National Radio Club*

— SINCE 1933 —

VOLUME 52 ISSUE 7 November 19, 1984

1985 Frequency Check List is this month's centerfold and pull section. Thanks to Joseph Fela for a job well done! This, by the way, is Joe's last Freq check list as he is retiring. Thanks again Joe.

Decalomania will on January 1st be merging with Gateway DX Club International this according to Eric Bueneman. Material and samples should now be addressed to: Eric Bueneman, 836 Lamplight Lane, Hazelwood, MD 63042. Also from Eric about his Bandscan column comes word that the column will reappear as soon as his typewriter gets repaired.

From Darren S. Leno, A*Q*E President, comes word that there is now an RBBS (Remote computer bulletin board system) on line at: 913-677-1288. The system is 24hrs and supports 300/1200 baud. Its being run on an IBM PC and operated by Kirk Baxter. Access will be restricted the 1st time you call in, however, we are told that your password will be validated within 24 Hrs. Info on the board will include general SW info, as well as pirate and spy info. More details can be obtained by writing to A*Q*E, Box 452, Moorhead, MN 56560.

Radio Station Telephone Numbers, if you want to see station telephone numbers in the next logbook then send those numbers into Albert Lobel. Next time your passing thru any city, stop by the nearest phone booth and jot down any radio station phone numbers, AM and FM, and send them to Albert Lobel. Where to write? Try: P.O. Box 26762, San Diego, CA 92126.

NRC '85 CONVENTION INFO: Auction items: Heavy and/or bulky things can be sent to the following address anytime from now on and will be stored in a safe, dry place. The items will be taken to the hotel for the auction. Additionally, if someone purchases an item, I can arrange to have it shipped to him at my cost. Ship to: Craig Healy, Clement Associates, 246 Pine St., Seekonk, MA 02771. And, need to get to the convention, cheap. Craig Healy says, "I do have a good travel agent who is willing to coordinate plans so that members leaving from the same general area can qualify for group rate. This agent is the one who got me from Boston to Colorado Springs for \$325. Ron paid \$508 from Hartford to Denver! Make sure you mention that your travel is for the NRC Convention to: Terry's Travel, 1515-A Newman Avenue, Seekonk, MA 02771 617-399-6290".

EDITORS please take notice: Effective immediately. New page dimensions are as follows: 1st page- 1 1/2" top, 1/2" bottom, 1/4" side margins. For those using PICA size type stay to 72 characters across, those with ELITE stay with 93 characters across. Single space, with 72 printed lines. Look for a more readable, larger type, DX NEWS coming soon to your mail box!

GPC TESTS: Times are Eastern Local Time

Dec 17 WLS-890 Chicago, IL. 0000-0500 will be off the air for maintenance and other things. Monday Arranged by Al Resnik, GE, WLS and NRC member!

CALL LETTER CHANGES

None

APPLICATIONS FOR NEW STATIONS

760 MO Smithville: 500 D1
800 TN Laneville: 500 D1
1290 TX Kerrville: 1000 D1
1440 AR Pea Ridge: 2500 D3
1550 NJ Toms River: 1000/250 U4
1580 CA Windsor: 250 D1

GRANTS TO EXISTING FACILITIES

910 WKCN SC Dorchester: add 500 watts night, become U2
1220 WLBI LA Denham Springs: move to 1210 kHz with 10000/1000 U2
1240 WTIP WV Charleston: changes in antenna system
1290 KESP CA Santa Barbara: relocate XR
1410 WRIS VA Roanoke: changes in antenna system
1430 WIVE VA Ashland: changes in antenna system
1480 KAPE TX San Antonio: changes in antenna system
1500 KDFN MO Doniphan: power to 2500 D3, relocate XR
WTNE TN Trenton: to 890 kHz, power to 2500 D3

OTHERNESS

1090 WFCV IN Fort Wayne: CP for move to New Haven, IN and fulltime cancelled
1120 WUST DC Washington: CP for power increase to 5000 watts cancelled
1230 WMAF FL Madison: CP for antenna changes cancelled
1290 WTMC FL Ocala: CP for antenna changes cancelled
1380 WMFL PA Milton: CP for antenna changes and studio move cancelled
1490 WNBZ PA Wellsboro: CP for antenna changes cancelled

COMMENTS, ETC

The latest edition of the "Encyclopedia of Call Letter Changes" from R.F.C. in New York makes the following observation: There has been a 40 percent increase in call changes in the last year. From October 1982 to September 1983 there were 450 total call changes (AM, FM and TV) while the same period a year later saw 567 changes. While due in part to FCC deregulation making call changes easier, most of the increase in changes can be attributed to the turmoil of format changes taking place amongst AM stations. Format changes are now being coupled with call changes almost as standard practice. By the way, if you'd like to subscribe to the Encyclopedia, which is published quarterly, you can do so for the small sum of \$300.

The FCC has made several eye-opening proposals recently. One would allow AM stations to operate at "odd" power levels. The recent Region 2 "Final Act" made specified power levels unnecessary. The commission maintains that the specific power levels (250, 500, 1000 watts, etc) have tended to restrict the flexibility of stations achieving the most economical antenna design for their particular circumstances. The Commission is therefore considering amending it's rules to permit any level of power provided it falls within the minimum and maximum power limits for the class of station. While this is often put into practice now with stations operating at levels less than specified (1000 watt stations actually operating with 873 watts for example) this proposal would allow this to become the station's actual licensed power and, for the first time, allow for minor power INCREASES (the same 1000 watt station might change to 1289 watts). This raises issues that demand careful study. Current rules specify that ANY power increase by an AM station is to be treated as a "major change" which involves a major amount of paperwork. The FCC does not need to be snowed under by any additional paperwork. If the rules are to be modified the Commission would need to specify what demarcation line would be used to distinguish a major power increase from a minor one. In this proposal the FCC suggests it prohibit applications for power changes above or below a certain minimum percentage and suggests that the figure of 20 percent be used. Most of this information comes to us from the October NAB Engineering Report on the subject. Like it or not, you must admit that the trend to deregulation is certainly making things interesting!

73 and Good DX,

Jerry Starr & BKF

Jerry Starr & Buffalo K. Foonman

GRANTS FOR NEW STATIONS

APPLICATIONS FROM EXISTING FACILITIES

990 WPIK AL Flomaton: power to 2500
1510 WINU IL Highland: to 880 kHz
with 5000/250 U4

Here is the official NRC column which matches the excitement of the book, "My Greatest Corny Stories" by Orville Redenbacher. When sending your items in, please keep them on one side of the paper, type or neatly write, skip a line between tips, EST, and keep your items current, anything over 6 weeks will be 8 weeks old before it shows in print. Also, clear channel stuff and locals are taboo. Now that I've really got you down, lets pin you to the floor with all of this weeks DX!

DX TESTS:

790 WETB TN Johnson City - 10/15 0215 poor u/WMC w/stations power, ID.(EB)
1260 WNRK DE Newark - 10/29 0130-0206 frequent ID's, test tones, oldies, fair overall w/WNDE peaking in. (RAD-PA).....10/29 heard w/3 UNID's, WMTR-1250 splash and thunderstorm noise, oh, my ears! (BH-NJ).....Not heard, to much WNDE. (TC-TN) Not heard on loop or LW, to much WNDE. (RLT-NC).....10/29 0015-0102 poor w/tones, old rock music, ID's. (BS-NJ).....10/29 0005-0034 mostly poor w/WNDC clobbering it but did peak at times to loud level, mixed rock music, tones and what sounded to be recorded ID's, tried to call but no one was home! (HJH-PA) I was on the phone w/Rocket Ray. (DS).....
1590 WJSO TN Johnson City - 10/15 not heard. (EB-MO)

We should be able to dig up some results from the WJSO and WETB tests, and also WNRK. Thanks to all who reported and called.

