deejays. There is an occasional commercial by a male announcer, however. NRC reports have been pretty good, and I have been able to verify nearly all of them. Incidentally, if any of you have any old KHVH reports which are uncerified, or any in Honolulu for that matter, send them to me. Also, will be glad to swap tapes with any other NRC platter spinners. Only vitally new item to report is application for 790 kc/s. 1 kw. unlimited time in the town of Kealakakua, Hawaii, which, when it comes on the air, should give you all a challenge, ID-wise! 73s.

Glen/Kippel - 905 South Second Avenue - Apt. 3 - Sterling, Colorado

Don't dare type, it would awaken my campadres. Big news here is the new receiver - in addition to the SX-71; of course. It's a Zenith Transistor Trans-Oceanic Royal 1000D,

(Glen Kippel) with long wave and everything else! That Wavemagnet really nulls the QRM, too! Reason I didn't get an HQ-145 is that I need something easy to pack between here and Denver, or to the top of a flagpole or anywhere else I want to DX. The portable isn't affected by power line noise, and also I needed a car radio, and a home radio that blends in with this fine apartment - can't have wires all over. And any time I want to augment the SX-71 at the XR, no sweat. The Zenith fills all the bills just fine. Nine transistors, by the way, one RF, two IF, and runs on nine flashlight batteries. As you can see, I'm very pleased ~~with it~~ with it. Oh, I expect to have a new car by the time you read this. Don't ask me where I get all the money, because I don't know! Will answer everybody's tapes as soon as I get a chance, OK? 73.

Benjamin Dangerfield III - 202 Governor's Drive - Sproul Estates - Chester P.O., Pa.
December was a month of improved DX, at least from this den, and particularly because the TAs began to come in, (though weakly, I must admit). Veries still slow coming back, but I now have 12 for the Foreign Contest, and my total verified countries now stands at 30. Recent veries have been HCJB-700 YSKL-765, Oldenburg-1586, and WICCN, Radio Cima, 1005. Some of my DX since my last Musings report: 12/3- Heard at 11:00 a.m., WHLO WSM WMAQ (strong) WLW WGN WJR WLS WCFL WHO (weak) WIBC WNTT-690, Warsaw, Va daily good signal since going to 1,000 watts. 12/5- At 1:30 a.m., KGBS-1020 strong behind KDKA; KNX like a local atop 1070. 12/10- At 12:00 a.m. found CHVC atop 1600, and at 12:05 WHRV-1600 signed off. Not often anyone tops WWRL here. 12/17- WPIN-680 heard signing off at 5:25. 12/19: Horby, Sweden, 1178, coming in with weak signals between 1:00 and 2:00 a.m. 12/26- Several Europeans including BBC, West Regional-1457 (with QRM from KENO-1460). 1/1: 1:25 a.m., Cubans counted on 46 different channels with Castro speech. Monte Carlo-1466 good till after 2:30. Radio Trinidad-730 and Jamaica-750 on to 3:00 a.m. with the West Indies - Australia cricket match from Melbourne. (Have spent the week learning about the game of Cricket from one of our plant engineers who is a native Englishman.) Also 1/1: KELP-920 rather good when noted at 3:00 a.m., and station on 950 with play, "Treasure Island" between 3:00 and 3:30, which could not be IDed after WPEN carrier came on at 3:30. Am hoping the DX continues to pick up; believe January and February will be good for TAs, so will look for them between 1:00 and 2:30 whenever CX warrant and I'm not too tired.

