Mon. Mar. 23	W D E L	1150	Wilmington, Delaware	5,000	4:00 - 4:58	N N R C

Important! SEE PAGE 9 FOR ANY LATE TIPS ON SPECIALS AS THIS WAS TYPED ONE DAY BEFORE DEADLINE DATE. ALSO SEE THAT PAGE, AND BELOW, FOR NEWS OF THE UP-COMING SPECIAL TESTS.

K M E D. No word at this time as to whether this program will materialize. Anyway, look for KMED as shown above, and reports go to Mr. Ellis Feinstein, C.E.

W L I L. This station notified us that they have a frequency check at the time shown above, and they would like to receive DX reports on it. Of course, it comes very early in the morning when such 730 kc/s. stations as CKAC, CJNR, XEX, CKDM, CKLG, are still on, but they use cycle tone, so maybe they will reach through to you. It is strictly a frequency check, but it is a comparatively rarely DXed station. Reports to Mr. Dwight Wilkerson, Engineer. JOE FELA

K B R C. This is a station of long-standing friendship with DXers everywhere. Bert McAlister, their Chief Engineer, is a member of the NNRC, and let's show him that NRC is a great outfit. Naturally, this channel is far from clear, but we hope many of you will be able to bring them in. Reports should be addressed to Mr. McAlister at KBRC, Box 240, Mount Vernon, Wash. Look for band music and many IDs, as they test their equipment with this special early morning test period. Thanks, Mr. McAlister!
DON ERICKSON

An article in the N.Y. Times of Wed. 2/5 states that Station WMOZ-950, Mobile, Ala. has had its license revoked due to over-commercialism & alleged forged program logs. FCC claims they had 1,500 commercials in one week. WPFA-790, Pensacola, Fla. also under same ownership, suffers a like fate, says the article, datelined Washington, 2/4.

Ken Murphy - 60 Plymouth Road - Glenbrook, Connecticut

It's been quite some time since I sent in a Musings but a little more time has become available so will drop a few lines on occasion. Veries have been fairly good this year despite a poor start. Recent veries are WHOS-800 KESM-1580 WINU-1510 WFLI-1070 WBRN-1460 CJBC-860 & WSAV-630. Still awaiting Radio Belize & from the DX shows os KNWC & WNOG. The latest loggings for which reports were sent are WJNO-1230 KWCO-1560 VOA-1196 & a number previously heard but never reported to. Also heard but not reported are BBC-1151 & positive ID of HJBI-840 as "Ondas del Caribe". Am trying to decide whether to report the CBC low power stations being heard on 1090, 1400, & other frequencies. There is no way you can be positive you heard a certain station of other low power stations are on the same frequency so you could be sending a false report. The BBC Times gives the low power relays in the various areas & now I have no way of knowing if I am hearing CELK on 1090 or is it CBLC? Then again maybe it is a low power relay I didn't know existed! Station CFSE was not heard on either of its last two Specials. Did anyone hear them? Both CJBC & CFLV returned my Canadian stamps with their veries. No U.S. station has done that for me yet this year. Would like to attend the get-together at John Sampson's but probably won't make this one. Hope everyone finishes up the DX season in great style. 76s.

Mike Bugaj - 197 Boston Road - Middletown, Connecticut - 96457

As a new member to the NRC, I thought that I better plunge right into things. After looking over my first copy of DX NEWS, I can only say that it's tremendous. My RX is a Lafayette HE-30, & so far it's netted me veries from 24 countries, eight provinces & 38 states, so I'm not complaining. Veries in this week from KWKH-1130 KONO-860 Hilversum-1-746, Oldenburg-1586 & YND-675. New stations logged are WDGY-1130 on 1/31 @ 7:05am, CKBS-1240, on 1/29 @ 5:30pm, WSNJ-1240 on 1/30 @ 6:42am, & after months of trying, KQV-1410 on 2/1 @ 1pm. I was very sprurased to get a verie from Radio Moscow-1385 for my 11/24 report, since a week earlier I got a sked from them, but no verie. After that first letdown, that card came as a surprise. Does anybody have a verie from KOB-770p & how many reports do you have to send before they verify? The same question for KPDS-1190. Can anyone help? Did anybody log outlaw WCBR-1620 during the summer of 1961? They operated every Sunday night from 8-11pm, with the location announced as New York City. Programming was old rr records. I'd love to get some info on it. Here's some news. WTIC-1080 will start full time broadcasting as of 2/10, with s/off @ 1am SM to s/on @ 5am SM. There goes another frequency. Now that WBZY-990 is off permanently the channel is clear to WLKW-990, whose strength is a puny S 9x10, & EIBG-990 under. A few months ago I sent a report to Radio Lausanne-764, & later got back a card from the SBC saying that their local BCB outlets don't verify. What gives? References used here are the 1964 World Radio-TV Handbook & the VJ listing, both purchased through Gilfer Associates. Well, that's all for my first report, but I hope to have many more in the future. By the way, greetings to the other high schoolers in the NRC, especially the seniors. I'm prejudiced, because I'm one. 73s. (Welcome to the NRC, Mike, & we too hope for many reports from you. WCBR-1620 was KO-ed by the FCC; was operated by two college students who didn't know they were breaking the law - they said -ERC) AS THEY SAY IN SAN ANTONIO, "KBER." "KEEP BOMBARDING the EDITORS with REPORTS!"

