What Happened to the Back Page? As the U.S. Postal Service gets more and more automated, all the address information on the back page started confusing the automated USPS sorters, and several members' copies of *DX News* started arriving at random back-page addresses instead of your mailboxes. For this issue, I'm trying to put all the back-page info on the *inside* of the back cover (i.e., page 23) and we'll see if that is still useable for members. Let me know at NRCDXNews@gmail.com if you have any comments or suggestions, on this or any other *DX News* topic!

World Radio-TV Handbook: How would you like a new 2018 WRTH for \$12 for USA members? (Sorry, the cost of postage to Canada and elsewhere is more than the cost of the book!) The NRC has 4 copies that will be available through this raffle. To receive a chance at the drawing, just send a postcard or letter to NRC WRTH Drawing, PO Box 473251, Aurora, CO 80047-3251. We'll draw 4 names of National Radio Club members in good standing (*your subscription to DX News or e-DXN.com must be current*) and notify the winner by phone, provided you supply your phone number. The 4 lucky winners will receive the WRTH after they send us \$12 shipping and handling (and a buck or two for the NRC Treasury. Deadline for your response in the PO Box will be Saturday February 10.

From NRC Publications: Due to recent postage rate increases, the cost of the *AM Log* sent to Canadian and overseas locations has increased. No change for shipping to U.S. addresses. See page 5 for ordering information and the current pricing schedule.

As previously announced, the 7th edition of the *Pattern Book* is sold out; a date for the 8th edition is to be announced. In addition, we have also sold the last copies of the final edition of the late Dr. Bruce Elving's *FM Atlas*.

[NRC-AM]: To be added to the newly moved [NRC-AM] Google Group listserv, moderated by Russ Edmunds, just e-mail Wayne Heinen at his new address amlog@nationalradioclub.org

from the email that you wish to subscribe to the list with and he'll get you added.

Interim AM Switch: Just a reminder that we almost always have an Interim AM Switch column posted to e-DXN.com every Friday or Saturday when *DX News* is not published.

Convention: We still don't have a convention host for 2018. If you have any interest in considering whether to make a bid to host the convention next year, please contact Ernie Wesolowski at NEErnieW@yahoo.com or 13312 Westwood Lane, Omaha, NE 68144-3543. Ernie will give you all the information you need as to what is involved in hosting a convention.

IRCA Convention: IRCA will hold its 2018 convention in St. Charles, MO, at the Best Western Plus Charles Inn, September 7-8. Registration fee is \$25. Radio tours and the Saturday banquet site TBA. For more info, contact Ken Hawkins, stlouisherdfan@gmail.com

- 1240 KVSO OK **Ardmore** – 1/22 1610 – ESPN sports with ID. While listening to ESPN I heard a weak repetition of the signal about a half-second later. I thought for a while that I was hearing what hams refer to as a long delay echo (LDE). These are very seldom heard and without a good physical explanation. In order to have that kind of delay, the signal would have to travel around the earth several times, or maybe bounce off the moon. While listening I noticed the echo disappeared when the station went to local programming. I think the echo was actually reception of KADS in Elk City, OK. Their ESPN feed must have been slightly delayed, which would account for the echo. During breaks from ESPN I tried to hear that ID, but never heard it because KVSO was much stronger. **(JR-OK)**

73 and Good DX!

From the *DX News* archives

Compiled by Ron Schiller.

75 Years Ago – From the January 23, 1943 issue of *DX News*: Massachusetts' Stan Morss reports KFPY-920 Spokane, WA "in clear @ 3:05 s/off". New York State's Grant Batson logged another Spokane station: KGA-1510. George Luther of Kerrville (in the "Hill Country" SW of Austin, TX) doesn't count a logging unless he hears their "call letters unmistakably". (Note: He'd be in a world of hurt with today's broadcasters!) His prize catch is 4YA-780 'Down Under'. Charles Lippincott of MD lamented the demise of his favorite DX publication Radex. Re recommended White's Log (15 cents!) to partially fill the void. Dave Thomas (OH) had KWJB-1240 AZ among his latest veries.

50 Years Ago – From the January 27, 1968 issue of *DX News*: Wyoming is on the DX Test Calendar thanks to IRCA's scheduling of KATI-1400, KOWB-1290, & KMER-950. Mike Levinton in Berkeley, CA said aloha with these fine Hawaiian catches: KMVI-550, KLEI-1130, KAHU-940, as well as 4QE-1550 AU. Two pages in the bulletin were devoted to thoughts of how to make the CPC more productive in view of poor responses to requested DX Tests (less than one in ten responded). Ernest Wesolowski (NE) presented an excellent "sample" reception report for new and prospective members to see.

