### From Radio Insight

The Federal Communications Commission today adopted a Report and Order that allows AM radio stations to operate using all-digital broadcast signals. AM broadcasters will be able to voluntarily choose whether and when to convert to all-digital operation from their current analog or hybrid analog/digital signals.

All-digital broadcasting offers AM listeners significantly improved audio quality and more reliable coverage over a wider listenable area than analog or hybrid digital broadcasts. It also allows broadcasters to provide additional services to the public, such as song title and artist information. These enhancements will enable AM broadcasters to better compete in today's media marketplace.

Today's Order establishes technical rules to protect existing AM broadcast stations from interference. In addition, stations converting to all-digital operation will be required to notify the Commission and the public 30 days in advance of their transition. These stations must provide at least one free over-the-air digital programming stream that is comparable to or better in audio quality than a standard analog broadcast. They also must continue to participate in the Emergency Alert System. The Order envisions that AM broadcasters will decide whether to convert to all-digital operation based on the conditions in their respective markets.

Action by the Commission October 27, 2020 by Report and Order (FCC 20-154). Chairman Pai, Commissioners O'Rielly, Carr, Rosenworcel, and Starks approving. Chairman Pai, and Commissioner Rosenworcel issuing separate statements.

**Entercom and Radio One Swap Stations:** Entercom will receive Sports "980/95.9 The Team" WTEM Washington DC, "Hip Hop 103.9" WPHI Jenkintown/Philadelphia PA, Hip Hop "Hot 104.1" WHHL Hazlewood/St. Louis and the intellectual property of Adult R&B "95.5 The Lou" WFUN Bethalto IL/St. Louis.

Radio One will receive Entercom's Charlotte NC cluster of News/Talk 1110 WBT Charlotte/99.3 WBT-FM Chester SC, Sports 610/102.5 WFNZ and Hot AC "107.9 The Link" WLNK Charlotte.

When the companies begin operating the new stations via Time Brokerage Agreement on November 23, the following format change will take place: 103.9 WPHI will flip to a simulcast of News 1060 KYW Philadelphia.

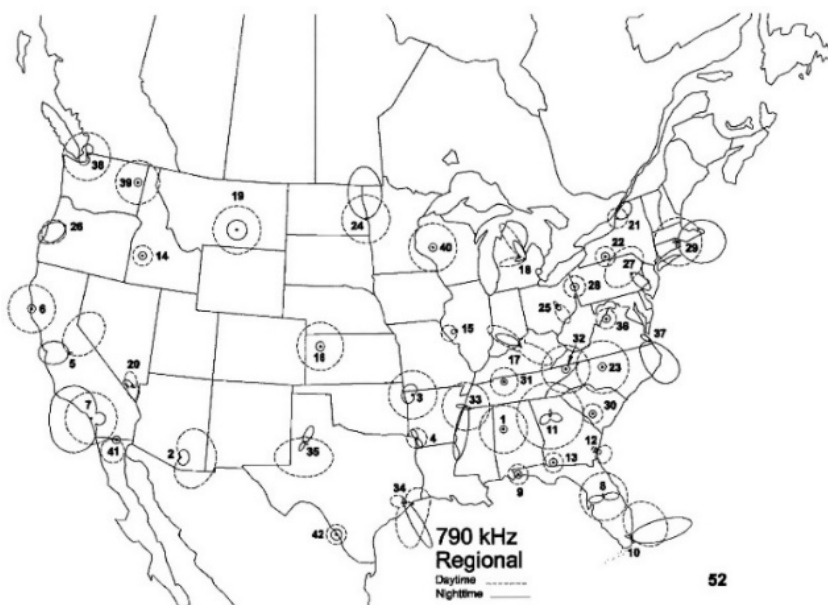

Thanks to Thanks to Shawn Axelrod, Bill Hale, FCC Database (FCC), Marc DeLorenzo (MD), Bruce Conti (BC), Terry Krueger (TK), Jon Pearkins (JP), and Paul Snider (PS).