Glen Kippel - 4370 Calle Ricardo - Palm Springs, California - 92262

As I was saying before I was interrupted last time, hope you all are having a wonderful time listening to the DXers' theme song, "Electronique" by the Singing Nun. Not much DX lately, just an FF on 1375 @ 6am, St. Pierre, yes? So will collect some random notes. KRLA: Appeals Court says they lose their license, & have 30 days to leave the air after final ruling; BUT- KRLA appealed to the Supreme Court & they have not indicated whether they will uphold the decision or hear the case. So there is question as to whether there has been a final ruling. Don't count on KRLA to leave the air as they may petition the FCC to remain on until new owners take over, to prevent loss of service. Map Book: Hurry & get your order in for the new printing of the C.I.E. map book, now available from Smith Electronics, Inc., 8200 Snowville Road, Brecksville, Ohio. Price? Just a mere \$100 - with six revisions, \$250. Somehow I don't expect to be crushed by the mob. FCC has made no new Am grants since December, one application in as of 1/31, for Brookneal, Va., 1230 kc/s., 250w. Thanks to Don Erickson for the PAL Log, best of its kind I've seen. Everybody who owns a Hammarlund RX hold up your hand! There - we have just witnessed dramatic proof that Hammarlund owners have cleaner hands, hi. Actually, you will note that more NRCers use Hammarlund than any other make, also there are more HQ-180s in use than any other model. Which demonstrates more of a "herd instinct" than anything else. Let's face it, BCB is so non-critical that beyond a certain point, no RX will show a clear dominance over another, & even an old HQ-129-X (if it's working right) will perform as well as any other RX made. Any RX with an RF stage & a crystal filter or Q-Multiplier can develop adequate selectivity, & once you have enough gain to hear the atmospheric noise level, more gain is not only superfluous, but apt to lead to overloading & images. Once at that point, the only important difference between RXs are ease of operation, calibration accuracy, longevity of service, etc. Think twice before scrapping your old RX - repair is cheaper than replacement, & if once repaired, it's still unsatisfactory, it's worth more as a trade-in anyway. Oh, I dig Hank Wilkinson's certificate idea, even though I'll never qualify. 73.

Rich Heald - 733 Arbor Drive - San Leandro, California - 94577

Hi troops! It's been a while since my last musings, so here's DX for the last three weeks or so. DX for 1/9- KGAL, KOLO. 1/11- WCAU, WCFL. 1/12- KWOW KBGO KVEN KCOY KDON 1/13- KERN KTOE KFH WRR KHIM WRVA KHAI. 1/16- KRLC. 1/17- KLB. 1/18- KUGN. 1/19- KVAN KCLS XETRA KHFH. 1/20- KOHO CBE KXOK KALB KLOU KTEE KHOW. 1/24- KRAF. 1/26- WQXR KEZY KUJ KRDR KCEY. 1/27- KOZE KBRO KBOW KWHK WGY KIKI WTJH WCLS KDWB ' IYZ-800 Rotarua, N.Z. From 1/30 to 2/7- KBAT KCAL KGMI KXLF KGBS. Veries have been pouring in for a change, sometimes I'm getting as many as four in a day. Veries, v/1: KERN KGLM KEED WRR KTOE KHAI KUGN KDAN KSNM WREF KAIM WQXR KHFH KGAL KVIP KTRR KHOS KFIF KBRO KOZE KRDR. v/q from: KWOW WRVA WCFL CBK CHML KLZ CBE CBL ~~KRLC~~ KRLC KXLY KELA WIEW WCLS & WTJH. Also a v/1 from KBAT. After re-counting number of stations logged and crossing out tentatives, my total now stands at 342/210. That's 64% verified. During the past few weeks, that percentage has ranged from the low of 53% to its present high of 64%. I'm hoping to have my average up to 75% by the end of this year. I also have a goal of 300 veries by the end of '64. Thanks to Mort Meehan & Don Erickson for the SCs & thanks for the letters from Ken Butterfield, Dallas John, Bob Pietsch, & Ernie. I'll try to answer them as soon as possible. To Ken B., I have SCs from KLIV WKNR KFXM WJBK WMAY & CKGM. I got my WKNR WMAY & WJBK from Mort meenan who in turn got them from you. Oh, by any chance is Bob Butterfield at KVIP related to you, Ken? I'm trying to arrange a DX TEST at either KEWB or KABL. Also, KERN might be making a test. The DJ at KERN seems interested in DX. He asked me to describe the NRC & tell about the broadcast industry in the bay area. He said he used to use his GE six band RX & make note of the stations he heard, but never knew that there was a club that practices DX as a hobby. So maybe I can get a DJ into the NRC. Hey Ernie, where are most of the NYC XRs? I heard someone say they were mostly in the Jersey fields; is that right? (Yes, ERC) Also, what is a good bet for a N.J., Conn. R.I. or Del. station? About my images. I really did have 54 images at one time but this was caused by something wrong in my RS & nearby XRs had nothing to do with it. I do however, get images all the time from KSFO KFAX ' KKHI & sometimes KDIA, but this accounts for only about four images. I'm just keeping my fingers crossed hoping nothing serious will hit my RX before the DX season is over. 73s.

WE'RE WELL INTO THE SECOND HALF OF THE SO-CALLED DX SEASON. LET'S ALL KEEP SWELLING THE SIZE OF DX NEWS BY SENDING IN THOSE REPORTS. DEADLINE FOR MUSINGS, EVERY TUESDAY.

Randall J. Seaver - 2119 30 Street - San Diego, California - 92104

No 2/1 DX NEWS yet; it's 2/9 now. P.O.'s back to normal, I guess. Some DX: 3/1- KASH-1600 s/off @ 3:07. 2/2- HJED-820 @ 4:25, JOQK-940 faint 5:10-5:20 for first Jap, country #15 heard. Vladivostok-548 faded in as loud as 550 mess. On 560 after 5 s/off of KSFO there were three stations, one was WQAM, a second had a phone-in program, from 5:40 to 6, anybody know who? 2/3- XERPM-660 for first 660 here @ 2:48, unk SSB-1010 @ 2:59, KCMJ? Station seemed to be on 1570 as XEDM was uninhibited, I thought KDAY off frequency, but maybe KRSA? KXKL-1450 r/c from 3:30-3:45, CMCI-1260 "Minuteman" loud at times, JOBB-830 @ 4:35 briefly with a slow talker. Could find no 5am s/ons so went to bed. 2/5- TGUX-1020 fade-in briefly in EE through KDKA @ 9:45pm PST, much wanted, country #16. 2/8- KYVA-1230 s/rprise @ 6:52, mixing Mavajo & EE, 7am s/ons: Unk 1360, KSRV-1380 KVON-1440, went into SS, KGHF-1350, all unkn. KTOK-1000 @ 7:15, TGJ-880 7:21, WCBS-880 breaking through w/NX @ 7:30; first two 880 stations heard. KDEO was off for the first non-MM in history, I think. SS-1320 @ 7:40, KBLU? SS 1460, got ID as XEEX 50, KRSA-1570 testing w/c/w mx, ID @ 7:53, KVRD-1240 s/on @ 7:58, unkn XEEQ-1240 ID 58, not Don E. KHIL-1250 beat KVFL @ 7:58. A request to make: One of my other hobbies has been map collecting. Could SOME (please not all 300-plus!) of you, preferably one from each large city send any gas station street map of your city? I'll be glad to reimburse the postage costs. School starts this MM, but no 8 o'clock classes this semester so I might DX. I have 17 units next semester, 14 upper division DX & the other three engineering. Wishful thinking, perhaps. Anybody besides Paul Bartoz got a Beatle wig yet? Totals, 511 heard, 602 SCs. 73s.