After year of delay, Radio Marti still not beaming signal to Cuba

Atlanta Journal and Constitution - Nov 4 - by Larry Lipman

via Karl Jeter

WASHINGTON - More than a year after President Reagan signed into law the bill creating Radio Marti, the radio station is still a long way from being ready to broadcast news and entertainment to Cuba. Envisioned by the Reagan administration as a "surrogate" station to broadcast to Cuba as if it were operating in Havana - but without the censorship of the Castro regime - Radio Marti was expected to go on the air in early January to coincide with the 15th anniversary of Fidel Castro's takeover. When that schedule could not be met, a pilot program was planned for Jan. 28 to commemorate the 131st birthday of Jose Marti, the Cuban patriot, poet and journalist for whom the project was named. That plan also fell by the wayside.

Subsequent predictions that the station would begin operating last spring also turned out to be wide of the mark. Now, government officials are not willing to guess even what season - let alone what month - the Spanish-language station will be on the air. "We're going to go on the air when we're ready to go," said Gene Pell, director-designate of Voice of America, under whose auspices Radio Marti will operate. It appears Radio Marti is still a long way from being ready to go. With \$10 million for the fiscal year that ended Sept. 30, Radio Marti spent only \$6.2 million and was able to carry the rest forward on top of \$8.5 million budgeted for the current fiscal year.

Working out of leased quarters in a downtown office building, the station occupies half of the third floor and all of the fourth floor. In the third floor newsroom, most of the reporters' desks are empty. Only six reporters, of an expected 15 to 20, have been hired. Adjoining the newsroom, there is a bare floor where two permanent broadcasting booths will be constructed. They are not expected to be operational until spring, but Pell said broadcasts could be made sooner from a temporary booth on the fourth floor. Many of the fourth-floor offices are vacant and unfinished. Chairs wrapped in plastic are stored in some of the empty offices.

Rep. Dante Fascell (D-Fla.), chairman of the House Committee on Foreign Affairs and a prime sponsor of the Radio Marti legislation, said he has been eager for the station to get on the air. "I've been pushing them for everything that it's worth, because obviously I think it's important for us to get on the air," Fascell said.

Jorge Mas Canosa, a Cuban-born exile who heads the nine-member presidential advisory council that oversees, but does not direct, the project, said he hopes it will be operational early next year. But he's not making any predictions. Mas said he is not frustrated that the station has not yet begun broadcasting.

"We have a responsibility to first, get Radio Marti on the air, and second, get a high quality program on the air which will be objective and accurate and meet high quality standards.

Mas and others say the long lag time required to get security checks for all the employees has caused the delay. The security checks are required by law. "The personnel are in the pipe-line," Mas said. "What has killed us is the security clearance is taking so long." For a citizen born in the United States, the security clearance usually takes three to six months. Not surprisingly, it takes longer to check the backgrounds of people born in a foreign country, a situation further complicated by the fact that Cuba is under communist rule.

But lengthy security checks aren't the only factor causing delay. Radio Marti organizers have found it difficult to persuade talented journalists, nearly all drawn from Miami's Cuban-American population, to uproot their families and leave high-paying jobs there to work at lower pay in Washington, where living costs are much greater.

"If Radio Marti had been in Miami, I think we would have been on the air a long time ago," Mas said. "We had a hard time and we spent some months convincing people that it was worth it to move to Washington." About 65 of the 188 authorized positions have been filled. Technicians and broadcasters have been making dry runs from the temporary booth which is capable of transmitting. Most of the Radio Marti employees will work in Washington, but the station will use the Voice of America transmitter in Marathon, Fla., and broadcast on frequency of 1180 KHz, the same frequency now being used by UGA to transmit to Central America and the Caribbean.

When operational, Radio Marti will broadcast about 14 1/2 hours a day. Mas and to other supporters of Radio Marti say the project is not to be used as a propaganda tool.

"We're not going to broadcast the other side of Castro's propaganda. The Cuban people are fed up with propaganda," Mas said. "Radio Marti is going to be very accurate. This project was conceived to broadcast only the truth."

Even though Radio Marti is not yet on the air, its effects already are being felt in Cuba. Reports from Cuba indicate that government-sponsored television has become more lively recently and that the two most popular radio stations there have been combined for 24-hour operations. Frank Calzon, executive director of the Cuban American National Foundation, a Washington-based research organization specializing in Cuban affairs, predicts that when the station begins operating it will have a profound effect on Cuban society. "It will expose the listeners to the fact that sometimes when there are complex political or economic problems, there are different ways to look at it - not just the 'correct' revolutionary way and the 'incorrect' counter-revolutionary way," Calzon said.

