Our Twenty-Eighth Season

February 4, 1961

DX CALENDAR

		Kc/s		Watts	A.M. E.S.T.	Club
Fri. Feb. 10	WRIP	980	Rossville, Georgia	500	4:00 - 4:45	N R C
Mon. Feb. 13	CKCL	600	Truro, Nova Scotia	1,000	3:30 - 4:00	N R C
	WJWS	1370	South Hill, Virginia	1,000	4:00 - 5:00	NNRC
Mon. Feb. 20	KTHS	1090	Little Rock, Arkansas	50,000	3:00 - 3:30	N R C
	CFBC	930	Saint John, New Brunswick	5,000	3:30 - 4:30	NNRC
	WTF	1600	Tiffin, Ohio	500	4:00 - 5:00	N R C
Mon. Feb. 27	KSOO	1140	Sioux Falls, South Dakota	10,000	3:00 - 3:30	N R C
	WMMH	1460	Marshall, North Carolina	500	4:00 - 4:30	N R C
	WHNY	1250	McComb, Mississippi	500	4:00 - 4:30	N R C
Mon. Mar. 6	WKBH	1410	La Crosse, Wisconsin	5,000	4:00 - 4:30	N R C
Mon. Mar. 27	WQDY	1230	Calais, Maine	250	3:00 - 4:00	N R C
	WEGP	1390	Presque Isle, Maine	5,000	4:00 - 5:30	N R C
EVERY MONDAY	WYAL	1280	Scotland Neck, North Car.	5,000	4:00 - 4:30	N R C
Mar. 26 & 27	KARI	550	Blaine, Washington	500	3:00 - 8:00	(tests)

THREE SPECIAL PROGRAMS THIS WEEK FOR N.R.C.

WRIP - 980 - ROSSVILLE, GEORGIA
Jack N. Wallace

This program will be in conjunction with WRIP's regular frequency check, which will be run from 4:00 to 4:15, and it is with a

very deep-pitched tone signal and frequent station breaks. Then for thirty minutes thereafter will go on with a program consisting of very familiar music. A Monday morning was suggested, but Mr. Wallace prefers to do the program on the same morning he runs the check. There will be several ANs or 980 unfortunately, like WMAY, CKGM, CFPL, KFVB, but we hope that their non-directional pattern and familiar tunes and frequent IDs and some words about their location will break through to many of you. Send your reports to Mr. Wallace, at WRIP in Rossville, Georgia, whom we thank heartily. ERNIE COOPER

CKCL - 600 - TRURO, NOVA SCOTIA
J. S. Armstrong, P.D.

Here is a station which many DXers need in their logs, and they are DXing for us again this season, after having struck a bad morn-

ing last winter. It is hoped that WPDQ down in Jacksonville, Fla. will be the only other station operating on 600 kilocycles during this period, as WICC has been leaving the air on Mondays often of late. We do not have any information here as to what type of programming CKCL will have on the air for us, but we look forward to a fine musical offering, and plenty of station identifications, and perhaps some information about Truro and the Province of Nova Scotia. Our thanks to Mr. J.S. Armstrong, and send your reports to him, with Canadian postage, or a U.S.A. dime. HARV EPTON.

WYAL - 1280 - SCOTLAND NECK, N.C.
Gary W. Joyner

As we told you last week, WYAL's early morning DJ, Gary W. Joyner, is dedicating his first half hour of each Monday morning show

to our National Radio Club. He would welcome a report from all. E. COOPER

NOTE SEE BOTTOM OF PAGE 16 - DX Down The Dial Page for 2 more TESTS.

Earl E. Floren - 4555 Contour Boulevard - San Diego 15, California

I'm a new member of the NRC so don't mind the mistrakes. DX set-up is an HQ-140-X, Hoshio Tape Recorder, West German Akkord portable, and anything else I can use! The HQ tunes b-r-o-a-d, but otherwise very good. The Hoshio (now Concord) recorder is real neat, has remote control, and monitor earphone. Wired up a button just below the HQ, and all I have to do is to push and I'm recording! The Akkord is portable, and AC, seven tube job. Covers .54-12 mg.s. in three bands, and FM. Got Japan on it. A friend has Hashikhi, nine transistors, two bands. Since Christmas he has gotten JOBK and YVOD-780. I started DXing 11/59 with the HQ and have done OK. So far, 450 different stations, 43 states, 15 countries (U.S., Canada, Mexico, Cuba, Virgin Islands, Swan Island, Colombia, Guatemala, Nicaragua, Japan, Okinawa, Red China, Philippines, Australia and New Zealand.) Veried about 110, seven countries, 38 states. Best veries: WTYC-1150 Rock Hill, S.C. CE said "This is the first time we have received a report from that far away. Your information was 100% correct." Japan, JOQR-1130, 50 kw., Tokyo, veried by five very colorful cards. Heard 2-2:30 a.m. PST, 4/4/60. Also JOKD-1070, Kitami, verified after six months by QSL. Other Japanese heard: JOBK-670 JOBB-830 JOIB-750 JOLB-870 JONR-1010. Australia: 4QN-630 5RM-800 3LO-770 2GB-870. New Zealand: 1YZ-800 in like local Mondays, Kuming, Red China-700 135 kw. twice, 3/7/60 2:20-2:30 a.m. and 11/20, 4 a.m., S-9 plus. What happened to Alaska? Haven't heard them for over eight months. Oh yes I got Japan on 780 and 990, but don't know which one on that frequency. Maurice Ashby- I also received unID SS on 697 kc/s 4:20-4:40 a.m. PST, played semi-classical music with cultured announcements in Spanish, but no ID. Help anyone? What are the Weyrich and Jones Logs, and where can you get them, etc.? Glen Kippel, what happened to your 50% foreign station log? Sent check 9/8/60. Jim Critchett, I can't find your phone number so would you call me at JU3-1449? I would like to thank Pete Taylor of KHVH and John Callarman of KIXZ for help and interesting veries. What's wrong with summer DX? Last summer I got 1YZ and 3LO. Does anyone know if KOMA KIMO KHBC KULA verie? This DX location isn't very good. We have 27 150' Eucalyptus trees that seem to absorb signals. They're neat antenna supports if you can climb 60' straight up without using any branches. A mysterious noise comes on about 4:11 p.m. and lasts to 6 a.m. It drowns out reception for about four miles around. (Welcome to NRC, Earl, and we'll be looking for more. Had to cut you at 30 lines. ed.)

Wayne Plunkett - 124 John Street - Weston, Ontario

Before I get into the DX which has really improved the last couple of days, I want to mention that I called on another of our new members, George Kuycke, during the holidays. He has a tremendous collection of Canadian veries including every province - about 130 in all, I think. The night I was there (Dec. 30) the Cubans and some other ~~Caribbean~~ were flooding the dial while on my car radio all I could get were the usual powerful U.S. group. On Jan. 20 after getting my fill of Inauguration Day ceremonies I turned on the car radio (my best at the moment) to find the band literally flooded with DX. All the following stations were received between 4:30 and 6:00 p.m. WEAM-1390 Arlington, Va., WTOD-1560 Toledo, WCYB-690 Bristol, Va., WGOH-1370 Grayson, Ky., WMAZ-940 Macon, Ga., WANY-1390 Albany, Ky. plus scores of others not IDed. In addition, between 5:00 and 6:00 p.m. there was a mess on 930, almost always exclusively WBEH property. Positively IDed under, over and between WBEH were WRRF-930 Washington, N.C. and WIST-930 Charlotte, N.C. As usual when CX are too good (!) there were a number of puzzlers. Two of these were 1590 Johnson City (what calls and what state?) and what I'm pretty sure was WJFG-1440 (where? I see there is WJPG-1440 Green Bay, Wis. but I don't think it was they.) Then between 1:00 and 1:30 a.m. Saturday morning a new one, WAIL-1460 Naton, Rouge, La. was heard. Also KWK-1380 St. Louis, 690, Western U.S. (probably KHEY, El Paso) and what sounded like KDAL-610, Duluth through WIP/WTVN ness. Then KNX and KFI Los Angeles were heard in the clear for the first time since last winter. WHBQ-560 Memphis and WATE-620 Knoxville heard weakly practically every night were coming in like locals around 1:20 a.m. On 710 there was a real fight between KEEL Shreveport and WHB Kansas City with no sign of WOR. Then finally at 1:30 with 550 kc/s. clear, K TSA-550 San Antonio was heard weakly. So for the day, six new stations were heard as well as quite a few not around for a long time. Now as I am writing this around 10:30 a.m. Sunday the 22nd KXEL-1540 is putting in off and on the equivalent of a good nighttime signal. Best of DX to all and remember the cry, Hamilton in '62! (Johnson City on 1590 is WJSO, Jonesboro, Tenn., very close by -ed.) LET'S CONTINUE TO HAVE LOADS OF MUSINGS REPORTS, GENTLEMEN! PLEASE DOUBLE SPACE!