George Junak - 1606 North Altadena Drive - Pasadena, California - 91107

Here's my good old Musing for you! Hello everyone - I'm back again. Greetings from the NRC's youngest DXer, me! What always happens to my bulletin? It's already Thursday & I haven't got it yet. Now a tiny bit of new DX. 1/26- KMJ-580 11:02pm. 2/3- KRIZ-1230 5:44am. KMAK-1340 6:13am. KTIP-1450 6:23am. XERF-1570 6:29. KOWL-1490 came in pretty good on my Sony eight transistor, 6:30am. KRUX-1360 3:30am. WWL-370 7am. All of the times above, EST. I'm always going to use EST. 2/6- KHOS-940 6:19am EST. That is all my DX. The mailman hasn't been good to me. I haven't got a verie since about 1/15. That's about all for this Musing. 73s & best DX to all. Oh yes - reports still out since the beginning of the new year: KRUX KSFO KMAK KMJ KRIZ KHOS.

Henry J. Wilkinson Jr. - 6620 Beeman Avenue - North Hollywood, California

Between Jury Duty in Los Angeles & work I haven't had much time for DXing this week. Last week the signals to the E were strong but those to the S & W were either weak or none at all. The mailman stopped several times, leaving veries from YVLL-670, "Radio Notte", Liberia, Costa Rica-1505 (in EE) & YVQB-1020 in EE. The Foreign DX Contest is going "great guns" due to the efforts of Dave Pope, Ben Dangerfield, Ron Schiller, Dave Gleason, Ed Krejny, Roy Millar & Clarence Freeman. The success of this year's contest is due to the great percentage of veries from LA stations. This has always been a "sore spot" with most DXers. Always support the real workers of the NRC - Ray Edge, Ernie Cooper, Pete Taylor, Ev Johnson, etc.

George Greene - 1527 Sunset Avenue - Akron, Ohio - 44319

Hi all! No new stations or reports sent this time. Only verie is from WTIK-690. Have many f/ups to be sending out. CX seem to be pretty poorly. E/W stations are about all I've been getting lately, with no new ones. Sent for WJ Log last week & hope to get it soon. The WX here since 1/19 has been almost perfect, with few exceptions. There has been no snow at all on the ground since then, except for a two-day-long trace last week. This is probably the cause of the bad CX. I have two questions: Could anyone tell me how to make something to reject fluorescent light interference on the RX end? Also, if any SCers have SCs from June, July or August 1959, I will be glad to trade them something valuable (a valuable SC, that is) for it. This is the only gap in my collection of dates. Also I have lots of WAKR WHLO WLEE KNAK WOKEY WAMS KRVN SCs, plus many more, so write for some. 73.

Don Eggert - 1925 East Bowman - South Bend, Indiana - 46613

Not much to report this time (as usual), hi! DX dropped off the last couple of weeks. 1/16- 5:36am, WATO. 5:37, WSAL. 1/23, 1:46am, WKDA. 1:55, KRGI, f/c. 9pm, WGST. 1/24- WFIW 1:30am. WABD 1:55, f/c. 1/28- 8:42pm, WHEF. CBF, 9:35. Verified are KFAB WBT WTIK WNEW WFBR (three months) WCTT WERD WGCH WKAM. (WKAM is going unlimited soon). Also WVOK WCCO WRVA. Why does everybody get Barbados except me? Till next time, 73, and good DX.

Wayne Plunkett - 124 John Street - Weston, Ontario

Many thanks to all you NKGers who have replied to some of my many questions of the past few months. Veries that have been received in '64 include v/c from CKDM-730 CJGX-940 WIS-560 WXKW-1600 KMON-560 CKRC-530 KSL-1160 CKCW-1220 CFNB-550 KGO-810 WPOP-1410 WHB-710 WQAM-560 WEBC-560 CKOY-1310 KIMN-950 CJOC-1220 WFEA-1370 & CFAC-960. V/1 have come in from WFRM-600 Barbados-795 WPPA-1360 (extremely friendly & meaningful) WHOF-1060 CKVM-710 WESY-1580 WFTC-960 WCMC-1230 WFRB-560 (heard on RS) WDEL-1150 KWIZ-1480 (first report from Great Lakes area this year) WEDO-810 WITZ-990 WKRG-710 CKGB-680 WGAN-560 WPDx-750 WKBE-800 KVSA-1220 (a goodie for RS) CKX-1150 CFLV-1370 (mentions weekly test MM but I've only heard it once) KREI-800 (one of my best yet - farthese they've ever been reported on RS) WNAD-640 WSIG-790 WQTE-560 KELO-1320 (mentions gain obtained from antenna system gives them an ERP of 13,600w. from a 5,000w. XR as stated in SRDS book) WSAO-1550 WHNC-890 WJUN-1220 (another real nice one) WHAG-1410 (very informative) WPLO-590 KRSI-950 CHUE-1570 (only B.C. #2) WHOM-1480 WNPV-1440 (having very good luck with Pa. as almost every verie a dandy) & WRIC-540. Latest DX is mainly MM: 1/18- KADL-1270 s/off 6:15 in the clear. 1/19- Added first new catch on 1240 in ages when WJEJ was briefly heard around 4:55pm; WFAX-1220 o/WGAR at times 5pm; log on WPME-1540 from 5:16-5:28 s/off. 1/20- Didn't make it up until 3am at which time I heard a "Missin' Radio" atop 1340 with Action Central NX & sports, I believe maybe just WKGN but wondering if it could have been KYCN as per Bernie Duffy's musing. First new Ohio catch since Oct. was WHOK-1320 with ID on ET @ 3:06; no WANS-1280 DX as strictly CHIQ with WTCN strong second; KNWC-1270 made it quite nicely after 3:40 when unID TT went off - nice program; f/up to KRSI-950 on their DX which made it with little trouble. 1/21- ID from WISE-1480 @ 12:26 on r/c. 1/22- WDEH-800 even with CKLW at 5:58. 1/23- ID from WNPV-1440 on their r/c @ 12:34; SS u/WAKR-1590 @ 12:40 - unusual; WBCH-1220 overcame WGAR for log 8:28-8:32am; CJKL-560 with best signal ever at SSS; FF-900 prominent u/CHML again - still having trouble with ID. 1/24- CKEY-590 off RS with just OC after lam so CKY-580 making it easily; CJGX-940 u/CBM again but log would be difficult; KUTT-1560 f/c overpowering CBE 1:20; second new catch on 1220 in successive AMs WGNT-1220 but only one ID * 7:43. 1/25- TT-1390 s/off 1:35 undoubtedly needed KCLN but no ID; WJCO-1510 s/on 8:01. 1/26- #AVL-910 s/on 7:01, WTTN-1580 s/off 5:43. KRCCB-1560 6:13-6:17 rough u/WQXR. 73.

