DX Tests: WNJC-1360 Washington Township NJ is still going strong with weekly DX tests. CE Duke Hamann is posting regular updates to the special Facebook group, which can be found at <https://www.facebook.com/groups/wnjc1360dx>

Help Wanted: With the recent passing of longtime Musings editor Dave Schmidt, we have an opening for a member who would like to take the reins of this column. In these days of (mostly) electronic Musings the editing of this column is not the massive typing job it once was! If you'd like more information about the position, please send an e-mail to NRCDXNews@gmail.com.

WRTH Raffle: How would you like a new 2021 WRTH, a US\$49.95 list price book, for \$20 post-paid? (I know it was \$13 last year, but USPS raised the rates again.) This is for USA members or members that have availability of a US mailing address; sorry, the cost of postage to everywhere else is prohibitive! The NRC has 4 copies that will be available through a raffle.

To receive a chance at the drawing, just send a postcard or letter to NRC WRTH Drawing, PO Box 473251, Aurora, CO 80047-3251. We'll draw 4 names of National Radio Club members in good standing (*your subscription to DX NEWS or e-DXN.com must be current*) and notify the winner by phone, provided you supply your phone number. The 4 lucky winners will receive the WRTH after they send us \$20 shipping and handling (and a buck or two for the NRC Treasury). Deadline for your response in the PO Box will be Saturday February 27.

From Barry Finkel: Here are some NHL corrections from Pete Gonciarz to the Buffalo Sabres' information I had in my last column. The announcers are Dan Dunleavy (not Don), Rob Ray (not Bob). Also add Brian Koziol (intermission host) and Paul Hamilton (intermission and post-game analysis/interviews).

Unreported Stations: Three stations were reported to DDXD this issue for the first time since at least Volume 67 (1999-2000): WJTP-890, KCUP-1230 (on a widely heard DX Test), and WDPN-

1310. We will also add new station KPEN-840, now on the air, to the unreported list, which now has 267 stations.

From the Publisher: One more issue on the 2-week schedule and then we'll switch to every 3 weeks for a while. Still lots of good DX to hear – and as I type this at 1800 ELT on Feb. 15, a nice post-sunset signal from semilocal WKIK-1560 and WFME is gone! Looking forward to some good reports from the East on 1560 next time.

Listed 175 Watts nights (no PSRA) but for the past few years (including this year) they appear to have been sporadically switching between day and night rig overnight. They’ve been a very sloppy operation for a long time, especially overnight. Relog.

KCJJ audible underneath. 1037 miles. Relog.
- 1630 KRND WY **Fox Farm** – 10/28 2230 – Way under XEUT, with usual “La Jota Mexicana” slogans. Normally a huge pest, but subject to sudden drops in signal strength. Last year they were falling off the air sporadically. 508 miles. Relog.

DX TEST

- 1230 KCUP OR Toledo – 1/31 0100 – No hint of Morse code here in Maryland, just the usual mush with local WRBS slightly above the rest. (STB-MD)

SILENCE IS GOLDEN

- 840 WHAS KY Louisville – 1/28 2330 – Great anticipation was created on Facebook when Bruce Pierce of the AM Radio Broadcasters and DX'ers group announced that WHAS would go off the air for maintenance at 2330. "News Radio, 8-40, WHAS" finally went off at about 2348, but I was unable to log WRYM, New Britain, CT, or any other domestic station during the silent period. Instead I heard two SS stations, one with "Más Música," which Saul Chernos IDed from Ontario as "La Dobleve," CMHW, Santa Clara, Cuba, and the other in talk IDed by Robert Ross, also in Ontario, as "R. Revolucion," Santiago de Cuba. I heard the Cuban National Anthem and "Santiago de Cuba" at 0001 but came no closer to an ID before WHAS suddenly powered up again at 0033. (STB-MD)

UNID

- 830 unID -- - 1/20 1842 – Soul & R&B music from 1842 until 1858, when I heard "Generations of R&B and the Gospel Music of Your Life" slogan. I presume this was WKTX in Cortland, OH, which Wikipedia says goes into R&B at night, after daytime gospel. But I just couldn't land any calls or find a web stream. (STB-MD)

