Cumulus Discontinues Westwood One News. In a letter sent out Thursday evening, Cumulus notified all 900 plus Westwood One News affiliates its service would be shutting down August 30, due to extraordinary circumstances. “Due to the extraordinary circumstances in the current marketplace, Westwood One News will be ceasing operations effective on Sunday, August 30, 2020, following the 11:30pm ET newscast. Please accept this letter as official notification of the cancellation of this service. (The code for this network in the *Log* is W1n).

SB Nation will now be called SportsMap Radio Network. Gow Media has owned the network for over ten years, when it acquired the assets of Sporting News Radio. Gow then rebranded the network to Yahoo Sports Radio for 5 years, then SB Nation Radio for 4. Gow Media CEO David Gow said, “We have benefited from brand partnerships with great companies such as Yahoo and SB Nation but have ultimately concluded that we no longer want to be subject to the fate of another brand. Strategically, it is important to build our own brand.” (The code for this network in the *Log* is SBN).

KYW Philadelphia Ditches Teletype Sounder. That familiar – and very ancient – teletype sound behind news stories is gone from the KYW Philadelphia airwaves. It’s something listeners have been hearing for many decades. KYW Brand Manager Alex Silverman went on Twitter and explained why he pulled it. “They stopped making the ribbons for the trusty teletype in 1986, and our supply finally ran out – so alas, old reliable is out of commission until further notice,” Silverman said. “As technology has evolved over the years, so has KYW Newsradio, and the sound of the station should reflect the modern, nimble, multi-platform news organization we’ve become.”

As he hasn't heard any noise on 1060 or 1080 lately, **Mike Riordan** from **Salt Lake City** wants to know if **KNX-1070** is still running IBOC. Can any SoCal area DXers (or anyone else) answer this for Mike?

--- STATION NEWS ---

580 CHAH AB Edmonton – 07/29 0606 – Signal faded up over KIDO with South Asian/ East Indian music. **Testing on the frequency for the new station.** Should have the slogan 'Radio Sursangam'. **NEW!! (SMA-MB)**

580 CHAH AB Edmonton – 7/25 – Others reported hearing them 7/24, but first heard 7/25 with shorter and shorter bursts of audio as transmitter kept going off and on through the morning, and then off the air completely in the afternoon. **Back on the air full-time**

by 7/26 with South Asian music and back-to-back test announcements in English and Punjabi. Day Pattern has a nice broad lobe centered on the SSW, and others report hearing it accidentally in use at night at least occasionally. For August, pattern changes should be at **0815 & 2300**; September **0915 & 2145**. The station is sharing three of the four CBX-740 towers to simulate the old CKUA-580 directional patterns and is licensed to air Punjabi, Hindi and English programming. The owners have long provided the early evening programming to CKJR-1440 Wetaskiwin, so that is likely to end once the CHHA test period ends and they can begin airing commercials and regular programming on CHHA. **(JP-AB)**

[Jon also sends word from the Canadian Radio News Facebook page by Dan Sys:
600 CKSP BC Vancouver – IS ON THE AIR – They were first heard in Aldergrove at **4:30 PM** this afternoon (**8/14**). Very weak signal, obviously not operating at full power yet 50 kW (days) / 20 kW (nights). Continuous Punjabi music with no IDs heard during the time that I monitored them. Will be branded as "Sher-E-Punjab Radio". As of this morning CKSP is now simulcasting Punjabi programming from Surrey's CISF 107.7 HD2 (Desi Mix Radio). Should make it a bit easier to identify from a DX standpoint.

