DX CALENDAR Continued on Page 2

CFPR-PRINCE RUPERT, B.C. Here is one of our outstanding programs of this or any other season. Hardly any DXer has a verie from this station, and being such a rare catch it should create plenty of interest. The channel should be open all the way, so lets all be on hand for this program from "a way up there" Send your reports to Mr. C H Insulander, Mgr and Eng to whom we say "Thank You" for this opportunity to log his station. Arr. by Bill Stone.

CHLT-SHERBROOKE, QUE This may be our last opportunity to log this station as a 250 watter, for soon they will go to 900 and use 1KW. We want to thank Mr Romeo Paquette, Op in charge, for agreeing to put this show on for all clubs, and this channel will be clear for first 1/2 hr, for at 4:30 WXLQ the AFR station in Bermuda comes on with his 50 watt job. CHLT should have no trouble getting out on this program, so everybody listen in and REPORT. Remember, Canadian postage is 4¢, if you havent stamps, send an American 5¢

KOTA-RAPID CITY, S.D. Many of us hrd this station last month. This time, dedications will be made to those who reported, which of course will add to the interest of our members. Mr Griffiths wants comparative rpts on his signal before 2AM and after 2, the hour before using directional and after 2 non directional. This is a regular monthly program.

CJKL-KIRKLAND LAKE, ONT It has been quite some time since this station has broadcast any DX shows, is their first on 560 kc with 1KW. This channel will be clear for the show, for all nighter WIND is not on MON AMs after 4:05EST. Lets see if we can get some Pacific reports for CJKL—so come on everyone report to Mr Clair Chambers, Mgr. and Thank you. Arr by Bill Stone, CHLT to

CKFI-FORT FRANCES, ONT At last we can stage a DX program on this channel again with the station having a decent chance of being heard. WHAT will be silent and CKFI will play Band Music so you will not confuse their signals with those of WEXL. This is a new station, you know, so dont let them down—they're on the air for reports, and lets see that they get them. This program is for all clubs—let us out do the others—what say? Mr Jack McLaren, Production Mgr is the gentleman who OKed this show—send rpts to him. We thank him and our tireless worker Mr Bill Stone who arranged this one too.

1240 WSBC	Chicago 12, Ill. Verie rec for 10/21 rpt vs Robert O Miller(Pop)
CJEM	Edmondston, N B OK on DX 2:15-3:15 also CKCH veru loud on DX.(Joh At "WMT" KROY hrd over CJEM at times and WINK hrd while both on.

JOE LIPPINCOTT-MOORESTOWN N J Recent verie, KANS on with flood rpts 9/29. Best DX so far, KWRC s/off at 3:45 on 10/9; Hrd KFXM at 2:15 10/19 in spite of KICA at same time and promising souvenir for most distant reporter. Also hrd AM on 19th with R 6-7 sigs were BLA-1 on 658 kc from 1 till near fade-out 1:30 and Limoges on 648 a very little stronger from 1-1:45. WKWF logged with freq measurement and off at 2:01 same day. WPAG logged on 1050 kc at s/off at 6PM. WRUF and KFUD hrd thru WHDH s/off around 6PM or little later. KOAL hrd 10/15 on f/c (old KEUB check time) Have set (GE) lined up completely for the winter and beat oscilator added so hope for better DX now. Using it have hrd TIPG and got fairly strong whistles in AM on 583 & 668 kcs. On PM of 19th till about 6:30 hrd fairley strong sigs on abt. 200 kc, possibly a BBC. (OK Joe and was wondering what had happened to you) Who was the Latin on 910 till 4:30 AM Sunday 10/21, sounded like XEHR but could not be sure. Have a fair report on him. (FCC lists XEAO-Mexicali, with 250 watts power-Ray)

S/SGT AL MALEY-HIGHLAND FALLS N Y Veries yesterday from WMSA-KILO-KOTA and how's that letter head?-WOAI. Still have plenty out. Hrd KTBS s/off at 1AM also hrd KGNC whom I need for a verie, but WROK made good rpt impossible. Just had a visit from Carl Horton and his wife, very fine gentleman as do all DXers seem to be except Cops. By the way you can call me "Long Hair" but I'll bet no body ever called "Pop" that. Heh heh.