Kermit Geary - R.D. 2 - Box 298 - Walnutport, Pennsylvania

How can a DXer score a 100% miss on all the new station ETs you fellows have reported? That's just what I've succeeded in doing. The only recent domestic loggings have been the regularly scheduled f/cs of WALG-1590 WKPR-1420 WDW-1440 WNTT-1250 WANY-1390 WEZJ-1440 and KNDY-1570, also WAAT-1300 WDN-1540 WBP-1580 WSOQ-1220 and KQBY-1550 on RS, as well as WRKT-1300 between 4:45 and 5:00 a.m. on 12/19. An unID French speaking station (not CKBS) was heard on 1240 kc/s. from 2:40 to 4:01 a.m., probably already verified CKLS. Also heard on 12/25 was WRWH-1350 at 6:00 a.m. On 12/26, WWWW-1520 was logged from 1:25 to 2:05 a.m. for another try at a verie. The DXes from KCEE and WINF were logged in good shape; no CJCJ on 920, just KELP. WMIC-1590 had a musical ET on 1/7 starting at 12:30 a.m. Latest domestic veries have come from KCEE KDWB KGBS KNDY KSRC WAAP WANY WDW WINF WNTT WPCC WRIP WSOL and WWML. WALG wrote "Thanks for your fine report" on my letter and returned it; big deal! They also asked for more reports; they'll get one more with a request for a letterhead. I was especially pleased with KCEE's verie which said in part, "Your report is the most complete we've received from the East Coast and checks out in every detail with the log I kept here." From the other direction, WINF's verie says: "Your report is the most complete report that we received." I have been dismayed by so many reports going to TIRH as the station being heard on 975 kc/s. This station positively says "Atenea" after each record thus making it TIRS, formerly on 920 kc/s. Also, the one on 825 is definitely TIOS "Radio Titania", formerly on 775 kc/s. The facts are these: In March 1960, nearly all Costa Rica stations were assigned new frequencies so as to provide a 25 kilocycle separation between channels. Stations are assigned to the even hundred kilocycles, such as 600, 700, 800 etc., and every 25, 50 and 75 kilocycles between. Even "Radio Cima", being heard presently on 1005 kc/s., is actually assigned to 1000 kc/s. So, let's all be positive of our IDs before writing to Costa Rican stations.

NEWTON MINOW, 34, APPOINTED F.C.C. CHAIRMAN

President-Elect Kennedy has selected this man, law partner of Adlai Stevenson, to head the FCC, replacing Frederick W. Ford. The FCC, it is said, will be completely revised

Ralph M. Johans - 11 East Chippewa Street - Buffalo 3, New York

AP mentions Cutler Me. Navy Radio Station completed after three years and \$67 million cost. It will go into operation this year on a low frequency on Navy-Polaris setup as the strongest ever anywhere with 2,000 kw, able to transmit to subs below ocean's surface, etc. Cuban stations upped their power and even transmit on non-allied frequencies lately, so why report to them? They can gain valuable info and might even contact you. I'm 61 and mention this as I've been through the mill. V/1 by WJAM-1310 5 kw., Radio Marion Inc. in Alabama, new CE sent coverage map. Jack Mattenley, O/M of CKBB-950, Varrie Bg. Ltd. a nice brochure showing CKBB Land, V/, Coverage map and nice folder from CHSJ-1150, New Brunswick BC Ltd. St. John, N.B. (hello, Eric Nelson) mentions CHSJ opened 4/18/34 with 100 watts, 10/29/40 1 kw., 4/21/47 5 kw. and 8/30/60 to 10 kw. day and 5 directional nights. Sked is 6-1 a.m. AST, Sunday 8-12:15 a.m., also now on FM on 100.5 mg.s. An embossed print v/1 by Radio Jamaica and Radiffusion, Radio Jamaica Ltd., Bg House, PO Box 23, Kinston 5, Jamaica B.W.I. The directors named are six big names and at 32 Lyndhurst Road, Cross Roads. Hugh E. Wong signed for D and he verified 720 kc/s. report by airmail. This v/1 took a little "manhandling", no info was included. Try 720 kc/s. Tuesday AM at 5 as that is WGN's silent morning/ 1/2- CJAD AN KNX-1070 s/off 3:06 to return at 5:30 PST then WIBC long test TT/M, got up too late and found CKEY off, a TTer and a station there and CKEY back 5:48 a.m. 1/3- r/c-TT by KXGO through ANs WTAR/WQXI; RJR-720 not so good, WCAW-680 poor also; CBF-690 at 6 all French; WRWM s/on at 6 on 680; KOA-850 TTed through CKVL AN at 4:51 a.m., then WYDE s/on at 4:59. 1/5 s/on by WACK-1420 at 5:59, WLET at 5:30, CHIQ was AN; on 1060 noted RS by WHFB at 6:40 a.m. through WNOE and what I think was CJRL. 1/4 heard Radio Continente, Havana, topping KFAB and preventing WBT reception. CKOC on 1150 again AN. WJOB AN on 1230; r/c-TT by KOLY-1300; Cubans cutting up, WDAK-540 and CKDM-730. 1/6- f/c-TT by WFTC-960 3-3:15 a.m. 1/7- WMTL-11580 through XEDM with 500 cycles 5-5:15 a.m.; WHBT 1600 s/on 5:30 a.m., 1580 busy for s/ons but WAKR-AN XERFs me too much. 1/8 had WKOW-1070 AN with MD; CHIQ AN better as WVET is silent Sunday AMs, but CJMS Franches it after 4. CKDM-730 a powerhouse, 14° below there. WAVZ-1300 was front and a SS (not a Cuban) with YL 6:40 a.m., WFBF 7:04, 1290 6:45 a.m. sounded like WAGE on RS. The 1962 Hamilton N.R.C. Convention will have a chartered bus for a side trip to Indianapolis.