Ralph M. Johanns - 11 East Chippewa Street - Buffalo 3, New York

CDT supplement, CHAK-860 1,000 w. on 11/24/60 Inuvik, NWT. CFBC-930 10 kw. D, 5 kw. N DA-2 on 11/18. Received v/c fillin marked 24 hours by CKRC-630 Winnepeg, Man. V/1 by KIMN-950, 5350 W. 20 Avenue, Denver 14. (P.O. Box 1408, Edgewater Branch) and coverage amp, R.L. Fehr, SM. KIMN is a DJ station but between 12-3 a.m. runs public service, NX and feeds from network. Silent period, Monday 3-5 a.m. MST. Opened in 1922 and at night directional N-S-E. She thanked for the remote area (!) pickup. (Francis, tell her thanks). WABY-1400 the Voice of the Capital District, E.L. Trudeau GM for the Eastern New York BC, Albany, N.Y. My 1945 verie is differant. From WPTS-1540 Midway BC, offices at Pittston, Wilkes-Barre and Scranton, now located WPTS Bldg. 83 Foote Ave. in Duryea, Pa. Opened 6/21/53. January s/off is 5 p.m., February 5:15. S/on 7:30 on 12/31. From WFTC (World's Foremost Tobacco Center) 960, 204 East King St., Kinston, N.C. (P.O. Box 330). F/c is first Monday 12:00-12:10 a.m. EST, s/on 5:30 a.m., Sunday 7, to 11:03 p.m., 5 kw. and directional 1 kw. night has a three tower array to protect CHNS CKWS KFVS WBOC WBRC WDBJ WELI WRFC WSBT. Wow! Coverage map and 24th year of progress page, mentions 1/1/57, Connie B. Gay's Town and Country Network bought station and their location is in Arlington, Va. From "The Station with a Punch" (a hand in boxing glove) WACK-1420 110 E. Union St., Newark, N.Y., The Rose Capital of America. CE is from Lockport, N.Y. v/1, also a Weckogram. F.A. Ciccoricco helped build station October '57, is now a Consultant, Ed Cole CE left August '60. Canandaigua studio only for remote broadcasting in area an XR is two miles West, remote control. Weekly s/on 6 a.m., Sunday 7:30 a.m., January s/off 5 p.m., February 5:45, PoP once a year. Future f/c between 12-12:30 a.m. on 3/23, 6/15, 8/31 and 12/14. Am hearing the wolf now on 1490 kc/s. (WOLF), WKOP-1360 and CKOC-1150 ANing. Also WHBQ-560 but WRDW-1480 s/on at 4 a.m., so does that WKYR and I listened to piano notes for 20 minutes on 1270 kc/s. Lefty did better. 1/10- WSSB Durham N.C. AN through a TT and WBCB AN at 3:44 a.m. 1/9- WPON-1460 s.on 5 a.m., at 5:15 WRAD. Lately heard ex-1240 WKBR Manchester N.H. on 1250 kc/s., RS after 5:20 a.m. Lefty, does BK, Avenue T give you any v/s? (No -ed.) Your WFLI-1070 Lookout Broadcasters has Cyril G. Brennan GM, CE in Chattanooga listed by Broadcasting Yearbook. To shoe buyer from H-62 Main St. divides East from West, I'r two houses East, you were at 18 West. Tell CHIQ to answer and CKOC to stay silent Mon

Larry Godwin - Baker Hall - Box 73 - Boulder, Colorado

Hi gang! Greetings from snowy Colorado, which is just what Boulder is like today. The NRC DX Calendar is really shaping up! I just wish I could hear the stations through damn static. A few more lists of r/cs have been received - thanks fellas! I will complete the list over the semester break, beginning 1/28, so the list will be upcoming soon. This next term I will try to do some work on the CPC. By the way, no vacation this summer. I'll be holding down a five-and-a-half-day-a-week job and working all my spare time toward the Convention. Don't forget to make your plans NOW to be in Amarillo over Labor Day Weekend for the fun. Bring your families, too! Anyone arriving by plane, train, or bus will be met if you will just let me know in advance. Among other things we are planning a picnic in Palo Duro Canyon, 25 miles from Amarillo, and of course, the trip to Del Rio to visit KDLK (and XERF) a week before Labor Day. Make plans now! Three final exams down, one to go, at this stage of the game. So far I'm one for three, but I hope to wind up with a .500 record, and a 3.0 average! Yep, see you in Amarillo, Murray Mann, and every NRCer who wants to enjoy the fun! DX NEWS looks better every week; receiving my cpes really makes me lonesome for the Texas 73. dials, and Chknow more than ever that my heart and soul are really in radio for keeps.

Charles P. Atherton - East Slough Road - Harvard, Massachusetts

May I take a small space in Musings to thank the many NRC members for their cards of good wishes while I was in the hospital for major surgery last spring, for the many Christmas Cards and for the personal visit from Hank and Clara Tyndall, who drove down from Burlington one Sunday to visit. Thirty years we have known each other by letter and we finally met. Also to Fred Burleigh and Ev Roberts for their phone calls, and Hal and Caroline Williams for their continued interest, many cards and letters. To all many thanks from Carolyn and me. Am sorry to report that after 36 years at the dials I have hung up the earphones for good I am afraid, as health and business must come first. I shall read with interest what you others are doing, of course, as it is a great source of satisfaction to realize how many good friends I have through the NRC. X here like Greenland, 28 inches of snow in the Inaugural Day blizzard, followed by -15° Sat., -28° Sun. and -24° today. Brr. Letters from Stone, Edge, Williams, others buried in pile; will be answered in turn. Thanks fellows, and good DX to all.

Hal Williams - 50 Third Avenue - Seymour, Connecticut

I noted several questions asked by NRCers in the 1/14 DX NEWS so I attempted to answer some as best I could. Sent Carroll Seth the QTH of Joe Knack so can mark his #1 New Year's Resolution as "completed," hi. Also answered Art Fregeau's query anent WBZ/WBZA and a card to George Greene, Akron, to straighten him out on the difference in time that daytimers in various locations in the same time zone use in signing off. Location and not frequency is the governing factor here. Also a note to our new NRC pàdice officer, Richard Brown, Baltimore. To those of you who reside in New England, Northeastern New York, and the Eastern Canadian Provinces, if you don't log VOUS-1480 Argentia, Nwfld. especially easy on Monday AM, it will be your own fault as that 50 watt station puts in a whale of a signal here and at Burlington, Vt. Hank Tyndall reports they "hit the pin" on his S-meter for a solid hour and nearly everyone along the Eastern Seaboard should be able to log 4VE-1035 at Cap Haitien, Haiti and YNOL-825 at Managua, Nicaragua. My trick at work (10 p.m. to 6 a.m.) prevented me from trying for the 1/16 DXes but fortunately WSAJ-1340 was verified long ago but I sure would have given a try for KBZZ even though I don't believe they would have gotten through the 1400 QRM. My 62nd birthday, 1/16, wasn't a complete loss as a nice QSL card was received from 4VE verifying both my 1/1 and 1/2 report. Sent airmail for #2 from Haiti on BCB. The needed DX from KAGO-1150 on 1/23 found me at the dials with my fingers crossed, hoping that either WCOP will be silent or that KAGO can break through. WCOP was off but an SS, unknown, completely covered the frequency. The AM was good as four new calls were logged. WHOL-1600, Allentown, Pa. f/c-TT 1:00-1:15 and WRAK-1400, Williamsport, Pa. f/c-TT 1:15-1:30 both r/cs per lists. Next KGBS-1020, Los Angeles, on RS 2:22-3:00, ex-KPOP/KFVD, both verified and WGUS-1380 at 4:00 a.m. s/on, thanks to Len's list. Also 1/23 brought me a QSL v/1 from YNOL-825 for a new verified country and I heard YNOL in English 10:30-11:15 p.m. s/off on 1/23. See you in two weeks.

Dave Holden - 7526 South Colfax Avenue - Chicago, Illinois

Now have 711 heard and 244 verified so it looks like I will not reach the 750 goal I set for 2/1. Only have ten days left. 711 isn't bad for two years though. Some DX. 1/3- WIL0-1570 at 8:03 a.m. 1/6- 2:02, KELO-1320 s/off and at 2:36, WNUE, ex-WFBS r/c Twilight on 1/6, 5:58 p.m., WTAY-1570 s/off. 6:02 p.m., WPKY-1580 s/off. 1/7- 1:32, KMAE-1600 testing and asking for reports. 2:42, 1390, KJAM test. 3:28, WAVY-1350 under WADC; 3:35 1580-WJUD test. 4:01, 1440, WEZJ, ex-WEJZ test for a new call. 4:19, 1250-WNTT RS. 4:49, 960 WPRT testing. 5:02, 1580 WMTL also testing. PM on 1/7, 6:58 WPPA fighting with WSAI for a much needed and wanted one; likewise with CKLC over KWK at 7:08 p.m. 1/3- Who held f/c on 1360 at 2:19, said would s/on at 3:30 at 1:20 and SSB played at 2:21. 2:50, WARM-590; 6:59, 1260 WCLO s/on and at 7:00 WEKZ s/on, same frequency. 7:03, WBTO-1600 s/on. 7:18, 1380 WITE RS. 8:02, KWCO-1560 s/on for a goodie. 1/11- 12:32 a.m., WALG-1590 s/off hard to read. 1/12- 12:25, WGAT-1050 r/c; 1:50 WOLF-1490 under, over and through WOPA. 1/13- 6:59 p.m. 1400 WDS. 1/14- 1:10, WAAP-1350, another new call, test. 1:19, 1430 WFHK test. 1/15- 1:01, 1590 WMIC testing past 1:40. 1/16- None of the DX Specials but at 3:30 I heard KIRL-1070 for still another call. 1/17- 1:03, WKAZ-950 s/off. Received Broadcasting Yearbook and was not disappointed. Gives stations by call, state and frequency, names station personnel, has FCC rules, NAR code, Caribbean area stations, how to apply for station, etc. Real bargain at \$4. 73 till next week.

Dennis Jarrett - Route 2 - Box 79 - Ashland, Kentucky

DX starting to come in sepecially around sunset. Sitting on 1070 listening to WIBC around 5:50 p.m. EST and was surprised to hear WFLI on a test when WIBC suddenly went off the air. Then at 6:00 KIRL also heard while WIBC was off. Both heard on 1/23. I think that WFLI has started RS but am not sure. I agree with Roy Millar and Art Fregeau that an NRC Log Book is needed. I would gladly help in preparing it as I have a good typewriter, at least I think so, hi. I can't afford \$4 for Broadcasting and who wants to know about market facts, etc., Anyway. Slogan, "Nuff said, now do something about it." Now to DX: Totals, 505 logged, 265 verified. My goal set in September was 300 and I should reach that with some to spare hi. 1/27- WCEF-1050 in at 10:40 a.m. for a hard catch from here. WPUV-1580 heard on top of WVKO at 11:10 a.m., and a surprise in WKIN-1320 at 12:10 p.m. for a fairly good daylight catch. WTIC-1080 in at 6:15 p.m. over WKLO for unusual catch, but not needed. WSAN-1470 at 6:30 p.m. also unusual catch. I would like to congratulate Len Kruse on his lists of CPs and Condition of Frequencies. 73s. (I surely would appreciate double spacing, Dennis -ed.)

