From the Archives

75 Years Ago: From the June 14, 1947 issue of *DX News*: A full page of new station authorizations, as many new stations come on the air after wartime restrictions. Ernie Cooper reported that WIBG-990 Philadelphia broadcasts all home games of the Philadelphia Phillies and Philadelphia Athletics, while WKNB-840 New Britain, Conn. and other Yankee network stations broadcast all the Boston home games (Red Sox and Braves). WINS-1010 has all the Yankee games while WHN-1050 has all the Brooklyn Dodger games. (No mention of the Giants!)

50 Years Ago: From the June 3, 1972 issue of *DX News*: NRC membership was about to exceed the 600 mark, almost doubling in the last five years. The first edition of the NRC *Night Pattern Book* was expected to be mailed out in June.

25 Years Ago: From the June 23, 1997 issue of *DX News*: Dave Schmidt is preparing to host the 1997 NRC Convention in New Castle, DE (the first convention your publisher ever attended, by the way); the WTFDA convention will be in Atlanta and IRCA will gather in Costa Mesa, CA. Not to mention the New Zealand DX League preparing its 50th anniversary convention in February 1998 at Camp Iona. Applications for the new expanded band (1610-1700 kHz) were trickling in to the FCC.

10 Years Ago: From the June 4, 2012 issue of *DX News*: Roger Gravelle sent bandscans from a cruise ship in the Bahamas and Sint Maarten. A new expanded band station was reported on 1650 kHz in Mexico City.

From the Publisher: We still have a DX Toolbox edition and some more Radio History articles from Ken MacHarg in the queue. Fortunately, there still seems to be a lot of DX to report, and so please keep the reports coming!

It was noted on the IRCA/NRC e-mail list that the Coast to Coast AM web site has a list of stations that carry the program, but arranged in a way that makes it very difficult for DXers to identify what station on a frequency might carry the program. We processed the list into an easy-to-manipulate Excel sheet and publish the AM stations in this issue. If you know of other lists that would be helpful to process and publish in this way, send me an email at NRCDXNews@gmail.com.

CALL CHANGES

- 1230 WIRO OH Ironton – Call change to WITO (May 10).

STATIONS GOING DARK(?)

1120 WPRX CT Bristol – As expected per last issue, the Apr. 4 cancellation of this station's license was reversed on May 3.

1270 WMLC MS Monticello – License cancelled May 20; had been silent since May 23, 2021.

More on the WEKC-710 (Williamsburg KY) saga: The FCC cancelled this license in 2020 after the station failed to apply for its 8-year license renewal. At the time, the FCC had not yet acted on the station's 2012 renewal application. On March 16 of this year, the FCC finally resolved the issues on the 2012 application and granted the license renewal for the 2012-2020 period, but did not reverse the 2020 license cancellation. The station owner (an 88-year-old retired pastor) has now hired a lawyer who is petitioning the FCC to fully reinstate and renew the license. The station has recently been reported on the air by DXers.

SILENT STATIONS

The January change in the FCC's filing system for STAs has really confused the silent station notifications. Licensees no longer fill out a form but just send an informal e-mail to the FCC which may not have all the usual information we look for, and there have been delays in posting notices as well. This assumes silent stations actually notify the FCC ... which often, of course, they do not.

Stations notifying the FCC that they are silent:

670	WRJR	VA	Claremont	– Silent Apr. 30, transmitter problems.
730	WACE	MA	Chicopee	– Silent May 1, losing licensed site.

1280	WANS	SC	Anderson	– Silent due to financial issues.
1310	WDXI	TN	Jackson	– Silent Feb. 3, replacement of transmission line.
1320	WENN	AL	Birmingham	– Silent Apr. 4.
1350	WELB	AL	Elba	– Silent Apr. 15.

From Radio Insight

Alfred Hammond's Capital Broadcasting VA sells 920 WURA Quantico/98.1 W251CH Manassas and 1480 WDWC Dumfries-Triangle VA to Amin Segundo's WASP Productions. Segundo will pay \$700,000 for WURA/W251CH and \$250,000 for WPWC. The buyer has operated both stations via Time Brokerage Agreement since April 2016. All three signals operate as Regional Mexican "Radio Unida." (Wayne Heinen asks: Can anyone confirm that WURA and WPWC are all simulcasting? WPWC web stream conflicts.) (David Yocis replies: These diplexed stations are locals for me, and they are not parallel. WPWC is SS:REL while WURA-920 (// W251CH-98.1) is SS:Brokered. Both have similar EE/SS legal IDs; WPWC ends with the slogan reported by AB above, while WURA ends with "Al servicio de la comunidad.")