Francis H. Nittler - 2634 South Josephine Street - Denver 10, Colorado

Not much DX to report from here. Listened New Year's Eve with nothing new heard. Noted XEG off as usual but CKSB on until 4:00 and then CJIC in the clear with neither one needed here. Monday 1/3 reception not too good. Did add two I needed in KAJI-1250 Little Rock s/off at 3:00 with WREN off AN show for a change and KPAM-1410 Portland on ET most of morning with strong signal. Only verie in was a PP card today from WGLE-1570 for report of 11/18/59 and f/up sent way back in August. I've noted a couple of unusual items in the paper about radio stations I thought I might pass along. The DJ on WMRC-1490 Milford, Mass. gave an impassioned plea over WMRC to listeners to turn in whatever clues they might have on hit and run driver who killed a young bby. When the DJ ended his program and walked out of the building the police were waiting and arrested him for the hit and run accident. A listener down in Tucson didn't like the R'n'R record the AN DJ was playing on KAIR-1490 so he went down and stabbed him. Maybe this is our solution to ANers, hi. DXed a little on 1/6 with nothing new heard. Did note KSTN-1420 with s/off at 3:00 so apparently no longer AN. KLOS was also off AN on the 6th but on last Monday so has an erratic AN sked. KFWB-980 was running AN Monday but sure hope they haven't gone back to seven days. CFUN-1410 on to 4:05 also Monday. 73s.

Bruce G. Lyeth - 110 Hill Street - Hampton, Virginia

Hi, DX has been very good here. On Jan. 2 I got WNOE-1060 Louisiana twilight; WCKR-610 Florida twilight; WLSL-610 Virginia twilight. On Jan. 5 I got CMKU-630 Cuba, night; CMBC-690 Cuba night, CMCF-910 Cuba night. On Jan. 8 I got WRDW-1480 Georgia 4:00 a.m.; WFLO-870 Virginia day; WJMJ-1540 Pennsylvania day, WDBM-550 North Carolina twilight, WHIY-1270 Florida twilight; WABR-1440 Florida twilight; XEJJ-1550 Jalapa, V.C. night. That's all for this week. 73, and let's have more reports from Virginia.

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U.S.A.

Reports are coming in very well, and you are to be complimented for keeping so much material coming in on a weekly basis. Many of you are making it every week and many others at least every other week. That is what is making the DIGEST the only really up-to-date guide to foreign DXing. Now for the DX of the week.

NORTH AMERICA

PUERTO RICO--*--AHD (780) was booming in on 12/5 and heard most other Monday mornings. WLEO (1170) possibly heard after 0400, not sure. (DER)

DOMINICAN REPUBLIC--*--I believe this to be location of stations on 1270 and 860 which begin a strange intercal signal (something like a SW station) consisting of 11 notes on a piano about 0330 prior to 0400 s/on. Announce as "Radio Caribe". (DR) (This is correct, Don, previous DIGESTS have covered this one-FV) HIN (1220) Ciudad Trujillo, logged 12/25 at 0345. This one has a new slogan, "Radio Ca---" but I couldn't make out the rest. Dominican Republic has switched to Atlantic Standard Time, so watch for early sign-ons. (CMS)

NICARAGUA--*--YNQ "La Voz de la Victoria" (1105) Managua, bagged at 2030 on 12/14. (CMS)

PANAMA--*--HOHO (870) apparently is all-night, but weak. (DER) HOG in Panama City operates 0600-2300; VS is Ramon Levy. I am not sure of frequency, but I believe it is 840 Kcs. (RHM)

COSTA RICA--*--Letter verie with photo and pennant enclosed received from "Radio Cima" (1000) San Ramon. (Heard on 1005 Kcs. though). Signer is Carlos E. Cordoba N., Gerente. Call given is TICCN, not TICEC. Power is 2000 watts. (BD & HJW) TI??? "Radio Majestic" is the station on 825 Kcs., not XELA, Stan. This info from YNOL. TIRH (975) and TIRICA (625) are regular visitors nightly. Station heard on 1575 Kcs. on good SA nights possibly TIJYG, Liberia. TIJYM (575) heard weakly on some evenings. (DER)