Jim Ernst - 163 Coburg Road - Halifax, Nova Scotia

First off, please note new QRA. It's closer to college, work, and quieter! DX, 1/12-CSB81-1571 really booming in for a new country from 6:15-6:58 p.m., and made tape and sent it off by registered airmail. Jan. 13- Took another log and tape of Luxembourg-1439 which was very strong at 1:29-2:08. Then one on 1578 might have been LKF from 2:15-2:28, so hoping it's they, as I sent a tape off - very weak, though. Jan. 16- Might have had a bit of KBZZ-1400 but it's very doubtful; very weak tone broke through the mess at 3:18, so sent report and thank-you. No luck on KWOW - thank-you card to them. From 3:45-4 a.m., I tuned in 1270 and heard HIUA with its piano notes, and heard the same things on 1400 and 1340. So, I have sent a report to the HIU office, with three PP cards, one for HIUA, and for HIUD-1400 and HIUF-1340. At 4:04-4:10, WFOY-1240 was coming in fairly on its r/c. Finally, a real good signal from WRKT-1300 to round out the morn at 4:21-4:38. Veries: NONE! Just listening to a buddy of mine interview Buddy Knox over CKEW, Buddy from Happy, Texas, and talks like LBG to the T, he's down here on tour. We're getting the blizzard you got yesterday (Thursday), Lefty. Happy shoveling. Now, a few comments from me. To the LA problems, you'll note above that I sent PP cards to the HIUA office. Had they answered, they most likely would have said "We verify your reception of "Radio Caribe" in San Juan, Jiamini, and Santiago." No mention of power, frequency, etc., as I believe was the case when C.M. Stanbury received his verie. So if they send the cards back, I've got everything there. Besides, it costs too much money for f/ups and if I've got the inclination the station might not answer. I'll send a card along with my report. The only reason I've been so persistent with HIF and LR3 is that others have gotten letters from them, I believe stamps are better and just got eight from a Venezuelan friend of mine at college and ordered the rest from Stamp Service. That's it - get well, Hubert!

Ernest J. Wesolowski - 1416 Pasadena Avenue - Omaha 7, Nebraska

Hi-ho all you DX fans. DX around this den has just been pouring in, but I have not been around to catch it, hi. Only logged two new stations in the past two weeks. They are stations KPOF-910, Denver, Colo. with their s/off at 10:45 p.m. They were heard on the 15th. Then on the 23rd, Station KOCA-1240 in Kilgore, Tex. was heard while on RS at 3:30 a.m. This week, sent reports to KIRL-1070 Wichita, Kans.; KNBC-680 San Francisco, Cal. and a third report to KTHS-1090 Little Rock, Ark. This time I wrote to the nighttime announcer and asked him if he could get the CE to verify. Maybe the 10¢ will help. It usually does on a f/up. Oh yes, almost forgot the YNOL verie from Nicaragua and WVLK-590, Kentucky. I need some help on this question about the Loop Antenna some of you members have. How and what do you use to hold the Loop in place? Mine is very top heavy so I must hold it in my hand while using it. On Wednesday, I received my new 1960 Broadcast Yearbook Issue. I like it very much as it helps in logging some stations. It is available at Broadcasting Circulation Dep't., 1735 De Sales Street, N.W., Washington 6, D.C. The price is \$4.00 and you must tell them your occupation. I didn't hear the DX from KAGO-1150 in Oregon, on 1/23. Too much QRM. Cold weather in Omaha - there isn't even a temperature, -6°. About one inch of snow. Good DX weather though! 73s, keep warm.

T. Devereux-- R. R. 3 - Alberni, British Columbia

(forwarded by Ray B. Edge) For the last week there has been an unbelievable amount of atmospheric noises on the BCB. This static has blocked out distant stations but WWL New Orleans and WLS Chicago are still coming in strong. The stations that I have v/cs and v/l's from are: KORL-650 Honolulu, Hawaii, WMAQ-670, Chicago; WJR-760 Detroit, WBBM 780 Chicago, WFAS-820 Dallas, WCCO-830, Minneapolis, WWL-870 New Orleans, WLS-890 Chicago, CBW-990 Winnipeg, KDKA-1020 Pittsburgh, KHVH-1040 Honolulu, WOAI-1200, San Antonio, WHO-1040 Des Moines, I have heard some other stations but I have not as yet sent for QSL cards: WSM-650 Nashville, WLW-700, Cincinnati, KOB-770, Albuquerque, WBAF-820, Fort Worth, WHAS-840, Louisville, KAIM-870, Kaimuki, Hawaii, WBZ-1030 Boston, XEG-1050 Monterrey, Mexico and KFAB-1110 Omaha, Neb. Stations that I have not as yet had a reply from are: KGU-760 Honolulu, WABC-770 New York, WCBS-880 New York, KIMO-850 Hilo, Hawaii (1 kw.), WGN, Chicago, and WSB, Atlanta, Ga. I suppose I should get up early in the morning a few times. It might prove to be interesting. My friends who are interested in radio live in town and the reception is very poor compared to where I live. Well, it's late evening and I have got to get my homework done. Good luck in your DXing, everyone. 73s for now. (Please send your reports to Ernest R. Cooper, at the Brooklyn address on Page 1, T.D. -ed.)

Ray H. Kraul - 6423 33rd Street - Berwyn, Illinois

DX progressing at a steady pace, nothing outstanding, but enough to keep up the interest. Plenty cold WX! DX is as follows: Jan. 21 (Saturday), KCL0-1410 repairing equipment and testing 2:00 to 2:25 and on; KXGI-1360 TT 2:21-2:28 and very strong. Monday 23rd, did not hear KAGO DX as DX to West not so hot. Did log WLEU-1450 and way on top 3:30-3:45; KLRS-1360 with ET 4:50-5:05. Heard three r/c per list on Wednesday 25th, KWSK-1570 after finally catching XERF on a so-so night (for them); WGEA-1150 with lots of Mexican QRM. Finally, KROX-1260 tough with all sorts of QRM. Noticed WMBD-1470 was off last Monday AM, which is good news for Illinoisans. I think the area around here is as tough to log graveyarders as any other, to wit: 1230, WJOB Hammond AN seven nights; 1240 WEDC AN seven nights, 1340 WJOL AN except Wednesday and WRIT AN then; 1450 WHFC AN except Mondays, 1490 WOPA AN except 2-5 a.m. Mondays local time. Only fair frequency is 1400 after 1:30 weekdays and midnight Monday - that's when WGES-1390 s/off. Usually WJET powerhouse when all is quiet on 1390. Oh well, I guess that's better than images all over the dial. Veries in from WAFC WYAL KDTH KYND WLEU KCLO.

Hank Wilkinson - 6620 Beeman Avenue - North Hollywood, California

Jury Duty almost over and in a way I'm getting impatient to get back to the regular activities of life. It has been a good education in basic fundamental law, though. May come in handy some day if in my wife or some of our friends have to go to court some day. No DX here to speak of even when I turned the dials several Monday mornings. The noise level has been very high - at least when I was at the dials. Japanese reception was rather good, however, on Monday morning, 1/23. Eastern and Western signal quite strong. Southern signals very very poor. Recent veries from JOTQ TIFC JOQB "Radio Cima" (Costa Rica on 1005 kc/s.) and RJR in Jamaica on 720 have made the past week quite nice, however. No new reports out. I wish to thank all of you who are continuing your interest in "Supremacy Ratings" PLUS the members who are inquiring as to what is necessary to be listed. I wish to point out again at this time that this is NOT a contest. It is a "ladder" to climb as you put the DX years behind you. I am very interested in a CORRECT ADDRESS and possibly a v/s on PJA-10. I've tried just about everything on this station except a phone call. I'd like to hear from anyone who has heard from this station. Thanks. Have received a lot of FINE mail on the LA situation and the opinions, ideas and suggestions forwarded have much merit. Are there any more who wish to come forward on the subject of verifying LAs before I draw up a consensus of opinion? I will compose the forwardings and pass onto Ray Edge who will either buy it or not before submitting it to the bulletin to be published. This is not to be a personal opinion in print from yours truly. I want what everyone wants; that is, an improved method to secure veries from LA stations. One thing for sure, Being polite is important, as one member stated. Hank Tyndall's reply was well put and covered all the important points. I liked his use of the words, "pertinent" "Persistent, "persuasive" and "polite."

(no name)

Fourth report. Heard CFCH-600 through WFRM 15th, report sent. CKOE-1150 AN except Monday AM at 12:00-5:00. 17th AM brought WCAW-680 and XEK-960 r/c 3:30-4:00. 16th, AM so bad I went to bed. Only local signals coming in. Received verifications Radio Swan, says power 50 kw. on 1160. CHEF-1450 in French, and CFNB-550 card. To Maritime DXers, could they please give s/ons of the following stations in their next reports: CJLS-1340 CKEC-1230 CKEN-1350 and CFAB-1450, also CKCL-600. S/ons and s/off: CKSB-1050 7:00-1:05. CKX-1150 s/on 6:58 to 2:00, Sunday s/on 8:58, s/off 1:00. CFRY-1570 7:00-1:05, 1140 CKXL s/off 2:05. CKRD-850 s/off 2:05. CBX-1010 s/off 2:08. 21/1- Heard HJED-820 on top of WFAA and received letter CFCH-600.

John Stack - 1279 Hudson Road - Teaneck, New Jersey

Hi! Veries coming in real nice. WMBR CJBC WAKR KXEL CFOR WARM. I think WAKR has the best verie, real beautiful glossy card. Hey Allen, are you ever coming? The reason I haven't been reporting is because I'm on the school basketball team and it really takes a lot of time out of DXing. I've been experimenting with daytime DXing. Pulled in WLS Chicago, WJJD Chicago and WCKY Cincinnati, at 3:00 p.m. Are any of you boys interested in weather? I'm a member of the American Meteorological Society. Write if you're interested. 74s. (When's it gonna get warm, John? -ed.)

LET'S KEEP SENDING THESE MUSINGS REPORTS IN. WE ARE ALWAYS ANXIOUS TO GIVE YOU A BIG SECTION, YOU KNOW! PLEASE BE SO KIND AS TO DOUBLE SPACE, AND DEADLINES ARE TUESDAYS.

Gerry L. Dexter - 718 1/2 Second Street S.E. - Independence, Iowa

Greetings all. Before getting to DX, would like to remark on a discussion Pop and I have been having. It concerns the poor verification percentage many of us have been experiencing and what to do about it. I have suggested to Ray that the Club have printed some info sheets explaining what DX is and what verifications are. Said sheets would be offered to members at cost (in the same manner as are the report forms and letterheads). They would be sent along with your reception reports to attempt to inform some station personnel who evidently aren't very familiar with the hobby and its aspects. What brought this on was my experience of knowing two engineers (out of two) at KOUR, neither of whom had ever heard of DX or reception reports or verifications. Of course I don't expect this to solve the problem entirely, but I do believe it would help in improving verification return percentage some, and making the DX hobby a little clearer and more familiar to station personnel. Pop has asked me to write the copy for this and I'd certainly appreciate hearing your comments, either directly or via DX NEWS. Now to DX. 1/9- WPOP-1410 with test at 1:13, KYND-1580 with test at 2:09, KDBM-800 with f/c at 3:03, WYAL-1280 4:39 with RS; Radio Trinidad-730 at 4:59 with s/on; YSCB-1175 RS at 8:45 p.m. 1/14- CKRM-980 RS at 1:31. 1/15- WTOT-980 ET at 3:32, WKYR-1270 4:00 s/on, WINK-1600 3:18 RS, WMIC-1590 test at 3:25, KOCA-1240 RS at 4:04. 1/16- WSKK-1600 with test at 1:40, KWYO-1410 f/c at 2:08, KABQ-1350 f/c at 2:23, KGGM-610 f/c at 3:18, WINN-1240 RS at 3:45, HIUA-1270 RS at 3:52 (what power?). 1/17- TISM 1125 RS at 10:30 p.m., and WPCF-1430 RS at 1:48. Veries: KTRF CKX and WYSH. That does it. Once again, let's have your comments on the info sheets either directly or via Musings. 73.