Roger Winsor - 3306 South Clinton - Berwyn, Illinois - 60403

This den has been quieter lately than the last couple of weeks but at least veries are coming in a bit better. Received this week are WCCF WGSB KGPC WKKD & WIZZ. One week no veries from Illinois; the next there are three. Veries off to WXKW WKPR WDGY WCMY. WDGY has been coming in like a great big bomb the last few nights. My expensive curiosity finally got the best of me. Yeah, I called them up. I spoke to a DJ while he was doing his show & he mentioned they have received other calls & many letters from the Chicago area lately. The reason for their strange power at night is that they had a hard freeze & then a strong thaw & it completely goofed up their nine-tower directional array & they're protecting the N now - nobody up there on 1130 though. I pick them up easily on my small transistor. Lots of TT, no IDs lately. New stations are WKPR finally, & WXKW. Did anybody get an ID out of that 1260 station TTing almost all MM 2/3? Others include 1340 TT s/on 1:05 mentioning 1340 kc/s. & 1,000/250, then TT for ten minutes. KBTA TT per f/c list. Oh yes, WMIC & WNOC heard for new ones s/on MM too. KWCB finally IDed after testing for three hours @ 4am. KGGM-610 heard & also ID heard, but so faintly I could only hear KGGM & N.M. said. Too much WIP/WSGN mush in background. So far I've sent out 82 veries, received 48, so as long as I keep up I'll be happy. 2/6- 1570 testing with mx, no ID. WLAV also heard. Who s/on 7:30 on 1530 with Lord's Prayer? I know WTHM has SSB, so it's not they. Also another 1530 at the same time, but too much WCKY for either ID. WJUD s/on 1580 7:30 too. KOLM finally heard so I can get a letter off to them for another Minn. verie. Just a mention, 2/4 AM 7-9 EST brought 17 TV stations from five states with Toledo best of all. It was very foggy & damp. I'd like to correspond with anyone about this summer's TV action. Letters from Ernie Wesolowski with info as to new KNBE Lincoln. Also a million CMEs from Ev. Today, 2/6, a piece from Wayne Plunkett, asking if CKEY gets out on new frequency. Answer is, WOW really blasts them, but they have been heard, but not anywhere as often as when on 580. Now CKY & WELQ fight it out. Guess I've taken up about enough space, so 73s.

WE'D LIKE TO REMIND YOU TO SEND IN YOUR LATEST V/S WHEN MUSING, BUT PLEASE MAKE SURE OF THE SPELLING OF THE NAMES. ALSO, PLEASE USE A SEPARATE SHEET OF PAPER. THANK YOU.

Roy H. Millar - Box 91 - Marysville, Washington - 98270

Any of you wonder just what my "YTO" verie in Foreign Contest Standings, DX NEWS of 2/1 was? Should have read "4TO"; have yet to ever hear "YTO!" Also in the same issue, remarks after 1460-3YW in IDXD should have read "Most distant 2kw N.Z. & best"; all the 4s of course being more distant. No criticism, Pete - you are doing a grand job with what seems to me to be a new high in volume of loggings reported week in & week out in IDXD. Note on front page of same issue of DX NEWS prompts me to speak out - I trust that no member of the NRC is in any way responsible for reporting standards indicated in WLOB item. As for myself, & I know many others, it is physically impossible to get reports postmarked as promptly as midnight on day station is heard. If any member attempts to encourage a station to set such requirements, he is doing a dis-service to our hobby, & should be told. Please lads - don't forget that this is a HOBBY; there are other things in life that must be given their rightful place. If there are cheaters in our midst, & I don't believe there are, I personally feel they will not find their interest long-lasting, for the simple reason that there surely is very little pleasure in reminiscing over veries obtained in a fraudulent manner. I trust this thought will be taken in the spirit it is given - a spirit of constructive criticism, if criticism at all. I've thoroughly enjoyed this HOBBY for upwards of a quarter century & find even now that I am faced with one of my biggest battles of "DX Survival". If I don't lick my "buzz" problem that has recently reared its ugly head, I might as well hang up the phones! OK, off the "soap-box" & down to domestic DX since last report. Hmm - not a cotton-picking thing! No foreign either, although I do keep getting traces of Russian on 656 kc/s. around 9:30-10am. Veries: KRCE-1560 CBUB-900 & CJJC-850. To Johnny Oldfield - I am happy to be amongst these "quaint f@@" who have some of the lower-ower relays verified, such as above-noted CBUB. Your term "Relay Jungle" is highly accurate; 860 kc/s. is by far the worst offender here, as there appears to be quite a variation of frequency among these stations. Likewise 730 & 900 a problem at times. On any frequencies where I have two such stations verified, this is due to fact that a newer & closer relay has come on the air subsequent to verifying what at the time of logging was closest station on that channel. CBC Vancouver has gone along on this theory of verifying closest of relays on a given channel. 73.