- 590 WDDV FL **Panama City** – A non-log. I was about 15 miles west of Panama City on 7/15 and can confirm this one (which flipped former WDIZ calls with the 1320 kHz Venice, Florida station on June 29) **is still silent** as of this submission. **Surely returning soon if they went to the nonsense of flipping calls. (TK-FL)**
- 590 KSEI ID **Pocatello** – Heard with News/Talk, SRN News and programming. **(MR-UT)**
- 1060 KDYL UT **South Salt Lake** – 7/23 – **Now Silent**. Their Open Carrier has been turned off. **(MR-UT)**
- 1550 KMRI UT **West Valley City** – **Remains Silent** following the March 2020 earthquake. **(MR-UT)**
- 1580 KWLO UT **Springville** – Signal varies from day-to-day. Fair some days, others poor. Occasionally they run day power (1 kW) all night, competing with XEDM. **(MR-UT)**
- 1680 WPRR MI **Ada** – 7/17 0730 – Poor, with Open Carrier for two hours. **Off from July 8-13. (JJR-MI)**

--- UNID ---

- 1010 UNID – 7/18 0810 – Someone here, pointing roughly N/S, with Fox Sports Radio. Faded out just before 1300. Not WJXL, Jacksonville, FL, which is a pest and remains CBS Sports. Pinged Mike Cooper near Atlanta to see if it might be WTZA which is listed as licensed, but reported silent. He has no signal, so presumably not them. Next guess would be the 50 kW (day power) WHFS, Seffner, Florida station that's Business/Talk format. Their website content is still with that format, but the live audio stream is dead. However, J. Santosuosso, Lakeland, Florida is hearing the usual brokered business talk shows, 'Biz-Talk' slogan, so they are definitely ruled out. **(TK-FL)**
- 1300 UNID – 7/11 0608 – Nonstop old time and Country-tinged gospel vocals. Pointing NNE. Eventually lost to WNQM with USA Radio News from 0726, but otherwise preacher block programming and quick WNQM ID drops between blocks. **(TK-FL)**

- 820 WBKK MN Wilton – 7/30 0759 – Very poor, with Catholic chatter, “EWTN Morning Glory”, and LID. (JJR-MI)
- 820 WVSG OH Columbus – 8/4 2100 – Poor, but solid, in WCPT null. LID, and EWTN programming. Rare! (JJR-WI) [Heard again!!]
- 820 WVSG OH Columbus – 8/5 2200 – Very poor-to-poor again today, with LID, ‘EWTN Nightly News’, in WCPT null. In for 30 minutes. Very Unusual! (JJR-WI)
- 840 KJFA NM Belen – 7/16 0702 – Legal ID for KJFA and 102.9 FM translator K275AO Albuquerque, followed by what can be best described as “Mexican hip-hop”. Heard often, but never ID’ed before. Ex-KARS. (JW-CO)
- 860 KKOW KS Pittsburg – 7/17 0628 – “America In the Morning on Westwood One” break outro, female-voiced “KKOW Pittsburg” into ads. (TK-FL)
- 860 KONO TX San Antonio – 7/17 0618 – Zombies’ ‘Time Of the Season’ into Elvis, Hot Chocolate. Fading in and out of multiple co-channel stations, all tracks matching the current and recently played scroll on the station website. (TK-FL)

- 890 KQLX ND Lisbon – 7/17 0730 – Poor -- Farm Talk, “Markets on the 10s”. WLS, in earlier, gone. (JJR-MI)
- 890 KTXV TX Mabank – 7/17 0752 – Tentatively this one (anyone in Tejas able to confirm?), fading up over what was left of WYAM, with odd Punjabi or Urdu-sounding man recital/chanting with no instruments, seemingly no ID top of hour, then female subcontinental vocal and signal then lost. Listed as silent in the new NRC AM Log, but licensed in the FCC dB. If them, formerly China Radio International and Vietnamese formats (and still trying to find the right Asian audience). No functioning stream found. (TK-FL) [Being ~90 miles WNW of KTXV’s transmitter site, I can hear their signal fairly well in the daytime. On the date in question, I tuned to 890 and heard a solid signal with alternating male-female announcers with ads and a legal ID on the hour (“Radio Punjab KTXV Mabank-Dallas-Fort Worth, 890”. This was followed by (what sounded like) the identical pre-ToH ad string) into SW Asian music, then a female reading news(?) in unID language. BTW, in the past four-to-five years, I have heard nothing but the same programming genre from KTXV – Ed.]