EL SALVADOR--*--YSCB (1175) Sonsonate, with much spill-over QRM but good signal. "La Voz del Pacifico", report sent. (JH)

CUBA--*--CMKP (670) Holguin, heard 1/1 at 0400 "Radio Progreso", Cadena Nacional, La Onda de la Alegria", carrier left air at 0403. (JH) On 1/2 at 0125 I counted Cubans on 46 channels with a Castro speech. 35 of these stations were atop their frequencies with strong signals. Also noted lately that the CMQ and Progreso Networks, along with the Cadena Nacional Net and Radio Reloj have been carrying the same program, and seem to be announcing as "La Voz de Libertad". (BD) CMCX (1060) slogan is now "Espacio Aero". CMCH is reported on 795 Kc drifting from 790. CMCF has been heard announcing as the official Cuban Radio and as Cadena Latina America. CMZ "Radio Continental" is now on 1010 Kcs. from 1560. CMCU (660) now 10 Kw. CMKJ (740) now 10 Kw. CMCD (760) now 10 Kw with slogan "La Voz de la Hora". CMCG has moved from 1420 to 1550 Kcs. (MWN)

JAMAICA--*--"RJR" (720) Kingston in with fair signal briefly at 0500 on 1/3. (RHM)

GUATEMALA--*--News in ENGLISH heard at 0115 12/30 from TGUX (1020). (RHM) Heard at 0130 on 1/2 with English and pop records. Really booming in. (DJ) (Dennis, I am writing this from a hotel in Montrose, Pa., and do not have addresses with me. I will mail you the TGUX address when I get home, or perhaps someone reading this, and knowing my ability to forget, will send it to you-FV) after three months of waiting, received letter and pennant from TGO (1140), "La Voz de las Americas", now using 5000 watts. Letter for the moment is missing, so can't supply the verie signer. (CMS)

MEXICO--*--XEMR (1370) 1 Kw., Monterrey, Nuevo Leon, appreciates and wants reports. Address Guleana Nte. 1055. Verie signer is Homero Eufrazio Villareal, Control. (RA)

January 14, 1961

UNID on 1010 with US records, around 0130, 12/30. KOMO (1000) didn't help any. I doubt if this was previously verified XEHL, but no lead as to ID. (RHM) XEC (1050) was off New Year's AM again, not on yet at 0505 at close of my recording period on 1050. (RHM) XELQ (570) Morelia, Micho., heard 1/1 at 0350. (JH) XECD (1170) Pueblo, logged 12/12 on late at 0130 with special program from Our Lady of Guadalupe shrine. There was another LA behind them, but believe it was TGZ rather than XERT which was heard out west. On 12/14, the harmonic of XEZ "La Voz de la Peninsula", was heard briefly on 1200 Kc. at 2200. (CMS) XELA (830) was heard 12/3 with fair to poor signals definitely on 830. They ID with chimes, four successive notes, s/off at 0119. This one is ROUGH, been after them for years and had to use large loop antenna to pull them through WCCO. (DR) XEOK (920) Monterrey, heard 11/25 0203-0230 with program in ENGLISH called "Holiday Festival" and said it would be put on every 4th Friday from 0200-0300. Reports are welcomes. (DR) XEIQ is call of Ciudad Obregon station on 960, s/off during holiday season was 0300, don't know if this is regular. (DR) XERT (1170) Reynosa is correct call and location of Tamaulipas station on this frequency. (Per announcement 11/20) (DR) XE??(1410) Mexican heard on this frequency 12/3 s/off at 0200 with "Beer Barrel Polka". Anyone know who? (DR) XEOD (1090) Boca del Rio, was heard 0446 L/1 rough copy due to severe QRM from XEHR. (DR)

SOUTH AMERICA

VENEZUELA--YVNN "Radio Paraguana", in Punto-Fijo (1110) had good signal on 12/31 from 1930-2000. (BD) YVND heard 12/19 at 0420 AN, 12th Venezuelan logged. (DER) Known frequency variations: YVQB on 670 from 1220; YVOB on 994 from 1000; YVMN on 1110 from 1210; and YVMP on 1285 from 1280. (MWN) (YVMN and YVNN reported above could be confused. Which is really on 1110 or are they both there?-FV)