Ben Dangerfield III - 202 Governors' Drive - Sproul Estates - Chester, Penna.-19013

I just noted Ernie's comment in 2/1 Musings re an FF station on 1304 kc/s. on 1/27 from 6:15-7pm. This should be Senegal, which uses FF & is on at that time. However, you thought it might be Oran, & I did notice Oran on 1304 that evening at 7:50, but very definitely ~~not~~ Arabic. So take another look, if possible. DX here was above average on 1/27. On MM, many fine TAs, including EAJ8-1025, San Sebastian, Spain from 2-3am. No DX here from CB114; CBI was atop 1140 & CKXL clearly in the background. I did have CB114 in the clear several months ago. On the evening of 1/27, my catch of the week, Radio Kishinev-998, Moldavian S.S.R. at 9:55pm s/on, & several minutes thereafter. I then tuned to 935 kc/s. where Agadir, Morocco was holding forth, & noted a station behind it, which covered Agadir momentarily at 10:22, speaking Russian, so was probably Lvov, Ukrainian S.S.R. but I didn't have anything reportable. Vilnius-1106 was heard briefly at 10:40pm. On 1/28 there were many TAs coming in between 11-12pm, some very clearly, but none that were new. 2/1, likewise, was a good TA night. MM 2/3 was omnidirectional, with KORL-650 strong 2-2:30; CKLG-730 good 2:30-3; & ZYH26-1410, Fortaleza Brazil, IDing as Radio Verdes Mares, very clear from 3 to nearly 4am. I worked one over this evening, 2/8, on 865 kc/s. but it turned out to be Lisbon on late to 10pm. They usually s/off at 8:00 Saturday & 7:00 other days. My most recent veries are from Marseille-674 (letter & picture of XR); Radio Eireann, Athlone-566 (letter, station info & detailed log for 12/23); Radio Norte-1505, Liberia, Costa Rica, (letter & postcard). Ireland, by the way, was a real toughie to get, & is verified country #78.

Russell J. Edmunds - 24 Rosslyn Court - Little Silver, New Jersey - 07739

No DX due to the fact that my lead-in & antenna are separated. Veries in: CFLV WADS WNJH. Anybody want two 1958 RCA 1-xtal CB rigs, measure 8x6x5" probably one watt; squelch, 48" ante comb. spkr/mic; 12 or 110V.-??? \$30 per each, two for \$55 - list price \$40- plus each. SCers, any extras of anybody would be appreciated here. (K. Butterfield, where are those I asked about?) Hey Ernie, where's my 2/1 copy of DX NEWS? Congrats on the last page of it which I read out of RBS' copy! 73s.

Roy Barstow - 16 Harding Road - Walpole, Massachusetts - 02081

Good news here in the form of a v/1 from EAJ41-1295 Radio Coruna, Spain. They said my report was exact & thanked me for it. They enclosed a beautiful gold & silver (P. 8)

February 15, 1964

D X N E W S

8

(Roy Barstow) permant & also returned my IRC. Only 2kw. & best from Spain. Oh & by the way, the only verie from Spain, which makes my 25th country. Not too much DXing of late, mostly on weekends & some SSS. 1/27- Warsaw-1502 with excellant signals 1:10am. Who was the SS on 1140 at 4am & later? Heard with varied songs & wonder if CB114 on late for DX. (WITA s/on 3:55, I believe, Roy -ERC) 2/2- KCII-1380 making it in with their r/c-TT @ 1:12am. Lots heard here with WBNX on & they are not veried yet. CKOC-1150 in good @ 3am along with local WCOP. 2/3- Stations from the W in good this MM. WINU-1510 with tests, 2:18am. KGA & KCTX heard too but not needed. CKLV-1370 testing 3:37am. CKSA-1150 on RS 3:50am with the Mexican off, I guess. They had c/w mx & a good catch with WCOP off. KORL-650 making it in @ 4:30am for the first time this season. Also EE on 760 @ 4:25 & suspect KGU. Also had some foreign language too. Does KGU use foreign language in their programs? WLEO-1170 heard around 4:15am, but unn. 2/8- Some TAs early evening. One on 723 with chanting-type mx; I wonder if Jeddah? But they shduld be off at 5:45pm. Cairo-818 in good at 5:30pm. Veries in are CBH v/c WEED KCCL WTRN CKGB KRSI WJOT WJNH WDAK EAJ41 & KCII. All but the first are v/1. The 2/1 DX NEWS not here yet. I don't mind it being late a few days, but I sure hope I don't miss any good DX shows. Hope everyone is getting some worthwhile DX. 73.