SID STEELE-LOUISVILLE KE DXed SAT morning and logged WBAC-WLAY-CKEY and sent reports. Veries in from KOTA-WGAU and ~~XXXX~~ KOTA gives me a start for the contest. (OK Sid and some Canadian Stamps will be on the way very soon)

LEFTY COOPER-BROOKLYN N Y Report to WMAJ. Veries in from KOTA-WBAC-WMSA-WTTM and last but by no means least, WXLQ for my 21st verified country. All letters but WTTM which sends a very fine card. Not too much DX this week only one new one reported being WMAJ, hrd on its initial test Sun 10/21 from 2:27-2:51. He was way off freq, 22 kcs below 1450, which he was announcing and thus in the clear. Good loud sig but tone quality seemed a bit pinched-base notes did not come over. Mrs Bernard Bopp was on the broadcast, is Mr Bopp their ce? (No Lefty, he was consulting ce) 10/21 Bad buzzing, WMAJ only oddity on band. 10/22 Static bad--up for KGIW but no luck--carrier on there spoiled that. English station on 1474 was doing fairly well, still in there at 3:30; Thought I hrd French on 1149, static bad and sig not so loud--might have been Spanish from XEJP. Who was playing band music on 1340 and s/off at 3:05 (That was WRHI Lefty, hrd them thru WEXL-Pop) Surprised to learn Bermuda is in the Pacific, see list of US Forces Stations in Pacific. (OK Lefty I did slip in a couple that were elsewhere-Pop) Dont get what Ralphie means WISE going to M.S. of T. by Xmas? The WFPG show has to be cancelled because of a shortage of help there due to war time conditions and vacations. So "Silver Throat Copper" wont have to go down there that morning. How about full QRA for AFR in New Hebrides? No I havent hrd them, just wishful thinking. Verie total now 1059, 1100 by end of season or bust.

PAT REILLEY-JAMESTOWN N Y Very little DX because of cold. WBAC back signed by R W Roundville the owner. He says he will be glad to verify all reports 10/17 WMSA hrd on test at 3:20 but very noisy. 10/18 WPAX at 3:05; On 1350 hrd a whistle nearly all AM but no voice hrd at all, very noisy and hopped up to the police band and helped Texas police chase escaped convicts from Huntsville; 10/21 radio very weak today, like northern lights bothering--WAOB on 2074c kc a relay of WEAJ testing; WLS and WEAJ tested also. 10/22 Radio weak again, WKWK checked on 1400 at 5:15 and very noisy. According to latest BBC mag "London Calling" they list only 2 standard wave lengths 307 meters (997 kcs) and 267 meters (1122 kcs) for services to Europe in different languages. I have a request to pal in England for Home Service freq, towns and addresses, if possible to get.

Remember your bulletin is weekly so report by Wednesday each week-THANKS.

ELBERT TEWELL-CAREY O Maybe I should tell a little about my DXing during the summer and so far this fall. WPAG hrd and verified, as are WBAC-WKLA-WLIB&KOTA, WPAG are hrd here R-9 all day. Have hrd WJOL s/on but have been unable to copy enough for verie. Hrd WMAJ 10/21 and hrd them mention Pops phone call as well as those of several other of the boys. WLIB verified in just 5 days, so did WKLA who stated that my report was the most complete out of 25 that they had received to date. (Congratulations on what) Have been hearing a lot of stations, but most of them I have already verified. In checking mt heard log I see that I have nearly 600 since I have been DXing. Boy if I only had them all verified. I have entered the BCB Contest again this year and maybe I can give you members a race this year if my new S20R gets here in time. At present I will have to be content with my old stad-by an Aircastle receiver which really pulls them in, altho as yet I have not pulled in Maguires KINY, but hope so soon. (OK Elbert, your 1st class amount is not up to 60¢ and good luck on the contest-Pop)