## UNID

Loggings of CBC/Radio-Canada low power relay transmitters, those that have not yet been shut down and moved to FM, are extremely rare. Mike.*

## LOGGINGS

WFIL sends a tight signal Southeast across South Jersey and out over the Atlantic from three towers in the Manyunk section of the city, so this is a seldom heard good catch here. **(TF-NH)**
- 590 WDWD GA Atlanta** – 10/24 2220 – PSA about Covid precautions followed by ad for Georgia Army National Guard then abruptly switched pattern and gone leaving WMBS-PA. WARM off. New. **(HJH-PA)**
- 610 WTEL PA Philadelphia** – 10/28 2155 – Ex-WIP; the WTEL call came from a brokered ethnic programmed station on 860 (now WWDB) in Philly. Usual here at night, but worth noting that the station has dumped its ESPN Sports for Black Information Network, mixed with iHeart Radio promotions. Nearby WGIR is seldom heard in Campton after the sunset pattern change as its night signal goes southeast. **(TF-NH)**

- 620 WTMJ WI **Milwaukee** – 10/27 2034 – Very weak under usual WVMT and WZON, comments by male announcer about Wisconsin before vanishing, never heard here before, very directional 10,000 watt signal toward the North Pole from a six tower antenna system, so an interesting catch not heard here before. Call letters stand for the defunct Milwaukee Journal. **(TF-NH)**
- 640 WMFN IL **Peotone** – 10/30 1900 – Fair, over CBN; phone number and ID in English, “640 AM WMFN Peotone-Chicago,” Mexican music. **(BC-NH)**
- 650 WSM TN **Nashville** – 10/4 2140 – With regularly heard here WSRO-650 in suburban Boston off the air (WSRO’s night 1000 watt signal was a regular here) WSM nicely makes it in here with its regular C&W format, so call it a new log in my book! **(TF-NH)**
- 660 WXQW AL **Fairhope** – 11/7 2353 – Relaying urban gospel from 900 WGOK, “Gospel 900 WGOK . . .” ID at 0002. Poor to very poor, but audible under WFAN. // to 660wxqw.com. **(PS-ON)**
- 670 WLUI PA **Lewistown** – 10/26 1800 – Poor; ID’s for WLUI Lewistown and WJUN Mexico. Next evening checked the online stream to confirm WJUN simulcast, top of the hour ID began “WJUN Mexico” followed by *Big Lewie* slogan ID for WLUI and the FM translator. **(BC-NH)**

- 830 WEEU PA **Reading** – 11/7 0653 – Wiping out WCCO with non-stop instrumental music, “The Voice . . . WEEU Reading, it’s 7 o’clock” ToH ID into ABC news. **(MKB-ON)**
- 870 WKAR MI **East Lansing** – 10/31 1830 – Overcoming CJBC-860 slop with NPR, “you’re listening to NPR news” into talk about passing of Sean Connery. **(MKB-ON)**
- 900 WURD PA **Philadelphia** – 10/9 2152 – Soft jazz music over/under usual CHML, nice ID at 2154: “This is WURD Radio, 96.1 and 900 AM,” into more jazz, case of a 105 watt night signal clobbering a 50,000 watt signal regularly heard here. **(TF-NH)**
- 930 WIZR NY **Johnstown** – 11/1 2241 – Oldies, “I Can See Clearly Now” by Jimmy Cliff, “Sit back and enjoy the music on WIZR . . .” ID at 2245, more music. Poor to very poor with WBEN. **(PS-ON)**
- 940 WMAC GA **Macon** – 10/30 0704 – On top of the 940 heap with paid political ad for Trump, local weather on “News Talk 940 WMAC.” **(MKB-ON)**
- 950 WAKM TN **Franklin** – 10/27 2040 – C&W oldies, signal under and equal to that of regular WIBX, look at the NRC log and visit to station’s web site confirmed that this was WAKM’s signal; the station is the only one listed under 950 with classic country music. Their 75 watt night signal really gets out, or maybe the last employee out the door forgot to drop the 5000 watt power before locking up! **(TF-NH)**
- 1070 WKOK PA **Sunbury** – 10/26 2357 – Local ad with 570 area code, “1070 WKOK” ID by female announcer, promos with WKOK mentions, CBS news, into Fox Sports program. Good at times to poor with WCSZ. CHOK nulled. **(PS-ON)**
- 1080 WKGX NC **Lenoir** – 11/2 0000 – On after sunset tonight (and the past few nights I believe) with “You Sexy Thing” by Hot Chocolate, ID at 0002 “. . . WKGX, Lenoir . . .,” “Cecilia” by Simon & Garfunkel, “Classic Hits 1080 & 104.5” slogan at 0008. Poor to very poor with WTIC. **(PS-ON)**
- 1100 WISS WI **Berlin** – 10/30 0731 – Presumed under nulled WTAM with Supertramp’s “Logical Song,” “6:31 . . . right now some Loggins and Messina...” into “Angry Eyes.” **(MKB-ON)**

