--- NOTES FROM CANADA ---

Jon Pearkins jon@pearkins.com

The evening of Friday, October 21 appeared to be the end of unusual DX conditions that may have been the result of the largest and longest Gamma Rayburst on record, that began October 9th. Unfortunately, the evening of October 22 was the exact opposite on the night before, at least, in Edmonton, with DX conditions poor in all directions. Both co-owned CHED-630 Edmonton and CJOB-680 Winnipeg have been operating all or most nights with something other than the night directional patterns published on sites like fccinfo.com. Both stations have seen the disappearance of other stations on their respective frequencies that the CHED and CJOB night patterns were designed to protect. In discussions with the CHED Chief Engineer before he retired several years ago, he made it clear that he had been requesting a new night pattern for the station for decades, and there has been major tower work on their transmitter site several times since his retirement.

The wee hours of October 29 marked the first detection of Aurora conditions in Edmonton since the evening of September 26, according to the Aurora monitoring station at the University of Alberta in Edmonton. Both dates were reported as a Yellow Alert, which means Northern Lights were likely to be visible in the sky, weather permitting, but with less certainty than a Red Alert.

Aurora conditions elsewhere but not near a DXer's location can create conditions where normally weaker signals are not blocked by normally stronger signals. For example, on 1220 in Edmonton, CJRB is normally unnullable at night. Slight Aurora conditions over southwestern Manitoba normally allow reception of KSLM from Oregon by nulling CJRB. If both CJRB and KSLM are completely blocked by Aurora conditions, WHKW Cleveland OH and XEB Mexico City have been heard on very rare occasions.

680 CJOB MB Winnipeg – In response to a San Diego DXer who logged CJOB under the usual strong signal of KNBR, a Midwest DXer states that the station has been using their licensed day pattern at night for several years now. CJOB's published night pattern only sends the equivalent of about 1 kW to Southern California.

740 CBX AB Edmonton – The audio gap between CBX-740 and nested repeater CBX-2-FM is now down to about two-thirds of a second. The CBX-740 audio is still behind CBX-2-FM and appears to now be about four seconds late with the top of the hour network news. The gap between the two transmitters has been tightened up since last March when CBX-740 kept going off the air. The AM transmitter is near Edmonton International Airport, south of the city, while the FM is co-located on the CBXT-TV tower with all other Edmonton CBC FM transmitters in Sherwood Park, east of the city.

800 CKOR BC Penticton – Had to be running their full 10 kW day power, as they were unnullable in Edmonton after sunset on October 19th, likely just until their play-by-play local hockey coverage ended, as there was no sign of them later in the evening.

860 CBUP BC Merritt – The CRTC has approved the CBC's building of CBUP-FM 98.7 MHz with 140 Watts non-directional at nearly 2,000 feet above average terrain to replace 40-Watt LPRT CBUP-860. Like CBUP-AM, CBUP-FM is licensed to rebroadcast CBYK-FM, CBC Radio One in Kamloops, BC.

940 CFNV QC Montreal – Noted with Open Carrier during the evening on October 20th.

950 CKNB NB Campbellton – CKNB-FM came on the air last week, testing with a simulcast of CKNB-AM. There are the usual announcements asking listeners to report any interference issues to the station. Once testing is complete, there will be a three month simulcast period before the AM transmitter is turned off for the last time. CKNB-FM is 5,330 Watts on 100.7 MHz from a new transmitter site in McKendrick, three miles south of Campbellton. The current AM transmitter site is two miles east of Campbellton, on the south bank of the mouth of the Restigouche River, the boundary between New Brunswick and Quebec. The FM RDS data being transmitted reads "CKNB-FM Top 40" and the CKNB station branding is expected to change to "HITS 100 FM" without changing the current music format.