8

Times are GMT For ELT subtract 5 hours. Deadline: Monday

- 530 USA pirate? 10/14 1445 poor with music mixing with the Seattle-Tacoma airport TIS. (Moman)
- 531 AUSTRALIA 2MC West Kempsey 10/13 1014 fair with "2MC plays your hits". (Moman)
- 531 NEW ZEALAND 4XA Alexandra 10/13 1054 fair with weather forecast followed by 4XA ID at 1105. Only 2 kw. (Moman)
- 558 UNID 10/13 1414 poor with cm talk, many possibilities, didn't last long enough for ///s. (Moman)
- 594 AUSTRALIA 2UH or 4WP 10/14 1404 poor tone after s/off 2UH Muswellbrook (1 kw) or 4WP Weipa (500 w) listed. I'll take either! (Moman)
- 594 AUSTRALIA 3WU Horsham 10/14 1404 poor tone after s/off. (Moman)
- 612 AUSTRALIA 4OR Brisbane 10/14 1350 poor with jazz //6150 ABC. (Moman)
- 670 ALASKA Dillingham KDLG 10/21 1555 in "BBC Science Magazine", talk on polygamy. "This is NPR, National Public Radio", 1600: "serving Bristol Bay and the Unalaska peninsula, this is KDLG Dillingham, repeating as KIAL Unalaska and KDSP Sand Point. Good morning, it's 8 o'clock". Very surprised to hear the local pronunciation of "Unalaska". They say it as if it meant the opposite of Alaska, not like the first syllable of unicorn. News, 1609 list of morning's programs, 1610 concert time for Bristol Bay, works by Spohr and Respighi. (Wood)
- 675 AUSTRALIA ABC 10/14 1400 poor with anthem, tone. 2CO Albury or 2KP if they have exchanged yet? (Moman)
- 684 AUSTRALIA ABC 10/14 1354 poor piano/talk // 6150, either 2KP Kempsey or 2CO Albury, depending if they have moved channels. (Moman)
- 702 AUSTRALIA 2BL Sydney 10/12 1400 good s/off anncs. (Moman)
- 720 AUSTRALIA 4AT Atherton 10/14 1358 poor woman with news // other ABC channels. 4AT most likely. My first non-split DU! (Moman)
- 729 AUSTRALIA 5CL Adelaide 10/13 1409 poor // ABC 9680, just traces of orchestral music. (Moman)
- 738 TAHITI 10/14 0417 just a het but believe Tahiti due to sunset path, earliest ever here! 1017 Tonga, 666 New Caledonia and 891 Fiji also noted a few minutes later. (Moman)
- 750 NICARAGUA R. Sandino 10/13 0449 fair, in and out but good ID at 0500, 6200 // wasn't audible due to poor SW cx. (Moman)
- 756 AUSTRALIA ABC-2TR or 4QA 10/14 1400 poor with anthem, // ABC net. Either 2TR Taree or 4QA Mackay seem quite possible. (Moman)
- 760 COLOMBIA Barranquilla 10/14 0300 fair with excited soccer game commentary, 0435 still noted with R. Colombia ID's. (Moman)
- 760 CUBA R. Reloj, Habana 10/13 1112 poor with "RR" in CW every minute, SS talks. (Moman)
- 760 HAWAII KGU Honolulu 10/14 1331 good with ID, World Series baseball promo. (Moman)
- 765 UNID 10/13 0417 het noted here to past 0600, no known TA hets heard, possibility this might have been Dakar, Senegal. Very good east coast signals tonight. (Moman)
- 774 AUSTRALIA 4TD Townsville 10/14 1340 good just tuned into 4TD ID, quickly lost to 3LD. Sunrise enhancement just starting. (Moman)
- 774 FIJI R. Fiji 10/13 1028 fair native singing // 891, noted to past 1200 UTC. (Moman)
- 819 AUSTRALIA 2GL Glen Innes 10/14 poor 1404 tone after s/off. (Moman)
- 825 ST. KITTS R. Paradise 10/14 0335 fair religious hymns, ID at 0501, TC, s/off anncs and anthem music to 0405/ (Moman)
- 830 BELIZE 10/13 0430 fair woman anncr with ID but she got all mixed up saying the FM and AM frequencies! WCCO way down. (Moman)
- 830 HAWAII KIKI 10/13 0656 good, stereo ad, ID. (Moman)
- 837 AUSTRALIA 4RK Rockhampton 10/13 1136 good // 4920, comedy record. (Moman)
- 873 AUSTRALIA 2GB Sydney 10/13 1113 fair with phone in talk program. (Moman)
- 890 UNID 10/14 0217 poor, real mess here, could not get any clues, slow SS talk. (Moman)
- 891 AUSTRALIA 5AN Adelaide 10/13 1151 fair ragtime piano, ABC ID at 1200. Some ORM from Fiji or vice versa! (Moman)
- 891 FIJI(t) 1013 1028 fair with native singing // 774, noted to past 1200. (Moman)
- 895 COLOMBIA 10/14 0240 fair with fast SS talk, faded before ID on my Beverage but ID heard by Hall-Patch on other wire. (Moman)
- 981t NEW ZEALAND 1YE Chaewai 10/13 1402 poor with traces of audio. All Aussies listed should be off at 1400 except 6KG (should I be so lucky) so presume this to be 1YE. (Moman)
- 1008 NEW ZEALAND 1ZD Tauranga 10/13 1350 good with 60's music // 1035, 1044 etc. (Moman)

- 1035 SOLOMON ISLANDS H4B1 Honiara 10/13 1120 fair with ORM from 2ZB noted with school info, bulletin board anncs // 5020 SW. (Moman)
- 1040 COLOMBIA Barranquilla? 10/14 0300 fair with excited soccer game commentary, likely Colombia or Brazil. (Moman)
- 1070 COLOMBIA HJCG Bogota R. Santa Fe 10/13 0513 ID simply as "Santa Fe", tropical mx thru KNX. (Wood)
- 1071 INDIA Rajkot 10/22 1620 Urdu nx by female; easiest word to recognize id "sur" meaning "and". (Wood)
- 1100 BRAZIL Sao Paulo R. Globo 10/13 0525 nx thru KFAK and a SS stn, possibly Colombia. (Wood)
- 1143 PHILIPPINES Poro UOA 10/22 1620 very elementary EE lesson, teaching names of months, probably for WW refugees. (Wood)
- 1161 NEW ZEALAND 2ZM Wellington 10/12 1406 poor with song by Carpenters // 1044. Only 2 kw. (Moman)
- 1224 MARSHALL ISLANDS Kwajalein AFRTS 10/13 0810 canned radio drama. (Wood)
- 1280 BRAZIL Rio de Janeiro 10/21 0245 time check "11 horas, 45 minutos no Rio" (this is just 4:45 PM local), 0340 "a super Radio Tupi", "aniversario da Super Radio Tupi", "uma producao Tupi", ad for "cimento Guarana, mais barato". This and 1220 are my two beacons to Brazilian reception, 1280 perhaps better because of CKDA and XEB ORM on 1220. (Wood)
- 1340 COLOMBIA unid 10/18 0758 ending transcription from R. Nederland, ID as "RCN la radio de Colombia. RCN de Colombia presenta programas de las empresas radiales de 27 paises del mundo entero". 0800 into tropical mx. Is any of the listed 1340 Colombians educational or otherwise more likely to carry European transcriptions? (Wood) Not that I know of-CH
- 1368 AUSTRALIA 2EA Sydney 10/20 1550 Italian sports. "EA" stands for "ethnic Australia" a fact not mentioned in the otherwise informative ARDXC MW Guide-perhaps because the compilers, as Aussies, knew it already. Monetary hopes of Europe (not heard here yet) were dashed. (Wood)
- 1378 CHILE Santiago CE138 R. Colo-Colo 10/23 0600 nx, 0605 into mx. Nominal 1380 and reported last year on 1380 from NZ. (Wood)
- 1380 HAWAII Pearl City KLN1 is still not on full R5; consistently signs on w/programming 1600 but goes off early or tests evenings. E.g. 10/23 0606-0609 and again 0615 tone tests and OC. (Wood)
- 1440 SAUDI ARABIA Ras-al-Zaur 10/22 1615 nice ID as "Idhaat ul Qur'an al Karim min Mamlakat al Arabiya al-Saudiya": into Qur'an interpretation talk by a doctor; one anncr's name was Abdulaziz. First reception from my home, previous logging had been at John Arthur's. Good.atop JJ. (Wood)
- 1449 EAST CAROLINE ISLANDS Kolonia WS20 10/13 Posaean talk on independence, island's history as a colony of Germany (which is where the K spelling of the SS-derived capital's name comes from) 0805. (Wood)
- 1548 AUSTRALIA 400 Emerald 10/12 1400 poor, time pips and ID. (Moman)
- 1550 MEXICO unid 10/22 0735 "esta es XEB(?)X" and rancheras. Last letter was definitely X but KISA-1540 splash muffled reception. Albert Lobel or others in San Diego area, has XEBG Tijuana changedcalls? Perhaps a SS speaker could telephone? (Wood)
- 1575 AUSTRALIA 200 10/12 1304 fair with man and news, ID and jungle at 1304. Consistently one of the last Aussies to fade out. Still audible past 1500! (Moman)
- 1610 ANGUILLA 10/12 0340 poor with religious program, ID at 0400, into "Voice of Power" program. (Wood)
- 1622 ECUADOR PAT Pastaza 10/12 0417 poor. (Moman)
- 1629 AUSTRALIA 2RPH Sydney 10/12 1240 fair with woman and news. Several ID's and features, s/off and anthem at 1300. (Moman)

Here is another Formats column - so update your logs. Pete Nolan gives us an update from all across the country, and Dave Braun brings us up on some regionals heard down at his home in Falls Church, VA. Pete is the Evolutions editor for the Radiophiles club, and he and I have a reciprocal agreement, so all of us can stay up to date. Gentlemen, thank you very much for your submissions....and here is this week's show.