The FCC issued a Notice of Violation to La Raza Media Group LLC's 1570 WTWB Auburndale FL after an agent of the Enforcement Bureau inspected the station and observed the station was operating with 3.5kW around the clock as opposed to its licensed 5kW day and 13 watts night.

--- NOTES FROM CANADA ---

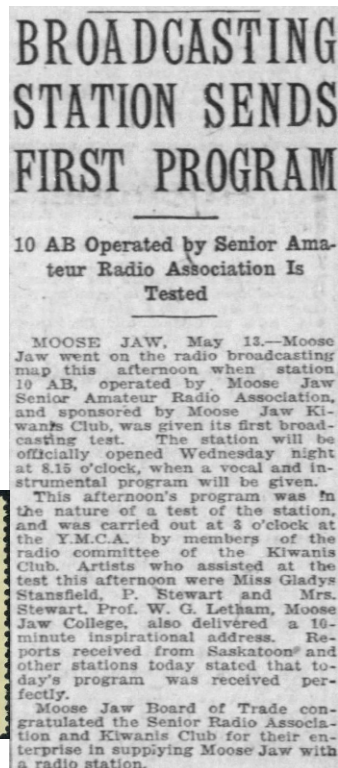

Jon Pearkins <jon@pearkins.com>

The Rogers takeover of Shaw is now in serious doubt. Despite approval by the CRTC, the Canadian Competition Bureau has begun the process of denying Rogers' application, despite Rogers' efforts to pre-sell Shaw-owned Freedom Mobile, the largest cellular provider after The Big Three: Bell, Rogers and TELUS.

WWVB has more radio receivers tuned into it than any other AM station in North America. Broadcasting on Long Wave, at 60 kHz with 70 kW from Fort Collins, Colorado, the station's signal is used to synchronize tens of millions of time pieces across North America, overnight each night, reception permitting. Not just traditional clocks and watches, but even weather stations and some other devices with built-in clocks. Ten years ago, Phase Modulation was added, to improve reception, but manufacturers of WWVB-synchronized devices have been slow to support Phase Modulation. A test in Edmonton, Alberta of a newly-acquired Ultratomic wall clock that handles Phase Modulation instantly and correctly received WWVB's time data at 1850 on April 28, more than four hours before

local sunset. Three other devices in the same location without Phase Modulation detection must wait several hours after sunset to reliably receive WWVB and, even then, fail if Aurora conditions exist locally or to the South.