1230 CBPD-1 BC Glacier Park – 5-Watt Park Info Station deleted from ISEDC database

1280 CBPP-1 PE Prince Edward Park – 5-Watt Park Info Station deleted from ISEDC database

1310 CIWW ON Ottawa – The weekday Newswheel schedule for CityNews Ottawa is now 1:00 to 7:00 PM and 10:00 PM to 5:00 AM. A new morning show is being hosted by former CFRA-580 announcer Rob Snow. Despite occasional mentions of 1310, there have been reports that top and bottom of the hour IDs now only mention 101.1 (simulcast CJET-FM), not 1310. This leads to speculation that CIWW's license may be surrendered given the value of the real estate where the five towers are located. CJET-FM's 100 kW signal appears to adequately service the Ottawa area, despite the station being licensed to Smith Falls. Format change to News-Talk from News, but slogan remains 'City News.' (includes CJET 101.1 Smiths Falls, Ontario)

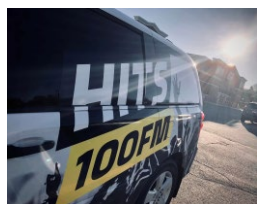

1430 CHKT ON Toronto – An extension was granted for the station's switch to use of their existing Night Directional Pattern during the Day to October 30, 2023. The transmitter site is currently suffering flooding issues, causing delays in the implementation of this change, according to the station's extension application to the CRTC.

1490 CBPC-1 BC Glacier Park – 5-Watt Park Info Station deleted from ISEDC database

1490 CBPC-1 PE Prince Edward Park – 5-Watt Park Info Station deleted from ISEDC database

1610 CHHA ON Toronto – Noted with a lengthy period of Open Carrier on October 19th around 7:00 AM.

--- U.S. STATION NEWS (FCC) ---

- 1080 KSCO CA Santa Cruz – The FCC has proposed a \$20,000 fine against KSCO. The FCC received complaints in 2016 and 2020 alleging the station had been operating at night with 1 kW non-directional for over thirty years as opposed to its licensed directional 5 kW. (The owner) had last applied for an STA to operate under those parameters in 1996. In response to the FCC, (the owner) told the FCC that “. . . in the directional mode the station loses coverage to a significant amount of its primary service area.” The station did apply for the STA again in early September with the FCC rejecting it as there was no proper justification for the need to operate with an alternate antenna system and reduced power during nighttime hours and no engineering studies supplied to show that they facility would protect other co-channel and first adjacent stations.
- 1130 WALQ AL Carrville – An \$11,000 fine was proposed against WALQ. The station failed to file an extension of its Silent STA when it expired in November 2021 and continued to be silent until a new STA was filed to operate with reduced power in March 2022. The station was also operating under a one year license renewal as the prior owner had failed to consistently operate the station. The station was supposed to file a renewal application by February 1, 2021 but did not until June 27, 2022 due to health issues with the board member whose duties were to do so.

--- DX TESTS ---

- 880 KJJR MT Whitefish – 11/05 0222 – After reviewing the recording from my SDRPlay, I can confirm the DX test made it to Winnipeg. There were numerous sweep tones and Morse Code IDs heard both under, and equal in strength to, CKLQ with their Country and Western music and ‘91.5 FM’ IDs. Always good to hear a DX test even if it is not for a new station. (SMA-MB)

- 680 CJOB MB Winnipeg – 10/21 2257 – Under KNBR with a nice clear ID. Despite having a licensed night pattern that throws their entire signal north, these guys are now covering most of the western US at night. I wonder if KNBR will ever complain? Huge pest at the Border Inn, but I had never caught an ID from home. So they are **new, for Manitoba #4 at 1552 miles.** (TRH-CA)
- 690 WQNO LA New Orleans – 10/27 1958 – Religious program from EWTN ending into spots for ‘Fisher and Sons Jewelers’ in Metairie, the ‘Restaurant Revolution’ in the French Quarter, and ‘Fournette Realty’ with David Tussel. - 999 **MOLDOVA** *R.Rossii, Grigoriopol* OCT 28 2259 – Fair; instrumental bumper music to time marker and news. [Conti-NH]