- 540 CJSB ON Ottawa - MYL (PN).
- 550 KUZZ CA Bakersfield - Ex KAPY, CWM (PN).
- 570 WLLB NC Raleigh - On the air, now with Black-Gospel (DB).
- 580 KPXD ID Nampa - Now SMN Ad. Con.(PN).
- 670 KWNK CA Simi Valley - New, with Ad. Con., CHR(PN).
- 690 XETRA Mexico - Tijuana - drops CHR and "The Mighty 690 for soft rock oldies (PN).
- 770 KKMI WA Seattle - Ex KXA, Rel, now Ad. Con. (PN).
- 850 WFPD TN Fairview - Ex WBLP, now Religion(PN).
- 860 KLTQ UT Salt Lake City - Ex KWHO with classical and the fine arts, features AD. Con., simulcasts w/ FM. (PN).
- 940 KADO TX Texasarkana - Drops CWM for Black programming(PN).
- 970 KAPY CA Bakersfield - Picks up 550's call, drops KUZZ call which goes to 550, CWM (PN).
- WVOV VA Danville - T40, Virginia News Network, NBC (DB).
- 1000 WRAR VA Tappahannock - Pop(DB).
- 1040 WBRZ TN Powell - New station, SMN Ad. Con., "BZ-104"(PN).
- 1090 KLSZ CO Aurora - Ex KKBB, now Ad. Con., ID's as "Class" (PN). An oddity w/ 50kw/ 1 kw, the 1 kw is so directional that it is heard well along Grant Street, but poorly elsewhere in Metro Denver, according to a CE friend out in the area, uses 12 tower array (TF).
- 1240 WJDQ MS Marion - Is now silent(PN).
- 1250 WDVA VA Danville - CWM(DB).
- 1260 KIPR TX Huntington - Drops CWM for Black programming (PN).
- 1290 WFBO PA Altoona - Rock(DB).
- WAGE VA Leesburg - Pop(DB).
- 1330 KVOL LA Lafayette - Now Rock oldies(PN).
- WBTM VA Danville - Ad. Con. (DB).
- WESR VA Onley - Rel(DB).
- 1340 KOMY CA Watsonville - Drops MYL for Spanish programming(PN).
- WEPM WV Martinsburg - CWM "Your place in the Country"(DB).
- 1400 KSUN AZ Phoenix - Reported to return to the air around 11/1 with Black and Mexican programming (PN).
- WNEK GA Macon - Now rock oldies(PN).
- 1410 WING OH Dayton - Now all news and talk(PN).
- 1440 WNLA IL Normal - Drops WRBA call w/ mix of news and New Wave for CWM (PN).
- WKLV VA Blackstone - Black programming(DB).
- 1460 WJAK TN Jackson - Drops MYL for rock oldies(PN).
- 1470 WTTR MD Westminster - Ad. Con.(DB).
- 1520 WDDD TN Elizabethtown - Now silent(PN).
- 1530 WTKG MI Wyoming - Ex WYGR, now ABC Talkradio with the exception of Religion during drive times!(PN).
- 1540 WYNC NC Yanceyville - CHR(DB).
- 1550 WNTR WA Ferndale - Ex KCQT, w/ Rel, now news and talk. (PN).
- 1560 KLLV CO Breen - New station, with EZL and Religion (PN).
- KPWS LA Crowley - Ex KAJN, Rel., now Black gospel (PN).

And this is it for this week....get your formats in. Remember, when WVVA-1170 goes to "The Fine Arts for the Allegheny Mountains", or WJIT - 1480 becomes ABC Talkradio for Metro NY, we all want to hear about it. All for this week.....

 Atlanta Journal - Alan Patureau
 via Karl Jeter
 USB-AM cuts NBC ties, affiliates with ABC

After 57 years as a pioneer affiliate of NBC Radio, USB-AM/750 is preparing to switch allegiance to ABC Radio Monday, January 7, 1985.
 General Manager Mike Faherty said Monday he hopes the change will boost USB's ratings, which are still slowly eroding from their 1960s peak when USB, Georgia's only 50,000 watt station, commanded a 30% to 40% market share.
 USB has fallen to eighth place in overall radio popularity with a 6.8 share. FM stations have become dominant in the 1980s, the current top station being WKHX-FM/103.3 with a 10 share.

The move has no connection with USB/Channel 2's jump from NBC-TV to ABC-TV in September 1980, Faherty said. He contended the move to ABC is in keeping with the younger music and personality image he tried to implement since taking over as USB's General Manager in August 1981.
 WPLD-AM/590, Atlanta's ABC Radio affiliate for the last decade, says it is considering several options to replace the canceled ABC network contract. "We don't carry network news as a package, as many stations do," said WPLD General Manager C.B. Rick Rogers.

exerpts from the mid 1930's magazines

PERSONALITIES & PROGRAMMING

Max Baer

As soon as Max Baer signed for his championship match with Primo Carnera, he was recruited by NBC scouts for one of the most unusual broadcast series ever presented. Early last May he started his role in the "Taxi" series presented thrice weekly from his Asbury Park, New Jersey, training camp. The boxer was supported by a large dynamic cast which moved out to his training camp for the six week series. The dramatic action of the series led up to the actual championship fight. The B.F. Goodrich Company sponsored the series.

"HEADLINE HUNTER"

Floyd Gibbons, radio's famous "Headline Hunter," after a long absence from the microphone, recently returned to NBC as star of a Saturday night series sponsored by Johns-Manville Company. In his radio talks, he devotes special attention to affairs of Washington, D.C. Nathaniel Shilkret's orchestra supplies a background of martial music.

The Lane Sisters

The Lane sisters, Rosemary and Priscilla, were introduced to air listeners less than a year ago by Fred Waring on the Old Gold program. Today they are one of the best known sister acts on radio. Rosemary, eighteen, and Priscilla, seventeen, are natives of the little Iowa town of Indianola. They are the youngest of five girls in the family. Their real surname is Millican, but the girls decided on the billing of Lane for their radio and theatrical work.

John Martin

John Martin, noted author of childrens stories has been appointed Juvenile Director for NBC. he was welcomed to the network by Mrs. Franklin D. Roosevelt, wife of the President, during a special broadcast from Washington, D.C. NBC stated that they were entering a new field of service, that on maintaining contact with the youth of our country.

GREAT PREDICTIONS

Ed Wynn

To my mind, the future trends in the development of radiocasting will proceed with cumulative vigor and success in three areas in the year 1934, first, technical, second, psychological, and third educational. While the public expects more and gets more from each new receiving set, it is no secret that each company's research & development department is only at the beginning of a stage of development that will encompass television and certainly will include a wider cycle of reception and audibility. Entertainment is the first function of radio and will always be.

William S. Paley

I believe that the 1934 trend of radio broadcasting will be in the direction of a further development of harmonious balance—balance both in individual programs and in the broadcast schedule as a whole. Radio has incorporated practically all of the branches of the entertainment world into its fold, it has brought the stars of Broadway and the concert field alike to the microphone; it has developed numerous stars of its own; it has made the scientific, religious, cultural and educational fields its province and it has given them all an international means of dissemination.

