**From the Publisher:** We hope this issue finds you still healthy and safe and hunkering down near your radio! Like many of you, I am mostly able to work from home these days, and while it can be annoying to have to stay at home all the time, it's better than coming down with this nasty virus! I hope that's the case for you as well.

As you can see, there are a number of stations that have gone dark in recent weeks because their advertisers have faded away during the crisis. And sports talk stations are starting to shift formats, finding not very much to talk about now that there are no sports going on! But most stations are still on the air and waiting for you to hear and log them.

We have one more "every 3 weeks" issue and then we'll go monthly after that. While the MW DX season definitely starts to slow down this time of year, I always find that the reduced QRM is actually helpful in identifying GY stations and in logging those relatively nearby, lower-power unheard stations that otherwise get clobbered by bigger stations that start coming in early at sunset during the winter months. So there is still a lot of DX to be had.

We briefly thought that KBOZ-1090 was going to run a DX test this week but that's now been cancelled ... but we have folks like Les Rayburn, our new joint CPC chair with IRCA, and Paul Walker rounding up possible tests, so stay tuned to the NRC e-mail list, Facebook page, etc. for the latest test info.

**NRC AM Radio Log 40th Edition** is now sold out! Wayne and team will now turn their attention to the next edition, due out in late summer.

*Department of Corrections:* Last issue we reported that “CFNW-940” is back on the air, and that clearly should have been CFNV. And we reported a CP for “CKAD-1420” although CKAD, of course, is on 1350 kHz. Sorry about these mistakes!

## *FCC and CRTC Decisions and Applications*

### CALL LETTER CHANGES

1520 **WBZW FL Apopka** – Call change to WNDO (Apr. 6).

### STATIONS GOING DARK

1530 **WJDM NJ Elizabeth** – License cancelled at licensee’s request per letter to FCC Apr. 10.

### NEW STATION WATCH

960 **KABN AK Kenai** – Granted modification to new station CP to U1 1000/1000.

### CONSTRUCTION PERMITS (CPS) FOR EXISTING STATIONS

CPs built, nearing final licensing:

1110 **WVJP PR Caguas** – Applies for license to cover CP to replace tower, no other changes.

1590 **WPUL FL South Daytona** – Applies for license to cover CP for U1 1000/47, new site 29-12-06/81-01-29.

CPs granted:

660 **WESC SC Greenville** – Granted CP for D1 5000, new site (diplexed with WGVL-1440) at 34-52-06/82-28-05.

1060 **KBFL MO Springfield** – Granted CP for U1 2500/19, existing site.

1380 **KRKO WA Everett** – Granted CP to modify night pattern.

Application to modify CP dismissed:

1060 **WLNO LA New Orleans** – Has CP for U1 10000/245; application to modify CP to U1 10000/300 dismissed. In Feb. 2019 FCC had requested WLNO follow up on a Mexican study showing that any night power over 10 watts ND would cause internationally impermissible skywave QRM to XEEP-1060 (R. Educación), and the WLNO licensee never responded. What this means for the 245w CP is unclear.

Applications for CPs filed:

1190 **KDMR MO Kansas City** – Applies for CP with U1 3700/160, new site 39-06-30/94-29-52.

1370 **KFRO TX Longview** – Applies for CP with U1 1000/100, existing site.

1430 **WEFF IL Deerfield** – Applies for CP with U4 1600/1020, existing site.

1520 **WTHE NY Mineola** – Applies for CP with D1 10000 (ch 500) on 1530 kHz, existing site. (With WDJZ Bridgeport CT long gone, and WJDM Elizabeth NJ now gone from 1530, this frequency has opened up.)

### From Radio Insight:

The FCC is petitioning the Supreme Court to hear its case after the United States Court of Appeals for the Third Circuit overturned its most recent ownership rule changes last fall. FCC Chairman Ajit Pai released the following statement:

"In November 2017, we adopted long-overdue reforms of our media ownership rules to allow broadcasters to compete in today's dynamic media marketplace. Our action was consistent with Congress's command that we repeal or modify any such rules that are no longer in the public interest as a result of competition. It's unfortunate that the same divided panel of the Third Circuit yet again has blocked the Commission's efforts to modernize our media ownership rules—the latest obstruction of Commission action and congressional intent in several cases over the last 17 years. As our filing notes, the court's decisions have frozen in place decades-old ownership restrictions that have outlived their competitive usefulness in the digital age. Throughout our proceedings, the FCC has solicited extensive public input, reviewed voluminous record materials, and adopted policies that the Commission determined would strengthen local news outlets. Absent further action by the Supreme Court, broadcasters will continue to be saddled with outdated regulations. The Supreme Court's intervention is necessary to restore the Commission's discretion to regulate in the public interest and modernize media ownership regulation for the digital age, as Congress intended."

