## **WELCOME MESSAGES**

HI, THIS IS \_\_\_\_\_ from \_\_\_\_\_.  
WELCOME TO THE NATIONAL RADIO CLUB CONVENTION.

# WNRC 1610/99.3

Your official station for the convention is WNRC. This station is on the air for you to enjoy and learn how things work. The station is automated, however you can be a part of the show!

Please see Fred Vobbe about doing newscasts, weather, and sports. We would love to have you help out with the shift! The format for the scripts is on the next page.

Also, please say hello to everyone. We can record a welcome message to play on WNRC during the convention.

The station will repeat programming for all three days. This will give aircheck hounds a good opportunity to catch all the shifts. Shifts run from Mid-6AM, 6AM-10AM, 10AM-2PM, 2PM-6PM, and from 6PM to Midnight. News, weather, and sports are recorded daily.

We know many of you like to record other stations while in town, so if you do not wish to make airchecks of WNRC, the publication center will have copies available after the convention. Watch DX News and the DX Audio Service for details.

QSL Cards will be mailed to anyone submitting a correct reception report. Reports should go to Fred Vobbe, 706 Mackenzie Drive, Lima OH 45805. The log generated by the system when it's on the air will verify the reports.

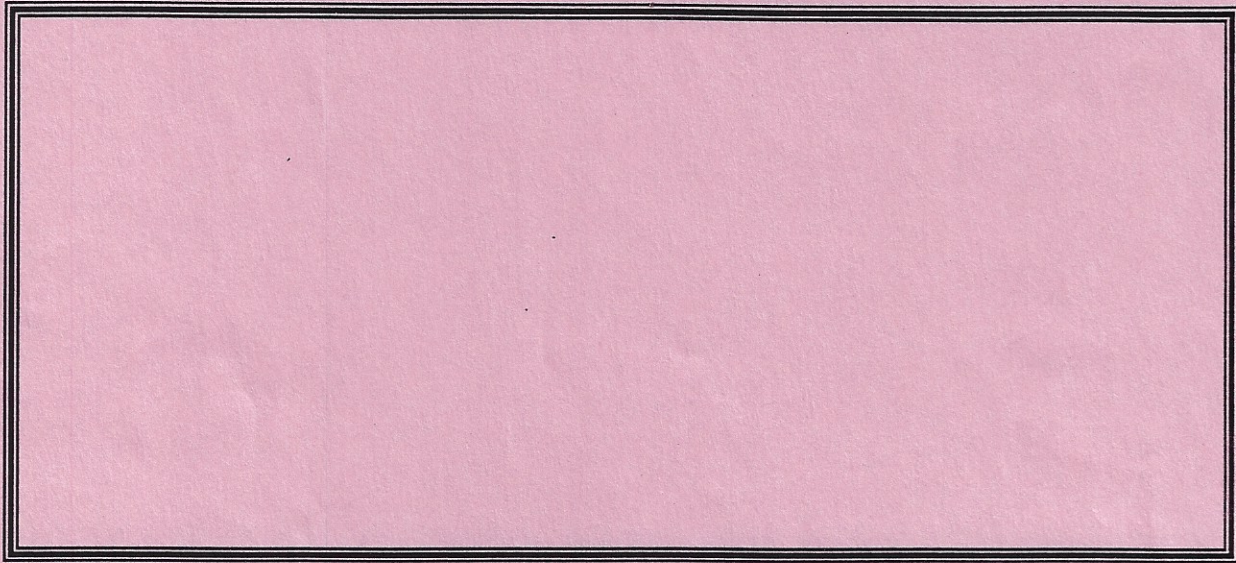

## **IMPORTANT NOTICE:**

Please do not touch the antenna(s), transmission line, or equipment without your convention host being around. We'll be happy to show you how everything works and how to adjust parameters.

What you think is a harmless joke can severely damage the equipment, costing a fellow DXer a lot of money in repairs! You could also be shocked by RF voltage, or place someone else (or their property) in danger. Please, do not touch the transmission system.