Wayne Heinen – Aurora CO

Picking up where I left off last issue, I moved past a few days with nothing noteworthy. The next new one on the season was on 12/6 at 2000 KZNX-1530 out of SS Music and ID’ing in heavily accented EE “K236AY FM 95.1 Westlake Hills, KZNX 15-30 AM Creedmoor. La Raza 95.1...” thanks to John Wilkins for help on the ID! Then at 2159 out of SS music “KRGW Weslaco...” and a multi-station “Radio Vida” ID. KRGW is new and number 15 for the season. I was just tuning around and heard the song on 1310 and then again on 1290, thought I had doubled back on the dial when I realized that 1310 was “Radio Vida” KZIP Amarillo. The ID came up shortly afterwards on 1290. 12/9 at 1959 out of OLD music KNAM-1490 with a multi station ID as “95.7 The Monkey”, their new format parallels a bunch of Colorado western slope translators. Then at 2100 out of SPT “...Houston Basketball on ESPN El Paso” KROD-600 in a faded of semi local KCOL. 12/10 at 0900 up briefly “KINO Winslow Arizona” on 1230. This takes me from 540 up to 552 logs on the season so far in my quest to break last season’s 638. Maybe by next Muse I’ll be into my 2021 tapes! Till next time 73 & Good DX!

Along with the NRC membership and radio community, I would sadly like to offer my condolences on the loss of Dave Schmidt. He was quite active in many areas of radio and ran a number of DX Tests for the club. He attended the Lower Deck Thanksgiving DX GTGs at this location and hosted some great conventions. The world has lost a great friend and he will be missed. R.I.P.

Edward Efchak – Fair Lawn NJ

With interest in all things HF growing, The Fair Lawn (NJ) Amateur Radio Club (FLARC) has recently created a special interest group for Radio Monitoring.

As the name would suggest, the group focuses heavily on broadcast band and shortwave DX'ing, but also includes low band, scanning, numbers, and almost anything else in the radio spectrum. Programs are also a regular part of the group and the club has recently featured Loren Libby W0LD, CEO of Trans World Radio, *DX News* frequent contributor Paul Walker discussing BCB monitoring from Alaska, and Dave Marthouse N2AAM providing an up-to-date tour of the contemporary radio spectrum. Prior to Covid-19, the group was also active in visiting local New York radio stations with plans to continue once the pandemic has passed.

The group now consists of 23 members, many of whom also belong to NRC with both long and recent interest in our hobby. FLARC's SIG group is especially seeking DX'ers from the metro New York area, but geography is not a restriction. You need not be a radio amateur to join the SIG, and the club does help anyone interested in getting licensed assistance in getting their ticket.

For more information, email me (I'm the club's Public Information Officer) at fairlawnarc@gmail.com or wx2r@arrl.net. The club's website is www.fairlawnarc.org.

- 531 **ALGERIA** *Jil FM*, F'kirina Wilaya d'Oum El Bouaghi FEB 14 0458 – Good; choral marching band national anthem, signal better than parallel 549 kHz. [Conti-NH]
- 621 **CANARY ISLANDS//SPAIN** *RNE1* synchros FEB 8 0611 – Spanish news talk by man and woman. Peaking to good readable signal level – best in a long time. [Beu-TX]
- 684 **SPAIN** *RNE1* Sevilla JAN 25 0135 – First mainland Spain catch for me. Music with talk by male and female announcers. No ID, but parallel to Radio Nacional stream on rtve.es. Very poor with slop from 680 and 690 kHz. [Snider-ON] FEB 8 0708 – Typical news programming with interviews and reports, peaking to fair signal in absence of usual IBOC noise on this frequency. [Beu-TX]
- 693 **UNITED KINGDOM** *BBC Radio 5*, Droitwich et al. FEB 13 0300 – Fair; presenter mentioned BBC Local Radio, BBC Radio Five Live, BBC Radio Wales, BBC Radio Scotland, and BBC Radio Ulster. FEB 14 0500 – Good; BBC news at 5 o'clock. [Conti-NH]
- 720 **CANARY ISLANDS** *RNE5* Santa Cruz FEB 14 0600 – Under WGN; vocal music bumper to time marker parallel good 774 kHz. [Conti-NH]
- 1089 **UNITED KINGDOM** *TalkSport* synchros FEB 13 2258 – Good; ad string, "At the Hyundai upgrade event, we've added more savings so you could upgrade to a new Hyundai and get up to 7,000 pounds off." [Conti-NH]
- 1152 **ROMANIA** *R.România Actualitati*, Cluj FEB 14 0258 – Over Spain; choral national anthem. My most reliable signal from Romania, received on almost any given night with easily recognized anthem at this time. [Conti-NH]
- 1215 **UNITED KINGDOM** *Absolute Radio* synchros FEB 14 2228 – Fair; female presenter introduced next song, "This is Skunk Anansie, Weak As I Am." [Conti-NH]
- 1467 **FRANCE** *TWR Roumoules* FEB 13 2300 – Fair; one cycle of *TWR* interval signal and promptly off. [Conti-NH]
- 1476 unID FEB 3 0313 – Besides the usual lower-band JBA transatlantic carriers, there is already one on 1476, suspected *TWR* Benin. I was hoping to hear it cut on for presumably the first morning show, Hausa from 0320 but it's already on. Nothing detectable on the English frequency 1566 kHz. By the way, it's no accident that 1476 was picked. WRTH 2005 showed 1476 as the main Cotonou outlet of ORTB except it was already inactive. [Hauser-OK]