- 580 CFRA ON Ottawa** – Celebrated its 75th anniversary with special programming on May 3rd.
- 610 CKTB ON St. Catharines** – On May 5th, the afternoon host spoke about two other stations on 610 kHz that his listeners could not hear: WTVN Columbus, Ohio and WTEL Philadelphia Pennsylvania. An odd topic for on-air conversation.
- 640 CFIQ ON Richmond Hill** - A regular local listener is reporting that he first heard the new call letters being used to ID the station on May 2nd, having heard the old CFMJ call letters being used up until then. In other news, the audio feed from the Toronto CTV Supper Hour news is aired live each day.
- 690 CBOI ON Ear Falls** – CBC English Radio One LPRT simulcasting CBQT-FM Thunder Bay ON. Approved to move to FM at 95.5 MHz with a non-directional 130 Watts at 12.6 metres EHAAT.
- 740 CFZM ON Toronto** – Local listeners report that Top 40 count-down shows on the station use the legendary CHUM Toronto record surveys, rather than the Billboard Hot 100 that most Oldies stations rely upon.
- 800 CHAB SK Moose Jaw** – Is celebrating their 100th anniversary a little early. The May 14, 1923 Regina Leader-Post newspaper ran a news article that announced that CHAB's amateur radio predecessor, 10AB, had first tested the previous afternoon and that official launch was scheduled for May 16th. The Leader-Post launched their own station, CKCK, the year before, in July 1922, though CKCK's original license was issued to George Melrose Bell in April 1922.
- 870 CKIR BC Invermere** – 5/9 – A local reporter visiting the area noted mostly Open Carrier; otherwise with normally modulated audio of its regular simulcast of CKGR-FM Golden, B.C.
- 1010 CFRB ON Toronto** – Airs the live audio feed from the Toronto Global TV Supper Hour news each day.
- 1140 CBJ-2 QC Chapais** – CBC French ICI Première LPRT simulcasting CBJ-FM Saguenay Quebec will be shut down as soon as the just-approved power increase for CBJ-1-FM Chibougamau is completed.
- 1220 CFAJ ON St. Catharines** – Reported, by a local listener about a month ago, as off the air for more than 24 hours, but no update since then.
- 1320 CHMB BC Vancouver** – Heard in Carbonear, Newfoundland at **0420 April 22**, mixing with CJMR Oakville, Ontario, easily discernible with a Newscast in Cantonese read by a male announcer, as opposed to South Asian programming on CJMR. CHMB originally signed on as CHQM-AM in late 1959, taking over the frequency abandoned by CKNW-980, and adding mostly simulcast CHQM-FM shortly after. The stations engineered a pair of cart machines that would fire simultaneously and air separately on AM and FM during periods of simulcasting. As my **(JP-AB)** first paid job in radio in 1971, it felt strange when CHQM-AM was not simulcast, to be the only person on the planet who could hear them in stereo, in the AM Control Room. That was at a time when XETRA-690 was the only station in the world broadcasting in AM Stereo.
- 1400 CBMD QC Chapais** – CBC English Radio One LPRT simulcasting CBVE-FM Quebec City will be shut down as soon as the just-approved power increase for CBVC-FM Chibougamau is completed.
- 1460 CJOY ON Guelph** – Once again modernized their Oldies music format with the introduction of 2-3 songs per hour from this century. They switched from strictly '50s-'70s to mostly '70s-'90s "quite a few years ago," according to a local listener.

--- STATION NEWS ---

- 830 WCCO MN Minneapolis** – 4/30 0245 – **Noted off the air.** Reports from Minneapolis indicate that they were **off from 2257-0812**. However, CFCW-840 slop too heavy to hear anything else. Detuned to 829 to eliminate the slop, but nothing strong enough to be heard. **(JP-AB)**

1490 WTKE FL Milton – 5/5 – NON-LOG – May 4 radioinsight.com reports Omni Broadcasting flipped Sports “100.3 The Ticket” WTKE-FM Niceville/Ft. Walton Beach to “100.3 K-Rock” Classic Rock while retaining The Ticket on translators 103.7 W259AN Ft. Walton Beach, 97.1 W246BN Pensacola, and 1490 AM WTKE Milton. **But not so**, the latter. Checking post-sunrise, while 100.3 has indeed flipped and 103.7 is The Ticket (97.1 not audible from here), 1490 remains silent. Still listed as licensed and silent in the FCC dB (has been since September, 2021). While we’re at it, 1400 WFDM Fort Walton Beach (also an Omni station) and 1140 WPNS Destin (sic – it’s really Niceville) remain licensed but confirmed still silent. Following up on David Crawford’s 1489.853 and 1490.051 unidentified mostly carriers from NC (not heard here so far), WTKE and WHBB can be ruled out. (TK-FL)