McMurdo Silver

In terms of new receiver engineering design trends, 1934 will witness the perfection of at least two important features, of almost equal importance. The first is the further perfection of short wave reception. The second trend is to dual channel audio amplifiers, possibly coupled with semi-resonant air columns, the effect of which is to make available reproduction which may only be described as more real than life itself.

Summary of Unreported Stations

Don Kaskey
Hotel Raphael
386 Geary Street
San Francisco, CA 94102

Thru Volume 52, Issue 4, Dated Oct. 29th

The following chart lists the total number of stations in the USA and CANADA and the volume they were last reported as being heard in DX NEWS.

COUNTRY	V52	V51	V50	V49	V48	V47	V46	V45	V44	V43	V42	Prior	Total
CANADA	78	174	73	31	11	9	8	5	1	2	0	24	== 416
U.S.A.	484	2416	759	350	212	122	72	48	23	28	18	188	== 4720
TOTAL	562	2590	832	381	223	131	80	53	24	30	18	212	== 5136

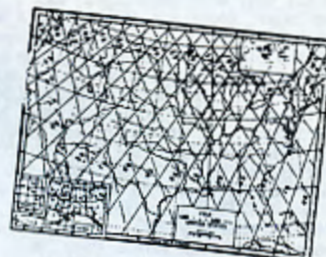

New stations reported as having taken to the air during the period between V52 #1 through V52 #4:

670-KWVK-CA	1180-KDAN-AZ (x-1240)	1420-KZMO-MO
840-KSWB-OR (x-930)	1180-WFKB-KY	1470-KHND-ND (x-1540)
880-KKMC-CA	1240-WJDC-MS (x-1330)	1490-WSID-NY

SS GUIDE Spanish version of the above Broadcaster's Guide. \$1 for 20.

FF GUIDE French version of the above Broadcaster's Guide. \$1 for 20.

The opinions expressed in this column are those of the individual writer and do not necessarily reflect those of the Editors, Publishers, or the National Radio Club, Inc., or its subsidiaries. Times are local per Muse.

Welcome to Musings, again, as DX picks up and the number of Musings increases. This edition should be a bit more readable, as we've made some adjustments in typesetting and photoreduction. Let us know if you still have trouble in reading it. We're featuring our southern DX'ers this issue with a nice turnout of Musers. #10 (deadline: Nov. 24) will feature non-USA Musers; #11 (Dec. 1) will be for the first-time Musers who have been members for more than a year; and #12 (Dec. 8) will be for first-timers who have been members for less than a year. And to honor our distaff members and married couples, I've decided to make #13 (Dec. 15) the feature issue for both the ladies in the club and the married couples who both consider themselves DX'ers. We enjoy reading all the Muses, of course, but we especially enjoy finding out about members who've not Mused before ... so keep those Muses coming in. And I'm open to suggestions for other "theme" issues. One more item: after checking with Wayne Heinen, I've decided NOT to include in Musings lists of veries UNLESS you indicate that you've sent the verie signers to Wayne (4131 S. Andes Way - Aurora, CO 80013) for his column, effective #10 (Dec. 10). 'Tain't fair to those of you who collect veries to list stations without v/s ... and Wayne's column is the place for that. On with it ...

Greg Myers - 1518 Professor Ct. - Richmond, VA 23228 (pm 10-27; rec'd 10-29)

Greetings! DX has been outstanding. Let's get started: 10-11: One of my better catches so far came in the form of CBA-1070 from 0455-0515 with maritime weather, news, and a report on microprocessors at the Univ. of New Brunswick. 10-11: WIBG-1520 0700-0704 with sign on, news, and weather; 10-14: WYNC-1540 from 6:37-6:45 with music, weather and sign off with many ID's. WEIB-test heard well and reported; didn't bother with WISO-test as they blast away here anyway. 10-16: WARM-590 from 6:45-7:04 pm with Sports Line, many ads, news, and legal ID on the hour; 10-19: WBN in from 0540-0600 with news, weather, many ads and ID's (a goldmine of verifiable details); 10-22: WPHB-1260 0602-0621 news, weather, and the usual; 10-23: WMK-?? -pls) 0637-0648 like the rest with news, sports, weather, and music. Recent veries from WLIL-730 v/l, WIBG-1520 v/l and station profile, WSC-990 v/l, WYDZ-1560 v/l, WPMC-730 v/l and decals, WBCV-1550 v/l, BS, WTRN-970 v/g (they never veried as WWSW, QSL back in 4 days!). Some of the better ones have come from our friends to the north with CHLO-1570 v/l, CKOC-1150 v/g, BS, and CBA-1070 v/l, BS, balloons, ruler, note pad. Both CKOC and CBA returned my Rp, a nice addition. Many thanks to our editor Paul for the info on the radio magazines. I didn't realize there was such a large market of 'em, but I haven't been able to take advantage of the info yet with a family and college occupying most of my time. I barely have time to DX but I'm sure I can make time somewhere. That's all for now; till next time, the best DX to you all.

Bruce Winkelman - 3014 W. 68th Place - Tulsa, OK 74132 (pm 10-29; rec'd 10-31)

Now that the DX season is upon us in its entirety, I appreciate the talents of the R390A much more. It's quiet, sensitive, and above all selective with the famous Collins filters all they were advertised as. While the razor-sharp selectivity is not necessarily the most important feature of a CCB DX receiver, it sure doesn't hurt to have that capability! While not down-grading the newest solid-state offerings, I am firmly of the opinion that the old R390A will do anything that the new rigs can and possibly more. In addition to the fine qualities it shows in the specs, it is really heart-warming to see the beast sitting here on the desk, looking like it is just waiting to reach out and grab a signal out of the ether! /// October DX has been productive with 12 new ones added. Briefly, the highlights ... KTRG-1580 with 250w, KCRO-660 w/KSKY, KWMM-990 actually faded UP during the s/off, KBOA-830 with no sign of WOCO, WDDT-900 and KALJ-900 pulled calls out of the muck at s/off thanks to the '390A, KCLW-900 topping the SSS jumble with 250w and KZKL-960's anncr saying that he woke up and wanted to turn the SUNSET off (honest, that's what he said!). /// Briefly, a re-intro: am 34, married, 2 sons 5 and 2 years old, and an associate director of pharmacy at a large hospital here in Tulsa. Been NRC member for 12 of the past 15 years; DX'ed from Kansas City, West Virginia, Greensboro, North Carolina, and now Tulsa. /// I have also joined the Longwave Club of America and am looking forward to finally ID'ing some of the strange and unfamiliar signals below 500 kHz. Hope to pick up a Falconer LW up-converter for the '390A in the near future. Thassit for now. Good DX to all!