25 Years Ago – From the January 25, 1993 issue of *DX News*: "X Band" (1610-1700 kc) start date delayed by squabble over TIS stations – whether to allow them access to all "X Band" frequencies or keep them strictly to 530 & 1710. Florida's Gerry Thomas reviewed the new GE Superadio. Ontario, Canada's Robert Ross was happy with his recent purchase of a Hammarlund SP600JX Rx. Bruce Conti (NH) had a column on "What is a heterodyne" at the suggestion of Tom Beaton, inquiring at Ray Arruda's (MA) annual get together.

10 Years Ago – From the January 28, 2008 issue of *DX News*: Walt Breville (MO) caught WWBA-1040 FL way over nearby WHO on his Grundig 700 Radio Shack loop setup. Two other Grundig users checked into DDXD East: Harry Hayes (PA) G350 & Mike Brooker (ON, CAN) G5 & YB400. The CPC reports 11 positive responses from 188 requests. Roger Anderson (VA) updated his totals for International DX Achievements, dating from his DXing start in 1938- 105 countries verified!

Musings of the Members

David Jansky <padavej@yahoo.com>

In my renewal note to Wayne Heinen I mentioned that I was in need of information on what to do about a local station that was preventing me from hearing other stations on the same frequency. For me it is WKOK 1070 Sunbury, Pa. I know that when I am out of the area I can hear Canada, Charlottesville, Va. and others with ease. Wayne suggested that a note in "Musings" might generate some useful tips from members who are far advanced in this matter I am. I find nothing in the NRC publications list that would be helpful.

Any assistance the members could provide me would be appreciated.

Phasing technology can be quite helpful here – strong locals can be phased into almost nothing. The key is that you need to be close enough to the station that you are receiving only groundwave and not skywave as well. I use a Quantum Phaser from Gerry Thomas, see www.dxttools.com for information. There are other commercially available models, as well as DIY plans available through NRC Reprints. – David Yocis

Gary Siegel – 2955 115th Street – Toledo OH 43611

It is with sadness and regret that I report a local radio legend, Harvey J. Steele, passed away on December 28, 2017 due to complications from diabetes. Harvey was one half of the famed Shores & Steele morning team which has dominated Toledo AM drive since 2000. He, along with partner Gary Shores, were a formidable pair on WKKO-99.9 FM (K-100) that not only had the top-rated morning show from 2000 to 2017 upon taking over that slot, but also were number 1 in the afternoon drive portion at K-100 from 1994 to 2000. Their ongoing success carried WKKO to the continuous top spot in Toledo radio since at least 1996.

Harvey was someone I could call friend since making his acquaintance back in 1982 when he worked alongside then-program director Gary Shores at WTOD-1560 AM here in Toledo. It was Mr. Shores who hired Harvey out of a small station in Illinois and the rest became Toledo radio history when Harvey arrived in Toledo in 1981. Mr. Shores started WTOD in 1975, the same time I was a competitor at WTUU-1520 AM.

In 1982, I caught up with both at a local remote. I told Gary about my time in radio and how we were both seeking the same radio audience. Harvey overheard that and was pretty interested. Shortly thereafter the conversation turned to DXing as Gary had indicated that he did some of that back in the day. It was then that Harvey mentioned his dad did that, too. I asked him who his father was, and he said, "Sid Steele." I immediately told him I knew his father via the various radio clubs for over a decade. This connection forged a familiar relationship such that anytime I would see either Gary or Harvey we could talk radio shop or about things in general. It was not uncommon to see Harvey at local Toledo hockey games.

His passing is not only a personal loss, but also a huge community loss. Harvey's life story played out very personally for many listeners due to life-saving liver transplants he had back in 1997. He became a strong advocate for organ donor causes. His daughter Kara heads the local Life Connection for Ohio organization. Our cubs and the radio industry lost a real original, for me a true friend in the radio world. Harvey grew up in Illinois but lived most of his adult life in Toledo. He was only 60 years old.

Here is American Hockey League (AHL) radio information for the 2017/8 season. I found no evidence of any network, except for the Hershey Bears; I have included that network list in-line. For a few teams I found the name of the play-by-play announcer but could not find the call letters of the station; maybe these are Internet-only broadcasts. I found very few announcer names. The main web site for the league is theahl.com.

Some teams have their games only on AHLlive.com, Tunein.com, or mixlr.com.

Please send me any additions and/or corrections to this list. Thanks.