- 1170 WWLE NY **Cornwall** – 10/26 1800\* – Poor; talk in Spanish, then sign-off announcement in EE. Also heard “God Bless America” vocal, but not sure if it was WWLE or another sign-off. **(BC-NH)**
- WDEK SC **Lexington** – 10/9 2132 – Presumed with rock music, “the all new ----” slogan into more rock, over/under WWVA with its usual preaching. Gone by 2150, only rock formatted station on 1170 and a daytime only station with 3300 watts non directional permitted during critical hours. As in my WAKM-950 logging, someone probably forgot to stamp out the fire (or turn off the computer) before leaving the camp site. **(TF-NH)**

- 1200 WOAI TX **San Antonio** – 10/26 2220 – Mostly alone through IBOC noise. ID as “News Radio 1200 WOAI.” (HJH-PA)

- 1460 WKDV VA **Manassas** – 10/8 2115 – Spanish music and DJ, mixed with WOPG’s EWTN Catholic programming and others. Weak signal, directional 5000 watt signal from six towers goes ESE, away from here, only Spanish station listed on 1460 in log. (TF-NH)
- 1470 WTTR MD **Westminster** – 11/7 2331 – Tuned in to 102.3 mention, “Sing a Song” by Earth, Wind & Fire, “Gimme Some Lovin” by the Spencer Davis Group. Poor to very poor with WNYW, WMBD & others. // to Tune In stream. First time heard at this location. (PS-ON)
- 1480 WPWC VA **Dumfries-Triangle** – 10/27 2020 – Briefly atop frequency with male preaching in SS before fading under usual WSAR and WZRC, with female singing in Chinese. Not bad for a 500 watt directional night signal. (TF-NH)

- 954 **TURKEY** *TRT* Trabzon NOV 7 0258 – Poor; interval signal and national anthem. [Conti-NH]
- 1089 **UNITED KINGDOM** *TalkSport* synchros NOV 7 0500 – Fair; *TalkSport* ID, and news, "From the Sky News Centre at 5..." with lead story about U.S. presidential election. [Conti-NH]
- 1098 **SLOVAKIA** *R.Devin/R.Patria*, Nitra NOV 7 0458 – Fair; classical music. [Conti-NH]
- 1215 **UNITED KINGDOM** *Absolute Radio* synchros NOV 7 0700 – Fair with synchro echo, still readable at this late morning hour; long ad string ending with McDonald's whistling sounder, *Absolute Radio* ID, and news. [Conti-NH]
- 1467 **FRANCE** *TWR* Roumoules NOV 7 2143 – Fair, weak het from 1467.38 Iran; end of Kayble program with contact info, 2145 one cycle of *TWR* interval signal into Arabic program. [Conti-NH]
- 1467.38 **IRAN** *IRIB R.Qom*, Alborz OCT 29 0000 – Het against presumed 1467 Saudi Arabia. Measured 1467.385 kHz. [Conti-NH]
- 1511.76 unID NOV 7 2150 – Weak het against cluster of three signals around 1512; signed off precisely at 2200 UTC. Measured 1511.765 kHz but unstable. At 2258 noted the same het, and again it switched off at top of the hour. Again at 2358, off at 0000 UTC. [Conti-NH]
- 1521 **SAUDI ARABIA** *SBC R.Riyadh*, Duba NOV 7 2230 – Good; animated talk, signed off with signal cut at 2230:37 UTC. [Conti-NH]

*Transatlantic carrier search:* NOV 6 0702-0707 – 558, 621, 639(2), 693, 729, 747(2), 774(2), 837, 846(TP), 855, 909\*, 936, 1044, 1053, 1089, 1107, 1179, 1215\*, 1449 kHz. \*strongest, surely UK. (2)= at least two carriers beating. No DF'ing on the longwire. This season around this hour, 774 might bear not only RNE Valencia, Spain, today's LSR 0637; but also NHK Akita, Japan, LSS 0731. What about ABC Melbourne? LSS today not until 0901; latest, two months from now, will be 0946, while Valencia's latest SR in two months will be 0722 UTC. RNE has several synchros on 774, and I usually hear a beat, but 100 kW from Valencia is the mayor. [Hauser-OK]