G. Harley DeLeure - P. O. Box 10 - Hendricks, WV 26271 (pm 10-26; rec'd 10-31)

Yes, this part of the State of West Virginia is south of the Mason-Dixon line; therefore, I thought it would behoove me to drop a Musing. Tucker County itself is divided between rebels and Yankees with the rebels outdistancing the Yankees. My mother's grandparents lived in this area during the Civil War and were dyed-in-the-wool Republicans and thus for the Union. My great-aunt always emphasized that to me when I was a young boy. In fact, she told me that the family moved from West Virginia to Western Port, MD, so that it wouldn't be harassed by its rebel neighbors. DX'ing is picking up. One new station after another is being heard. For some reason or another North Carolina stations are being received here left and right. During the Hurricane Diana North Carolina stations were everywhere. On 9-30 I was listening to WVA-1170, Wheeling, WV, when for four minutes from

8:35 to 9:39 pm it went silent. For those four minutes I heard 4VRS of Port-au-Prince, Haiti. That was serendipity. On 10-23 from 7:32 to 7:45 am something was wrong with WEEP's signal here. It was still on the air, but it sounded as though it was 1000 miles away. Anyway I heard on 1080 at the aforementioned times WKV for the first time. I've already "veried" from WPNB and WQTO. I'd like to add WKV. Recent "veries" are in here from WMBG-1380, New Bern, NC; WBBG-1050, Lynchburg, VA; WZAM-1110, Norfolk, VA; WUCO-1270, Marysville, OH; WBNH-1060, Mebane, NC; WKDQ-1000, Garner, NC; WPER-1350, Portage, WI (P. O. Box 300); WYDZ-1560, Dobson, NC; KWBB-1270, Rochester, MN; WNCR-1080, Saint Pauls, NC; and WCCI-1390, Chicago, IL. WNCR's "verie" came from the United States Broadcasting Corp., P. O. Box 194, Irvington, NY 10533. I wonder what that was all about. WCCI sent a QSL card (very rare these days). Its address is 6 North Michigan Ave., Suite 1600, Chicago, IL 60602. (Thanks for the info -pls) That's all from just south of the Mason-Dixon Line.

Karl V. Jeter - 2115 Scarbrough Road - Stone Mountain, GA 30086 (pm 10-29; rec'd 10-31)

Greetings. I am now the proud owner of a new beverage antenna, nearly 2000 ft. running almost due NW. My thanks once again to "Mr. Beverage", Chuck Hutton, whose ability to heave wire over tall pine trees is amazing! Already, some good DX has been heard in the first session: On 10-27, the evening brought in KJEN-1010 at 172 with Ernest Tubb record offer; over to 1060, and umn KAYR hrd xclnt 1945 with s/off with FM ment. A signal noted after KAYR s/off turned out to be KSLM-1060, with MOYL-type mx at 1950, until 2000 s/off with SSB. The antenna seems to be displaying definite NW tendencies. But then, a little later, a really strange logging on 910 - at 0100 EST (or 0200 EDT, hi) I hrd WFPB, Middletown, OH with Larry King, ID, Mutual rx and back into King. I was astonished to see in the log that they are only 100w at night! It's not NW of here, but who's complaining, hi! New logs continue, thanks to the breakdown of the clears; on 10-9, WBZ-1040 hrd 1900 with MOYL-type format and s/off - they ID as "Powell-Knoxville". Over on 1160, two newies - WFTN Tryon NC with r/r, slogan "the new choice in the Carolinas", hrd on 10-10 0712-0726. Also hrd is WKCM-Hawesville, KY on 1160 briefly on 10-20, 0720. I am really enjoying the new NRC log - the new format is fine with me. I think with some tabs inserted with freqs marked on them (i. e., 600, 700, 800, etc.) finding things would be easier, so I plan to do this. As this is for the "rebel" issue, I should reintro myself. I am 31, have been DX'ing since 1969, and am happily married to Linda. We have a 7 1/2-month-old son, Kevin, who is already showing DX'ing tendencies (hi). I joined NRC in 1973 and currently handle the reprint orders for the Pub center; in 1978 I was one of the hosts of the NRC Convention here in Atlanta. I have pretty much always been a domestic DX'er; only dabble in foreign MW DX. The current totals are something like 1550/1210. Well, I've run on enough for now - 73's!

William R. Hale - 9823 North Meadow - Converse, TX 78109 (pm 10-30; rec'd 11-1)

Greetings again from South Texas. I thought I would be among those who Muse in the "South-of-the-Mason-Dixon-Line Issue". (Hope this makes it in time). Now that I have added a printer to my Commodore 64 I find even less time for DX'ing, but manage some time at the dials nonetheless. Plus, now that DST is off, the early evening hours are ideal for listening. My only DX lately was on the morning of Oct. 25 at 0651 when I picked KBCQ-1020 out of the mss with a clear "...it's 51 degrees at nine before six here at KBCQ" by a female anncr and into an ad for a grocery store. That was the first time I had heard them for sure in the morning. Also, at 2020 on Oct. 26 I heard KIRM-910 with high school football. First time for them. /// Beck in Issue #1 of this volume you, pls, stated quite a few things which I had felt about the nature of the hobby as it was related to club participation, only never brought them up. If I were an outsider (non-member) looking toward the club as a possible DX organization to join, and used the content of DX News as a guideline of what the NRC was all about, I believe I would think twice about joining. Sure, there are the features that grab the senses of any DX'er ... AM Switch, DDXX, IDXX, and Musings. Then there are the non-regular columns ... Top End, Formats, Sports Networks, etc. Basically OK, but limited to a small group interested in those topics. I know, even I have contributed a special interest, limited series of Graveyard Maps. Judging from the letters and comments I've received (less than 20) about them, I should have directed my efforts (over 4 hours each) to something more constructive). But, as long as HQ will keep putting them in DX News, I'll keep updating and improving. (Gosh, 20 comments? I get 0 for the Index, hi! -pls) I guess (no, I know) I agree with too many of your comments of what we DON'T need in DX News. One in particular are the pseudonyms. I know one member who (honest to goodness) believes there is a Buffalo K. Footman. Another is the touting of this club as the "only one". Heck, let the magazine and the club speak for themselves and do the selling, and leave grandstanding to the TV preachers (another one of my pet peeves. Jim Bakker, are you reading this, hi). Anyway, thanks, Paul, for saying groups of things that I had thought about for a long time. /// Off of soapbox. /// Anyone with a Commodore 64 who has a program to submit, please do. I've sent for a few public domain programs written for our hobby and have made a couple of my own (one is going to HQ). Let's put these expensive toys to work for us. (A plug, now, for the ANARC Computer Committee - 5700 153rd Lane, NW - Anoka, MN 55303; send them an SASE and they'll send you a current list of their DX computer programs for the C-64, Apple, TRS-80, Timex-Sinclair, etc. -pls) /// I've read that the outfit who owns KCCX-680 here has bought KILS AM-FM (also here). Didn't know that it was

possible to own two stations of the same mode in the same area! Also of note ... the owner of KWED-1580, Seguin, TX is negotiating for the sale of his FM frequency (105.3) to a Long Island, NY buyer and will file for fulltime on 1580 soon after the FM deal goes through. The city of license for the FM will probably be changed to San Antonio. That second tidbit, from the owner himself. /// I'm still DX'ing with my TRF, GE Superadio, and HF-2800B. Other purchases lately preclude upgrading. But more power to each one of you. Best of DX to all.