News Radio 1010, WMOX . . .” into unidentified net news and promptly lost. Call sign IDs at 0352 and 0400; the latter including mention of 102.3 as noted in DXN, V87 #23 (Mar 24). Office and studios have moved down the Kanawha River to St. Albans. Unreported Domestic Stations

Four new stations were reported to DDXD this issue for the first time since at least Volume 67 (1999-2000): KZZB-990, WCKW-1010, KLNT-1490, and WABL-1570-. Plus new Canadian stations CHAH-580 and CKSP-600 are on the air and reported, and two defunct stations (WANY-1390 and KNDF-1560) were on the list and now drop off as targets, so we are down to 296 full service (100 watts and up) AM stations in the United States and Canada that have not been reported to DDXD during this time. The last full list was printed in Volume 86 Issue 19. We'll print a new one as soon as we have room.

TRANS-ATLANTIC DX

- 576 **ALGERIA** *R.Algérienne*, Béchar AUG 16 0500 – Presumed; solid s5 but not enough to overcome domestic interference. 531 and 549 *Jil FM* weak hets against domestics. [Conti-NH]
- 1089 **UNITED KINGDOM** *TalkSport* synchros AUG 16 0300 – Fair; news from the Sky News Centre. [Conti-NH]
- 1152 **ROMANIA** *R.România Actualitati*, Cluj AUG 16 0159 – Poor, mixed with Spain; choral national anthem. [Conti-NH]
- 1215 **UNITED KINGDOM** *Absolute Radio* synchros AUG 16 0201 – Fair; end of long ad string with presenter announcement into "Under Pressure" by Queen and David Bowie. 0300 good; ad string, "Barclays, make money work for you." [Conti-NH]

Transatlantic carrier search: JUL 27 0155 – Nothing lower but a het from 891 upon WLS, doubtless the Algerian which makes it if any. AUG 1 0541 – From low end of band up to 900 at least, no 531 or 891 from Algeria, but the only one on 9 kHz steps is 621, surely RNE 300 kW on Tenerife, Canary Islands. It's almost too late for anything from Europe, but LSR there today was 0627 UTC, while e.g. in Sevilla, upon the continent it's 0529 UTC, if I have correctly converted the confusing listings at gaisma.com, where you will not find a Canary heading under Africa, but under Europe: Santa Cruz de Tenerife. PAN-AMERICAN DX