PHIL NICHOLS-E HARTFORD CONN Thurs eve 10/18 found TIEP coming thru swell on about 825 kcs altho listed at 830 kcs. Gave them over 1/2 hr rpt. Fri AM 10/19 was swell, first reported was Limoges on 648 for half hour 1:15-1:45 then at 4:10 found WMSA on test on 1340 kcs, and ended up with copying a little on WVUR the AFR station in New Hebrides on 1045 kcs, very weak from 4:15-4:45 or so. SAT AM 10/20 was another lucky one for me, found KSRO in the clear on 1350 just before s/off at 1:50AM and have been after that one a long time. They stayed up and copied Canal Zone on 790 kcs at 5:30AM and was surprised at their strong sig. SUN 10/21 found me reporting Sottens, Switzerland from 1:15-1:30 when they faded out completely but got good rpt. From 2-4 I spent the time chasing WMAJ's signal back and forth from 1428 to 1453 back to 1430-1448-1440 and ended at 1443 kcs or so. Enjoyed hearing from Dick-Ray-Ralph and Carl via phone calls. Boy what a BILL WMAJ is going to have. Henry Carney their ce hit 1450 just once as I recall it. Monday morning found another swell morning for TA reception. Limoges was hrd as early as 12:15 and as late as 3:30. All BBC transmitters were on up to 3:30 or later before fading out. Spent ~~my~~ time copying Hilversum on 995 or so. Weak until 1 AM and then they boomed in, ran my meter up to 6, during which time they had some swell music, Gershwin-Victor Herbert etc, copied straight until 2:30 and got odd bits from 2:30-3:30AM. At their peak a little after 1AM they were so loud I tried my little 5 tube Zenith and had them on loud speaker as good as New York in daytime, believe it or not. Writing this at 4AM MON 10/22 and have following out-WKIX-KALL-CBV-Toulouse-WGTC-2PK-WKPA-KIT-KUTA-WKWF-TI4NRH-WLEE-TIEP-Limoges-WMSA-WVUR-KSRO-Canal Zone-Sottens-WMAJ and Hilversum. In spite of Dave Thomas I predict the best TA season for years judging by the rate they are coming thru so early. Have a total of 21 this early in the season. Other stations noted testing this AM 10/22 4th MON were WINK at 2:40 $\frac{1}{2}$ f/c; WRHI at 3:06 test; WEED shortly after on f/c; KNAK testing on 1400 at 3:20; WKEU on 1450 at 3:31 (Yes Phil I hrd em too and nuts to WKEU-GRRRRRRRRRRRR) Am still after KSAI which I havent been able to pull thru yet. At 4AM WGNC on and mentioned Ralph Johanns calling him up last month. FOR LEFTY-WHGB has been s/on 6AM weekdays and at 7 AM SUN, should be easy there. CKLW was silent this AM 10/22 (OK Phil and you really got a few, how about WDAD on test TUES AM; Ha Ha-Pop)

BOB DUGGAN-MACON GA Well its 10/21 and 9PM and am hearing WLAT in Conway S.C. on aprox 1470 kcs instead of 1490. Very bad modulation, barely maddable at times. Sig strength is pretty good; WBIG QRMs. Can hear it on 3 differen sets, so nothing wrong with sets. Have rpt out now. Have my Howard 435-A back from shop and can detect no 685 Cuban Net Xmtr as reported on DX NEWS. Also think the 660 Cuban is CMCL, not CMBC, as CMBC is till on 790. Hrd WLAY 1450 kc in Muscle Shoals and ce anknwledged rpts from Johanns-Lippincott and Johnson among others, still wont verify for me. (OK Bob the FCC lists the Cubans as you have them and date it as Oct 1st 1945-Pop)

BILL STONE-1938 SPARTON-8TUBES 10/21 WNHC testing on 1340 from 2-3; WMAJ on 1st test on 1425-1430 kcs, no phone ~~of~~ I'd have helped Phil out on his calibration, 1428 was what I figured it, sure banged up here, covered WWDC when they did get on 1450 at 3:30 but from 2-3:20 were on freq mentioned. WSFA s/off at 12:30 AM has news for last 10 min-come on SUN AM at 6:30 AM time for you lads who need him to get him. Have wrote CJEM-Airmail to announce CKCH's change at least once every $\frac{1}{2}$ hr, hope all you get it. Thanks to Dick for swell photo and DO tell us when VRTQ is audible. DO. Suggest fellows list their sets after name as above.