Tom Connatser - Route 9, Box 78 - Sevierville, TN 37862 (pm 10-31; rec'd 11-3)

Has another month come and gone?? Time really flies, doesn't it? Well, at least I did get back into the swing of things, even if I didn't make many additions to the log. Looked for **Dave Schmidt** at WNRK-1260 MM the 29th, but, as expected, didn't hear him. WNDE is a King-sized pest around these parts on 1260, with a near-local-like signal. Listed SP for this guy is 4-5 am, so I guess WNRK will never grace my log from this part of the country. WIBV doesn't help matters any, either, although they are off from 1-6 am Mondays. Noticed a couple of interesting items in the last AMS (No. 4): WNDR-1340-AL is now WSBM; this call had been used by FM-99.3 (now WKJQ) in Jefferson City, TN. Florence is near my old hometown, so this call has now been heard in both places I have called home. Also noticed that WJJP-1130-KY has been granted a power increase to 2500. Wonder if they already have their new XR. This guy was barreling in like a local 10-30 a little after 1 am. He was completely destroying KWGH! Sent this guy a reception report some time ago, and got a sheet of notepaper that said "Thanks for listening" ... and that's all! This is the worst verie (?) I've got in my collection. The same morning next door on 1140 somebody was running an EP with various TT until about 1:20 then into an Ace Cannon sax album until nearly 1:45. I didn't catch an ID, but from the signal strength, I'd suspect WJNT. Whoever it was, he was doing a pretty good number on WRVA. 6:25 pm 10-30: somebody is giving WNRK fits with country mx. Did manage to get an ID here - WER-; only thing listed in the log is WERK, a 250-watt directional daytimer, so I'm still not sure who this might be. WXTN-1000-MS also in nicely with local news and "Day By Day With Jesus" before s/off. I've noticed this guy is often heard here. Looks like this area may get yet another station; a doctor from Kingston has applied for a 500-watt daytimer in Farragut (West Knox County). Proposed frequency was not mentioned in the newspaper article. Well, I guess that about does it for this week. More as it happens. 73's and best DX to all.

Steve Kennedy - P. O. Box 552 - Huntington, TN - 38344 (pm ?; rec'd 11-3)

Howdy to all from the Volunteer State from a transplanted Florida "Cracker" ... hi. Time for my fall muse ... er, Muse, for all in my DX club. Since my last Muse, I have spent some time at the dials digging for daylight DX ... I gave up on trying to dig through the nighttime mess on MW long ago. I specialize in DX'ing during time when it is least likely to exist, daytime DX. With only a few open channels on the lower part of the dial, below 900, the MW band in this area is quite active with lots of new stations for my log. I am quite surprised how well most stations are being heard over long distances, nearly as well as DX was in Florida. I generally could hear stations on the lower end of the band about 350 miles away ... 200 miles on the high end. Up here, it is about 250-275 miles on the low end, and 150 miles on the high end. Since I last Mused I have moved into an upstairs apartment to give the MW-1 loop a chance to do its work. But living where I do, there is considerable interference from TV sweep oscillators, reradiation from the CATV circuits, lots of general RF noise ... sigh. Trying to DX under these circumstances is quite hard on my nerves ... so I do turn a dial during the mid-day hours when all the TV's in this house is shut off ... people at work. It is just as bad on SW, too, so I usually run the scanner, or the CB at night. Since moving into a new apartment, I have plenty of room ... 6 rooms, and even one converted into a nice, comfortable radio room, my DX den. Since last February, I have been using an FRG-7700 along with an R-1000. I miss the Hammarlund I once had. DX'ing is just not the same on these new digital sets ... I miss the extra tools available on the old sets ... crystal filters, IF notch controls, etc. In fact, I am looking for another Hammarlund for use at home and in the field doing remote broadcasts with WJJP-1530. Our remote broadcast van has a Hi-band VHF remote transmitter to relay the program back to the studio, but the 40 watts of RF raises the dickens with the FRG-7700, and the R-1000 even when trying to monitor with a small loop. The VHF RF is just too much for the little RX's. I borrowed a tube-type communications rx, a Hallicrafters SX-122A, and had absolutely no problems at all with RF. (I tried to buy the SX-122A, but the owner would not part with it.) So I am in need for a decent tube-type receiver. I would prefer a Hammarlund HQ-145A if one is available at a reasonable price, but I would consider any decent tube-type receiver, if the price is right. Any help on this would be greatly appreciated. I note the sales of good used tube-type receivers has greatly declined over the years. Most SW DX'ers now have digital sets, for I see very few tube rigs in the SW mags for sale. You may write me at my address above, or call (901) 986-9535 most nights from 0100-0400 GMT, or any Saturday all day. I need whatever help is available. Vy 73's to all ... will have another Muse in 4 weeks.

Dallas Lankford - 903 Sherwood Drive - Ruston, LA 71270 (pm 10-31; rec'd three minutes before I typed it 11-6) Not much DX activity to report recently,

primarily because both antennas needed work. The 100-foot long wire was refurbished last week, and the multi-rod Q-multiplied ferrite loop was rebuilt last night. But in the process I discovered that my FET VOM was giving incorrect readings, so it is time to repair my test equipment or get another VOM. Looking around the shack I also found that I have too many receivers, so I plan to sell some of them. More details will be found in the upcoming DXChange, but in summary I have the following: HQ-180C (\$325), HQ-170AC-VHF (\$175), and SPR-4 (\$285). All are in good condition, with manuals. Anyone interested can contact me by letter or phone ((318) 255-6550, after 5 pm CST, no collect calls). The receivers are unmodified, except that the HQ-180C has a power supply mod (a dropping resistor has been added to reduce the B+ voltage to the correct value, as discussed in a previous Musing ... the mod has been very carefully done so that you can undo it if you are picky).

And that's it from our Southern DX'ers ... now, back to our regularly-scheduled Musings.

Russ Edmunds - 753 Valley Rd. - Blue Bell, PA 19422 (pm 10-25; rec'd 10-30)

Greetings again, everyone. It's been over a year, I think, since I was represented in these pages, and I still can report no DX. This is due to several factors - the shack isn't done; too much other work on the house; a heavy travel schedule for work (I'm off to Indianapolis for two weeks tomorrow (10-21) after a week in Salt Lake City in Sept., a week in Wilmington in August, and a week in Chicago in July. I'll be back to S. W. C. in December.); and also my amateur radio activities. I did meet up with **Steve Bohac** as I directed traffic for a large hamfest here sponsored by a club I'm a member of. We had a long chat as we "did" the flea market, and Steve helped me to look over and get a better price on something I've been looking for for over 5 years - namely, another HQ-150. Then he helped me lug it to my car. It's apparently in excellent shape, and purchased from a local ham, who offered assistance if I had any problems. I've not yet fired it up other than to make sure it lit up and didn't do anything horrible, but it is good inside by the looks. I've never seen one for less than \$150 in any condition, and generally they're over \$200 when in this kind of shape. I hope that by next season I'll be set up and at least DX'ing a bit, as reports seem to indicate an improvement over the cx of the past several years. At this point, I'm uncertain about the RI convention, but if it coincides with a business trip up that way, or if we can arrange our proposed Maine vacation around it without too many objections from the family, I might make it. 73's to all, and to all a good night, or whenever you do your DX'ing.

Jack Woods - 4073 NE Morning St. - Corvallis, OR 97330 (pm 10-30; rec'd 11-1)

The Unreported Station list by Don Kaskey in Issue 3 reminded me about procrastination and poor judgment. Last May I attended a meeting at The Dalles, OR. Took along my XCR-30 for possible DX from the motel room. From there on May 30 I logged new stations KUTI-980, KIHK-1340, and KENE-1490. The last, in Toppenish, is one of the two unreported Washington stations. Of course I planned to report these and others to Dave Schmidt during the summer, but it never happened. Also, KACI-1300 is a local at The Dalles. While there I didn't bother to listen to it. KACI is one of the four unreported Oregon stations! Well, there will be other opportunities. Have tried this week for the TP's listed in **Paul Swearingen's** Musing in Issue 3. Only indication was on 828. Here in Corvallis there was possibly some audio under WCCO. Yesterday on the Oregon coast about 50 miles away there was no WCCO and a good signal on 828. Local time was 0557 PDT. Hasta la vista.