Transatlantic carrier search: OCT 25 0218 – Likely sources from listings based on power, longitude. Note, I am making no claims, not counting countries or anything, but FYI. 855(2) Spain, 891 Algeria, 999 Spain, 1215(2) UK, Spain, 1413 superpower Pridnestrovye or Oman, or Spain. At 0612: 621 Canary, 684 Spain, 711 Morocco; 774(2) Spain, 801 Spain, 837 Canary/Spain, 846 TP Kiritimati, 882 Canary/Spain/Wales, 981 Algeria. OCT 26 0635-0639 – Spain u.o.s.: 612 Morocco, 639, 657, 711 Morocco, 747(2) Canary/Spain, 774(2), 837(3) Canary/Spain, 846 TP Kiritimati, 855, 1044, 1107 kHz. OCT 27 0624 – 567(?) off-frequency minus, maybe birdie, Spain listed only 1.6 Hz low, 621 Canary, 684 Spain, 711 Morocco, 1044 Spain, 1521 5 kW Spain? Even with 2000 kW would not expect Saudi at this late hour; nor 500 kW East Turkistan at this midday hour. OCT 28 0617 – At this late hour most likely Spain, u.o.s.: 585, 684, 711 Morocco, 774, 837(2) Spain or Canary, 846 TP Kiritimati, 855(2), 1044, 1098, 1107(3), 1215 Spain or UK, 1305(2), 1413(2), 1521 kHz. OCT 29 0621 – 711 Morocco, 774 Spain, 846 TP Kiritimati, 855(2) Spain, 882 Canary or Spain. [Hauser-OK]

PAN-AMERICAN DX

- 530 **CUBA** *R.Enciclopedia, Villa María* NOV 1 0900 – Finally heard a fairly clear *R.Enciclopedia* ID at the top of the hour after receiving the station on hundreds of days in the recent past. Medium strength signal in cycle of moderate fades, marred by usual heavy background white noise caused by multi-hop skip, though 800 PJB is even worse. Typical soft spoken but carefully pronounced Spanish words by female announcer, between elevator music: low key instrumental versions of Top 40 and adult standards hits, mostly those that were popular in the 1960s, though 1982’s “Eye in the Sky” was heard recently. NOV 5 0500 – Slightly less signal strength and deeper fades than normal, but amazing to hear them as I checked out DX conditions before the 880 KJJR DX Test and could not hear often unnullable 10 kW 1150 CKFR Kelowna BC. [Pearkins-AB]
- 590 **MEXICO** *XEPH Cd. México, CDMX* OCT 24 1040 – Tropical music program (Sabrosos del Volante). Mexican national anthem at top of the hour followed by full ID. Plenty of “Sabrosita Cinco Noventa” splitter ID’s. [Vance-TX]
- 660 **MEXICO** *XESJC K-Voz, San José del Cabo, BCS* OCT 26 1300 – Appeared under KTNN and KGSV with adult choral version of Mexican anthem. 798 miles. Relog. [Hall-CA]

