**From the Publisher:** Electronic subscribers to *DX News* should have received an issue of *DXtra News* between our last regular issue and the current one, with the MLB networks (which Barry Finkel had compiled in time for the last issue but for which we didn’t have room, as well as our current list of AM station construction permits and STAs.

The number of anomalies that don’t get reported to the FCC ... stations off the air for part or all of the day, stations operating with less than their licensed facilities, stations running day power at all hours, stations off frequency ... these continue to multiply even as those stations that do notify the FCC, as they are required to do, also grow. We do our best to keep track of all of these, but something close to 10 percent of all licensed AM station in the United States are either silent or operating under STAs different from their licensed parameters. Everything that gets reported to the FCC does show up here in *AM Switch*, but your eyes (and ears!) help a great deal as we try to keep track of what’s actually happening on the ground and on the air!

Back in three weeks ... DX is slowing down but it’s not done yet for the season, so keep your reports coming!

| 1470 | WWBG | NC | <b>Greensboro</b> – 4/23 0055 – Relaying WTOB Winston-Salem. In the clear with oldies and doo wop, “this one is called Wishing Ring on WTOB’s All Night Party.” At 0059 “Another hour of music coming your way from downtown Winston-Salem” and ToH ID: “AM 1470 WWBG Greensboro, 96.7 FM W244EM Winston-Salem” WTOB ID given between songs. Still on top at 0155. NEW. (LB-NY)                                                   |

## --- NOTES FROM CANADA ---

Jon Pearkins [jon@pearkins.com](mailto:jon@pearkins.com)

As mentioned previously, the CRTC is not making any decisions, or even holding Public Hearings, until the next federal government takes power. Results of the April 28 election will be known almost immediately, but it could take a while to form a new government if no party wins a majority of seats. Based on current polls, there is likely to be no obvious Coalition of Parties with shared values.

With no CRTC News to report, a previous topic of this column, the **Qodosen SR-/DX-286** is worth revisiting with RadioJayAllen.com's April 5 update. When posted on Facebook, some owners reported making the same discoveries as Jay. Nonetheless, anything that increases the AM sensitivity ratings for a radio from three to five stars bears repeating. Jay rated the radios three stars when run on batteries (one rechargeable button-top 18650 Li-ion battery) with the internal ferrite rod antenna.

When switched to the whip antenna, it scores five stars but only in very quiet areas, as the whip is not directional and is extremely susceptible to local RFI from any direction, including the internal display circuitry, which varies on a unit-by-unit basis.

Jay's big discovery was that five star sensitivity was also possible without the RFI. He got these results with a tuned passive loop, testing both the Kaito AN-100 and the Terk AM Advantage, using a cable to plug into the Qodosen's aux antenna input, and enabling the Qodosen's 20 dB antenna amplifier.

As an added bonus, those loops are a lot more directional than the Qodosen's rather short internal ferrite rod antenna. This is very important when trying to get a tight null on a dominant station, to hear a weaker station from a different direction. RFI may still be a problem for two separate reasons. The predecessor to the Terk and Kaito loops was a Radio Shack model with its hardwired unshielded twin lead with tinned ends for the pair of screws or similar bare wire connectors found on many DX receivers 50+ years ago. That twin lead functioned as an excellent antenna for receiving local RFI. Back in the 1960s, larger home-made loops had clear instructions in their published plans to connect them to a receiver with a grounded shielded coax, rather than 'lamp cord,' the primary source of twin lead back then.