John D. Haskett - 7265 Memory Lane - Cincinnati 39, Ohio

I would like to announce that I have recently gone into partnership with Mr. Donald F. Volkman to form the organization known as Haskett and Volkman, Broadcast Consultants, as a service to broadcasters in the Midwest. Both Don and I have worked for years in broadcasting stations, and the electronic industry and recently decided to offer our services in this more expanded manner. I hope that I will be able to be of more service to the fellow DXers than I have in the past. As business gets better, I hope to be able to devote a little more time to DXing, and would like to arrange some special programs on stations throughout this area. Anyone wanting a verification from WSEW-1590 should write to me. It may take a while, but I will answer. My brother, Tom Haskett, will verify reports sent to WZIP-1050 (assuming they are correct). Carl Dettmar is the man to write for WCIN-1480. Oh yes, being in this new business venture, I'll not have time to write too many letters for a while, but I would love nothing better than to sit down and talk to some of you fellow DXers. If you're ever in this area stop in and see me, or at least give me a call. I would appreciate hearing from the fellows in the Indiana-Kentucky-Michigan-Ohio area, as I do a lot of traveling through these parts, and would like to know where you are, so I can say hello as I go by. I think it would be a grand idea for the members in this tri-state area to have a get-together sometime this spring. INDIANAPOLIS '62!

C. Wayne Alcott - 125 Hill Street - Hampton, Virginia

DX is still coming in. My total on the S-39-E is now 319 with 37 U.S. states and eight countries. My total new loggings for January is 67. Anthony Lagatutta, sure would like to have another get-together. How about it? DX: Jan. 3- XEWW-900 Ayuntamiento RS (night). 1/4- WPUV-1580 Virginia RS; FLBA-1580 Georgia RS (twilight); WLAP-630 Kentucky RS; CKKU-630 Cuba RS; CBMC-690 Cuba RS; CMCF-910 Cuba RS (night). 1/5- WNAC-680 Massachusetts RS under WPTF. 1/6- WCYB-690 Virginia RS (twilight). 1/7- WTIC-1080 Connecticut RS with R'n'R (night). 1/8- CMKV-600; CMCU-660; CMCA-730 CMBZ-830; CMBF-950; CMBQ-1010, CMCF-910; CMCI-1260, CMHY-1590 all in Cuba; CBF-690 Quebec in French with English IDs on the hour; XEDU-860 Durango; WALB-1590 Georgia. 1/9- CMKI-560 Cuba XEHJ-760 Guadalajara; XEFW-810 Tamalipas; XEPR-1480 Veracruz. 1/10- WCEM-1240 Maryland 1/11; WEVD-1330 New York 1/12; WBTM-1330 Virginia. Got eight new stations on 1/1 between 12 and 3:30 a.m. which are: WFST-600 Maine at 12:15 with r/c; WHEB-750 New Hampshire RS; WHDH-850 Massachusetts RS; KOA-850 Colorado s/off 2:02 a.m.; WOAI-1200 Texas RS; WHLF-1400 Virginia RS; WHHH-1440 Ohio; WFTR-1450 Virginia RS 1/15. WLES (?) on approximately 580, not R'n'R station (where is it, how many watts does it transmit? WEMD-930 Maryland RS; WNRV-990 Virginia RS; WAQE-1570 Maryland (day). 1/16- WYCL-1580 South Carolina RS (twilight). 1/17- WMFR-1230 North Carolina RS night. 1/18; CMCY-550 Cuba RS; CMCD-760 Cuba RS; CMCK-980 Cuba RS (night). On Jan. 21 I found (Page 9)

February 4, 1961

D X N E W S

Page 9

(Wayne Alcott) eight new stations between 1 and 4 a.m. which are: KTSA-550 Texas RS; WHBQ-560 Tennessee RS; KOB-770 New Mexico RS; KNBC-680 San Francisco RS; CHML-900 Ontario RS; WTRY-980 New York RS; WKOP-1360 New York RS; KLRN-1400 Colorado with 250 w. Jan. 22- WESC-660 South Carolina RS (day); WOKJ-1590 Mississippi RS (twilight). Latest veries: WITMA KLRA WLSC WCMS WBSC WLV WMBR WRVK letters, and WYCE WNOE KOA WNOR cards. Well, better s/fff for now so 73 from 125 Hill Street.

Dan Phillips - Route 3 - 416 Douglas Lane - Clinton, Tennessee

Hi, fellow members. Has been quite some time since I have reported into the fire pages of this organization. Hope that everyone is enjoying a happy DX year. Have logged 12 new stations this year and have sent out about 15 reports with veries in from WRVK-1460 and also WADE-1210 with a very nice letter and comments. Hope that everyone who sent reports to WYSH in Clinton have received your veries. If not please drop me a card and I will get the CE to send you one. We received a total of 13 reports so far. We were going to put on an ET some Monday AM but with WBNX on it is doubtful if anyone would hear us. If anyone thinks they can receive us we will put on an ET and tell everyone in advance. Bob Brock, what is your address? Have lost it and can't send you any mail. DX this year is as follows: 1/2- CJAB AN 800, and WRVK-1460 Kentucky s/on 4:30. Jan. 17 heard the following s/off WBKH-950, WSLW-1220, but not needed, also finally sent report to WCHS-580 after four years of hearing them. Jan. 18- WADE heard at 5:00 and varie received. WKNX-1210 Saginaw Mich. s/off at 5:30, WDOB Canton, Miss. 1370 heard s/off while taking a log on WCOA. They s/off 6:15 EST. WALG-1590 Albany Ga. heard for new call. Jan. 19- Report sent to KREB. Jan. 20, r/c of KAGH at 1:25, report sent to KONO and KERP. Heard KLMR I think but was not paying too much attention because they had such a strong carrier and they got away. Jan. 21: WNIL-1290 Niles, Mich. r/c 2:30 - report to KPRC. Jan. 23- WELM-1410 Elmira, N.Y. heard at 2:05 - what is their power? Have them listed as 1400 kc/s., and 250 watts. WSUH-1420 Oxford, Miss. ET 2:15-2:30, and last heard WBNX-1380 at 3:00 weak here. Jan. 25- WABT-570 Tuskegee Ala. s/off 6 p.m., report sent to WDOB. Jan. 26 report to WHEO. Have gotten me a notebook that flips over and put all tips received out of DX NEWS in it, also while reading DX NEWS I take ball point pen and underline tips not in DX NEWS. 73.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

Only three additions to my DX Log the past week. Station CHIQ-1280 Hamilton, Ont. was logged on Monday 1/23 with its new AN sked; and with interference from AN WVET, but CHIQ was well on top during my nearly hour of listening. The second logging on 1/23 was Station WRKT-1300 Cocoa Beach, Fla. with its RS s/on at 4:15 a.m., and the programming for the next 30 minutes. WRKT is known as "Radio Rocket" and evidently AN WERE-1300 is silent on Mondays, or was on this date, for "RKT had complete monopoly at this den. On 1/26 I was happy to log Station WIRV-1550 Irvine, Ky. with its RS and programs from 7:59-8:15 a.m. The sked DX from KAGO-1150 Klamath Falls, Ore. on 1/23 from 3-3:30 a.m. was not heard, as noted XEJP going strong during most of the period. Were they on the air as scheduled? With Francis Nittler's CPC staff working hard, I cannot urge the membership too strongly to listen to as many as possible of the upcoming DX Specials; some really fine stations, needed by mostly all of us, are on the DX Calendar, such as WFDR WTTT WMMH CFCL WRIP etc. Latest verifications were letters from WAYR WAXU KYND KBZZ-dx and a PP card from WCLE.

Bob Kalish - 2214 Avenue T - Brooklyn 29, New York

DX here continues in a rip-roaring fashion, hi. On Saturday AM 1/21 logged the needed WTTN-1580 in Watertown, Wisc. with 1 kw. ET at 1:15. PRH-9-340 in Sao Paulo was blasting in, so one hour log taken. On 1/22 loggee the s/off of RJR-580 at 1:02 a.m. with GSQ. WMOR-1330 in Morehead, Ky. logged with 5 a.m. s/on weak with heavy QRM from het of CMCB and Colombian, loop ineffective. Monday 1/23 was great. At 2:55 noticed station way above SESM-1470 - thought it was WMBD but I almost collapsed when I heard the announcer say "This is KXOA and KXOA-FM, in Sacramento." After their s/fff off tuned to 1300 and got s/off of KYNO Fresno and KROP Brawley with nice signals. At 3:15 I definitely had an English station on 1150 behind a TT, WCOP and XEJP off, tentative off to KAGO but I did hear a K on ID so almost positive it was they. Veries have been fine with ones in from KMGH-730 mimeo, letters from WWON WKLW WYAL WGML WXMT with carbon from WRKT and view card from WIVI. The snow here continues to fall, inches a day whee. Lefty tells me that WATE-620 is off AN every night - great! WBNX still continues with Cha-Cha from 11 p.m. - 6:30 a.m. seven days a week with NO sponsor - guess they want to go broke, hi. Until next week, 73.