- 670 **CUBA** *R.Artemisa*, Bahía Honda OCT 30 0400 – Under WSCR and *R.Rebelde*; canned ID and choral national anthem parallel 1000 and 1020 kHz. [Conti-NH]
- 730 **MEXICO** XEHB *La Mas Picuda 104.7 FM*, Hidalgo del Parral, Chih. OCT 26 1258 – Steady signal under XESOS with cumbia music, slogan “La Mas Picuda,” and full FM/AM ID. 780 miles. Relog. [Hall-CA]
- 730 **MEXICO** XESOS *La Ranchera 97.3*, Agua Prieta, Son. OCT 26 1258 – Station has returned to the air, presumably after once again being caught off the air by the IFT in violation of their AM continuity order. Ranchera music and “la ranchera 97.3” slogan. Note I had removed this station from the latest edition of the IRCA Mexican Log because they had turned off their AM so many times already. 439 miles. Relog. [Hall-CA]
- 800 **BONAIRE** PJB *R.Transmundial*, Kralendijk OCT 22 0258 – Weak signal fighting KBFP (also with weak signal) with Spanish religious programming and “Radio Transmundial” slogan. I’m amazed how few signals are coming in on this channel now that both XESPN and XEROK are gone. Relog. [Hall-CA]
- 810 **BAHAMAS** ZNS-3 Freeport OCT 30 0358 – Over WGY; Commonwealth of the Bahamas intro and instrumental national anthem. [Conti-NH]
- 820 **MEXICO** XEABCA *R.Cañon*, Mexicali, BC OCT 26 1259 – Alone on the channel with fast adult choral version of Mexican anthem (one verse) followed by full FM/AM ID and fairly new “Radio Cañon” slogan. Note this is the same slogan that has been in use at 820 XEBA for some time. 82 miles. Relog. [Hall-CA]
- 840 **CUBA** CMHW *Doblevé*, Santa Clara OCT 30 0400 – Under WHAS and WRYM; choral national anthem and canned ID, “Esta es Doblevé, desde Santa Clara...” [Conti-NH]
- 840 **MEXICO** XETAY Tepic, Nay. NOV 1 1000 – “La Mas Picuda” with banda and grupera music. Top of the hour ID mentioned only the FM XHTEY (with “Y-griega” used for the Y). A couple of “La Mas Picuda, noventa tres siete” splitter ID’s heard. [Vance-TX]
- 860 **MEXICO** XEMO *La Poderosa*, Tijuana, BC OCT 20 1300 – National anthem followed by ID: “XEMO La Poderosa Ochocientos Sesenta – música de recuerda...”; also gave power (10 kW), address (Manuel Márquez de León 950, Zona Río), website (lapoderosa860.com), and a PDT time check. Mexico went off DST forever on October 30, and will not use it again, except for some exceptions along the U.S. border. Generally fair signal, with typical fade pattern. [Wilkins-CO]
- 1000 **CUBA** *R.Granma*, Media Luna OCT 30 0359 – Under WMVP; choral national anthem, then heard anthem from co-channel *R.Artemisa*. [Conti-NH]
- 1020 **CUBA** *R.Artemisa*, Bahía Honda OCT 30 0400 – Under KDKA; choral national anthem parallel 670 and 1000 kHz. [Conti-NH]
- 1050 **MEXICO** XEBCS La Paz, BCS OCT 16 1140 – Mix of grupera and balada music. “Estas escuchando, la Radio Sudcalifornia” splitter ID by woman at 1142 UTC. [Vance-TX]
- 1110 **MEXICO** XERED México, CDMX OCT 23 0100 – Big signal here in central Texas; Foreigner “Waiting for a Girl Like You”, male comes on “Sábado y domingo, More Music Weekend...” into next song, John Waite “Missing You”. Relog. [Niven-TX]
- 1170 **MEXICO** XERT Reynosa, Tamps. NOV 1 0000 – Big signal; with male mentioning “Escuchar XERT La Raza once setenta, transmite Reynosa Tamaulipas, La Raza once setenta, la es todos,” then female with talk, relog, heard with new slogan, heard quite regular here in central Texas. [Niven-TX] NOV 1 1026 – Grupera music and plenty of “Ke Buena” and “Once sesenta AM” splitters. [Vance-TX]
- 1210 unID OCT 28 0627 – Classical music mixing with talkers probably KGYN and WPHT. Can’t find any 1210 listed with classical: can’t imagine a commercial station in U.S. or Canada, nor can NRC AM Log. IRCA Mexican log shows max 3 stations, not. Cuba? Two stations in WRTH not on CMBF network. Central America? Guatemala has a religious one. Nothing else in CAm, Caribbean or S America with an overtly cultural or classical name, but exact formats difficult to divine. Ideas? Possibly something completely different defaulting to such fill during loss of network signal; or an equipment test. This makes a SAH of 164/minute against some other = 2.7 Hz. MWOffsets shows KUBR San Juan, Texas, in the RGV on 1210.0027 kHz. But it’s Spanish Christian. No program sked found on website. [Hauser-OK]
- 1260 **MEXICO** XEL Cd. México, CDMX OCT 16 1210 – Grupera music and frequent “Escucha la doce sesenta, La Comadre” splitter ID’s sometimes with time check. [Vance-TX]
- 1270 **MEXICO** XEGL *La Nuestra*, Navojoa, Son. OCT 26 1300 – Poking through my local XEAZ (which was running a paid religious program parallel 1310 XEC that ran past the top of the hour) with children’s choral version of Mexican anthem. 592 miles. Relog. [Hall-CA]