ECUADOR--The 50 Kw. HCJB on 700 Kcs. is located at Pifo, the QTH of the 5 Kw. station on 750 Kcs is still Quito. (MWN)

PERU--OAX4A (854) heard frequently evenings till 2400 s/off., but PJ10 in Aruba, was heard during Christmas holidays with live programs here. (DER)

COLOMBIA--HJCA (870), HJIA (1040), and HJKR (1220) were all All-Night for Christmas. (DER) HJKA now 100 Kw. on 580 Kcs., formerly 10 Kw. on 680 Kcs. (MWN) HJGP (1580) Bogota, is as reported, verifies with a four page pictorial card in English and Spanish. SW is HJCG (5075). Veric signer is Luigi M. Pick, Chief Engineer, and the add. is Accion Cultural Popular, Escuelas Radiofonicas, Apartado Aereo 7170 or Apartado Nacional 3262, Bogota, Colombia. (RA)

TRINIDAD--"Radio Trinidad" (730) on the air until 0300 this past Monday AM 1/2 with cricket match from Melbourne between West Indies and Australia. Very good signal, and no doubt, heard by many others. Jamaica (750) had same match at that time, and perhaps other West Indies stations. (BD)

BRAZIL--"Radio Globo and Radio Mayrink" are still audible most nights around 0030 GMT, sometimes sooner. Other Brazilians heard here during November are PRG3 (1280), PRH6 (1340), PRD5 (1400), PRB2 (1400) very weak, Radio Norte, Sao Paulo (1100). (RP) PRL8 (1280) is now on the air from Brasilia, slogan "Radio Nacional de Brasilia" with 10 Kw., day and 1 Kw. night. 980 Kc. Brasilia channel is still inactive. (MWN)

EUROPE

HOLLAND--(Actually at sea)-CNBC Radio starts on 1/1 with nine hours a day in English according to announcements on the DJ show the broadcast at the moment from 0000-0100 GMT. New times will be 0600-1200 and 2300-0200 GMT. They will have a London office soon, but QTH is still Box 244, Hilversum, Holland. (RP)

NORWAY--LKF (1578) Fredrickstad, logged at 0045 on 12/24 after several years of trying. (CMS)

January 14, 1961

NORTH IRELAND--*--The BBC North Ireland Regional (1151) was putting out a weak signal at 0230 on 1/1, but no part of the broadcast was readable. (BD)

WEST GERMANY--*--Verie card in from Oldenburg (1586) via Norddeutscher Rundfunk, Hamburg. Station uses 40 Kw., replies faithfully to correct reports, and sends interesting literature on Hamburg. (BD)

SWEDEN--*--The Low powered station working on 1662 Kcs. have been audible here with a fairly good signal around 1630. Same as Stockholm national program. (RP) (Time GMT)

MONACO--*--"Radio Monte Carlo" (1466) noted until well after 0230 on 1/2 with French programs. (BD) Has a program "Music Without Passport" giving record requests in English, French, Spanish, Arabic, German, and Italian. A unique record show Sunday 2100-2200 GMT. (RP)

PORTUGAL--*--"Radio Porto" on 1575 Kcs. extremely good signal here in the evenings. S/off around 0100 GMT, sometimes later. (RP)

MALTA--*--BBC relay station is on 1079 Kcs., now heard here with plenty of BC QRM from other stations working on this frequency. I get it best around 1800 GMT. As far as I know, all programs are in Arabic. (RP)

AFRICA

KENYA--*--Nairobi (863) was logged at s/on at 0315 GMT. This was from England and was first report outside Africa. (MWN)

MOROCCO--*--EBU says that these stations should be deleted. "Radio Africa on 593 and 935 Kcs., Pan American Radio (1178) and Radio International (1079). 1232 Kcs. is now the government frequency. (MWN)

SOUTH AFRICA--*--SABC Springbok Radio Network is on the air from Friday 0300 GMT until Saturday 2200 GMT without a break. There is a special all night show from Friday 2200 to Saturday 0300. The following have been heard in England: Durban (800), Grahamstown (809), Port Elizabeth (1178) and Johannesburg (1286). Pretoria (1268) has also been heard in Sweden. (MWN)

ASIA (NEAR EAST)