Don Erickson - 24360 Myers Street - Sunnymead, California - 92388

Hi everyone! DXing has been scarce due to illness but hope to get going again soon. I am finally getting my catches up to date in Musings. Gere are those wince the first of the year: 1/1- KOOK-970 RS 4:07am; XEFX-630 RS 4:25; WHBC-1480 s/on SSB 5:30; WCOG-1320 s/on 5:53; WCPC-1320 RS 5:58; WHIE-1320 RS 6:18; KMUL-1380 RS 6:58; KVGB-1590 s/on 7:30; WPCO-1590 RS 7:30. 1/2- KDHN-1470, Dimmitt, Texas 500w.D testing new station 2:10 with IDs quite often; KYND-1580 ET 50kw. non-directional 2:15; KPOJ-1330 RS 4:05. 1/6- KLYQ-980 r/c 3:38am; WNOG-1270 DX 3:48 mentioned gold courses; Radio Barbados-795 s/on 4:58. 1/12- WOOF-560 s/on 6:05. 1/13- KFBB-1310 r/c 2:10; KRAI-550 r/c 2:30; KWSL-1340 r/c 2:39; XEAO-910 2:59; KELY-1230 3:13; WNAD-940 PoP 3:32, KTOE-1420 RS AN 3:58; KCEC-1390 RS AN 4:02; KLBK-1340 r/c 4:04; KSJB-600 RS AN 4:42. 1/15- XEUV-940 RS 4:30 pm. 1/18- CFAC-960 RS AN 3:51am (with KABL off); WJAZ-960 s/on SSB 5:03; KWYK-960 s/on 6:12; KPAC-1250 RS 6:38; XEJ-970 RS 7:16; KSTA-1000 RS 7:54; KAPR-930 s/on 8am. 1/19- KSMA-1240 s/off SSB 3:15; CHQM-1320 RS 5:27; KMON-560 RS 6:45. 1/20- KTSM-1380 s/off 2am; KWYO-1410 r/c 2:03; KIMX-1450 r/c 2:37; KCJH-1280 r/c 4:01; KNOT-1450 r/c 4:18; WIRC-630 s/on 4:59; WHIO-1290 s/on (through KMEN OC) 5:00; WTJH-1260 s/on SSB 5:01; WRSA-1470 s/on 5:27; WISK-1390 s/on 5:31; WSIZ-1380 s/on 5:32; WNPT-1280 s/on 5:59. 1/26- KOLD-1450 RS with special CBS program 4am. 1/27- KPAL-1450 RS 3:02; CKXL-1140 RS 3:20; KWHK-1260 DX 3:38; KHAI-1090 RS 5:00; WFDR-1370 s/on 5:08; WFCC-1410 s/on 5:15; KXOK-630 RS 6:07; WSAV-630 RS 6:08; KGNO-1370 s/on 6:30. 1/30- KIBE-1220 s/off 8:15pm; XEDX-1010 RS 9pm. 1/31- KEYY-1450 (noted AN several times lately) RS 5:28; KJLT-970 RS 7:30; KYON-1440 RS 7:52; KYUM-560 RS 8:25am; KSKY-660 RS 8:30. 2/2- CJGX-940 (w9th KHOSoff!) RS 5:19; unID SS on 720 from 6:20-6:30. Have tape. Help, someone! KVAN-1480 s/on 7:02; XEII-1420 RS 7:10; CJNB-1050 (frequency change from 1460) s/on 8:30 really booming in; KPPC-1240 100w. through KRNO seven miles away with 250w. RS 1:30pm. 2/3- KXXL-1450 r/c 3:35; KYSS-910 r/c ID in CW 4:23; WIRE-1430 RS 5:05; WGH-1310 RS 5:59; KUBO-1310 s/on 6am with SS, no EE; KARA-1310 s/on 6:00; KTEE-1260 s/on 6:02; KIUN-1400 r/c 6:21; KMAC-630 s/on 7:05. 2/4- WGET-1320 s/on 6am. Just barely room for all catches. WCPC still on 1320. Will change to 940 about 2/15. XEFX is still on 630. Don't know when it will go to 710. Thanks everybody for the letters. 73.

Ralph M. Johanns - 21 East Chippewa Street - Buffalo, New York - 14203

To RBS in N.J., I don't go for your way of mailing without proper address. As to Broadcasting Yearbook, cost \$5, 75% of members have not got this, nor do over 20% have a split frequency RX. On 1/20, WWSF/WFRB Specials heard. On 1140 only CKXL AN showed here. Received KRSI-Special, the mimeo fill-in v/1. A printed/dated (no signer) WELI-960 5kw. v/q from New Haven, Conn. Mimeo v/1, WTRN-1340-DX said D.E.Pope, Crescent Beach, S.C. got prize. V/1, 6M, SC by KEYS-1440-DX Corpus Christi, Tex., mentions on test was with 1kw. non-directional (same as days) but is 500w. N & directional then. V/1 by WHEP-1250 Milwaukee Broadcasting Co., 1701 W. Wisconsin Ave., Milwaukee 3, Wis. CE says 24 hours, NSP; their v/1 has, "In St. Louis, it's KWK, 5kw. on 1380 kc/s., printed on the bottom. '64 Yearbook came 2/1 & is tops. Seventy-tree'tses.

NOT TOO MANY OF YOU IN THIS WEEK'S ISSUE - LET'S KEEP SENDING IN YOUR MUSINGS, ALL OF WHICH ARE WELCOME, NOT JUST BY YOUR EDITOR, BUT BY YOUR FELLOW MEMBERS WHO WANT ALL THE DX INFO THEY CAN GET. REMEMBER, TUESDAYS ARE THE DEADLINE DATES HERE IN BROOKLYN.

W A R O. Chief Engineer John L. Barton writes to tell us he is fixing to do some transmitter and antenna tests on the morning of Monday, Feb. 24th. WARO will run a half-hour test starting at one minute after midnight, and will then be conducting on/off-type testing until 3:00 a.m., when they will come back on the air. They will play band music selections frequently, and also make some IDs in Morse Code to help you ID their test signal. CBK is believed silent on Monday mornings, & we think that certainly by 4 a.m. there will be no one on 540 to interfere except WDAK. Address is WARO Radio, 129 Marion Drive, Canonsburg, Pennsylvania, and our thanks to Mr. Barton, who has had some fine new QSL (verification) cards printed up for the DX fans. E. COOPER

W F A W. On the same morning, Mr. James H. Perry, Chief Engineer of WFAW-940 is also planning some extensive equipment checks, and his station will begin at one minute after midnight (C.S.T.) and be on until 12:30 (1:30 E.S.T.) and then after making many adjustments and short test runs, will come back to test the "finished product" for a half hour from 3:00 to 3:30 E.S.T. This station is seldom DXed, as they have no early-morning frequency check sked, and this will be a great chance to hear them. CEM & possibly CJGX & WINZ may be on too - we're not sure of the latter two. Our thanks for this info, Mr. Perry!
J. FELA

W B N B. We have no further info on this one set for Wednesday 2/26. Their Chief Engineer, KV4BO, will be looking for reports, but he said "in the absence of QRM." WCFL's 50kw. however, should be enough QRM for anybody. We are hoping this date may be changed to a Monday when WCFL is off. Maybe later info in next week's DX NEWS. But, give 'em a try on 2/26 anyway! LARRY VOGT.

W C S S. This program was broadcast on Monday 2/17, and info was in last week's issue on the DX Down the Dial page. They are hoping for many reports on this DX show, as normally they are off the air from 11 p.m. to 6 a.m. A pretty rough channel, but we hope many heard this program and sent their reports to Dr. Ken Moffitt, Chief Engineer, whom we thank for this special DX. S. KRIEGER

ADDITIONAL DX-TESTS FOLLOW:

Mon. Feb. 24	C F L V	1370	Valleyfield, Quebec	1,000	3:30 - 4:00	(weekly)
Mon. Mar. 2	W A R D	1490	Johnstown, Pennsylvania	250	3:30 - 4:00	M N R C
Sun. Mar. 8	C F S E	1425	Senneterre, Quebec	50	1:00 - 3:00	(all DXers)

"AN" SITUATION

ON - 1450 K E Y Y SPU OFF - 1410 W P O P
Correction: WTIC-1080 started their AN snow MM 2/10 & will be silent Sunday mornings and not Mondays as we listed last week. Silent SMS, 1-5am.