The second source of RFI is the display circuitry on the Qodosen radios. The amount of RFI varies dramatically from unit to unit, arguably a manufacturing quality issue, which is quite surprising given the build quality of these radios. There is a setting to turn off the display after some period of inactivity. Unfortunately, every touch of a button or knob, including the volume, turns the display back on. This can be more than just annoying, becoming hard on the ears, as you try to set the right

volume level for clear listening without the RFI from the display, and have to wait for the potentially very loud noise from the RFI while the display comes on as you adjust the volume, until it automatically goes off. Jay's complete report is at: <https://radiojayallen.com/qodosen-sr-286-am-fm-sw-high-performance-portable/> where he also includes the SR-286 manual, as well as a link to a report on the differences between it and the newer DX-286. The manual for the DX-286 can be found at: <https://www.blogordie.com/wp-content/uploads/2024/12/Qodosen-DX286 USER GUIDE2024V2.pdf>.

Vista has announced a simultaneous change in the branding of all but one of the British Columbia stations that it bought from Bell. All formats remain the same. The following information is based on the stations' web sites and their updates to Wikipedia; industry articles do not agree on many of these slogans.

- 590 CFTK BC Terrace – '590 Summit.'
- 800 CKOR BC Penticton – '800 Summit.'
- 870 CKIR BC Invermere – '106.3 Summit' (CKIR rebroadcasts CKGR-FM Golden BC).
- 890 CJDC BC Dawson Creek – 'The Ranch AM 890'.
- 1150 CKFR BC Kelowna – 'AM 1150 News, Talk, Sports' remains the station's slogan.
- 1240 CJOR BC Osoyoos – '1240 Summit' in print and logo is '1240 AM Summit.'
- 1340 CFKC BC Creston – 'Summit 95.7' (CKFC rebroadcasts CJAT-FM Trail BC).
- 1400 CIOR BC Princeton – '800 Summit' is their new on-air slogan; in print the logo is '800 AM Summit' (CIOR rebroadcasts CKOR-800 Penticton BC).

Other Canadian news:

- 630 CFCO ON Chatham – Has been approved to move to 91.3 MHz FM with 1.25 kW non-directional at 435 feet above average terrain. The customary three month simulcast period has been made mandatory because some current AM listeners will not be able to hear the FM signal due to a reduced coverage area.

--- U.S. STATION NEWS/ANOMALIES ---

- 930 WGAD AL Rainbow City – 04/24 1848 – A Rod Stewart song with strong signal. What is this? A pirate? No, after a PSA for 'how to prevent erosion' they play a teaser: "This is Billy Joel . . . this is Rod Stewart . . . all oldies all the time, WGAD!" Then a Kinks song. A different jingle "The 60s – The 70s – The 80s – This is Classic Hits, WGAD" into a Stevie Wonder song, then yet another jingle: "Radio-at-Work Station . . . WGAD." At 1900 a legal ID: "WGAD Rainbow City-Gadsden 103.9 FM W280ER," then a singing jingle: "WGAD Gadsden." This station had been silent for many months, as I had never heard them. They are back, for an easy catch and an unexpected Alabama #83 for me. (EB-AL)
- 1130 WALQ AL Carrville – Noticed OFF on 04/11 at 1426 and again on 04/14 at 1356. Back on air 04/16 at 1333 with usual Mexican music and ID: "Radio Estrella Alabama." Strong and // WZGX-1450. (EB-AL)
- 1380 KRCM TX Shenandoah – 04/05 0830 – Gospel music, "Old school . . . on 1380 KCOH." Thought I misheard the call but found no match. Ads for fried chicken. Soul music. ".. Jackson . . . report on 1380 KCOH" with the call heard quite clearly, so what is this? No clue in The Log, or I missed that update somehow, but radiodiscussions has a thread about 1230 KCOH: 'After their tower collapsed, their programming moved to 1380 in October of 2024.' That is apparently still ongoing. New, for Texas #31. (EB-AL)

--- UNIDS ---

- 750 unID ?? – 4/6 0802 -Town Hall News, ad for 'Relief Factor,' then news followed by PSAs until 0813. Alone. My worst report ever! (JJR-MI)
- 1240 unID ?? – 4/11 0728 – 'Night Moves' by Bob Seger ends, to 'Born In the USA' by Springsteen, then "I Feel the Earth Move Under My Feet" by Carole King to 'Runnin' On Empty' by Jackson Browne. Up briefly later with The Police and 'Wrapped Around Your Finger,' then gone forever. Not parallel station streams of KASO, WZQK, WTWA, or WGCM. Format doesn't seem to fit KANE, which did appear shortly thereafter. (TK-FL)