DICK COOPER-KITTANNING, PA Latest veries include letters from KOTA-WMSA-KOAL-CKCK-WKLA-WLPM with a card from WGKV. Last 3 are dups. Rpts out to KSAI-WXLQ-KGW-KGB-KALL-WLAT-WMAJ-WDAD-XECD-WGBS-WLEE-WENT and several others for contest. Pleased to have hrd WMAJ's first effort and tnx to Ralph I also hrd WDAD on the first one altho they were very weak in back of WWDC. Both these should be testing again. Cant seem to talk WLAT into answering. KOAL said they have requested 1230 and expect only routine delay. Will arrange for special verie cards after the change is effected. Hope a flock of you NRCers will be on hand for the WISR DX Special on Thanksgiving AM. We are planning on a very super program with plenty of personal dedications etc. Thanks for the many suggestions regarding a log book. I shall soon know whether or not it can be produced.

CARROLL SETH-ERIE, PA After 2 years of living in Erie, it was a surprise to have Hal Wagner looking me up. We went to his place and spent a night DXing by his 23 tube Scott. Hasxsome nice catches and the usual bit of disappointment when what we thought was KFAR give a Chicago address. Wagner is quite the DXer as he sits by his receiver with a pencil in one hand and a bottle of beer in the other. Will try to ring him in on Dick Coopers WISR broadcast Thanksgiving time. Returning home I felt very gloomy thinking about all the good DX which never comes through my old G-E. You see, my intentions are very good but something always gets in the way. I'd love to hit the sack at 7 or 7:30 and get up at 2 but, no soap. Am on the go practically every night in the week. Maybe if I bought a new Hammarlund..... Received a chummy verification from WKLA, very friendly. Just think--only one contest station so far. I stink. Well I'll quit now as am quite close to tears. It's a dark old future ahead for Seth's DXing. I dont know. Was gunning for VRTQ but if that AFRS station is around very long that might give me Bermuda. VRTQ sounds kinda tough to pull in. TO HAL WAGNER..... When full of beer he's apt to hear The grandest kind of catches A brim with ale, hes apt to sail so batten down the hatches.

JOE ENZ-BROOKLYN N Y Veries in from KVAN-WMSA-KOTA. Swell letter from Edgar R Means, KWAN's ce. He is anxious for DX rpts, station uses 500 watts & test 4-4:15 AM EST 3rd MON of every week, also letters from other 2. DX fine MON 10/22; KIT 1280; WDSU not on; FCC tests, WCMI-2:55; WEED-3AM; WKEU-3:30; WGNC-4:25; WFNC-4:30; Two I hrd this AM I'd like to know if any one can help me. At 3:12 AM a station from between 1460-1470 kcs was giving wind velocity Asian, and all countries of Europe, also Iceland and Greenland, the announcer had a British accent, is there a BBC station there??? (Only one listed by FCC Joe is 1465 kc in Antwerp, Belgium, n~~a~~ power listed) Also 4:48 AM hrd a station very weak on 620 kcs playing songs of the sea, identified selections, Blow the man Down and Asleep in the Deep, announced Sea Ditties 5:30 AM but couldnt identify call. (3AR located on 620 kcs with 10 KW) Reports out to KIDO-KIT-WHKK. ZNS s/off at 9 PM EST. Would like to know locations of SW- CHOL-CHTA-CKNC. (All are located at Sackville, N.B.)

RAY (POP) EDGE-BUFFALO N Y Well maybe thought I should let you boys know that I too do some DXing. Reports out to WKVM-WILM-KALL-KOCA-WMAJ hrd on 1st test 10/21 and also on 2nd test 10/24-WSBC-WFNC-WTAX-WDAD on first test 10/23 and very weak under WWDC. Veries in from KFKA-KFXJ-WATN-KGB-WNEL-CJBR-KOTA-WKLA-WXLQ-WSAV-WMBS-KANS. Total now 894. Rptd CJEM-CKCH.

DX CALENDAR Cont

DATE	CALL	LOCATION	KCS	CLUB	TIME	ALL	EST

This program will also be on Jan 22 1946 at same time

Delete WFPG from DX CALENDAR, Can not DX account of man power shortage.