The overturned rule changes included:

- Eliminating the newspaper/broadcast cross-ownership rule preventing a company from operating a newspaper and a broadcast outlet in the same market.
- Eliminating the radio/television ownership subcaps so a television station no longer counts towards the limit of eight radio stations (maximum of five on each band) that a company can own.
- Eliminating the requirement that at least eight independently owned television stations must remain in the market following the combination of two television stations in a market.

- Modifying the ban against common ownership of two top-four rated TV stations in a market to allow waivers on a case-by-case basis.
- Eliminating the JSA Attribution Rule requiring television stations to count a station it sells more than 15% of ad time for under the ownership cap.

Shawn Axelrod, 30 Becontree Bay, Winnipeg R2N 2X9 (Canada) [amandx@mymts.net](mailto:amandx@mymts.net)

Greetings once again from the Heart of the Continent and welcome to the DX Tool Box Column number 126.

I do hope this column finds you in good health. My wife and I have been staying home except for grocery shopping and the odd have to go to appointments. On the bright side more time to DX but the worst way possible to gain the time. DX'ing fits in well with social distancing.

As we live through these strange times I want to take a moment to pass along my thoughts to anyone who reads this page. I hope you and your families and friends stay safe and healthy. It is hard to adjust (I do miss being with my grandchildren) but it is the only way to get through these days and months ahead of us.

I want to leave one little piece of advice from the Premier of Nova Scotia:

Hope it brings a smile to your face even if it is just for a minute or two.

## Bits and Bites from the NRC listserve

Re: Remote This, Remote That

While we're all sitting around self-isolating [I thought that's what this hobby was anyway?] here's a couple of things to have a look at or listen to. With a great deal of help from Nick Hall-Patch I have a Mid-Atlantic DX Fishbarrel running!

It can be seen at: <http://voa.his.com/fishbarrel/display4.htm>

Reminders:

- I'm not on the coast so TA signals are not nearly as 'healthy' as they would be in Cape Cod, Maine, or Newfoundland.
- Because of geography and the sun, Nick's Fishbarrel and mine act in opposition — his 'lights up' in the morning while mine 'lights up' [to a lesser extent] at night.
- Nick reminds that it takes an orange-level signal on the bar graph to be audible — you'll see lots of shades-of-blue bars that indicate varying levels of carrier before that

If that's not enough, you can listen to what the Fishbarrel is alerting you to on a KiwiSDR I also host at: <http://alex.proxy.kiwisdr.com:8073>

These are both connected to the same antenna - a 50 x 15' Superloop pointing East. Right now it's rectangular shape is pretty distorted by tree limbs. I'll be working on that while telecommuting from home for the next ... however long. It's also kind of noisy in some parts of the spectrum. If you saw where it was you'd understand why — too close to the house and with the 'front end' about 20' behind an on-the-ground power transformer for the entire neighborhood.

73 for this time, Shawn.

--- UNID ---

- 780 UNID - 4/11 0605 – Urban gospel vocals, pointing NNE in a rare absence of WBBM, which popped back up at 0607 but only with cycling ID jingles and dead air spells (with the unidentified still audible during the dead air). Finally, WBBM was up with regular programming from 0614 and this (unID) became hopeless. WWOL or WCKB in NC, or WAVA in VA? (TK-FL)
- 900 UNID - 4/16 0737 – Modern Country (Lonestar, Chris Stapleton), “Real Country” slogan, woman DJ, man with traffic but faded enough to miss any location. Suspect WJTH, Calhoun, Georgia though not their listed or website slogan. No functioning stream, of course. (TK-FL)