HEARD SINCE LAST ISSUE - 1470 K D H N Dimmitt, Texas (NRC)

Dave Oved - 560 Grover Cleveland Highway - Buffalo, New York - 14226

DX very limited. MM-CFLV s/off 4:03 asking for reports. 580 DX since CKEY vacated to 590 - WCHS, WIEW. Veries: v/1- WRTA-1240 WKID-1580 WTRN-1340-DX, KIUP-930 WWT-620 DX, WAAB-1440. The lone v/c, WYDE-850. DX totals: 400/290. What I need is a really good MM of DX! Until then, 73 & BUFFALO '64" from Convention City!

Charles Reh - 34 Garrison Avenue - Leamington, Ontario

Very little DX since last week with only ten new loggings. Here they are: 2/2- WZYX-1440 6:30pm s/off; KVGB-1590 7:15 when they changed pattern; KLOE-730 7:28 using MST. This is my first MST daytimer at SSS. 2/3- CBX-1010 2:01am with AN slop u.CFRB; KETA-1340 2:38 r/c; CFLV-1370 ET 2:49; KEX-1190 3:03; KLAQ-1600 u/WKWF & jammer @ 3:46; KHOS-940 u/CEM. 2/5- WKOA-1480 6:25pm. That does it for now, 73s & bes: DX to all.

Ernest R. Cooper - 438 East 21 Street - Brooklyn, New York - 11223

HQ-180 back & feeling fine, & me too. Veries, v/1s from WINU-1510 & BHBS-834 for, of course, a new country. Not much DX. 2/9, unnn KWC0-1560 ET/M @ 2:48. 2/9- SS s/off 1180 @ 2:02 with a National Anthem, either Colombia's or Venezuela's, leaving a weak Mexican, XERR, I think. No report possible. TTer on 1560 IDed @ 2:39, too weak to know who. Portugal-1594 (CSB4)Ø in 2:42. 2/10- CSB4-1594 s/Øn 1:58am, much rr. To me Portuguese sounds like SS with a Russian accent, hi, and no offense meant - it just sounds that way to me. Mystery ET/M on 1600 much of AM, no IDs. Brazilian, unID, on 1410 @ 2:56 with either another one or an SS underneath. HJBI-840 seemed to be AN, maybe for pre-Lenten fiesta. PRE0-640 (unn) @ 3:17. ET/M 950 3:22, no IDs 1510 ET with mostly beautiful hymns, no IDs, 3:34-3:59. Anybody ID this one, I hope? 73.

Send all "TIPS" TO Ev. Johnson-504-16th St. Mendota, Ill 61342 (E.STT.)

FREQ	CALL	REMARKS

1600	WHRY	Elizabethtown, Penn is the one you heard on 2/1/2 a Call Change (Brauner)

A SUGGESTION

How about sending in all the definite known F/Cs known along with all F/Cs you hear that are listed in our 1964 F/C list. This way each member can keep an up to date F/C list and by checking this column it would be a world of information when the next F/C list is prepared. We have found in the past that stations do change their test times, not all of them but some and by a constant check by all active members the 1964 F/C list can be kept pretty well up to date at all times. However we do ask that you be sure as to time and date of all F/Cs you submit. Also any data on hearing a new station come on the air will also be appreciated and will help others hear them while they might still be on their equipment test period. Thanks and good DX. Ev Johnson.

The Feb 1st DX NEWS

From cards received by Pop it looks as if some of the DX News for Feb 1 1964 got delayed some where along the line. Lets be thankful this does not happen very often. I am very sorry to say that I am unable to send another copy to those who have written in. The reason for this is that the obtaining of 12 NEW MEMBERS at that time took every extra issue that was on hand. However from past experiences it has been noted that a missing issue will eventually turn up, so lets hope the same thing happens this time. As to running off a lot of extra copies each issue would only tend to increase the yearly costs of mimeo paper and also it has been found that it is rare that they are used up, thus the waste paper pile becomes very high in a short time. Just in case any one fails to receive that Feb 1st issue the only thing I can offer is that their membership will be extended 1/2 month. So if you happen to be one of those, drop me a card at the end of this month. Ray.

For the benefit of our newer members I would like to say that DX-NEWS is mailed every Saturday morning, on date of issue. It is delivered to the Kensington P.O. no later than 8:10 AM and after that it is out of my hands. The only times this is changed is when a Postal Holiday falls on a Saturday, then your DX News is mailed the day before, Friday. The only other Saturday that was missed was when one of our Editors stencils got held up in the P.O. and did not arrive until Saturday AM. However that issue was mailed early Sunday morning at our main P.O. and it got going and all turned out O.K.

Thanks to all you members who have faithfully sent in that .15¢ when you have a change of address. This saves the club the cost of the new plate and yet it only effects those who have an address change.

So goodDX to all and best wishes and good health, and support your Editors as they can only get to all members what they receive from the active DXers.

FLASH; THE NRCI IS IN NO WAY CONNECTED WITH THE N.R.C. IN BUFFALO N.Y.

INTERNATIONAL DX DIGEST

Edited by Peter V. Taylor, c/o KFOG, 420 Taylor, San Francisco, California 94102
Looks like conditions have changed a bit, according to the number of reports in this week. Hope next week is more fruitful. Meanwhile:

NOTE (A) The above listings are from your up-to-date record cards. If any of you detect any errors, please contact me and advise with full explanation. (B) Would like to include some of you "old-timers" if you would bring your records up to date. YOU KNOW WHO YOU ARE. Just write and advise latest info. (C) This listing is a record of your accomplishments on ECB DX over the years. I like the job so let's keep it fertile and keep it GROWING each season. (D) Some of you are counting veries in your totals where you have DXed on both Coasts. Please give this some thought and advise me of your comments on the subject -- HANK WILKINSON.