LEN KRUSE-DUBUQUE IA At my first glance of the latest bulletin I was amazed at the length of the DX Calendar--congratulations to the CPC members arranging them. From the fine shows put on to date, it looks like a banner DX season. Past week added 2 new ones, 22 short of 1000. CFJC hrd 10/19 at s/off 3AM behind KALL. KALL on reg sked 2:30-3:05 with good sig. Utah now completed. Past week veries in from KOTA a beauty by Griffiths stating he will dedicate a number of each reporting DXer of 10/6 DX. Letter from WJOL by R W Schmidt, eng dept. Paul Garwood of WKLA says the rpts they are getting from DX are more than repaying their efforts. H W Blymiller-KICA says Music Form The Sunshine State is a weekly affair each SAT AM 1-6AM EST. To date they have heard from nearly every state in the union.

RALPH JOHANNIS-BUFFALO N Y Where excitement and surprises can be had on the Radio(or in ones home but I dont want any more of the latter)Has a nice visit at Pop's with Bob and Ed Spencer until SUN AM. Then Phil calls Pop, Pop calls me and I call Dick and station WMAJ to get on 1450 kc as 1425 kc was too loud of reception(hi) and so Thursday AM Pop calls me and I call WMAJ again to tell them that 1310 kc was too loud also and so they finished off on 1450 kcs after stopping on 1332 kc for a spell(in rain here)-I Love it,(it washes the Kibtzers off) and they s/off on 1450 kc at 3:24AM. Hrd em mention the 2 Coopers-Nichols-Sullivan-Simmonds-McKenna-Horton-Stone-Geary-Botzum-Pop-Tewell and others as having already reported WMAJ. Still working on adjustments and said veries will be delayed a while(Wonder what will happen when WDAD gets on the air also on 1450 kcs as they are only 70 miles apart) Didnt do much DXing this week but did receive some nice veries. Letters from WOW by John J Gillin Jr, Pres; KIT-H B Murphy, ce; J A Murphy is Mgr; KFBK-Leo O Ricketts, Mgr who also sent reg verie card; KWBR-Silvia Chandler, ce also verie card and program for rpt of 250 watt xmtr test on 10/18; KVI-C C Casey, ce; KFI with EKKO Stamp and note in Freq Frol; WLAY by Lynn V McMoran, ce verifying my rpts of 12/17/44 and 2/17; 8/18; 10/15/45 and expecting info on their policy later. Tanks to all for co-operation and dont forget WATN's F/C the 29th with 250 watts. KVOB sent verie card for 12/9/44 rpt and WIBX sked is Week days 6:30-1:06 1/2 SUN 12:05. Also swell letter verie from WSBC saying they will s/on at 7 starting 10/28 so you boys will not hear them so easily. Pop and I hrd em s/on SUN at 6AM.

As mentioned in last weks issue of DX NEWS, here are the members named on your Club Cooperation Committee. Albert Bartholomew, Chairman of the NRC Committee and Ernest R Cooper and Fred Van Voorhees will be the others. Now that the NNRC and NRC have named their Committees how about the VRC & URDXC doing the same, so the entire set up can be worked out. It is hoped that all Committees will be able to get together very soon as we all know that the stations MUST get more reports on their DXes. So good luck and I know that with such members already named, nothing but success will come.