Mike Silbert - 100 Winston Avenue - Hamilton, Ontario

Hi all! First off I had about eight letters to answer and I seem to have lost them, so if you wrote me sometime between Dec. 21 and Jan. 21 I must apologize for not answering your letter. DX has been tremendous here. On January 8 new stations were WCHB Inkster, WRIV Riverhead, N.Y. s/on at 6:00 a.m., WMGR Bainbridge, Ga. on RS at 6:27 a.m., CKRC Winnipeg at 6:45, WWRL in English at s/off and KXGO-790 Fargo N.D. for my second North Dakdan. Jan. 9 produced even better results with WHOM f/c 12:50 a.m. for my umpteenth N.Y.C. WCFR Springfield, Vt. with a whale of a signal on their f/c for my first Vermont. Also WMFJ-1450 Daytona Beach for my best 250 watt catch, WRDW on RS at 4:11 a.m., WOPI Bristol Tenn. testing at 4:27 with a fair signal, WKIN at 4:57 s/on and my second Springfield station for the morning, WBLV 5:01 s/on for #11 on 1600. On 13/1 got up just in time to log the s/on of WPLH in Huntington, W. Va. 16/1 This morning was one of the best AMs in a long time for DX with three new states logged. New ones were WDEL 12:30 s/off for Delaware #1, WCLI Corning N.Y. on f/c at 1:20 with CW and voice IDs, WBNX easy on AN show at 1:30. KBRK Brookings S.D. r/c for South Dakota #1 logged well through semi-local CKFH. At 2:03 I caught KSL's s/off for Utah #1 and when their carrier went off at 2:05 I got "Cuba's Minute Man" hi. Also in very well was "Radio Variedades" with an S-6 signal after CKOC s/off at 12:00 midnight. Caught the end of WGGO's f/c at 2:15 23/1. This is the kind of day that DXers look forward to. New ones heard were HJAT-1080 for my first SA with an S 7-8 signal and positive IDs on the hour and half hour. On 1070 I heard what sounded like a parallel station to HJAT. Could this be HJZ in Medellin? I noticed in the FBIS Log that they both have the same slogan and owner. Also in was WLAP Lexington, Ky. This brings my log to 316 BCB stations heard, 137 verified, 39 states and four provinces heard, all states East of the Rockies heard except New Hampshire and Mississippi. Have heard seven countries. 73s from CONVENTION CITY '62.

John Sampson - 570 Prospect - Hutchinson, Minnesota

Hi all. Am now submitting one of my semi-annual reports. DXing has been curtailed somewhat here by a lot of work, but what little I have done has been profitable. Latest veries are WIBG-990 heard 1/2 at 3:30; WHDH-850 heard 1/2 at 2:30, KTRB-860 heard many mornings about 8:30; WMBI-1110 heard many afternoons about 5:00; 4VE-1035 heard in the evening about 11:00 and is good here about twice a month. Others heard recently are 4WW-1325 1/10, WTCB-960 at 9:00 p.m. on 1/17, RJR or whatever the Jamaicans are called on 750 and 700 with cricket games at 2:00 on 1/2, WZD-1050 at 6:00 s/off on the afternoon of 1/21 and WHCU-870 5:45 to 6:00 (?) s/off. To those who are talking of hot daytime reception, I have some to add from the Gopher State - these times in EST: 12:00 noon, KYW-1100 and KDKA-1020, CBL-740 WRFD-880 with WCBS weakly underneath. On 1/22 at 1:00 heard KLCN-910 WHAM-1180 at 2:00, among others. All of this to say that the North country is really a good DXing location. Only trouble, local (daytimer) KDUZ gives a lot of QRM in the day. Tough life, huh? My sympathies to those in Omaha (hi, Marv!) Right now, it is colder than heck here, 10° below and a 30 MPH wind. Oh well, that's not so bad - supposed to be -20° tonight. Help! So that's all for now. 73.

George Greene - 1527 Sunset Avenue - Akron 19, Ohio

Hi all! HAMILTON IN '62! Band again seems open to the South. New stations are: 1/20 WMBD-1470 WPLO-590. 1/21- WFAH-1310 WCTT-680 WCAO-600. 1/23- TGUX-1020 WOLF-1490, WJET-1400 KWFT-620 WGOV-950 WRFC-960. New reports are WVLK-590 WCTT-680 KWK-1380. Veries are scarce. Only one back this week, WLAP-630 in Lexington, Ky. Got them while they were having a basketball game at 10 p.m. KWK was unusually clear on 1380 on 1/23 so I decided to get a report to them. WVLK's report was also for the same reason. WCTT was received very well so I sent them a very detailed verie. Heard them for half an hour. I heard WMBD-1470 and WPLO-590 within the same hour. WPLO was heard because I was looking for WVLK. However the DJ mentioned Atlanta several times and then said it was WPLO. On 1310 I couldn't ever get a local, WFAH because of too much pilepp. On 1/21 they were in the clear though. On 1/23 I got both WJET-1400 and WOLF 1490. That's very unusual as the graveyard channels are dead at night. KWFT-620 was over WATE for about 15 minutes. They had a very good signal while in the clear. On 96 at 5 a.m. I heard DIXIE very strong and they s/on as WGOV-950 in Valdosta, Ga. Last night and tonight I heard WNOE and WLCY. I haven't heard them since 1/7. WNOE didn't change pattern until about 6:22. Wonder why this happened? Usually they change at 6:15. WLCY was in very clear yesterday with RS. Their usual messare before their pattern change was cut as they changed too soon! Remember it's HAMILTON IN '62! Well, more next week. 73s to all.

Henry T. Tyndall Jr. - 285 North Street - Burlington, Vermont

Latest news here is completing the States again. Hawaii no problem, had 14 as a Territory, KKAA and KORL for #6 and #7 as a State. Has 21 Alaskans since 1927 but when they became a state I was worried. Took a weird November AM to do it. Signals from South weak, West Coast weaker, even WLW weak. Yep, that's when KICY-850 decided to come into the fold. Bless this sun-spotted season, it's crazy, man! Back in the 20s we all used "barometer" stations. Mine was KGO. Turn on the Zenith and if KGO was weak, back to bed. We had a lot to learn. Also big news, 300th Texas verie in. 200 vlass includes California 260, New York 225, Pennsylvania 205, then Florida 176. Ran across a carbon copy of a f/up to CZE, Mexico City in February 1926. Third try and so we were shoving out postage and f/ups 35 years ago! Nothing is changed except you get more stations now and so you have to write more f/ups! Looking over a copy of Radex, April 1936, picture and article by Warren Routzahn and picture of Robert H. Weaver, President of NRC. Warren is tuning in a mantle type radio and the darn cuss did not look any older when I saw him in White Plains. Alfred Oppel deplores the "AN menace" of a dozen stations that stay on most of the night - claims that it is hard to verify LAs, imagine that! Been making new Log Books since last November, one for Canada and U.S.A. with no skeds copied from Weyrich as they are out-dated. Plenty of room on left (call) side for call changes and spaces for new stations between frequencies. I used Weyrich Log, kept current all through the years, Washington Broadcasting Log and WRH. Made one for Cubans, Mexicans and all the rest of the LAs and it is a beautiful layout, far better than in one book. A heap of work to do it but it is worth it. To Roy Millar, your Tchad reference must be for the note in the NRC 3/26/60 DX NEWS. Dave Thomas reported Tchad during a solar eclipse "10/2." I heard and confirmed them 10/11/59 after midnight, don't remember if the moon was full or not, but I wasn't, hi! Tagged along with the rest and confirmed VOUS. The boys are right, the old one was Air Force and this one is Navy. Been hearing them since last spring. They sound like 5 kw. instead of 50 w. Lefty, WKVT finally veried, took most of a year. Nearing 30 lines. Our ski resorts are praying for snow. They get it everywhere but where we can make money with it! 73, Hank.

Roy H. Millar - P.O. Box 778 - Bellevue, Washington

First, back to Jan. 9th. ZNS-1540 Nassau definitely IDed at 6 a.m. s/on, just ahead of KXEL; this one I wasn't sure of until some research and comparison of notes with another DXer, but now definitely claim Bahamas as a new country logged. Further DX since last report: Jan. 22- KIXL-1040 Dallas, Tex. ID s/on 8:30 a.m., still audible, although very weak as late as 9:35 a.m. Appreciate KHVH's being off Sunday AMs! Jan. 24- TIAC-1025 "Radio Fides" in San Jose, C.R. 6:25-6:30 a.m. for a very brief showing; no sign of HOU which I haven't heard this winter. Veries: XENU-1550 (250 watt emergency XR) KMGM-730 WKAI-1510 (250 w.) and TICCN-1005 "Radio Cima" San Ramon, C.R. Said KMGM verie was New Mexico #14 out of 22 logged. Best from the state, verified, are graveyarders KLMX-1450 KNDE-1340 KOBE-1450 KGFL-1400 KVBC-1240 KRSN-1490. Logged but not verified include KALG-1230 KSIL-1340 KTNM-1400 KENM/KLOS-1450 and KRTN-1490. Unlogged, and on the air number 24, including such as KGRT-570 KLEA-630 KPBM-740 KBIM-910 KQEO-920 KVER/KMIN-980 KDEF-1150 KVSF-1260 KRZE-1280 KARA-1310 KENN/KHOB-1390 KCHS/KTRC-1400 KSYX-1420 and KHAM-1580, so lots of work left for me in DXing the state of New Mexico, also known as "Maguireland!" The needed KAGO-1150 DX was blocked out by local KAYO ET so still have at least seven unlogged in Oregon, plus KGRL-940 and KWAY-1570 logged but unverified. Totals in Oregon are 82 logged, 75 verified, with KBPS-1450 considered as my best Oregon DX. Heard a rare one here a recent evening, although not needed; 'twas CJBC-860 shortly after midnight and completely dominating 860. Sure I'm still looking for CHAK! 73.

Alex Bowab - Box 539 - Atmore, Alabama

The new WLIQ-1360 Mobile went on RS for the first time on January 25. They s/on daily at 6:30 EST. Their format is made up mostly of specially taped music and commercials only every 15 minutes. CE is Frank Reindl. Only verie in is from YNOL-825 for DX-cas of December 26. No DX has been done here except for Sunday 1/22 when I found some good daytime DX. Most of the 50 kw. stations North of here were audible, and the strongest one of them all, surprisingly enough, was WJR-760 way over local CMCD. Others heard were KYW WABC WBBM WGN WLW. Hamilton for '62! Am almost positive I have a DX program to come from KFDA-1440 - will let you know more later.

LET'S KEEP DX NEWS BIG! KEEP THESE MUSINGS REPORTS COMING, DOUBLE SPACED, PLEASE!