IRAQ--*--EBU lists the following low-powered stations in this country: Salman Pak (566) 100 w; Kirkuk (605) 100 w; Salman Pak (650) 100 w; Kirkuk (738) 100 w; Kirkuk (764) 100 w; Abu Ghuraib (850) 100 w; Mosul (870) 100w; Abu Ghyraib (908) 100/20 w; Salman Pak (970) 20 w; Basrah (1187) 100 w; Basrah (1277) 150 w; Abu Ghuraib (1295) 20 w; Basrah (1376) 200 w; Mosul (1420) 100 w; Mosul (1500) 100 w; Note that these are listed as KW. but felt here that they are more likely to be watts. (MWN)

KUWAIT--*--"Radio Kuwait" operates on 1344 Kcs., a 100 Kw transmitter is planned for 1961 installation. (RA)

SYRIA--*--Damascus frequencies are 584 (5 Kw.), 665 (50), 746 (20), 602 (2), 719 (2), and 863 (10). (RA)

INDIA--*--Madras A has moved from 940 to 720 Kcs. (MWN)

IRAN--*--The station I have been getting on 1340 Kcs. with oriental music around 0200 GMT is "Radio Tehoran". (RP)

ASIA (FAR EAST)

JAPAN--*--A two page verie letter via air-mail received from JOQB (990) Niigata, on a report of 11/7. Signer is Mr. Totuo Iwaki, Head of Technical Dept. Mr. Iwaki went to a lot of extra effort on this verie. Verie #39 from Japan. (HJW) JOBK verie in for 12/5 reception. (DER)

SOUTH KOREA--*--Overseas program of "Voice of Free Korea", Seoul, includes one transmission from 0800-0900 in Japanese on 970 Kcs. (DXG)

NORTH BORNEO--*--The schedule of "Radio Sabah" reads 1745-1915 (Sundays and Public Holidays 1830-2030) and 2300-0100 (Sat. 2200-0100) on 930 Kcs. Also 0530-0900 on 930 Kcs. Power is 250 watts. (DXG)

PHILIPPINES--*--A new station opened June 15th call DUCEB in Angeles, Pampanga Province, Luzon, on 780 Kcs. (RA)

January 14, 1961

CHINA*-Ururuchi, Sinkiang (740) logged in England last Sept. 2345-0015 GMT. Also in October 0005-0050 with Indian and Chinese style music. Ururuchi (910) in standard Chinese logged in September as early as 2333 to around 0015 to 0025 GMT. Also in October around same time. (MWN)

OCEANIA

HAWAII*-KAIM (870) form-letter verie for Christmas morning reception of 0400 s/off. Signer is Robert L. Lyon, CE. (RHM) KWHI (1040) in briefly 0430 1/1, WRM from "Radio Tricolor". (DR) Logged at 0400 on 12/25. Been after this one ever since they came on the air. (CMS)

SAMOA*-2AP Apia, Western Samoa, (1420) schedule 0645-0800, 1800-2100, Sunday 0800-1100; 1800-2100. (Times New Zealand Time) To increase power to 10 Kw. (RA)

MYSTERY

RHM*-Oriental (1200) relaying "VOA" but no English ID on the hour; anyone in New Zealand or elsewhere throw any light on ID of this station? Of interest, carrier on 1465-6 New Years Eve around 1630-1700 believed to be first trace of a TA in years, but couldn't raise a positive signal.

DER*-Oriental heard on 820 Kcs. at 0500 weakly on 12/27, slow, deep fade. JOBK (670) heard weakly at same time. (DER)

DR*-Station on 870 recently heard several Sunday and Monday AMs with cyclic fading in and out somewhat parallel with fading of PRH9 (840) thought I heard "Radio Cristal" mentioned.

REPORTERS

RHM-Roy H. Millar, P. O. Box 778, Bellevue, Washington.

GENERAL

The first item here is to conclude Hank Tyndall's editorial began last week, but continued this week due to lack of space. Here it is: "Most hobbies cost money and take time, I believe. One thing we must remember, no matter what methods are proffered. The fine art of obtaining a verification from anywhere, requires us to be pertinent, persistent, persuasive, and polite, when in pursuance of our hobby, and unfortunately, we also are forced to be patient." List of LA verifications: Cuba-96; Mexico-204; British Honduras-1; Canal Zone-4; Costa Rica-25; El Salvador-14; Guatemala-16; Honduras-7; Nicaragua-5; Panama-16; Argentina-12; Bolivia-2; Brazil-45; British Guiana-1; Chile-6; Colombia-47; Ecuador-5; Paraguay-1; Peru-7; Uruguay-6; and Venezuela-34. Thank you, Hank, for your comments and notes on a very important phase of our DXing.