--- DX TESTS ---

- 600 WBOB FL Jacksonville – 5/14 0006 – Presumed WREC with Fox News, then WBOB test up with Creedence Clearwater Revival’s ‘Have You Ever Seen the Rain,’ then Robbie Williams’ ‘It Was A Good Year’ into ABBA’s ‘Knowing You, Knowing Me.’ Live announcement by engineer mentioning “five towers (two in use), facilities are from 1945, and email address.” First night of test, mentioning he didn’t have time to get the sweep tones etc. files up. Very good-to-excellent. (TK-FL)
- 600 WBOB FL Jacksonville – 05/15 0021 – Very poor, on DX Test, with rising sweeps barely audible below WMT. (MT-MN)
- 600 WBOB FL Jacksonville – 5/15 0022 – Monitored between 0006 and 0040. Heard one faint sweep at 0022 which also showed up in the SDR audio waterfall. Local KROD was partially nulled and there was also competition from XEHW in Sinaloa and possible an English station never was identifiable. (RV-TX)
- 600 WBOB FL Jacksonville – No sign of them either night, despite multiple tries throughout the Test period, with CJWW eliminating everything else. Originally thought to be Aurora-related, but WBOB reception by a friend in South Central British Columbia now has me believing that Twilight this time of the year this far North delays skywave, especially after noting Cuba on 530 around 0500 the night after the second test. (JP-AB)
- 1100 WCGA GA Woodbine – 05/01 0000 – DX test heard in Winnipeg! WTAM dominating the channel with a bit of another station doing talk. Clearly heard sweep tones from 0021 to 0023. NEW for me. (SMA-MB)
- 1100 WCGA GA Woodbine – 5/1 0000 – Test coming in fairly well, a little under WTAM. Test began with ID announcement and a prayer, followed by Star Spangled Banner, then IDs in Morse Code, followed by an ID by a female announcer. (SD-MN)
- 1100 WCGA GA Woodbine – 5/1 0000 – DX test, not surprisingly, well received here, opening a couple of seconds after Top-of-Hour with a brief male voiced inspirational nod to Jesus into orchestral Star Spangled Banner. Then alternating tones, busy signals, sweep tones, Morse IDs, voice announcements mentioning the NRC/IRCA, another mentioning St. Simons Island, and singing calls jingle. The same version of the anthem, off seconds before 0200. Slight WTAM present underneath throughout, otherwise it would have been near local level most of the time. (TK-FL)
- 1100 WCGA GA Woodbine – 5/1 0003 – Received several Morse Code IDs, sweep tones of seemingly different sweep rates, and 1kHz long-duration tones between 0003 – 0022. No music or voice announcements heard. Detailed report sent to Mr. Cox and he replied with the eQSL and some interesting station information. (RV-TX)
- 1100 WCGA GA Woodbine – 05/01 0140 – DX Test: 0140 Tone Sweep; 0146 Morse Calls. I had to null another station (probably WTAM – Cleveland). (BF-IL)
- 1100 WCGA GA Woodbine – 5/1 0025-0056 – No sign of them, thanks to very strong and clear signals from both KNZZ and KFAX. (JP-AB)

--- UNID ---

- 790 unID - 5/22 0549 – Heard end of what I think was “I Think We’re Alone Now” by Tommy James (‘67). Not bumper music, as it lasted 40-50 seconds or so. Poor, until lost. (JJR-WI) [Guessing here . . . KOSY Texarkana, Arkansas?? – Ed.]
- 870 unID ?? -5/3 2257- Hearing a Spanish music station under KRLA. It may have been Latin and Ballroom dance music. KRLA is firm, with this station under it. Has to be transmitting from Mexico. If so, where? (RA-CA)
- 900 unID - 5/5 0607 – Man: “. . . . 107-5 . . . Meteorologist...” (then weather but unable to copy details), then male liner “. . . 107 point 5 FM.” Signal lost thereafter. Can’t find

any 900/107.5 simulcast matches. **(TK-FL)** [After doing a bit of research . . . I find that **WYPZ Macon, Georgia** (if you haven't already ruled them out) once had a translator on 107.5, but not since 2017. Currently, the closest 107.5 to them is Class A WRWR Cochran (~25 miles), but the formats don't come close. Other than that . . . no help from here. Maybe they are using an old liner? – Ed.]

- 940 unID - 5/22 0544 – Poor, with “la Bandera ????” -- have been hearing this almost daily cutting into CJGX. Lively SS music. **(JJR-WI)** [Maybe WCND Shelbyville, KY . . . a long shot – Ed.]
- 1050 unID - 04/10 2359 – Poor, Mexican National Anthem then Spanish talking. **(MT-MO)** [My bet? XEG Monterrey – Ed.]
- 1140 unID - 04/12 0010 – Fair, with very bad singing in Spanish. Sounds like a church service. Spanish ID, but I'm unable to make out words matching any known stations, then into music. **(MT-AR1)**
- 1260 unID - 4/27 0011-0013 – Heard ‘The End’ by The Doors. Finally made it out who sang it. An Oldies or Classic Rock station. Who??? **(RA-CA)**
- 1310 unID - 04/11 2359 – Very Poor, with lengthy multi-station ID. Nothing I could hear to match the frequency and the ones I thought I heard, seemingly had nothing in common. **(MT-MO)**
- 1310 unID - 4/27 0002 – “Relevant Radio” mentioned, then talking through QRM. Which station has this format? **(RA-CA)**
- 1420 unID - 5/16 0548 – Man: “Good Time Oldies on C[K]ool 93-5” into ‘Big Bad Leroy Brown’ by Jim Croce segued to ‘Maniac’ by Michael Sembello. Faded. Not parallel what should be puny power nights WINI stream. I find no other “Cool (or Kool) 95.3” and 1420 match. Could have been mis-heard and really “93-9” but still no obvious hits. Slight sub-audible rumble also on the channel. **(TK-FL)**