- 570 **COLOMBIA** HJND *R.Nacional*, Bogotá JUL 21 0502 – Noted in passing the frequency with quick "Radio Nacional de Colombia" by male; with *R.Relej* Cuba in the background, fair signal. Relog. [Niven-TX]
- 600 **NICARAGUA** YNA3MD *Radio Ya*, Managua JUL 21 0402 – Male and female speaking, mentions of Nicaragua a few times and *Radio Ya* were heard, then Cuban national anthem from *R.Rebelde* was heard which overtook the channel, fair signal, again noted at 0458 with good signal. Relog. [Niven-TX]
- 610 **MEXICO** XEGS Guasave, Sin. JUL 24 1132 – National anthem in progress; followed by ID only as "Grupo Radio Chavez;" music followed. Occasionally fair, mixing with KNML. [Wilkins-CO]
- 620 **MEXICO** XENK *Radio 620*, México, DF AUG 8 1056 – Al Stewart "Year Of the Cat" then slogan ID into "El Funeral de Labrador" by Bárbara y Dick, ID punctuated with rooster crow, "Cadena RASA" into government PSA. Excellent. [Krueger-FL]
- 640 **MEXICO** XENQ Tulancingo, Hgo. JUL 21 0202 – Noted in passing with long ID announcement by male; fair to good signal. Relog. [Niven-TX]
- 650 **MEXICO** XETNT Los Mochis, Sin. JUL 24 1130 – National anthem, then a "Chavez Radio" jingle and into XE music. Generally fair. [Wilkins-CO]
- 760 **MEXICO** XEABC *ABC Radio*, Los Reyes de la Paz, Edo.Méx. JUL 16 1051 – Spanish pop vocals, man "ABC Radio 760" between tracks. [Krueger-FL]
- 770 **COLOMBIA** HJXX, RCN, Bogotá JUL 21 0500 – On top of the channel with big signal; clear ID with AM/FM mentioned, relog. [Niven-TX]
- 820 **MEXICO** XEABCA Mexicali, BC JUL 16 1114 – Canned ID by female as "Canal Ocho Veinte, ABC Radio," followed by a 70-ish sounding song with English lyrics. Noted a few days earlier with national anthem at the odd time of 1132 UTC (4:32 a.m. Mexicali time). Signal fair in WBAP null. [Wilkins-CO]
- 840 **CUBA** CMHW *Doblevé*, Santa Clara JUL 28 0400-0409 – WHAS Louisville is still on. Earlier, Chris Gay tipped the WOR iog that WHAS had announced it would go off the air at midnight (0400 UTC) for antenna maintenance, duration unknown. I leave a radio on 840 and around 0415 WHAS seems gone but others say it was 0417 or 0418 so it may have been in a fade a bit before. Then listening closely I hear some talk in Spanish, followed by mostly music. #1 suspect is CMHW. Considerable adjacent channel interference as if from music, but unseems from WCCO or KOA. When aimed north/south I get a fast SAH presumably involving KVJY, also Spanish format, but religion. Not rechecked until 0631 when I still hear Spanish stronger, now definitely Cuban rhythmic music; 0634 WHAS cuts on about iHeart Radio for a few seconds, off again. 0637 WHAS back on again, seemingly to stay. [Hauser-OK]