Transatlantic carrier search: FEB 2 0320-0324 – 531(2), 549, 558(2), 603, 612, 621(2), 639, 684*, 693, 711(2), 747(2), 774(2), 837(2), 881.5-birdie?, 882, 891, 1044, 1125, 1476 kHz. If I had the time and/or the patience, I could compute the (2) SAH's, ranging from slow to medium. *684 with some music audio, strongest of the lot, no doubt RNE Spain. Nothing usually heard on 1476; and there is nothing much in Europe since ORF Austria destroyed its 60-kW transmitter; instead likely 100 kW TWR Benin in Hausa, scheduled to start just now at *0320 M-F per WRTH, finding the schedule, where else? under South Africa on page 494. 1476 is their second Benin transmitter; the first one on 1566 is also supposed to start at 0320, in English, unheard now, but reported more often into North America, presumably less unfavorably directed. As for tonight, I'm rather surprised to find afterwards that the K index at 0300 was 4, with G1 geomag storming. It's true the northern Europeans, i.e. UK frequencies were not so strong, but Iberia, NW Africa still arriving. FEB 11 0714 – I hesitate to do this, as there are birdies all over the place, and despite getting numerous 25-watt ND beacons from North America, superpower LWBC's from Europe elude me. There could also be intracontinental beacon traces above 200. I guess my R75 is not sensitive enough at the low end and/or my mere ~100 foot long wire is too short. Nevertheless I perform a scan and do find some: 162, 189, 198, 207 kHz. Those would correspond to France, Iceland, UK, Iceland. But there are also carriers on 218 and 224 kHz. WRTH 2021 page 526 shows these are the only Eurafrikan LWBC's left: 153, 162, 171, 189, 198, 207, 225, 234, 243, 252 kHz. (WRTH prematurely deleted 270 Czech Republic, scheduled to shutdown December 31, 2021. – Conti) At a rather late 0745 UTC quick check for any 9-kHz'ers on MW for comparison: 774, 882, 1215 kHz. FEB 12 0259 – 531, 558(2), 603, 612, 621, 657, 684(2), 693, 747, 774(2), 819, 837(2), 855(2), 864, 882, 891*, 909, 1053, 1089*, 1098(2), 1107, 1125(2), 1134, 1152, 1215, 1305; and a bit later at 0311, 1476 kHz. *Strongest; (2) at least two beating. [Hauser-OK]

- 1220 **MEXICO** XEB México, DF FEB 2 0941 – Faded up with strong signal as WHKW faded out. Mexican light music, and no sign of normally unnullable CJRB or even frequently heard KSLM. Recent aurora conditions mark the first time heard in several years. [Pearkins-AB]
- 1620 **U.S. VIRGIN ISLANDS** WDHP *The Reef*, Frederiksted FEB 12 0314 – Poor to fair with reggae music and positive station ID heard at 0315, “The Virgin Islands’ true number one, 103.5” before fading under *R.Rebelde*. It came back in and out repeatedly throughout the night. [Gonciarz-NY]
- 1700 **MEXICO** XEPE Tecate, BC FEB 5 0058 – Fair peak. Man with station promo, “Una estación de Heraldo Radio” and “El Heraldo de México” mentioned, quick promo for an FM station in Nuevo León, into noticias. [Knight-CO]

This is a list of August through December loggings added to my 2020 DX Audio Files web page. It should serve as a useful guide for potential reception times in the northeastern USA and bordering areas of Canada. Comparisons to solar activity/space weather data may be instructive. Equipment and antennas are as noted on the audio files page at www.qsl.net/wa1ion/doc1/audio_2020.htm. The webpage also contains a number of domestic loggings including DX tests. – Mark Connelly WA1ION, South Yarmouth MA.