## PAN-AMERICAN DX

- 540 **COLOMBIA** *HJKA R.Auténtica*, Bogotá OCT 30 1000 – Under CBT; extended music intro to 540 AM ID, "Esta es Radio Auténtica..." [Conti-NH]
- 550 **HONDURAS** *HRXT ABC Radio*, Tegucigalpa OCT 27 0459 – Under KTSA; mentions of *ABC Radio* with fair signal, relog. [Niven-TX]
- 560 **MEXICO** *XEGIK* Monclova, Coah. NOV 2 0629 – ID in passing as I tune across, sounds like "La Serena 98.1." But no such slogan is listed for any Mexican or any Latin American, and there are no U.S. Spanish on 560 kHz. Instead I think it must have been XEGIK, which is my nearest XE anyway, per IRCA Mexican Log, 1400/250 watts with FM on 88.1, "La Acerera" – acero means steel but acera can also mean sidewalk. Steel mill? Monclova is a polluted industrial town, and there is a General Steel Group there, at least with warehouse and sales if not manufacturing. The Steely Station? [Hauser-OK]
- 570 **COLOMBIA** *HJND R.Nacional*, Bogotá OCT 27 0058 – Lively music, then heard male mention "Radio Nacional de Colombia." At fair to good level over XEJB and *R.Reloj* this evening. Relog. [Niven-TX]
- 600 **NICARAGUA** *YNA3MD Radio Ya*, Managua OCT 27 0459 – Male mentioning "Radio Ya" a few times, then into female lively vocals, then a nice "Esta es... Radio Ya... Managua, Nicaragua." At good level with jumble of stations underneath, relog. [Niven-TX]

- 780 **COLOMBIA** HJFV *R.Viva*, San Juan de Pasto OCT 27 0759 – Female speaking with many mentions of "Radio Viva" plus a singing *R.Viva* jingle; fair signal under WBBM which is weak signal. Relog. [Niven-TX]
- 780 **MEXICO** XEXY Cd. Altamirano, Gro. OCT 27 0359 – Pretty much alone on the frequency except for very weak WBBM underneath, male with "XEXY La Poderosa Voz del Balsas... Guerrero, México... XEXY La Poderosa Voz del Balsas... buenos noches," into national anthem; fair to good signal. New. [Niven-TX]
- 780 **VENEZUELA** YVMN *R.Coro*, Coro OCT 27 0758 – Male mentioning "Radio Coro" and Venezuela, about equal signal level to partially nulled WBBM. Noted earlier in the evening at 0001 with singing "Radio Coro" jingle and time check. I have been after this one for some time now, conditions to the south seemed pretty good this evening. [Niven-TX]
- 840 **CUBA** CMHW *Doblevé*, Santa Clara OCT 27 0402 – WHAS off the air for tower maintenance, I tune in to find WHAS still on during Kentucky news, but after asserting "broadcasting live 24/7," cuts off at 0405.7 – but back on in a few seconds, that was quick! During weather from WLKY-TV (Why not WHAS-TV?), 0406 into weird Ground Zero talk show about "shadow archetypes, lurkers showing up at 3 a.m." Recheck at 0425 now WHAS is off, and the only signals I am getting loop southeast/northwest, but with splash from 850 KOA. Music, 0428 Spanish? No sign from the south of KVJY Pharr in the RGV of Texas, U4 5/1 kW, also Spanish which is normally the #1 competitor to WHAS. Main signal is surely 10 kW CMHW *Doblevé*, but has a 1.1 Hz SAH, which could be the other further 1 kW Cuban, CMKC *R.Revolución*, or some other LA. Not rechecked until 0535, WHAS still off, some fading faster SAH carriers on east-west long wire, but on DX-398, music with slow SAH dominant from southeast. 0600 still that with no ID break, but 0601 WHAS cuts back on JIP news; 0615 check it's off again. One more check before I quit, WHAS off and on at 0632-0633 UTC. [Hauser-OK]
- 840 **CUBA** *R.Revolución*, Palma Soriano OCT 27 0501 – Fair, WHAS off the air; jingle, "Esta es CMKC," and ID, "Desde Santiago, ciudad héroe de la república de Cuba, CMKC Radio Revolución, cadena provincial." [Conti-NH]
- 1110 **CUBA** *R.Angulo*, Holguín OCT 27 0158 – Female speaking at equal signal level with OAU4J at times, then noted the familiar chimes of *R.Angulo* at fair to good levels. Relog. [Niven-TX]
- 1110 **PERU** OAU4J *R.Feliz*, Lima OCT 27 0158 – Local music, then heard male, "Radio Feliz... AM... Lima, Peru... teléfono... 32 04." Mixed with *R.Angulo* at times, again at 0200 "Radio Feliz AM" by male, again on top of the channel. Relog. [Niven-TX]