- 840 **CUBA** *R.Revolución*, Palma Soriano AUG 16 0400 – Under WHAS; choral national anthem, calliope theme song of canned ID. [Conti-NH]
- 930 **MEXICO** XETLA *La Voz de la Mixteca*, Tlaxiaco, Oax. AUG 8 1100 – A surprise find with stock, truncated choral anthem at tune-in, then man with long canned ID, mentioning the slogan at least twice and the calls at least six times, into brief kiddie voice, then woman talk until faded and lost in lots of co-channel. Listed as a 5 kW daytimer, and the IRCA Mexican Log 22nd Edition states the anthem at local 0600 is in an indigenous language, but not so now. First log of this one and I think the first log of anything XE on 930 kHz. Oaxaca is also not a particularly common state for me. Coming in almost daily at this time here, right now. [Krueger-FL]
- 1000 **CUBA** *R.Artemisa*, Artemisa JUL 15 1115 – The spastic wobbling noise source, still here after at least two-three years. You'd think by now they could have fixed this. [Krueger-FL]
- 1010 **MEXICO** XEPA *Ke Buena*, Puebla, Pue. JUL 12 1101 – The source of the abridged choral anthem I've been hearing occasionally and always poorly through nearly local level WJXL idle sports spew. Anthem from 1101 (daily timed, when audible), man with "XEPA, Ke Buena... mil wats... Ke Buena" then into Mexi-tunes, quickly lost. First log of this one for me. Didn't catch up with their website in time today to parallel, but it does still prominently list 1010 as active. [Krueger-FL]
- 1010 **MEXICO** unID JUL 15 1110 – Through WJXL, the abridged choral anthem pops up at 1110, nothing after that audible. Another Mexican? Or just XEPA being lazy (they always started the anthem at 1101 when audible on previous logs). [Krueger-FL]
- 1090 **MEXICO** XEAU Monterrey, NL JUL 23 0600 – KAAZ Little Rock, Arkansas drops to dead air, so I amplify the opportunity and also null it for what else may right-angly audiblize: Spanish, time check for 1 a.m., brief announcement mentions milenio.com but I don't hear a specific ID. The IRCA Mexican Log has lots of details about each station but does not mention Milenio in connection with this or any 1090 station. In fact "milenio" does not appear once in the huge file, so such info is beyond its scope. Wikipedia however soon confirms this: "XEAU-AM is a radio station on 1090 AM in Monterrey, Nuevo León. It is owned by Multimédios Radio and carries Milenio Radio along with sister station XHFMTU-FM 103.7 HD3." Top of the hour is not for news on either station; XEAU plays music, first a familiar instrumental non-Mexican song, and then 0603 one in English before KAAZ remodulated at 0605 UTC. From Tim Hall, "Reports coming out of Monterrey in recent months (on some Mexican radio groups I belong to on Facebook) have said that XEAU has been jumping back and forth between "FM Tu" parallel 103.7 XHFMTU and Milenio Radio/Milenio Noticias. There is speculation that they are just about ready to turn off the AM. In my annual Border Inn sessions (last October, a couple months after the deadline for the Mex Log) they were indeed using Milenio Radio slogan." [Hauser-OK]
- 1100 **COLOMBIA** HJAT *Caracol Radio*, Barranquilla JUL 24 0501 – Male mentioning *Caracol Radio* under XETGO, then gone, fair to poor. New. [Niven-TX]
- 1110 **PERU** OAU4J *R.Feliz*, Lima JUL 2 0259 – Male speaking on top of the channel. At 0259:30 a little Peruvian music was heard then male speaking. Male mentions Peru a couple of times, then trumpets were heard with male singing in the background and male speaking over trumpets, then over time pips at 0300:11. Time pips were heard as 12 short then one long pip, "...Radio Feliz, Lima Peru," then canned ID by male, "Esta es Radio Feliz, Lima... Peru," then another male speaks; fair to good signal at times, lots of static but pretty clear at times. Thanks goes to Jan Alvestad of RealDX group with assistance on this one. Also noted on July 15 with descent signal at times and again on July 21, so a regular visitor. New country. [Niven-TX]
- 1170 **COLOMBIA** HJNW *Caracol Radio*, Cartagena JUL 21 0358 – Good signal with many "Caracol Radio" ID's, relog. [Niven-TX]
- 1170 **CUBA** *Cadena CMKS*, Maisí-Santa Rita AUG 16 0401 – Poor under WWVA open carrier; canned ID by woman, "Desde Guantánamo, Cuba, Radio Trinchera Antiimperialista, la voz de..." [Conti-NH]
- 1309.678 **COLOMBIA** HJAK *Voz Patria Celestial*, Barranquilla JUL 11 0944 – Presumed the one, mostly just a big het against 1310 kHz, with weak pieces of Spanish presumed gospel vocals. Thanks D.Crawford tip. Last heard in June 2019 from my then Clearwater, Florida location. [Krueger-FL]
- 1520 **COLOMBIA** HJLI Bogotá JUL 21 0300 – Male with "...en Bogotá" time check; fair to good signal. Relog. [Niven-TX]
- 1540 **BAHAMAS** ZNS1 Nassau AUG 1 0808 – Up on full power for Hurricane Isaias coverage. Looped lady with hurricane prep tips, then man butting in with live ZNS TV audio patched coverage. Fair, with Mexican tunes co-channel, presumably KZMP or KEDA. [Krueger-FL]

1580 **COLOMBIA** HJQZ *R.María*, Barranquilla JUL 15 0458 – Religious music which piqued my interest, a female mentioned briefly "María... mañana..." Then heard a male singing briefly, and at 0500 there were time pips heard, 5 short and 1 long, then national anthem was heard mixed in other stations but still readable. At 0502:22 there were church bells heard at fair level. New. [Niven-TX]