Glen Kippel - 905 South Second Avenue - Apt. 3 - Sterling, Colorado

Denver '63! There, take that! No, no DX. Do get in a little SW mornings and afternoons, and that's about the extent of it. Very interested in Anthony Lagatutta's reports of daytime DX. The truth of the matter is that a "twilight skip" type of Sporadic-E peak takes place around noon, local time, but not as pronounced, of course. With decreasing solar activity, it should be easier to hear stuff around noon. Best day reception last season was CBK-540 in solid 100% readable 12:30-2:00, then they had a rather uninteresting program and I tuned out, but I do have the verie, anyway. Anybody know how to hook external antenna into 1000-D? Antenna connector only works on SW. Don't have the manual on it yet. Oh, couldn't get enough in trade for Austin-Healey. Looks like I'll have to settle for a Valiant, hi. No, Alex, I'm not a Beatnik - I'm an Angry Young Man, hi. Say, Ed Satterthwaite, could you send lowdown on BC-433G? A few DXers have asked me how to hook the thing up, and would appreciate the information so as to pass along to these fellows. Vic Jaar in the Dominican Republic tells me "Radio Caribe" took over "Radio Deportiva Handicap" on 860 and dropped 1290 channel. Say, don't throw away your old logs. If you get a new one let me know and I'll find an overseas Dyer who can use the old one. Why not? Hams are doing same with Call Books! Costs only 17¢ to send my old FBIS down to Vic Jaar, so it doesn't cost much. Kick it around, men. Honolulu '62! 73.

J. Warren Routzahn - 231 South West Street - York, Pennsylvania

Just checking in with the little DX scratching from a lazy DXer. 1/9, heard a piano theme repeating on 1270 3:45-3:58, then a band march started but WKYR came on and squashed it. KYND-1580 was good at 4:15 testing. WOPI-1490 had f/c 4:25, WIVV-1370 s/on 4:30 as did WRVK-1460. 1/11- KARE-1470 didn't get by WMBD and others. WPOP-1410 heard for first time but too crowded for a report. Tried for WKEE-800 at 5:15 but found WCHA now on till this time. 1/16- KBZZ couldn't get by the 1400 crowd, KNOW-1600 not IDed, WELM-1410 just logged (shows how slowly I BX) 3:45-4, WGUS-1380 s/on 4 a.m. Lots of tones and carriers on but don't wait them out any more. 1/23- Tried KAGO-1150 but suppose it was CMCA the strong one there so tuned out. KTOE-1420 strong 3:10, CKOV-630 fair at 3:20 and an LA I couldn't ID on 1090 before and after 3:30. Another example of don't pass up a report till a later date is my experience with WSWV on 1570. Tried the channel just before 5:45 p.m. couple weeks ago and heard WCLE very well and for several minutes after they left WSWV was near perfect. Figured I'd wait till the next evening and copy more information as I wasn't quite ready to copy when I heard them. Have tuned to 1570 several evenings since then, haven't heard WCLE at all and WSWV is so far under CFOR and others I haven't tried to copy them. Nice to see so many reports in DX NEWS; you young guys keep the Club alive. Verifs in from KSRC YNOL KXJK WELM WRVK KYND WNIL. 73s.

S. Zachary Simmons - 11685 Guertin Street - Montreal, Quebec

Hello from Convention City in 1970. Only new logging this week is WDOE-1410 at 6:15 p.m. with positive ID at 6:30. Try for it. Wayne Plunkett, I believe your NBC reticulation station is WIRE in Convention City '64. A typed letter from R. Chancey, St.E. at CKPR, Fort William says, "We are unable to run a test for the NRC due to the fact that we broadcast 24 hours a day and s/on at 6 a.m. However, our station broadcasts station ID every hour." Mr. Chancey wants reception reports. The address is Radio Hall, Fort William, Ont. CKPR's power is 5 kw. day, 1 kw. night. Veries back from WCFL-1000 (not the same CE as in 1/21 v/s list) CKPR-580 (letter) and WEAV-960 (card). If you hear a station on 1540 IDing as WPR it's WPTR on its new contest. Make 1962 HAMILTON YEAR. 73. (Welcome to these pages, Zach, and we hope for more! -ed.)

Neil Eubanks - 2902 Monroe - Ararillo, Texas

I can't complain this week about having poor DX. Including Monday 23rd, I have logged 20 new stations including a new state, West Virginia. Before I go any further I would like to report that because of KAYO's ET on 1/23 the DX from KAGO didn't come through. Did anybody hear them? DX the past week goes like this: 1/16- KXXX Colby, Kan. 1/17- KMEO Omaha, WOI, Ames, Ia., WIKY Evansville, Ind., KSJB Jamestown, N.D. 1/18- KECK Odessa, Tex., KBIG Avalon, Cal. 1/19- KSYL Alexandria, La., KGKL San Angelo, Tex. 1/22 WPLO Atlanta, Ga., WAIT Chicago, 1/23- KCLS Flagstaff, Ariz., KWIZ Santa Ana, Cal., KPSG Los Angeles, KCHJ Delano, Cal., KUDE Oceanside, Cal., KAYO Seattle, WITA San Juan s/on, WKYR Keyser W.Va and WIVI Christianstad, V.I. s/on. Has anyone noted the increasing number of OCs Mondays? It's beginning to look like Monday AM is like any other. KWIZ now 24 hours, seven days. That's about it from here so 73s and good DX.

Art Fregeau - 66 Locust Street - Bristol, Connecticut

Hi, DX hounds. DX by dateline: 1/14- WJPS-1330 6:00 s/on. 1/15- WSKI-1240 2:08 RS. 1/16- WSKK-1600 1:05 f/c-TT; WGUS-1380 4:03 s/on; WMTN-1300 4:52 f/c-TT; WOOD-1300 5 s/on; WHWB-1000 3:04 s/on. 1/17- XEK-960 3:35 r/c with music. 1/19- KFDA-1440 1:43 f/c-TT. 1/21- WLEE-1480 2:16, KSO-1460 2:18, WLOA-1550 7:15, all RS. WBOF-1550 8:17 s/on. 1/23- WDWL-1270 f/c-TT @ 1:18; WOLF-1490 3:30, now 24 hours. Also 1/23 the Great Musician on 860 and 1270 (prior to 4:00 WKYR s/on). These are tentatively IDed as HIU-860 and HIUA-1270, Dominican Republic, for country #10. Anybody know their power outputs? These are the stations playing a series of 11 notes over and over again, part of the "Radio Caribe" network. 1/24- WTOB-1380 5:04 RS. So to date, I have logged 499 stations and missed my goal of 500 by 1/20/61. Lefty, one correction in the 1/21 issue. I guess you misinterpreted my abbreviation. Answering J.H. Harding's query, the English (not engineering, hi) sked of Radio Swan, according to v/1 is 6:30 to 7 p.m. EST. My fault, sorry. Reports have been sent out (in the period 1/14 to 1/24) to WSKI CHML* WMTN WSKK and WDWL. * veried. Other veries from WMIC WATE WOWO WKYR, with coverage map, and postcard from WOWW, still on ETs but not on RS. Thanks to Stan Morss and Mike McDonald for the info on WBZ/WBZA. I guess there's always hope for a WBZA verie, without WBZ. No sign of DXes of 1/16 or 1/23. Verie in today from WGN-720. Latest addition to this den is a good road atlas. Don't laugh; it helps, hi. You Texas NRCers might be able to tell me how one can tell whether WBAP or WFAA is on the air. I have a WBAP verie, but need WFAA now. Any help? Latest CPC activity is that KTHS will DX on Feb. 20 from 3:00 to 3:30 a.m. EST and all reception reports will be answered by Bob Hicks, PM. That's it for now. 73s and may the surf of DX roll in high for everyone.

Dick Northrup - 507 1/2 Kimball Road - Iowa City, Iowa

DX fairly good at this den since last report. Veries in from KUKO KITE WMIC WYSH (thanks to Dan Phillips) KRZY KTOO KMGM KYND and KBZZ-dx. Also from WXMT a duplicate. No luck on any of the Specials so far except KBZZ. Doubt if KWOW or KAGO were on as frequencies were clear. 1340 was too crowded for WSAJ, but heard them many years ago and have verie from 1933. The CPC has some dandies lined up and I am very pleased that we can get a few daytimers again. I need all of them such as WRIP WYSH WTTT WFDR and CFCL. Now for some DX from here. Thanks, Lefty, for your ID on HIUA, the mysterious one on 1270. Heard him while trying for CHWK but didn't know who it was. What is their QTH? 1/16- WSKK-1600 West Jefferson, N.C. ETing 1:30 till s/off at 2:03. 1/16- Also KABQ f/c-TT 2:25-2:35 on 1350. Can anyone verify this one? KNEZ heard on f/c-TT 3:04-3:15 a.m. for new one and then the KBZZ Special made it in with QRM from WJET/WJKB. F/c from KARR Great Falls, Mont. 1400 from 4:30-4:40 (ex-KXLK). Verie just came as I write. Nice letter from CE. 1/21- KLEO-1480 6:05 p.m. for twilight catch. 1/23- KEPS, Eagle Pass, Tex. on f/c 1:20-1:33. 1/25- WFLI-1070 Chattanooga, Tenn. on ET 1:00-1:25 with Negro music and songs. F/c from WFCT, Fountain City, Tenn. then heard on their fourth Wed. f/c 2:03-2:15, followed by KPOW, Powell, Wyo. on 1260 from 2:25-2:40. Iowa City is to have a new station to operate daytime on 1510 kc/s. They had asked for 1,000 watts but the FCC cut them back to 250. Don't know when, if ever, they will get going, but not for several months, I'm sure. More soon. Good DX.

Robert Base - 4105 Alto Road - Baltimore 16, Maryland

A model railroader who does not do any operating but reads some of the publications pertaining to the subject is said to be armchair railroading. The same can be said for a DXer who does very little DXing but still has an interest in it and who enjoys remembering "The good old days" of more favorable DX reception, at least QRM-wise. In the recent issues of DX NEWS I have not seen any mention of anyone hearing the new WMHI Braddock Heights, Md., 1370 kc/s. This station went on the air Dec. 15 and is heard fairly well in Baltimore although not as strong as WFMD Frederick which of course has more power. Present sked for WMHI for January is 5:30 a.m. to 5:15 p.m. Just thought some members might like to try for it. I still enjoy reading DX NEWS every week and occasionally I add a new station to my list, which began 30 years ago, even if it is nothing more than a change of calls such as WARL changing to WAVA.

Walter I. Goldy - 4156 East Pima - Tucson, Arizona

Greetings from Tucson, Arizona! No DXing this season, I'm afraid, although I did catch a few before leaving River Forest, Illinois for the sunshine out here. Weather has been wonderful. Best to membership of NRC.

GREAT ISSUE THIS WEEK, BOYS, THANKS TO YOUR GREAT WORK! KEEP IT UP! DOUBLE SPACE!