- 548 Vladivostok, USSR nice 50 mv sig 2/3 0511-0603, Oriental, some Russian (GK)
- 570 HJND Bogota, COLOMBIA "R.Nacional Colombia" atop most of eve 2/4, fine sig (BD)
- 656 Blagoveshchensk, USSR fair 1000 2/7, 3 pips & tone time sig, IS that contrary to previous report, I believe to be same as R.Moscow 548-629 (etc) (RHM); Chinese 0608, yime pips 0700 (GK)
- 683 Madrid, SPAIN verie for 12/3 rpt, month (DP (Madrid now on 917, mid-Dec.-pt))
- *730 KFQD Anchorage, ALASKA powerhouse 1/23 0514, again 2/3 0405 (GK)
- *764 Pietermaritzburg, S.AFRICA logged 12/23 0134-0144, pop concert, EE (NNRC)
- Sottens, SWITZERLAND verified 12/10 report for country #52 (DP)
- *760 R.Peking, CHINA Chinese mx under WJR/CMCD 0615 2/3 (GK)
- 780 Ramey AFB, P.R. logged 1/27 s/on 1457, excellent, verie back in 4 days, sai AHD calls not used, just AFRTS Ramey (DP)
- 782 CSB9 Miramar, PORTUGAL uses calls 2030 s/off, otherwise its "R.Clube" (BD)
- 785 Pyongyang, N.KOREA nice sig 0603 0408 2/6 (GK)
- 818 mystery here 1/4 issue probably Andorra, on late Dec., Intl. Pgm. (LR)
- 840 Nanchang, CHINA atop JOQK 0430 2/6 til WHAS OC (GK)
- 850 HJKC Bogota, COLOMBIA verie for 1/10 report in 13 days (DP)
- KICY Nome, ALASKA heard 2/3 0407-0415 very clear; ID 0415 (GK)
- 854 OAXLA Lima, PERU apparently s/on 0600 w/clear "R.Nacional del Peru" ID plus calls incl. FM; 2/8, & earlier than WRH-64 indicates. Bad 855 hetro (RHM)
- 885 MYSTERY...1750-1830 2/2 hymns; suspect Bonaire, NWI testing; no 250kw tho (BD)
- 935 Agadir, MOROCCO hrd 2/2 w/chanting, are they AN? (RB) (heard 2200)
- 1000 LZD Tauranga, N.Z. 100% readable, mx, 0436 2/3, weak but clear (GK)
- 1020 YVQB Cumana, VENEZUELA. Card from Caracas. Evidently "Sucre" & "Rumbos" tied in on AN ER 12/2. Card specific, YVQB-1020-10kw (HJW)
- 1040 R.Peking, CHINA almost like local lately, stomping out WHO after 0400, ever on car radio. In as late as 0900 (GK)
- 1071-72 MYSTERY...Colombian hrd 2/3 0054 w/ID, "R.something" Barranquilla. S5, a bit above CBA. S/off seems 0100 (RM) (HJAH Barranquilla, "Em.Atlantico" ??-pt)
- 1088 Droitwich, GT.BRITAIN verified 12/10 rpt in 24 days (DP)
- 1150 JOKP Kitami, JAPAN very strong 0430 2/3, well over U.S. stations (GK)
- 1165 SWAN IS."R.Americas" hrd 0125 2/3 S7 man/woman; 1st time heard in year (RM)
- 1214 Brookmans Park, GT.BRITAIN verie, 12/10 report, 5 wks (DP)
- 1295 EAJ41 LaCoruna, SPAIN V/L & pennant for 11/24/63 report. It stated "an excellent report" & certainly my best from Spain, 2kw. New country, too (RB)
- 1376 Lille, FRANCE verified 1/24 report in only 8 days (DP)
- 1410 ZYH26 Fortaleza, BRAZIL in clear 2/3 0315-0350, "R.Verdes Mares" & solid (BD)
- 1502 Warsaw, POLAND hrd 1/27, excellent S9plus 0110, louder than KSTP (RB)
- 1505 TIRU Liberia, COSTA RICA. EE V/L v/s Mateo Chavez Hernandez, in charge of P.R., (HJW) "R.Norte de Guanacaste." Specifies 1505. Believe they'll QSL godd EE rpts
- 1510 R.Peking, CHINA hrd in Chinese 0453 2/3 under OC; time pips 0500 (GK)
- 1538 Dakar, SENEGAL hrd 1/26 good sigs after 0200. Dropped out fast, no log (RB)
- 1538 Mainflingen, W.GERMANY troublesome hot to KGBC on good TA nights and often separable. First ID'ed 1/6 0105 (JLK)
- 1554 Nice, FRANCE Paris RTF verie 11 days. Best TA, OK about every other nite (J)
- 1562 Covilha, PORTUGAL often good 0200 s/on-0300. 1/25, better than 665 (BD)
- 1578 CSB5 Porto, PORTUGAL verified 12/3 report in a month (DP) (RHM)
- 1580 2WN Wollongon, AUST. ABC 3rd Net. ID 0459 1/28, ahead of WCLS s/on, KBGO under XEDM Hermosillo, MEX. verified 12/31 report (DP)
- 1586 Oldenburg, W.GERMANY. Hope someone from WEEZ-1590 (very local) was listening midnight 1/24 for pointers on good mx & transmission (BD); hrd 1/26 0155-02 & best TA ever hrd for logging purposes, S3-7, ctry #32 hrd (FM); logged 1/24 2335-0005 in German. Reported immediately (HM)
- 1594 CSB4 Lisbon, PORTUGAL verified 12/10 report (DP)

AROUND THE WORLD: CLANDESTINE.--"R.Libertad" moved from 1550 to 1400. Box 2113, Ocean View Branch, Miami, Fla. Sked 0600-1200, 1900-0100 (RSDBX). W.GERMANY---Saar-1/21 now 300 kw. Off air only Suh. thru Thu. 2000-2300. "Europawelle Saar" ID (LAR); VOA has ceased on 1196 since Feb.1 & vca now on SW (RSDBX) (What is now on 1196?-pt) ESTONIAN S.S.R.---Tallinn now 1493, Moscow pgmg & foreign (LAR); R.S.F.S.R., USSR---WRH-64 now lists 1250 as Khabarovsk & 548&629 as Vladivostok. FBIS still says Khabarovsk-629 (RHM)