Since 1964, the International Radio Club of America has been documenting medium wave DXing and DXers' efforts to improve their understanding of radio reception and to develop better listening techniques. During that time, over 900 articles have been written, that have furthered the art of DXing. ## Wayne Heinen – Aurora CO

Hi all, winter was short lived and on to Fall, although the temperatures have been rather mild in the 70's the last few days. First off, I'd like to ask my Canadian friends if there is anything unique at the Top of the Hour on CJBC-860? I have had an almost dominant French CBC signal on 860 since the beginning of September and I have trouble believing it is always CBKF-2 in Saskatoon. Anyone with any comments please let me know what I can look for. My shack reorganization is progressing and everything has been moved to place the Ham gear closer to the coax bulkhead and the BCB/SWL gear with associated audio equipment now has better access to the new PC with an I-7 processor. I have noticed an improvement in the SDR with the upgrade from the I-5 to I-7. Stations not appearing in the 2019-2020 log that have been added to the 2020/2021 log and my "relogs" have brought the totals from 280 up to 329. 9/11 – KGND-1470 Vinita OK with a multi station ID "The Sports Animal" hit the log an hour after KYAL at 0300. 9/12 – Off the east Flag was surprised to hear voices on 810 under KLVZ, "Sports Radio 810 WHB" 9/13 at 0100 found "KUAO Siloam Springs, translator K237GR Johnson and KAKS Goshen-Fayetteville ESPN Radio" awfully strong for listed 31 watts! Then a rarely heard one "from the... Studios KTLK AM 1130 Minneapolis" at 0200, at 0301 coming out of REL with a string of translators 100.3, 101.3 "now on 105.9 and as always KBBW on AM 1010". A little "live" daytime listening trying out my SDRPlay RSPdx on 11/6 added KRKY-930 Granby at 1625 "Colorado Ski Country" slogan. I can't wait for the SDRUno software to include a recording scheduler to take advantage of the improvements in the RSPdx on overnight taping. A tentative logging on 11/07 of the first night of the KSEN-1150 DX Test at 0255 with Morse code under phased local KNRV-1150. According to a post, this was at low power due to a switch malfunction! I'm awaiting a confirmation from Les Rayburn the joint CPC Chairman. As I write this, quick check of night two of the KSEN-1150 DX Test, with the E/W flag oriented east, yielded Morse code at 0201 and on the beginning of the next tape I had sweep tones at 0257 for a minute and a solid KSEN Morse ID at 0259! A new tape for the collection and this was all under my local KNRV-1150! We'll end it here with number 330 in this season's log and hoping everyone has a safe and Happy Thanksgiving! Good DX 73!

## Martin Foltz – Mission Viejo CA

Some interesting stations heard during the summer. Recent stations heard: 7/24 1260 KKOO Weiser ID, call change. 8/6 1310 KKNS Corrales NM heard testing again like last year. 8/19 1360 KRKK Rock Springs WY with verie received. 9/3 1260 CFRN Edmonton AB was a surprise in null of semi-local KSUR for my first new catch of the season and verie back. 9/12 970 KUFO Portland OR in a rare appearance. 9/20&21 980 KSVC Richfield UT heard fading up under local KFWB at sunset and verie back. Reports sent to the stations above plus 770 KCBC Manteca CA, 1200 KPSF Cathedral City CA & 1230 KYPA Los Angeles CA. Station news: 1090 XEPRS is now Sports Talk, "The Mightier 10-90", 1270 KBZZ changed format to Oldies, "Oldies 92.5" slogan and 1230 KLAV Las Vegas is now Sports "12-30 The Game." I finally started building an antenna switch box. It's been on my project list for years. Holes in the cabinet are drilled, all the connectors are mounted and now just need to wire it, and find the perfect knob. Should finish by the end of September. Goal this year is 25 new MW station veries. And I hope to hit 150 California stations verified, only 11 more needed. I hit last year's goal of veries from 60% of the stations I have heard. 73's, Martin

## John Malicky – Pittsburgh PA

On Monday, November 2, KDKA-1020 host Rob Pratt had a celebration and call in show from 8 to 10 p.m. Eastern to mark KDKA's 100th anniversary. Many local and national callers were featured including the NRC's Scott Fybush!