A Request for Help

Tony Fitzherbert - 356 Jackman Ave. - Fairfield, CT 06432 (pm 10-29; rec'd 11-1)

Hi - hope DX is good for all - is picking up here. Veries in with a v/f from WJQ-1390, and a nice v/l plus some promotional material from CJEM-570. Everyone seems to be verifying so far this year, unlike last year, when a lot of postage was wasted. Help! I would really appreciate if anyone could please, if in the vicinity of KKB-1090, Aurora, CO; KJIF-1190, Dallas; or WLQV-1500 Detroit take for me a picture of the XR site. Each station uses a 12-tower array, and I would appreciate pictures for my collection. In return, I'd pay expenses, or be glad to trade slides of studio or XR sites on the EC, or even of the rooftop facilities of WOPA (WNRK)-1490, WEDC-1240, or WCRW-1240. One of you did ask for slides of the above and they will be along in the mail, shortly. 73's.

R. V. Henninger - 6 Theodore Place - Saugerties, NY 12477 (pm 10-31; rec'd 11-2)

Warmest greetings to all! DX conditions have been very good here this past week. R. Progreso-580 on 10-24-84 at 8:25 ELT with commentary on Puerto Rico, CFLP-1000 over WCFL, WJ-950 "News Radio 950" coming in strong; on 10-25-84 CPNB-550, CBZ-970, WYN2-970, CJRP-1060 over KTW (very unusual), and CBI-1140 over WKVA. Last evening my wife, Kathy, monitored Havana-600 with a good strong signal and WSLR-1350 "Whistler Radio" on 10-30-84. Canadian stations usually come in quite well here, but last week was exceptionally good. Per my previous Musing, here's the follow-up on the mysterious WNYW-650. Within a few days of sending my reception report I received a telephone call from

Catch "AM Interlude" on HCJB Saturday nights.

20

the Chief Engineer inviting me to tour the facilities on 10-28-84. Although somewhat spartan at first glance, WYNW boasts well over 1,000 classical albums in its record library; many are rare and vintage. The majority of the station's electronic equipment was entirely hand-built with the emphasis on fine audio quality. The transmitter is 100-watt and the antenna is a 1/4-wave longwire. WYNW welcomes reception reports. 73 and good DX to all.

Albert S. Lobel - P. O. Box 26762 - San Diego, Ca 92126 (pm 11-1; rec'd 11-2)

The response to my request for telephone numbers of radio stations for my special project for the NRC Log Book has just been fantastic and greater than my wildest expectations. I cannot take the time to write each and everyone of you who has already responded a personal note. I am, therefore, thanking all of you who have written here in the "Musings" section. MY BIGGEST THANKS TO ALL! To those of you who have not yet sent me the telephone numbers of your locals, please do so. The more of you who help the better and faster I will be able to get this special project completed and forward it on to NRC HQ's for printing in the next log book or making available as a supplement to the current log book. Remember - even though NRC is not an FM or TV DX Club you can send me the telephone numbers of your local FM and TV stations also. I am a member of WIFDA as well as NRC (other DX Clubs, too) and will make the list of FM and TV station telephone numbers available to WIFDA or any NRC Member who wants one. The only cost for the FM and TV list will be my cost of duplication and postage; I will not seek to make any profit off the list!! PLEASE DO NOT SEND AN SASE FOR THE LIST AT THIS TIME. I WILL PUBLICIZE IT WHEN THE LIST IS AVAILABLE AND HOW MUCH IT WILL COST PER PAGE, HOW MANY PAGES, AND HOW MUCH POSTAGE AND LAST WHAT SIZE ENVELOPE TO SEND ME. 73 and good DX to all; once again, thanks! de ASL.

Ernest Returns from Disney World to the Dizzy World

Ernest Cooper - 5 Anthony Street - Provincetown, MA 02657 (pm 10-30; rec'd 11-3)

Bob and I are just back from a great two-week vacation in the Orlando area of Florida. I did a bandscan at Cocoa Beach, which will be appearing, I trust, in one of these issues of DX News. The new NRC Log has arrived, and it is a great piece of work, but I was disappointed to find it was unbound. It would have been helpful too had each page been headed with the frequency rather than just the page where that particular frequency began, so I added that feature to mine. Of course, AM reception in the motel was limited to strong locals, and it still amazes me that the AM stations have never banded together to fight this interference. To defeat this would get them a lot more listeners than trying to imitate FM by going to AM stereo, I would think. One AM verie has found its way to my doorstep, a rare one - WPTM-1590, in the form of a Pp/c, after my seventh try for a verie. Never give up, lads! A bit of DX'ing here, as follows: 10-2: In a try for CKAN-1480, I head WSAR s/off promptly at midnight, and CHRD at 12:05, leaving WJIT and WLEE, but no sign of CKAN. WSAR's s/off message is, "This is it" and off they go! CHRD ends with GSTQ. Somebody was TT'ing u/WCBS at 12:17 am, off and on, no ID heard. Also one doing likewise on 1000 with WCPL off at 1 am for technical maintenance, they said. However, their carrier remained on. The tones were not from them, however. Sat. 10-6: On 1450, Neil Diamond song and an ID that sounded like WCKG?? After the Florida trip I got back to the dials on Fri. 10-26 and heard a fairly loud TT'er on 1550 between 1 and 3 am who never ID'ed. Sun. 10-28 found someone on 1450 on one of the satellite music nets with requests from all around the country and no commercials, and the ID a bit past the even hour was so far undermodulated it could not be deciphered. Some rock, some oldies, some MoR - a real cross section of mxt! MM 10-29: Ah, thank you, Dave! WNRK make it here weakly, with only the tone making it whilst WEZE was on with their daytime OC. When they went to their night pattern to test, I got a couple of announcements from WNRK and called Dave. WNEC and I think WSUA were noted in the background. See you soon - Forward - March!

Paul Swearingen - 7310 Ensign Avenue - Sun Valley, CA 91352

A few recent Musings have been delayed because the incorrect Zip Codes have been used. You can add about 3-4 days to the travel time when you goof up the Zip! See you next week, and send those v/s to Wayne Heinen.

Newspaper Clipping
AM RADIO INDUSTRY

GLOBE & MAIL - Toronto, ON 10-31

via Peter Weeks

The sluggish AM radio industry could be revitalized and its technical quality vastly improved at a reasonable cost, according to a new study released by the National Association of Broadcasters in the United States. It indicates that research now under way could solve many of the technical problems that plague AM radio. In addition, the study urges the industry to undertake development of new antenna

designs and of a high-quality integrated circuit on chip for use by receiver manufacturers. Of 9,300 radio stations in the United States, 4,750 are AM stations - 51%. Yet in the spring of 1984, AM's audience share was only 32%, compared with 68% for FM. Titled AM Technical Improvements: A Plan for the Future, the 60-page paper is the result of almost a year's worth of research by the AM Improvement Subcommittee, part of the NAB's Engineering Advisory Committee.

From Electronic Media, Copyright 1984, Craih Communications Inc.

We're going to start out this verification column with a special signer supplied by our '84 Convention guest speaker Mr. Paul Hale. Any problems with stations in the Peoples Republic of China can be directed to:

Mr. Fan Yizhong Deputy Director
Radio Beijing
Beijing, P.R. of China

And here's the rest!