--- TIS/HAR ---

- 1320 WPJT868 WI Milwaukee – 5/22 0535 – Poor. Mitchell International Airport info: parking; calls. Not in 10 minutes earlier! Despite my closeness to the airport, this is not common! **(JJR-WI)**

--- DX LOGGINGS ---

- 570 KLIF TX Dallas – 5/20 0640 – With local morning show of talk, traffic, weather, and local ads/promos. “570 KLIF and FM 96-3 HD2” IDs heard now and then. Fox News at Top-of-Hour after ID. Semi-regular here, in mix with KWML-NM, XEJB – NL, and others. **(RV-TX)**
- 580 KUBC CO Montrose – 5/3 0614 – “KUBC Gold” slogan noted into ‘September’ by Earth Wind and Fire. Lost to station with power up at 0615. Very poor. **(JJR-MI)**
- 580 WIBW KS Topeka – 4/13 2300 – Top-of-Hour ID ID into CBS News. Fair. **(MT-OK)**
- 580 WIBW KS Topeka – 5/3 0553 – News read by woman. Ads for ‘Angi.com’ and ‘Staples’; “Sportstalk 580” and promo for program “. . . on Tuesdays from 2-6 here on 580 WIBW.” Recorded. **(LB-CO)**
- 580 KJMJ LA Alexandria – 4/13 2200 – Poor, with Top-of-Hour ID and part of multi-station ID for ‘Radio Maria.’ **(MT-AR2)**
- 580 WELO MS Tupelo – 4/25 0627 – “Between a rock and a hard place, 104.3 The Pulse” between songs. Poor. **(JJR-WI)**

Unreported Domestic Stations

Two stations were reported to DDXD for the first time this issue since at least Volume 67 (1999-2000): WHYM-1260 and WHBB-1490. In addition, now defunct WMLC-1270 was also on our unreported list. So now there are only 235 stations remaining on our list of full-service U.S. and Canadian stations (100 Watts or more) that have not been reported during this time. We’ll run an updated full list this summer, but if you want a copy sooner just ask at NRCDXNews@gmail.com.

- 1215 **UNITED KINGDOM** *Absolute Radio* synchros MAY 15 0300 – Fair with synchro echo; ad string ending with McDonald's restaurant whistling sounder, promo and presenter into rock music. [Conti-NH]
- 1476 **BENIN** TWR Parakou MAY 15 0400 – Solid s7 signal briefly readable while 1480 WSAR was open carrier, otherwise too much WSAR interference; preaching through the hour. 1566 Benin also observed but not readable through 1570 CJLV interference. [Conti-NH]
- 1521 unID APR 26 0607 – JBA het upon 1520 KOKC. Nothing else on 9-kHz splits. Earlier was looking for Saudi Arabia, reported reactive during Ramadan but not 24h. Of course at this very late hour could not possibly be Saudi Arabia even with 2000 kW; so what? There is a 5 kW in Spain, not too late for it? Or early TP? There is 1 kW in New Zealand, 2 kW in Australia. Or a North American exactly 1 kHz off-frequency? [Hauser-OK]
- 1530 **SAO TOME** VOA Pinheira MAY 21 0258 – Good, over WCKY; Yankee Doodle, "This is the Voice of America, Washington DC, signing on," one more cycle of Yankee Doodle interval signal, then carelessly cut into tail end of a program before VOA news on the hour. [Conti-NH]