TRANS-PACIFIC DX

Transpacific carrier search: JUL 24 1122-1130 – I haven't done this since March 13 once DST was in effect, as I dearly want to sleep past sunrise, staying awake usually until 0630 UTC or so. But I happen to awaken today at 1120 so I risk making a check. There might well have been many more instances even in deep spring/summer had I searched. Sometimes I use the DX-398 with internal ferrite, which allows DF'ing whether signals be from Asia to the NW or Pacific WSW, but this time it's the R75 for greater gain but east-west long wire, so no DF'ing. Usually both preamps are off to minimize overloading, but this time I need at least #1 to get enough signals to detect, by 9-kHz step tuning USB at 1 kHz below the channels to hear tell-tale 1 kHz hets. LSR today is 1132 UTC, and if any on the low end, have already outfaded. The rest are just this side of imagination-level, and are typical from Pacific rather than Asia, although some could be either. 738, 774, 828, 837, 855, 882, 936 (2 beating), 1017, 1098, 1152, 1161, 1314, 1566 kHz. 936 pair are intriguing: no higher powers than two 10 kW eastern Aussies, and a 1 kW NZer. East Asia has 200 kW from China, 50 from Thailand. I don't get back to sleep by 1200, but keep trying and maybe get a few winks past 1300. It shall be another 5 weeks before our SR laten to 1200 when some NHK time pips might audiblize like in March, but that will still be 7 a.m. CDT while I want to keep sleeping. [Hauser-OK]

I have been a member of the NRC since about 1943 when Ray Edge was editor and attended the 1943 convention in Buffalo. I believe that "Lefty" Cooper took over shortly after that. I joined the Navy (electronic technician, originally, "radio" technician) in 1945 and the NRC kindly continued sending me DX news during the war, which did not last too long. I spent a year in the Navy hospital in Dublin, Georgia. Mostly listening to WMGA in Millidgeville, GA. I keep up with Ham radio on two meters and 20 meters. QRN is pretty bad on BCB!

Here is Major League Baseball (MLB) flagship information for the 2020 shortened season from my Internet searches. I personally cannot see how the shortened season can complete, given that some players have already contacted COVID-19, while others are sitting out this season due to health concerns for themselves and their families. Please send me announcer information (and corrections), as some of the web pages either did not list the announcer names or were definitely from last season (and maybe did not change for this season, but I have no way of knowing). And sometimes I cannot determine if an announcer is on radio only, TV only, or both. Any copyright statement on an mlb.com page is probably placed there automatically, even if the page content has not changed for the current season.

http://en.wikipedia.org/wiki/List_of_current_Major_League_Baseball_broadcasters has broadcaster information, and that web site has been updated for the 2020 season (last modified on 8 July 2020, at 04:12 (UTC)). But some of the references date back to 2010.

Note that in some cases, the visiting team announcers will NOT be at the ballpark. They will be in the home stadium (or studio) watching the game on TV and announcing from the TV signal. This is to avoid unnecessary travel. (Better than announcing from ticker tape.)

In some cases I was not sure that the network list was for the 2020 season, as many lists were undated.

Note that if a station streams its broadcasts over the Internet, that the station cannot stream the baseball broadcasts because the Major League Baseball organization wants listeners to get a paid subscription via mlb.com.

Some of the stations are actually translators, and I might not list the stations' official six-character call letters. The Twins' list has "FM Signal" instead of the six-character call letters; I had to use Google to get the six-character call letters. For some of these teams, David Yocis checked with the FCC database and corrected states (for stations whose city of license is near a state border), corrected translator calls, and deleted stations that are no longer on the air. When I saw the number of corrections for the first ten of the team lists, I concluded that I cannot trust any of the lists. In almost all cases, I do not re-key the station information on the web page; I cut the relevant information from the page and then paste it into a file, which I then reformat via scripts. So, I type very little of the information. One would think that a team or flagship station would have an accurate list of its affiliates that would be reformatted for the web page. In one list there was a station whose calls were deleted in 2015; another list had a station whose calls were changed in 2015. With most of the team lists undated, I have no idea when the web page list was last updated/corrected.

I would have had this list ready by the start of the abbreviated season, but I upgraded my computer from Windows 7 to Windows 10. I had to use a new version of my favorite editor, and one of my reformatting scripts did not work. I had to spend a few hours debugging two scripts, which I wrote in 1998 and last modified in 2013.

On the mlb.com site for most teams, the announcers are listed under the "Roster" tab. But many of the bios have not changed since they were written, so they refer to previous seasons.