- 1320 **MEXICO** XEARZ Cd. México, CDMX OCT 14 1003 – Coming in and out with instrumental easy listening music and “ZER Radio trece veinte” (ZER spoken as single word) splitter ID. Full ID with call at 1006 UTC. [Vance-TX]
- 1470 **MEXICO** XERCN Tijuana, BC OCT 16 1300 – National anthem right at 1300, as usual, followed by ID as “RCN Catorce Setenta AM” and mentioning address on Márquez de León (same as 860 XEMO), and Uniradio. A “fair minus” signal rating this day. [Wilkins-CO]
- 1550 **CUBA** *R.Rebelde* synchros OCT 28 0859 – Over/under WRHC; echoing cuckoo sounders. [Conti-NH]

TRANS-PACIFIC DX

- 846 **KIRIBATI** *R.Kiribati*, London, Christmas Island NOV 1 0653 – JBA carrier from *R.Kiribati*; cursory 9/kHz split check does not find any TA’s now. NOV 3 0644 – JBA carrier; no other 9/kHz splits. NOV 5 0644 – JBA carrier; and no other 9/kHz splits in cursory check. NOV 6 0644 – No JBA carrier, presumed silent Sunday. [Hauser-OK]
- Transpacific carrier search:* Tons of TP carriers noted, but hardly any audio except for the usual high-powered Japanese and Korean stations. [Hall-CA]

“As the above indicates, apart from a regular absence on Sunday nights, the closedown time remains variable. I have sent an enquiry to *R.Kiribati* HQ, but no response as at end on October.” [Bryan Clark, NZRDXL *DX Times*, via Glenn Hauser]

MEXICO: 1630 XEUT Tijuana, BC, one of my closest locals, has been off the air since their license expired in October. It’s possible it may not return. It was the best AM station in Tijuana by far, despite their annoying habit of broadcasting a piercing tone for 6 hours a night. This makes the third Tijuana station to go off the air this year, the others being 800 XESPN and 1550 XEBG. [Hall-CA]

Verie from 1110 WBT VQ+VPPC. 14 outstanding reports right now. I've been working on the 50 kW stations and there are still 13 on that list. Some aren't easy to hear. I'm also working on verifying all the US States I've heard. On to DX. 10/4 1270 heard 70's pop hits, possibly Columbus GA but too weak for an ID. 10/6 details for a report to 760 WJR. I used to listen to the Tigers baseball games on WJR when I was young. 10/9 listened to 1190 WOWO but they faded by ToH so no report. 10/10 1530 WENG heard with nice long ID just before ToH. 10/11 1270 pop station in again, then details for a report to 870 WWL. They suffer from Cuba QRM some of the time. 10/14 1680 KRJO faded up with Country music and 97.7 The Legend slogan fighting with WOKB, new. 10/16 details for a report to 890 WLS. 10/21 Friday night football I heard a game on 1360 thinking it was a local. Karl Forth on the IRCA list posted he was hearing WMOV. I tuned back in and listened, eventually identifying the game as the St. Xavier Bombers vs. the Eagles. Cincinnati OH team but WSAI doesn't show this on their schedule. 10/21 also caught 1030 KCTA just before their 8 PM EDT sign off announcement, but then they continued on with news and religious program. 10/22 & 23 I noted local 1110 WTIS on late. Also 10/23 details for a report to 750 WSB. 10/24 details for a report to 600 WBOB for daytime reception. In the evening I tuned in to 1170 for WWVA and noted a music station in there. Just past 10 PM I caught a Boss Hogg Radio Network slogan and multi-station ID partially making it thru. This is a new one here, WKFL, a daytimer! A couple oldies and more Boss Hogg Radio slogans heard. 10/25 our dog woke me up chasing a black cat at 6:30 AM (must be close to Halloween) and caught 820 WBAP for a report, new here. I had them verified in MI and CA. Hope to get the trifecta. 10/27 caught 740 KTRH on top of local WYGM Orlando for a report. 10/30 6:58 AM heard Spanish music station with La Que Buena slogan, XERT ID, XE NA, mentions of Reynosa, for a new one.