FRED VAN VOORHEES-FLUSHING N Y Still doing enough DXing to keep going with veries in from KOTA swell letter and card from WELI; WALB -Alfred W Pratt; WSLB fair card-Clif Moore; KVOP-Joyce Taylor; WKLA very friendly Paul Garwood; WTMA lousy red stamp on my rpt by Douglas M Bradhan (Ha Ha me too Fred and mine went right into waste basket-Pop) WABY-Deuel Richardson and card from WMBO no sig; Since last rpt 10/8 WABY on f/c 2nd MON 3-3:15; KGBS-WKLA on DX-KEX-WKBW tested at 4-WMBO; 10/9 KELD-WJMC-WPAY-WTMA with carrier test; Had tonsils out on 11th so no DX till 10/16 to clean up Conn if possible. Rpted WNAB-WHTD-WDRG-WELI. All but WHTD ignored my previous rpts. TO KRUSE WAZL in still on. Pottsville gang wants their facilities tho but would put WAZL on 1490 kc; Dick we dont get Cuban news in Flushing either, I had CMCL on 660. Fooy to Maguires WTPA. Tobyhanna Pa-Ha. Congrats to Phil on swell DXing. The TA dope in FREQ FROLICS straight from U S Army navigation manuals and is correct as of 10/1/45. 10/17 WFIL at 2PM; WTNJ at 5PM. In eve ZNS at 7:30 and CMW on top 560 kc all eve, also hrd WTMA at 5:20 and WAGE-WKQO on 620 but not enough for rpt did get TGW after ZNS s/off then caught CFCY s/off at 11/ 10/19 Got WMMN-WBEN shucks, copied WHDH at 5:40 then CMJK at 10 PM; 10/20 WIBA s/off football game at 1:15, ditto WKBN; WKWF on test at 4:40. So rpts now to CFRB-XERB-WHTD-WDRG-WNAB-WFIL-WNHC-WTNJ-ZNS-TGW-CFCY-WHDH-CMJK-WKWF-WBBM-WGTC. What is s/off of WGN & WCFL? When can I get VONF?? Hrd carriers on 10/21 on 630 & 650 kc. Wonder if 4QN-1YA. No sign of WXLQ on 10/21. Total veries now 520.

AL BARTHOLOMEW-CORNING N Y Tried for WENT but not hrd altho others did. On 10/21 caught vWHNC s/on 6:14 till 6:40. 10/22 WKWF hrd 2:30 AM. WLEE at s/on at 5:59 till 6:02. 10/23 caught CHUM testing 3:24-3:31, said on an hour. WKVM testing after 3:30. KFUN testing at 3. TPs breaking thru at 5 with 4QN best sig yet, not bothered by KFI. 10/24 WXLQ verie back a swell personal letter and they want rpts. Other veries from KOTA on DX, letter from WMSA on initial test and intend DX later with live talent. Also KNAK a nice letter. Logged CJEM 2:15-2:40 R-6 also WMAJ test (No all 2nd) CKCH looged on DX for dup rpt 4:30-5. Coasters good after 5. (I cut some A1)

JOE BRAUNER-WILLIAMSVILLE N Y DX good but dont seem to connect on the good stuff being reported. 10/24 WMAJ Q5 R8 on its 2nd test 3:10-3:42 blocking WWDC nicely. CJEM very well hrd, same for CKCH both perfectly clear here. Just a bit of WXLQ behind CKCH. New veries are nice letters from WKVM-WMSA-WJOL. WJOL's verie is for 2 rpts Oct 5th & 11th which according to the schools I went to, outdates Oct 14th slightly. Contrary to rpts WMSA still testing, has been hrd twice here since 11th, both times between 2-3 AM EST.

NEW STATION DATA, and several corrections to last weeks listings, so look.

CJOB	1230 kc	Winnipeg, Manitoba
<u>1</u>	1240 kcs	Meridian, Miss new sta for Birney Imes of WCBI-WELO-WROX.
<u> </u>	1240 kcs	Norwich, Conn granted permit for new station and later rescinded by FCC because several others asked for same facilities. Will be given a hearing later.
<u> </u>	1340 kcs	Oil City, Penn will share with WSAJ.
<u>WMBC</u>	1400 kcs	Macon, Mississippi.
<u> </u>	1450 kcs	Norton, Virginia
<u> </u>	1450 kcs	Portland, Maine a new station for Centennial Brdg Co.
<u> </u>	1450 kcs	Milledgeville, Georgia a new station for Jere N Moore.
<u>CHEF</u>	1450 kcs	Granby, Quebec.
<u>KBNE</u>	1450 kcs	Boulder City, Nevada.

POWER BOOSTS
 WKBH to 5KW KSJB to 5KW
 and KTBC to 1KW N & 5KW D.

HOWARD KEMP-WATERBURY CONN Heard the following on F/C 10/22; WKEU 1450 kc 3:30-3:45; WGNC-1450-4-4:25; WTAX-1240-4:30-4:40; WFNC-1450-4:30-4:49 AM WKWK-1400-5:03-5:30; WHKY-1290-5:5:20; CJCH in clear 6:30-6:50 AM reg sked. New station for Norwich got green lite for building. Maby Danbury on 1490.