PAN-AMERICAN DX

- 570 **MEXICO** XEJB Apodaca, NL MAY 20 1040 – U.S. pop, CHR oldies and later. Frequent "ABC 570" splitter ID's. Mexican national anthem at top of the hour, followed by full ID then back into music. [Vance-TX]
- 600 **MEXICO** XEHW *La Mejor*, Chametla, Sin. MAY 15 0406 – Heard during the monitoring of the WBOB DX test; norteño music and frequent *La Mejor* slogan ID's. Heard here often when nulling local KROD. [Vance-TX]
- 620 **MEXICO** XEGH *La Lupe*, Río Bravo, Tamps. MAY 15 0420 – Banda and tropical music, *La Lupe* slogan ID heard between songs, included 620 AM and 89.1 FM in some of its announcements. [Vance-TX]
- 620 **MEXICO** XENK *Radio 620*, San Andres de la Canada, ESTM MAY 14 0040 – U.S. nostalgia and oldies music with frequent *Radio 620* slogan ID's and rooster crows. ID at 0130, "Escuche XENK, Radio 620, transmitiendo a seisciento veinte kilohertz, con 50 mil wats de potencia... una estación de La Cadena RASA." [Vance-TX]
- 690 **MEXICO** XEMA *La Mejor*, Fresnillo, Zac. MAY 8 1110 – Norteño music, *La Mejor* ID with call letters by an exaggerated deep-voiced male announcer. Also announced 107.9 FM. [Vance-TX]
- 739.93 **MEXICO** XEQN *R.Fórmula*, Torreón, Coah. APR 27 1127 – "Radio Fórmula Torreón" ID, followed by a couple of PSA's. Fair signal on LSB; frequency is approximate. [Wilkins-CO]
- 800 **BONAIRE** PJB *TransWorld Radio*, Kralendijk MAY 5 0208 – Spanish program with light guitar music heard in the absence of local blowtorch XEROK. Fair-to-poor in competition with XEERG. [Vance-TX]
- 800 **MEXICO** XEERG Ojo de Agua, NL MAY 5 1058 – Fútbol game, "RG La Deportiva" ID at 1100 followed by Mexican national anthem, then back into fútbol. Distortion was also present (used the SAM-DSB mode on the SDRuno for the best copy). The ID announcement contained the numbers "690-1" and "690-2") that allude to reporting by others that indicate this station is simulcasting 690 XERG. After looking at the Multimedios and *RG La Deportiva* websites, the -1 and -2 may indicate HD channel numbers; but it's just a guess on my part. Other numbers were given that I have no idea what they represent. The entire announcement sounded like "Ochenta ocho ochenta, seis noventa uno, ochenta ocho ochenta, seis noventa dos, RG La Deportiva." Local XEROK was not on the air and I have not heard it since March 27 after going back through some SDR files. [Vance-TX]
- 820 **MEXICO** XEABC *R.Cañón*, Mexicali, BC APR 24 1154 – U.S. oldies, canned *R.Cañón* slogans. Fair in WBAP null. [Wilkins-CO]
- 1150 **MEXICO** XEUAS *R.Universidad Autonoma de Sinaloa*, Culiacán, Sin. MAY 4 1030 – Instrumental and symphony music. Full ID included 96.1 XHUAS and 102.9 XHMSA Los Mochis. [Vance-TX]

- 1190 **MEXICO** XECT *Contacto 1190*, Guadalupe, NL MAY 17 1042 – Spanish baladas and upbeat pop, *Contacto 1190* splitter ID's. Was so similar to XEPZ that it was a chore to keep track of who was who. [Vance-TX]
- 1190 **MEXICO** XEPZ Cd. Juárez, Chih. MAY 17 1003 – Mix of Spanish baladas and upbeat pop. The "99.1 Máxima" singing splitter ID's were used quite often. Very similar music to XECT and caused some issues with keeping track of who was who. Again appeared suddenly at 1203 as if it switched to daytime operation. [Vance-TX]
- 1270 **MEXICO** XEGL Navojoa, Son. MAY 8 1004 – Mix of banda and more modern Mexican pop music heard during the period. Frequent time checks, "La Nuestra, 1270 AM" and "En Sonora, La Nuestra" ID's between songs. [Vance-TX]
- 1559.76 unID MAY 21 0300 – Loud het against 1560 WFME; presumed of Latin American origin. Nothing matches in the mwlist offsets, nor the old online mwoffsets list last updated in 2014. [Conti-NH]

TRANS-PACIFIC DX

- 846 **KIRIBATI** *R.Kiribati*, London APR 28 0643 – JBA carrier, no doubt *R.Kiribati*, always the first and usually only 9-kHz TP carrier this early since it's so far east, roughly same longitude as Hawaii and thus well after LSS circa 0430 UTC. Also this time of year, all TA's should have faded out, well after LSR there. MAY 1 0621 – JBA carrier definitely there despite high storm noise level; surely nothing else but *R.Kiribati*. INTERNATIONAL NEWS