Recently bought a GE Super Radio I at Goodwill for \$2. It was covered in dust and the dial plate was loose. But it was complete. Fixed it and cleaned it up already. Not sure what I'll do with it. In my Excel Log I added a column in my log for audio recording next to the QSL column to try to track which stations I have recorded IDs. I don't count as veries but nice to know. 73's, Martin

I arrived in Golden on November 2nd with only my C.Crane Skywave SSB and SONY Digital recorder. I contemplated bringing one of the SDRs, but since I don't have an adequate antenna here, I decided not to bother. Not being able to do IQ recordings here is the thing I miss the most. Nevertheless, I had some interesting catches including the two Winnipeg stations, CBW 990 and CJOB 680 around the same time on 11/03 and the KJJR test on 11/5 despite being so close to KRVN. I had logged that one from my NY QTH during the CPC test last January, which I considered quite a feat since WCBS dominates there. I set the Crane to USB and used the tightest filter available. I did switch to AM and a slightly wider filter during the verbal ID to make the female's voice more intelligible. I was also successful with the KSEN 1150 test. Conditions were not good, even KNRV here in Englewood CO was barely audible, and I missed the first 45 minutes because I fell asleep at the switch. Finally around 0113 ELT, I was able to hear a few seconds or two of faint CW and then several minutes of various sweep tones. The ascending ones came through best. The frequency woke up just as the test concluded and KNRV, KSAL could both be heard with KSEN in the background. I applaud the efforts of the CPC in organizing these tests and seeing that QSLs are sent out for correct reports. If you haven't participated in this fun challenge before, try one and you'll be hooked. 73s

Unreported Domestic Stations

Two stations were reported to DDXD for the first time this issue since at least Volume 67 (1999-2000): KEMR-1080 (which moved from 1090 not that long ago, where it was also unreported), and KALM-1290. Another station on our list, WNTT-1250, is now officially defunct, which leaves just 222 stations on our list of active (or at least licensed) full-service U.S. and Canadian stations (100 Watts or more) that have not been reported during this time.

We print the full list occasionally – the last time was in 89-18. If you want an updated list (especially now that it fits on a single page!) just e-mail the publisher at NRCDXNews@gmail.com. Can we knock off one (or more) next issue?

From the Archives

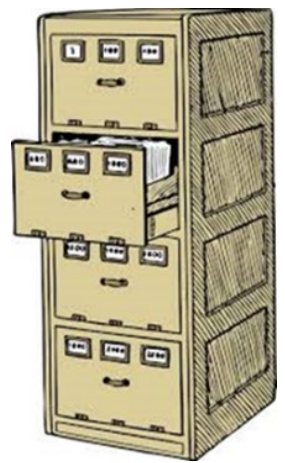

75 Years Ago: From the November 15, 1947 issue of *DX News*: The Art Foerster new log book is now available – a printed log of all stations, four separate issues available for only \$1.00. “This will be a dollar well spent,” opined the *DX News* editors.

50 Years Ago: From November 11, 1972 issue of *DX News*: The FCC relaxed its rules requiring an identification within 2 minutes of the top and bottom of each hour, but should identify at least once an hour at a “natural break” in the program.

25 Years Ago: From the November 17, 1997 issue of *DX News*: John Bowker’s column saluted the career of fabled radio announcer Red Barber.

10 Years Ago: From the November 13, 2012 issue of *DX News*: Jim Renfrew reported his 56th country verified on medium wave, a damaged package received from IRIB Umumiyeh on 936 kHz.

All *DX News* back issues through Volume 87 are available online at <https://nationalradioclub.org/dx-news-archives/>.

Domestic DX Achievements

David Yocis, 9412 Ferry Landing Court, Alexandria VA 22309, NRCDXNews@gmail.com

This includes all updates (I think) received since the last time this column ran. Please include only domestic stations (United States and Canada).

For each category (heard, verified, and taped) we show total stations, states (the "+" refers to the District of Columbia), and provinces. Deceased members are noted with "SK" ("silent key," a ham term we've appropriated).

If you haven't updated your totals in a while – or if you have never contributed – we'd love to include your domestic totals for next time. Even if you have to estimate, whatever you can send is appreciated.

Sorted this time by *total Canadian provinces heard* (total states heard, and then total stations heard, are the tiebreakers).