On both November 2 and 3, historian and Duquesne University President Ken Gormley hosted and spoke online about KDKA's history. This discussion still continues on the site: [www.duq.edu/kdka](http://www.duq.edu/kdka). The first session had interviews with political leaders, including a live interview with Allegheny County President Rich Fitzgerald. The second had a live interview with current morning personality Larry Richert and a video interview with former morning host Jack Bogut. All this was done in a studio that included a replica of the first KDKA studio from 1920. These studios were located, I believe, from the RIDC Commons in East Pittsburgh and the former site of Westinghouse's former plant.

Some articles from the Pittsburgh Post-Gazette:

[Thursday 10/29](#): "100 years later: KDKA's celebration to reenact historic first broadcast"

[Sunday 11/1](#): "The night Pittsburgh transformed the world."

Greetings once again from the Heart of the Continent and welcome to the DX Tool Box Column number 130.

I found this radio last year while in Poland at a museum. It was a beautiful piece of radio history. The plaque accompanying the exhibit reads: "The first postwar Polish radio, the "Pionier" model U, was produced from 1949 by the Lower Silesia Manufacturer of Radio Equipment, later known as Diora, in Dzierżoniów.

Re: Grayland 22

From September 15-20, 2020 I ignored common sense and flew across the country and visited Grayland, WA. For once I managed to go on a DX'pedition as propagation conditions 'peaked' — that is, they were worse before I got there and fell apart after I left! This graph expresses that better than my words: <http://tivodxer.com/monthly-ave-rxn-bargraph1-triple.php>

It represents TP [red] and DU [blue] reception in Victoria, BC as a single number, thanks to Nick Hall-Patch. That lonely peak at the far right represents the 10 days surrounding the time I was in Grayland. A webpage of my loggings and sound samples is here: <http://realmonitor.com/grayland22/>

Highlights were hearing 33 Alaskans, 76 Japanese, 62 Chinese, 5 Vietnamese and 4 Thai stations. Plenty are still unidentified 'cause I'm just not as good at this as I'd like to be.

Antenna was 160' DKAZ pointing ~295 deg. Receiver was a Perseus - though I did bring along and record a few files on a RX888. Software was Jaguar Pro ... which I'm beginning to like after climbing part way up a pretty steep learning curve.

Re: QH15 Lubec, Maine DXpedition

My wife and I visited Quoddy House in Lubec, Maine last week - Oct. 18-25. I put up a DKAZ in the dark on the evening of the 18th pointing roughly 37 deg. and had a KiwiSDR on the air the next day which I believe many of you listened to. I've just started going through the wav files from the trip — nearly 4TB worth - but already have some highlights:

morning TPs from Japan, Korea, China and Taiwan on 10/19 and 22

evening South Asians from India, Pakistan and Afghanistan on 10/21 [UTC]

You can have a listen at: <http://realmonitor.com/qh15/>

Re: QH15 Lubec, Maine DXpedition

Great report Bill. Certainly one of the biggest East Coast DX'pedition events this year.

This plus what Roy, Bruce, Sylvain, Allen Willie, and some others have been reporting gives a rather good view of East Coast international DX reception possibilities.

Having the online Kiwi to use was excellent. Then this webpage with all the exotic Asia receptions ... wow! 1071 and 1566, both apparently inactive now, are the only Indians I've received. Your report provides some good targets for DX'ers here in the New England states as well as eastern Canada and the Great Lakes / upper Midwest.

Bill, do you have any thoughts of putting maybe one representative sunset capture file and one at sunrise up on Drop box or similar for others' DX research benefit?

Is there a master "go to" webpage that has links to all your DX'pedition pages? See Bruce Conti's site for an example: <http://www.bamlog.com/#Section5>

From: Bill Whitacre

Re: QH15 Lubec, Maine DXpedition

I'll look into it. As you know, an 8 minute Perseus wav file is pretty big — over 3GB. For now, I think the webpage I posted gives a good taste of what was heard.

"Is there a master "go to" webpage that has links to all your DX'pedition pages?" There is. I posted it some time back: <http://realmonitor.com/dxp/>

Big thanks to Bill for giving me something to work with for this column!

73 for this time, Shawn.

## Unreported Domestic Stations

No new stations were reported to DDXD this issue for the first time since at least Volume 67 (1999-2000). The closest we came is KMHL-1400, which was last reported in volume 71 issue 17. We still have 280 full-power AM stations in the United States and Canada that have not been reported to DDXD at all during this time. The full list was printed in issue #1. Can you log and report one for next time?