- 1590 UNID - 4/6 0802 – Orchestral “Star Spangled Banner” squeaking through, nothing else. Heard subsequent days same time. Not WTPA or WALG, both poor and atop. Note that WCSL still airs a female rendition of the SSB at 0600 ET. (TK-FL)

## Martin Foltz – Mission Viejo CA

I just rejoined so thought I would send in a Musing. I looked thru the old bulletins and found I first joined in June 1974. I think I was still a member in 1993 but need to check my old bulletins in the attic. Anyway, glad to be back. My interests are domestic DX and collecting veries. I’ve been in California since 1984 and was somewhat active until about 1991. Then picked it up again at the end of 2003. My equipment is a Hammarlund HQ-180A with a couple wire antennas about 75 feet long. Also a small 1 foot air core loop. My portable is a Sony Walkman SRF-M37W. It’s actually a pretty good radio and I use an external speaker when I want to record. DX this past season has been good toward Arizona. I’ve heard and verified many stations that I didn’t expect to hear well enough for reports. Up to 27 Arizona stations verified. Graveyard stations are also a favorite with 70 heard and 38 veries. Only 5 unheard GYers within 400 miles. Recent new stations heard include 980 KVLV Fallon NV and 1370 KSOP South Salt Lake UT. Local 1370 KWRM Corona CA has been off the air so I need to take advantage of that. Everyone stay safe. 73’s, Martin

## Wayne Heinen – Aurora CO

As of my last musing my 2019-2020 I neglected to give the new total, anyway I’m now up to 585 logged stations for the season. Some relogs and a few new highlights... 3/13 Brief call ID at 0800 KQBU-920 “Sports Radio” for a needed call change. 3/14 – Another needed call change in KFIO-1050 with a multi Station CAN network ID at 2159, last logged as KEYF in 2009. 3/15 KSUR-1260 with Oldies “Surf 1260 LA Hits” ToH ID in as KSUR Beverly Hills. This was last logged as KGIL licensed to San Fernando back in the early 80’s. Later that day KFLD-870 was just creaming WWL at 2300 with a legal ID to Fox News. Wonder if they forgot to power down, dominated thought the night/morning. 3/16 Logged a new on at 0200 KDHL-920 with “KDHL 920 AM Fairbault or download our free app...” barely over KPOF-910 IBOC slop. Later in the morning found WKAR-870 0800 with ID and program notes about BBC News. Later that night I added a new Continent for me here in Colorado, Algeria-891 finally yielded up some audio at 0100 ELT (0500 UTC)! 3/19 – One of my most wanted stations KOFA-1320 Yuma AZ was logged with legal ID and “Border Radio” slogans. This one has eluded me for years. To date I have added 51 new stations to the Colorado Logs and an additional 18 call changes Colorado log totals are stations logged 1528 and an additional 510 call sign changes. You’ll find some loggings of some new stuff from early April in DDXD-W. Local KKSE-950 was off for two days running and KMXA-1090 has changed its schedule and is now operating from 10 AM – 10 PM Mountain time. This pest is only 6 air miles ENE of my location and having them off for a while will be really helpful. I hope everyone is staying ion and staying healthy! 73 till next time.

## TRANS-ATLANTIC DX

- 711 unID APR 22 0225 – Two JBA carriers slightly apart beating, one or both Cuban or TA? cursory check of 9-kHz TA frequencies vs storm noise level detects 828, 945, but interestingly, not 531, 549 nor 891, the usual Algerians. [Hauser-OK]

*Transatlantic carrier search:* APR 15 0143-0150 – Just-barely-audible, despite K-index of 3; 531, 558(2), 621(2 at 3.2 Hz), 639, 684, 774(2), 828, 855(2), 882, 891, 909, 936(2), 1026(2), 1044, 1053, 1089, 1098, 1215, 1422, 1431, 1575 kHz. [Hauser-OK]