Two letters in the Overseas Mailbag from Roy Patrick note that he has a new receiver, a Hallicrafters SX-24. He notes that only the reported Brazilians are coming through even though he has been doing some late listening due to working until 0100 Fridays. Teheran is his only important logging, although many of us would like to add Malta to our logs. Roy, we appreciate your regular letters and reports. Please forgive me for squeezing your last two letters into this short report, but our space is limited to 4 pages, and I didn't want to hold it over. 73.

STANDINGS IN THE 1960-61 DOMESTIC CONTEST AS OF Jan 8 1961

1	Fran Nittler-Colo;	(1) KLIB-KIOT-KBGN-WHUT-KORL	(3) KQBY-KLOE	11
2	Ev Johnson-Ill	(1) WKKD-WIXK-KIRL-KQBY-WHUT		5
3	Maurice Nittler-Colo	(1) KQBY-KIRL	(3) KLIB	5
4	Len Kruse-Iowa	(1) KQBY-KIRL-WMSK-WIXK		4
5	Ray Kraul-Ill	(1) WKKD-KIRL-WMSK		3
6	Roy Barstow-Mass	(1) WINY		1
7	Marv Ozirney-Sask	(1) KQBY		1
8	Alex Bowab-Alabama	(1) WNGA		1
9	Frank Wheeler-Penna	(1) WKRB		1

We have some 47 entrants in the contest but have not been receiving reports from any of them other than those listed above. Soooo better send in those veries eligible before you are too late and then they cannot be counted. Remember you have to report them at least twice during the contest and if you wait until the last couple months, that to your Exec Sec would be kinda playing it, in plain english, Lousy. Half the year has gone by, so get those eligible ones in to your contest Editor NOW and then send them in each and every month, thus making it easier for him to compile and list them. If you wait, you might lose out and that wouldnt be so good. So get those eligible veries in to Maurice W Nittler - 3663 South Clarkson - Englewood, Colorado.

NATIONAL RADIO CLUB

We have information that the WORLD RADIO HANDBOOK for 1961 is ready and can be ordered at the following address;-

GILFER ASSOCIATES
P.O. BOX 239
GRAND CENTRAL STATION
NEW YORK, N.Y.

The price is \$2.50 and should be ordered direct from the above address, DO NOT SEND ORDERS TO THE N R C.

This book contains all the stations of the world, but does NOT include the BCB stations located in the continental United States. It also lists times of transmission, including all news broadcasts and in what language. For those of you who are vitually interested in foreign BCB (Medium Wave) DX, this publication is almost a must.

Other logs that are available for your BCB DXers can be had from the Superintendent of Documents - U S Government Printing Office Washington 25, D.C. They include the following;-

PART I Stations arranged according to Country and City	\$ 2.00
PART II Stations arranged according to Frequency	2.00
PART III Stations arranged according to Call Letters - Station Name or Slogan	2.00
PART IV FM and TV Stations of the World	1.75

You can order one, or any one of them or all and you can send your personal check or Money Order. Parts I - II & III cover the frequencies beginning with 151 kcs and ending with 26,650 kcs.

Whites Log can be purchased at most newstands and is combined with Radio-TV Experimenter every March and September.

Vane A Jones Co - 3749 N. Keystone Ave - Indianapolis 18, Indiana also publishes a BCB log and according to latest information it should be if not already, about completed and ready for mailing. The price is \$1.00 and should be sent to the above address.

At times you will be receiving your copies of DX News in which the pages containubg DX Down the Dial, or a page the same size as this but they will not be in their correct order. When this occurs we ask you to place said sheet/s in their proper place. Reason this happens is that Lefty's stencils arrive here Thursdays and are run through the mimeo machine that evening and compiled, thus when the stencils are received from Fred and Ev Johnson on Fridays, they are just added to what has already been compiled and if a page such as this is included it is inserted between 2 of the larger sheets. At times when Fred's stencils also arrive on Thursdays, they are compiled with Lefty's and then DX Down the Dial is just added Friday. I will try to remember to number these pages, but there are times when it has been forgotten, this issue is one of those times. So best wishes to each of you and hope DX improves and veries come roll-ing in. See you next week. Pop Edge.