AUSTRALIA: Station 4KQ 693 kHz in Brisbane, Queensland has been sold and is to change format. Currently running 'Good Times and Great Classic Hits' programming, the station has been purchased by the Sports Entertainment Network (SEN) for a reported A\$12m and will take on an 'all sports' format under the name 693 SENQ. It is the first 'all sports' station in Queensland. The current owners of 4KQ were required to sell the station after they purchased ARN Regional in January. In the latest ratings period, 4KQ did very well with a 9.4% market share, putting them above its main AM competitors, ABC 612 and 4BC. Once 693 SENQ is given approval by the regulatory authorities, it is expected to start broadcasting later this year. [*Brisbane Times* via Martin Hadlow NZRDXL, via Svenn Martinsen, ARC *mv-eko*]

MEXICO: On May 4, I noticed that 800 XEROK Cd. Juárez was off the air. I decided to check each day and I have yet to hear them return during this time. Going back through SDR files, XEROK not received since March 27. [Vance-TX]

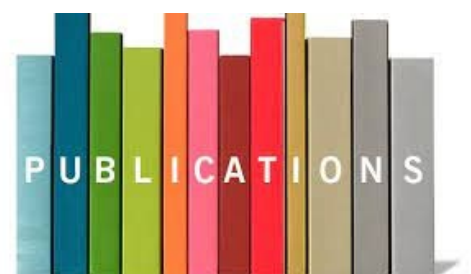

TURKS & CAICOS: 530 is coming back along with a home market only 1 kW signal on 1570 kHz. Game plan is to diplex the pair on Providenciales. 530 will be sporting 100 kW with a Nautel box that was bought 15 or more years ago and never used. It will be non-directional so you'll be able to grab it. I expect they will hit the air in the fall. [Jerry Kiefer via Svenn Martinsen, ARC *mv-eko*]

A few days ago, it was reported that country music star Mickey Gilley had passed away. During the 70's and 80's his lead guitar player was "Rocky Stone." Rocky's real name was Conrad Durocher, AND a BCB DXer and former member of the National Radio Club. Conrad was from Boston and joined the NRC in the late 70's. My first contact with him was around 1980, (I was living in Overland Park, KS at the time), after he had relocated to Pasadena, Texas, where the band's HQ was "Gilley's Club," where the movie *Urban Cowboy* was filmed. Over the next couple of years, we exchanged correspondence, particularly about some of the DX Tests I was arranging on behalf of the NRC. One day I received a phone call from Conrad, with him telling me about an appearance the band was making at a venue in the Kansas City area and inviting me to stop by. I did and had a very nice chat with Conrad after the show. Some time later, Mickey opened a theatre in the Branson area, and as I recall, Conrad relocated to that new QTH. In 1987, he passed away unexpectedly. Conrad was one of many very interesting people with whom I have become acquainted in my more than 60 years as a member of the NRC. For those who might be interested, here is a link to a video in which "Rocky" plays *Ghostriders in the Sky* - <https://www.youtube.com/watch?v=4uOWeQAcW-E>

To our NRC members, I hope Easter and Mother's Day was a success. I remember very well when Linda Brodsky asked us how AM radio influenced us; which DJs did we listen too? Yes Linda, if you remembered him in New York City, he, too was big in Los Angeles. For me, I caught him on FM radio at the end of his career. That was Burton Mitchell Goldberg, known as B. Mitchell Reed, B.M.R., The Beemer. He started at WOV 1280 AM in N.Y.C.; in 1957 Crowell-Collier Broadcasting with Chuck Blore (KFWB 980) called B.M.R. to start the Top 40 Format in January, 1958. In 1963, B.M.R. went to WMCA 570 to compete against Murray "The K" Kaufman at 1010 WINS. When B.M.R.'s show overtook Murray The K, B the Beemer went back to KFWB in L.A.. Over 3,000 listeners saw him off; the listeners numbering the same when he returned L.A.. How ironic; Murray The K went to WOR 98.7 and after B.M.R.'s return, Gotham Broadcasting sold 1010 WINS to Westinghouse, where has been news since. In June 1967 at the Monterey Pop Festival in Monterey, Ca., B.M.R. met Tom Donahue (Big Daddy) who was big in Top 40 radio in San Francisco. It is here, where Big Daddy and B.M.R. went to KPPC 106.7 FM in Pasadena, Ca. In March, 1968, a strike happened after Crosby-Pacific Broadcasting sold the station. The group of D.J.'s (Big Daddy, B.M.R., Dr. Demento, Charles Laquidara to name a few), went to KMET 94.7 FM, owned by Metromedia. B.M.R. stayed with KMET until 1971. He went to KRLA and returned in 1972. However, health issues were taking a toll on B.M.R. He underwent coronary surgery twice. In 1978, he was let go from KMET and went to KLOS 95.5 FM. B.M.R. left radio in 1981 due to heart conditions. On March 16th, 1983 he left a legacy that will be with us for many years to come. Until next musing, 73 Rene.