Francis H. Nittler - 2634 South Josephine Street - Denver 10, Colorado

I did send a report last week but addressed it to Lefty's address and put Denver, Colo. on it so naturally I got it back. Sent it Saturday and got it back Wednesday so too late to report again. Anyhow here is my DX of late. 1/16- The KBZZ-1400 La Junta DX heard well with hour-long program. At s/on at 3:00 KREO Indio completely atop 1400 until s/off at 3:07 and then KBZZ strong the rest of the way. Then no DX until Monday 1/23. I was about to give up then with nothing new heard but then at 5:45 heard s/on of WCTW-1550 New Castle, Ind. with good signal and at 6:00 CBE Windsor for two new ones on same frequency. I haven't been able to hear CBE in the past as KRES has always s/on at same time but note Roy Millar logged them too so apparently KRES has a later s/or now. I also took a log last evening at 7:20 p.m. on KSVN-730 Ogden for report #3 as note Norm got a verie from their CE. That is the extent of DX here as I haven't listened too macy. The KWOW-1600 DX on 1/16 and KAGO-1150 DX on 1/23 apparently were not on as 1600 clear and XEJP only one heard on 1150 and both of these are heard quite often on RS here. Quite a few veries in. A nice letter and coverage map from KZON-1190 Tolleson, Ariz. saying sked is now 5-7 a.m. in Spanish, 7 a.m. to 6 p.m. in English and 6 p.m. to midnight s/off again in Spanish. Coverage map shows they put out all their signal to SW/NE with nulls to SE/NW to protect KLIF and KEX. Got v/l back from KBZZ-1400 in three days for DX and they had heard ffrom seven states already then so apparently got out quite well despite being on a graveyard frequency. WPAP-1570 sent nice letter and WKWF-1600 a QSL card both as a result of f/ups. KIMN-950 is now sending out a very neat form letter on their letterhead and v/s is Jack Merker, their AN DJ so any of you wishing a letter should write him at KIMN. I finally got around to verifying them, hi. I got not one but two picture postcard veries from XEJJ-1550 Jalapa. WIVV-1370 sent a nice letter with some religious program skeds. Got a nice QSL card from WELM-1410 saying mine is best report so far with next best being from Venice, Fla (that you Bon?) KMGW-730 sent a form letter for 1959 report so apparently cleaning out their files. I already had a PP card back from them. Best of DX to everyone. 73s

Ralph M. Johanns - 11 East Chippewa Street - Buffalo, 3, New York

V/l from WNAV-1430 The Capital BC, P.O. Box 829, Annapolis, Md. has no r/c, is 5 kw.D, 1 kw. N with DA due S. A friendly v/l, program and that Long Island Coverage Map, P.O. Box 651, Patchogue, N.Y. has February 6:45-5:15, March 6:30-6:00 with their FM 106.1 running till 10 p.m. Form v/l by WSSB-1490 P.O. Box 8676, Forest Hills, Durham, N.C. has Monday silent till 5 a.m. V/l by WFIW Wayne Co. BC, Highway 15 E., P.O. Box 72, Fairfield, Ill. has no r/c, all year s/on is 5:50 a.m. CST to SS. V/l and auto sticker by WAUB-1590 Auburn Inn, N.Y., Atom BC, f/c-TT is either third or fourth Wed. 4:30-4:45 a.m., DA away from WEHH. V/l and program by WBBA-1580 Pike BC, Pittsfield, Ill. said Ken F., Cleveland Heights also reported with a tape, f/c third Wednesday 6:45-7 EST, February sked 8:00-6:45. V/l and that blue/white v/c by WRVA-1140 P.O. Box 1516, Richmond 12, Va. has Buffalo man Frank Messer as Sports Announcer. Their studios in Hotel Richmond. V/l and v/c by CFNB-550 Radio Atlantic, Frederickton, N.B. 50 kw. DA2 is 24 hours and on Thursdays goes to standy XR with 5 kw. from 12:30-6:00 a.m. AST. V/l by CHNS-960 and coverage map, The Martime BC at Big House on Tobin St., Halifax, N.S. (P.O. Box 400) mentions FM 96.1 with 250 watts, CHNX SW 6.13 mg.s. 500 watts and CJY47 100 watts mobile; 10 kw. DA NW/SE, sked 6 a.m. (Sunday 8)-1:05 a.m. AST. An item on WBBA program was WBBA wants to s/on monthly at 6 a.m. CST but an outdated Fed law prevents it, then suggests listeners to write to Congress for a change of the old law, as day stations could operate during early AM and PM the year round, but not forced to change hours monthly. As a DXer I'll say no/no, don't you think so too Lefty? Have tuned 860 kc/s. several times after 3:45 a.m. for that piano note who s/on at 4 a.m. with an Anthem then gives repeatedly a H--- call and follows with NX. KONO AN with Tuesday AM off didn't help for a Castro station QRMs and on 1/28 CJBC didn't put OC on till 6:09:30 a.m., usually it's 5:20 a.m. and then 5:58 s/on and at 5:29 was "Radio Caribe" programa musicales, at 5:31 a call like Cay-Ah-Essay (or effay) este Radio Caribe, at 5:56 call was like CMAS and at 5:58 and 5:58:30 SSB and at 6 a.m. WSBS Great Barrington Mass. s/on held until CJBC thraw 06 in at 6:09:30. 1/23 CJLX-800 ended a recorded m/c at 3:41 a.m., 1150 kc/s. had CKOC AN off but XEJ(PorS) Radio Valejal was there. 1/24 on 820 kc/s. was loud "La Voz de Rio Cauca" HJED at 5:30, then WBAP took over at 6:30 a.m. s/on. WEBO-1330 s/on 5:28 a.m. and WICU at 5:53. WAUB ended r/c-TT on 1590 at 4:36 a.m. 73. (Ralph, your last week's report arrived Wednesday with 3¢ postage on it, with 3¢ postage due sticker on it -ed.)

Sid Rosenbaum - 806 Market Street - Wheeling West Virginia

Reports out to *WECB-1490 Levittown - Fairless Hills, Pa. for ET on 1/23, 1:40-2:00. 1/26- WSWV-1590 f/c 1:10-1:30. YNOL sent a colorful v/1 decorated with three stamps. WOWI v/1 rates the best letter received for reception in 1960 and KFDF is tops in cards. On the early AM of 1/29 tried leaving the dial on 1230 and 1240 for 30 minutes periods and many stations came to the top briefly, out of the jumble, but only *WCNH-1230 needed. WROV-1240 was on top with NX at 2:15. WCNH-1230 s/off RS at 2:00 with Lord's Prayer to return at 8:00. Plan to try 1340 and 1490 on next session. WX unusually cold for this section, with minus zero several mornings. Sections of the Ohio River completely frozen and navigation held up till ice was broken.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

1/25, I added WGEA-1150 through intense interference from XEJP at 1:30-2:00 and WFCT-1430 doing nicely with its fourth Wednesday f/c at 2:00-2:15. New veries are letters from KOUR-1220 Independence, Iowa, WRKT-1300, Cocoa Beach, Fla. and WFST-600, Caribou.

Jim Ernst - 163 Coburg - Halifax, Nova Scotia

To someone who wanted to know, CFLM, La Tuque was AN on 12/25 on 1240. I heard them and just got a nice verie back. CE wants to know what it's all about, so maybe another NRCer! Lefty, I heard one on 1578 on 1/13 and sent a tape to LKF Norway, as I didn't recognize the announcer either. It's not the Azores though as they're on 1571 and have been heard several nights of late. 1/23- There was more or less of a blackout, and I couldn't get anything in too well with the exception of the West. So when do I get up? 2:58. Figures. Anyway, did bag KROP-1300 Brawley s/off 3 for a good catch an #13 of 14 from California heard from here. Nice when you lose count, hi. Tried the Hawaiian frequencies and could hear KORL behind WSM's TT but not readable. Something behind WHO and could have been KHVH. Gave 1270 a buzz for KNDI and heard a station playing background type music from 3:47-3:53 when HIUA came on with its piano music and then WKYR blotting it out. Signal was about S-1 and sent a tentative to KNDI which it seems as all it could have been, as it didn't sound like a tester and 1270 is clear until 4 on Monday. Fingers crossed. No KAGO DX. On? 1/21- Forgot this one - CX-28 booming in, literally, on 1000 and I took an hour log, plus good tape cuts and sent another report, as all I got was a pennant for my September try. They advertise "Camisas York" a lot, which is a type or brand of clothing, according to my Caracas friend who listened to the tape. 1/23- Moved from 134 Edward with the aid of Doug Murray, which I thought was quite noble of him since he wasn't feeling too well that day, hi! 1/25- First DX from 163 Coburg, and logged HJCG which is now on 1070 and not 1060 from 2:01-2:31, with a tremendous signal. Then when I thought I had XEIQ on 960, from 2:34-3:01, it turns out it was XEHK, Guadalajara, with 250 watts. Report off, and one of the best of the season at 2,880 miles, power taken into consideration. Veries: KMAR WNEB CFLM KHEY (signed my report). Oh yes - watch XEHK on 960, as they advertise Coke a lot, something like five singing commercials in a half hour. Thanks to Terry Liberty, Ernie and Phil for tapes. Jeff, yours is coming soon. Good DX to y'all, and Foxie, let's hear from you! 73s. Like Jello? There'll be lots in Amarillo! 31!

Ernie Cooper - 438 East 21 Street - Brooklyn 26, New York

In answer to Ernie W., my loop is mounted on a base, and has a spindle as it turns, something like a weather cock rotates. A few veries received this week, but still no new calls, unless I heard WMAB-1400 at the opening of its DX. If they started off in Morse Code, then I heard them. WWIN was best signal on 1400 during that time. The veries are in from KYND-1580 WRKT-1300 4VE-1035 and WGHQ-920. Hi Len, I'm going to make you wait a week for the v/s as this week's list is already full, hi! Two Maine DXes OKed by WEGP-1390 and WQDY-1230, and I'm sure most of you need these babies. I am wondering what has happened to the fine regular weekly DX-filled reports from Stan Morss? I hope you're well, Stan! Stan's and Pat's reports were two of the highlights of DX NEWS each week. While I have a little space here, may I suggest that some of you lads who are doing so nicely with your verifications and who don't now send in the signers, change your ways and do so? We have seen many good stations listed in your reports as having verified for you, but the v/s has never been posted on Page 2. When any of you send in your v/s, please filter out the ones which have recently appeared, or which get sent in so regularly, like for example, 50 kilowatt clear channel stations. There is no purpose served in constantly repeating the same v/s over and over! So let's have the good v/s you might have - but only the recent ones, please. And be sure to put them on a SEPARATE SHEET OF PAPER when you send in your Musings as we toss your Musings aside after they are typed and the v/s could therefore get tossed out.