### PAN-AMERICAN DX

- 620 **MEXICO** XENK *Radio 620*, México, DF APR 10 1018 – Diana Ross, The Coasters, "Tres Monedas en la Fuente" by Pasapoga Light Orchestra, frequent slogan, and program promo. Excellent. [Krueger-FL]
- 710 **MEXICO** XEMP *Radio 710*, México, DF APR 10 1123 – Mexi-tunes, frequent slogan in lots of domestic co-channel. [Krueger-FL]
- 711 **CUBA** *R.Rebelde*, unknown location APR 10 1123 – Thanks Glenn Hauser observation in DXN 87-14, big het against 710, fairly weak audio. They've intentionally done this game before, such as on 671 kHz, and in the 1970s-80s, 1142 kHz. [Krueger-FL] APR 15 0138 – The off-frequency carriers still here hetting 710 stations; yes, not one, but two of them beating at rate of 204/minute = 3.4 Hz, one of them a *R.Rebelde* offshifted for more annoying jamming, and perhaps the other; although I am getting also some mostly weak TA carriers. APR 20 0600 – Presumed off-frequency *R.Rebelde* is still very much here making big het against legal 710 stations. Someone reported hearing RR audio on 711, but I never have. APR 23 0044 – Weak carrier hetting 710.00 stations; this time DF and confirm from southeast/northwest, not northeast/southwest from Eurafrica. [Hauser-OK]

- 910 **CUBA** *R.Metropolitana*, Villa María APR 26 0400 – Fair; "Transmite la cadena provincial de Radio Metrpolitana... por 98.3 frecuencia modulada y 910 amplitud modulada. Cadena provincial de Radio Metropolitana." Frequencies were repeated three times. [Conti-NH]
- 950 **MEXICO** XEMEX *La Mexicana*, Cd. Guzmán, Jal. APR 23 1054 – Mexi-tunes, unaccompanied kiddie choral version of the anthem, quick up-and-down flute notes theme, man with calls but could only make out the "XE" part, back to Mexi-tunes, mostly lost in the stew, though pieces of it present until 1125 UTC. Presumed the one based on first ID'ing February 21, 2015, with the same version of the anthem and flute theme. August, 2015 was my last log of this, so it's been awhile, and would be confirmation this one hasn't vacated to only FM. [Krueger-FL]

### INTERNATIONAL NEWS

**ISRAEL:** The *Voice of Hope* from Israel at 1287 kHz (50 kW) did not return to the air despite the promise to return on April 1st. The station announced that due to financial problems, it could not pay for technical maintenance to Israeli telecommunications company Bezeq. [Offer Barth, mediumwave.info]

**MEXICO:** 1030 XEQR returns to the air... La señal radiofónica de la emisora XEQR-AM 1030 kHz regresó a la radio de la capital, 35 meses después de haberse apagado, en mayo de 2017, por la imposibilidad de hallar un terreno con las condiciones técnicas adecuadas para la transmisión de ondas de amplitud modulada (AM) sobre la densamente poblada Ciudad de México. El regreso de la 1030 a los aires de la CDMX ocurre luego de tres intentos de su concesionaria, la empresa XEQR,

S.A. de C.V. y subsidiaria de Grupo Radio Centro (GRC), por hallar un espacio apto para la antena de la estación comercial "Radio Centro 1030 AM", señal piloto de toda esa compañía desde el año 1941 y en ese tiempo una competidora directa de la también mítica XEW. XEQR, S.A. de C.V. halló un espacio en la alcaldía de Iztapalapa para montar la antena de la 1030 AM allí y la autorización la consiguió del Instituto Federal de Telecomunicaciones (IFT) el 21 de marzo del 2019, con plazos prorrogables que le permitieron volver al aire en abril de 2020. [www.eleconomista.com.mx via Glenn Hauser]

**NEW ZEALAND:** *TAB Trackside Radio* is off the air. All stations open carrier after the network ceased programming midnight April 12. [Bryan Clark via ICDX-AM group]

## Thrilling Ocean-Enhanced Long-Range Propagation

Gary DeBock, Puyallup WA – March 2020 (via Phil Bytheway)

*(continued from last issue)*

*More from Chris Rogers:* Early morning DX sessions, just before sunrise yielded many Australian stations including the low powered narrowband stations, and numerous Asian stations. The NZ stations were nowhere near as strong as the Australian stations at sunrise. I DXed mainly at night for up to 9 hour sessions, and was too tired to do the morning sessions as well. My US DX partners DXed mainly in the sunrise/sunset periods. Equipment used. Tecsun PL-880 (modified to accept an external MW antenna) PK amplified loop, CCrane Skywave modified and 5" FSL antenna both by Gary DeBock.