I broke the 500-logging mark for the season standing at 508 last muse and this muse I'm at 603. Many thanks to the CPC for the WCGA-1100 test, logged just after local KMXA-1090 pulled the switch at 0100, also logged the Cuban on 990 as well. Other new stations for the season included KSPD-790, KWBF-1420, KTAE-1260, WBGZ-1570, WKEL-1450, XEUT-1630, JOBB-828, KBND-1110. Call Changes KD JW-1010, KJOZ-880, KLTX-1390, KVTA-1590 & KY YA-730. My DX Season (9/1 – 8/31) is still in progress as I have only finished with my tapes through November 8, 2021. Plenty of listening left to do. So far 25 new stations and 8 call changes this season. Remember that we are in need of your updates to the AM Radio Log so that we can hit our August 2022 publication deadline! 73 for now.

A recent question was posted in musing about what we do for summer DXing. In addition to ham (Just came back from Dayton Hamvention – my first – great experience), for AM DXing, I occasional do daytime band scans, DX the baseball nets and some sunset DXing. There obviously won't be a new state or country but still always enjoyable. Plus, was able to copy the latest two DX Tests - thank you Les and everyone involved!

Two corrections, if I may, to Ken MacHarg's always excellent Radio History articles - He mentioned that Disney/ABC eventually sold the ABC Radio Network. They actually reached a deal for an outside

company (forget which) to take over the non-broadcast employees and business operations. This happened about 10-12 years ago. The on-air staff, including me (part time anchor for 19 years and counting) remained as Disney/ABC employees - my paychecks still come from the Disney hard drive in Orlando. One of the first things this company wanted to do was eliminate ALL sports updates. The affiliates *strongly* revolted, so a compromise was reached. During weekdays, producers would write and produce the handful of morning and afternoon updates with a news anchor recording it. Weekends remain, to this day, with a full schedule. A few years after that, Disney/ABC again took over full operation of ABC Radio. Officially, ABC Radio today is owned by Disney and a division of ABC News, and distributed by Skyview. Our studios are in the ABC-TV network building on west 66th street in Manhattan.

Another item in a Radio History article mentioned that Mutual was the first radio network to employ satellite distribution, in 1980. I believe NPR started satellite distribution in late 1979. I well remember a huge satellite dish being installed atop the Ohio University radio-TV building in 1979 to receive the NPR feeds. (I'm an OU grad.) 73!

I've been in CO since April 26 awaiting the birth of our 5th grandchild who finally decided to face the world right before midnight on May 20. My DX equipment is a barefoot C.Crane Skywave SSB and a SONY digital recorder and all the activity has been between midnight and sunrise. There were a few openings into Manitoba and Saskatchewan and one brief reception of KNX, Los Angeles, but mostly receptions of stations in WY, MN, OK, NE, NM, O, IA,IL,ND, U and TX. Excluding CO stations, I've logged 26 stations, the furthest East being WLW in Cincinnati. I thought the recent cold and snow would change conditions and was surprised when it did not. I tried for both recent DX tests (WBOB and WCGA) but was not able to hear either. I probably would have had better luck with those back in NY, where I easily logged WBOB's test last September. Like the real estate agents always say, it's "location, location, location." :-). 73 until next month.

Coast to Coast AM Network List

The station list on the Coast to Coast AM website (<https://www.coasttocoastam.com/stations/>) is relatively accurate as online network affiliate lists go, but not well arranged for the DXer. Here are the AM stations on the list, in frequency order, as of May 16, 2022. A sortable Excel version of the list, including FM stations and communities of license, can be downloaded [here](#).