Send "TIPS" To Ev. Johnson-504-16th St, Mendota, Ill. (In EST:

INTERNATIONAL DX DIGEST

Another month of cold snowy weather here in Pennsylvania has come and gone. Plenty of DX too. Several of you have asked about listing DIGEST items by frequency. I seem to remember some reason why it was not practical, but I'm willing to try it. I had to leave Lemoyne early this week, so there isn't much material. It may be a good chance to try the frequency style. Let me know which you prefer.

DX OF THE WEEK

- 650 YVQO Puerto la Cruz, Venezuela, logged for one hour report from 0500-0600 on 1/19. (MWN)
- 719 RADIO FREE EUROPE on this frequency signs off at 1800. The sign-on time is not known. (WRH)
- 790 HJHJ Barranquilla, Colombia, logged weakly behind YVQC. (NNRC)
- 805 TIGP San Jose, Costa Rica, logged at 1815 on 12/24. (NNRC)
- 836 RTF Nancy I, France, logged at 0207 on 1/6. (NNRC)
- 870 HJCE Bogota, Colombia, logged at 1830 with ID on 1/14. (NNRC)
- 880 YV-- Caracas, Venezuela, logged on 12/16 at 2037 weakly through WCBS. (Must be YVKU according to FBIS) (NNRC)
- 900 HJEY Cali, Colombia, logged 1947-1955 on 1/5, weakly. (NNRC)
- 920 TIRH San Jose, Costa Rica, logged at 2115 on 1/9 with ID. (NNRC) (NNRC earlier this year called this one TIRS. FBIS says it is TIRS as does WRH.)
- 1040 4VEH Cap Haitien, Haiti, winter schedule is: Daily except Thurs. 0445-0900. Sat. to 0930, 1200-1400, 1745-1900, 1900-2000 Mon and Sat only, 2000-2330. Sunday 0545-0900, 1300-2330. English 0445-0600 0730-0900 (Sat to 0930) and 1745-1900 except Wednesday. (WRH)
- 1070 HJCG Bogota, Colombia, "Radio Santa Fe", Apartado 9339, broadcasts 24 hours a day. Power 10 Kw. Identifies as "Aquí y en todas partes, Radio Santa Fe, 1070 Kcs. en Bogota, Colombia" or "En Radio Santa Fe la musica es de siempre". (WRH) Verifies by letter.
- 1075 TIFC San Jose, Costa Rica, sent QSL card with frequency, power, time and date heard. Received 1/21 on a reception report of 12/12/60. Letter came regular mail and was dated in Costa Rica on 12/17/60. Slow mail. (HJW)
- 1090 CX28 Montevideo, Uruguay, heard very well on 1/21 from 0203-0233. I taped several good IDs plus one or two spurs and sent it down with another xreport. When I heard them last September and I got was one poor ID on tape. For this they sent me a beautiful pennant but no verie. They should with this new report. An easy S-4 and R-5. Only interference was local electrical buzz. ID is "Radio Imparcial de Montevideo, C. Viente Ocho". Correct QRA is Agraciada 1708, Montevideo. Best signal ever for that distance. (JE)
- 1270 HIUA Santiago, Dominican Republic. Logged the prior s/on piano notes at 0345-0350 of this station. Also logged on 1340 and 1400. Made tapes of all three signals and made up a PP card for each and sent it down with report. Reason for doing this was to eliminate a verie "Thanking me for my report and verifying reception of 'Radio Caribe' in S. etc." I got the same treatment from France, with no mention of frequency or power. The PP cards aren't the best, but at least they eliminate writing the station again and asking for specific veries. This runs into money, so I saved myself the trouble. Tried 1300 and 1370 for the others, but no luck. Nos 2, 3, and 4 for me from there. (JE)
- 1300 JOTQ Hachinohe, Japan, sent verie letter and card on report of 11/7/60, by airmail. Dated 1/17/61, arrived here on 1/21, with very good service. (HJW)

- 1310 TCQ Quezaltanango, Guatemala, operates as "Radio Nacional" from 0755-2300. Sunday 1255-2100. (WRH)
- 1340 HIUF Jimani, Dominican Republic. See 1270 for details. Logged here with only a trace of WIRY due to blackout to the North East and West. (JE)
- 1367 Last Sept. 23, I heard a signal here which I thought was Torun, and then later thought it was Porto I. Turns out it was Torun, as letter received from Poland 3 months later says "We are pleased to verify your reception of one of our early morning broadcasts on Sept. 23. Your tape recording was Torun broadcasting from Warsaw". The signature was unreadable, but they enclosed a very nice QSL card for "Pol-ski Radio" with verification of 1367 Kcs. on the back. (JE)
- 1390 XEOC "Radiodifusora XEOC" operates here with 5 Kw. often has programs in languages other than Spanish. (WRH)
- 1400 HIUD San Juan, Dominican Republic. See details under 1270 Kcs. Only a trace of WJET here on 1400 due to unusual atmospheric conditions. (JE)
- 1439 "Radio Luxembourg" logged on 1/14 0127-0207 with a terrific signal, and tape sent off. At 0130, I believed they changed pattern as carrier went off the air for a few seconds. (JE)
- 1571 CSE81 Heard on 1/12 from the Azores, from 1810-1858 fadeout. They came up very well in one or two spots and I recorded it and sent off a tape. US and other pop records were played with a male announcer. Before 1830 and a YL after. What is the power on this one? Used Portuguese. (JE)(EBU says it is 80 watts. FBIS says 800 watts. WRH says 1 Kw., take your choice-FV)
- 1578 A weak signal in language I didn't recognize on 1/14 from 0208-0228. Recorded it and sent it to Oslo inquiring if it might be Frederickstad transmitter. Pop music and announcements. 2 Kc. heterodyne from XEDM. (JE)(Bolzano Region synchronized Italians also on here according to EBU-FV)

OTHER NOTES BY COUNTRY

NEW ZEALAND*-There are stations planned for 11 centers in the future. Application was made for these to Berne. Although the actual opening may take many years because of objections by other countries, the applications must be made early. They are listed as follows:

540	2...	Napier	10 Kw.	1460	3XA	Ashburton	2 Kw.
630	4...	Queenstown	1 Kw.	1480	2BX	Blenheim	2 Kw.
1140	1XK	Taumarunui	2 Kw.	1500	4XO	Oamaru	2 Kw.
1220	4YD	Dunedin	2 Kw.	1540	4XG	Gore	2 Kw.
1440	2XD	Dannevirke	2 Kw.	1560	3..	Westport	2 Kw.
		1580	4....	Cromwell			2 Kw. (TI)

JAPAN*-Following are listed NHK changes which have recently been received: 540 JOCY x 780; JOSG x 780; 620 JOCQ x 620; 700 JOKP x 960; 780 JOIU x 960, JOXK x 1260; 790 JOAY x 720, JOAZ x 1530, JOFD x 720, JORC x 1600, JOID x 1470; 820 JOUC x 820; 960 JOSP x 780, JOTG x 700; 980 JOZK x 1300; 1040 JOHP x 1340, JOHV new, JOMQ x 1300; 1070 JOKD x 1440; 1080 JOCI x 1540, JOHD new, JOSD x 1420, JOZY x 1360; 1160 3 new CPs; 1170 JOQC x 990; 1200 JOIQ x 1300; 1230 JOPB x 1080; 1290 JOJK x 1230; 1300 JOLG x 1260, JOOK x 610, JOTQ x 1200, JOHP x 540; 1320 JOSK x 540, JOGQ x 1160, JONK x 840; 1340 JOYP new, JONP new; 1360 Several CPs; 1390 JOHC x 1410; 1440 JOZU x 1040; 1460 JOJB x 1390; 1470 JOCC x 1420, JOFZ x 1540, JOMX x 1420, JOPC x 1420, JOVB x 1440, CP Kiso Fukushima; 1510 JOIZ x 1440, JOOB x 1490, JOSC x 1490, JOTC x 790; 1530 JODD x 1600, JONB x 1420, JORY x 1600, JO SB x 720, JOTZ x 1490, JOLC x 1490, JOXB x 1600; 1540 3 CPs; 1600 JO AC x 1470, JOGY x 1360, JOKB x 1440. (DXT)

WHEN SENDING A QRA CHANGE, INCLUDE ZONE NO. How About Yours Bahnsen?

GENERAL

There you have it, a little bit by frequency and a little bit by country. I would appreciate your comments, and if you would like me to try the listings by frequency, I'll be glad to make the try with your cooperation to see if it takes more or less time. I'll be glad to set up material just as you want it. Perhaps it would be best to list your listening reports by frequency and then put in the copied material from other publications by country. This is somewhat the way I have done it this week, except that I have copied material in the frequency section too. At any rate, please let me know which way you want the DIGEST, and we'll try to please the majority.

To Dennis Jarrett, in my usual slow way, here is your address for TGUX, requested several weeks ago: "Radio Panamericana", 13 Av., 12-67, Z-1, Guatemala City, Guatemala. This is from WRH.

To the person sending me the "Good luck chain letter", please be advised that anything of this nature goes right into the waste basket, so there is little use sending me anything of this sort. I also do not believe that club members should be bothered with these things. I suggest that all chain-letters, no matter what the purpose, should be stopped before they get started.

To correct a previous wrong impression, the price of the 1961 edition of the WORLD RADIO HANDBOOK is \$2.50 plus postage or \$2.70. It may be ordered now from Gilfor Associates, P. O. Box 239, Grand Central Station, New York, New York. I have not seen a copy as yet, but if it is up to the past standards, it is a very worthwhile addition to your DX library. It is practically a must for those who would tune for TA stations.

Nothing further to offer you on the Mexican list. Some of the boys were working on it the last I knew, and I hope that it will be available before too long. Now, until next week, when we must again come to you as of Monday evening, all the best from here.

- A....Big welcome to Hilding Gustafson, Bob Kalish and CONGRATS to Ben Dangerfield for his increase of SEVEN new countries since last month's standing.....
- B....V.A.C. means that these DX'ers have verified all continents....Are there more?
- C....Would like to hear from J.Boase, R.Patrick, R.Moore, D.Phillips and A.Thusing.
- D....Would like to know if any of the above listed DX'ers have veries counted that are below 540 Kc/s. and over 1600 Kc/s. ?
- E....Next month's listing will be EUROPE. Please forward all changes and additions.
- F....Remeber that this is not a contest----Just a ladder to climb for the efforts put forth through YOUR DX'ing YEARS. We still have room for YOU, YOU, and YOU...
