Hi Hi...Picture of two guys trying to tell the biggest fish story. Harry Gordon and Jack Gardner telling each other how big the fish that got away were, Jack Gardner won as he had the biggest arm spread, Hi hi,....If you are wondering why Larry Lundberg is such a hit with the femmes, take a look at his latest foto...I wonder how Leo Herz feels after the Giants gave his Cubs a "once over lightly" hi de hi...Is it true that Bob Blanchard has fallen in love???? CHESTER KOMOROWSKI-Norwich Conn. This report which is my first to the NRC
summarizes the past season's DXing over
here in Eastern Connecticut. This year concludes my third year as a DCB
DXer. My log of about 400 heard and 110 verified indicates that I am not
to active in the game. Most of time I have tried to log and verify for-
eign and distant U.S. stations to the west, of which so far I haven't
too many..Considering the small amount of time I spent in this dial
turning hobby the past winter I can boast of several fine catches. This
is the truth though you may not beleive I DXed but one day a week at
an average of two hours every Sunday morning, with the exception of three
occasion's when I got up to log or try to log stations on other days
of the week. I did considerable more time tuning the ether during even-
ing hours. The new foreign stations are:-JKA LR3 LS11 PRG2 PRF3 HJ3CAC
(870) HJ1ABH (1080) HJ1ABN (1190) HJ3CAE (1220) YV5RL (1167) TIPG TIEP
TG1 TGW XEQ XEN XEAC XEB XERB XEL XEDH XEFC CMHW CMKS CLKW CMCP CMHI
CMJW CMKM CMKE CMHM CMC CMBF CMRT CMH ZNS..Those underlined already
have verified, and none of the Colombians did as yet, reply. As for some
of the Cubans I decided I should forget them and their long-awaited
veries..I use an 8 tube Zenith 715 with a V shaped antenna, generally
directional to the South. During January I logged my first and only Eur-
opean, it being Poste Parisien..I noticed the European stations were
mostly received during the week by the reports of fellow members..There
wasn't anyone who reported good trans-Atlantic reception on Sunday morn-
ings..Enough of this lamenting of mine, and in closing I wish every mem-
ber the best of health and plenty of sunshine...(Thanks OM for your re-
port and hope that we will hear a great deal more from you this season
how about it Hi Harry)

JOE BECKER-Hamilton Ohio..No new veries lately and the ole log still
stands at 1218 Verified and 1225 heard, reports
out to CMCH CMKZ TG1 TIXD XEAU XEAI CMHP, and these 7 I have written
down in my little black list book..I have written them 2 or 3 follow up
letters, even sent Cuban cards all filled out ready to sign...(Cont

Cont Joe Beckers Report:-WFMJ not ready to come on the air and WDSM will not be on the air for quite some time....

RANDOLPH HUNT-Leucadia Calif. We noticed on May 28th that XELO shifted back to 670 kcs from 730..XERB is only on the air two hours per day, 5:30-7:30 PM PST. Veries since last report and days out, JOBK2 40 days out, JOMG 52, JOUK 53 and JOPK 61. Fastest time on a verie from Japan was JOBG 35 days, longest time was also from JOBG and was 372 days. Now have 102 JO veries (35 different stations) it took six years, one month and one week to reach the 100 mark. All except four of the reports included the call letters. Only once have I ever heard a JO give call except at sign off. I think that a lot of JO veries held in the U.S. are for reports on the five minutes of news in English from 1:55 to 2:00 AM PST. One lad in California got some JO veries by writing a fancy letter about how he enjoyed the programs etc, and that he heard the station give its call at a certain time, all this DXer did was to use the beat frequency oscillator, in this manner he could tell when the station left the air... Would like to see some of the western members of the NRC get into the next S E Contest.... (Thanks Randolph for your fine report...)

BOB BOTZUM-Reading Penna. WTMC 1500 kc., Ocala Fla heard testing June 22 and 23rd and verified my reception by letter. ETMC will go on regular sked July 1st.. Bert Mead is Chief Eng.... CMHI heard testing on May 18 and 19th on 830 kc., Also W3XDS experimental station heard testing on 950 kc., May 18th.. Recent verie's HJLABN 2CH 2UW 2KO 2WG 4AK 2TM XEDH (sent two)

PAT REILLEY-Jamestown N.Y. Did a little DXing the other day, wrote to KLS and KTMS and Tuesday heard KHBC and got a line off to them. Got veries from 2NR and 4QN today, 2NR was a duplicate but 4QN was a new one for the log. Started out with 996 veries last September and now have 1061 or 65 new ones for the log. That makes 10 TP's for me or 6 new ones this past season..

NICK WOYTAN-Syracuse N.Y. Just dropping a little BCB report Hi. Not much DX here. Heard the excellent program of the WKRC special and sent an hour report. Logged only one new station recently WNBH thru the scramble on 1310. Late veries from WRAL WNEL WAMN WSTP A season report here is 111 new ones this DX season bringing total of active stations to 562 with 2 new countries logged Colombia and France. Also logged my missing states of Del-Mont and Nev to complete them as HAS. Some of the best logged were Rennes-PP-Radio Normandie-HJLABH-HJLABN CBR CHGS XEAC CMGE CMBG CMKL CMCF KQOD KFPY KGB KHJ KIDO.. All verie reports in this season except two-WKRC just out and one other of October with all hopes gone. Some of the veries received were PP-WNEL-CMGE-WILM KGIR-KFDY-WQDM-WJBO etc.. Guess that closes this season till about August will most likely stick to the SW & ham hands a little. (Thanks Nick for you report)

BCB NEWS taken from the "Australian DX Radio Club" New stations under construction or proposed are 2 LT 1080kc., 200 watts, 2AP 970kc., 11w, 3CS 1480 kc., 200w, 4GY 1430 kc., 100w., 4QS 1250 kc., 500w, 6NA 1340 kc., 500w, 6BY 1160 kc., 300w., ..3MA Mildura increased power to 200 watts. 6PM Fremantle increased power to 500 watts. 3AW Melbourne has opened new transmitter, also has 3TR Sale... FLASH "FLASH" BARBADOS CALLING:--

Yes that is what you will probably hear in the near future. The Barbados
Government have taken steps to consider the erection of a Broadcasting
station for local programs and news, as well as rebroadcast news ect,
from England, the USA, Canada and other West Indies stations. The project
will cost \$52,300.00 and the yearly up keep will be about \$11,520.00
This cost includes several hundred one and two tube sets to be sold
to the colored natives at a cost laid down in the Barbados and on a hire
purchase system. The idea is receiving a tremendous amount of opposition
from radio distributors....

This fine bit of information comes from the ace DX-
er of the Barbados Sydney G. Lashley, who also says that ZIZ 6.384kc/s
is on the air daily from 5:15 to 6 P.M. and are anxious for reports,