--- PIRATE ---

- 1710 Ar-r-rgh AL Birmingham – 'Album Rock Radio, Birmingham' has been back on its "traditional" frequency of 1710 since April 3, 2025, heard at 1910 with Pop music and

ID: "You're listening to Album Rock Radio." Also heard 4/18 at 1732, with good signal in vicinity to QTH, playing typical songs. (EB-AL)

### **- - - DX LOGGINGS - - -**

- 560 WOOF AL Dothan – 04/14 1309 – Sports talk. Ads with 334 phone numbers, and mention of "Dothan Downtown Library." Back to "... on The Ball." Weak, but in the clear on 100' wire during lunchbreak. First log of this during daytime. (EB-AL)
- 560 WJLS WV Beckley – 04/12 2115 – Country music, ID: "... JLS..dot com." Weak, with fading. (EB-AL)
- 580 CFRA ON Ottawa – 4/10 0733 – Various political stops in Provinces. Calls. Nulled (WTCM) with talk of Trump. Same stuff/different countries! (JJR-MI)
- 590 WJMS MI Ironwood – 4/11 0710 – Poor, with "92-1 FM and 590 AM, WJMS" after sports and weather. Here, it's usually KXSP! (JJR-MI)
- 600 WCVF NC Murphy – 04/13 2220 – Oldies matching lineup on website. Strong signal. 20 Watts night power? Certainly not. (EB-AL)
- 620 WDAE FL St. Petersburg – 04/06 0137 – NCAA Florida-Auburn basketball, games on FS1, NFL here ... on FOX Sports Radio. Unhelpful ads ('Discover,' 'iHeart') and fade-out. Luckily they faded back in on time for legal ID: "95.3 WDAE and AM 620, WDAE Saint Petersburg and ... Clearwater." **New, for Florida #42.** Go check out their towers, built into the waters next to a bridge over Tampa Bay. (EB-AL)
- 630 WAVU AL Albertville – 04/14 1322 – Christian Rock music, matching webstream. Very weak, mixing with two talk stations (WLAP, KYFI?) but an ID: "Power 107.5" could clearly be heard. **New, for Alabama #79.** (EB-AL)
- 660 WXQW AL Fairhope – 04/11 1320 – At first I assumed this weak signal is caused by some receiver overload with 100' wire, but after some Trump talk they ID as "NewsRadio WXQW" before continuing about China tariffs. Good results from this N/S wire, making this the **first noontime log** from a Gulf Coast station. (EB-AL)
- 670 WWFE FL Miami – 04/06 0120 – No Idaho [KBOI on STA – BH] luck, but Spanish talk behind Rebelde with "punto siete FM," a clue enough to at least match the webstream. **New, for Florida #41.** (EB-AL)
- 670 KBOI ID Boise – 4/5 0642 – Long distance, but I am claiming it despite no ID(aho). There briefly, parallel delayed stream. Logged while they are/were on 12.5 kW non-directional while repairs are/were in progress. Extremely poor with Rebelde occupying the channel and pieces of WSCR (sports talk) and presumably WWFE's Spanish news in the mix. ABC News at 0650, then back to FOX News Rundown which is listed as a podcast but apparently also a spastic radio pickup. Not listed as a FOX affiliate in the current AM Log, but it's true, specific even to this show. See?: <https://www.kboi.com/2025/01/16/fox-news-radio-on-newstalk-kboi/>. No other format remotely close to this on the channel. I never expected to log Idaho from Florida. **First time log and state.** (TK-FL)
- 680 KFEQ MO Saint Joseph – 4/10 0730 – 'America's First News,' then "680 KFEQ news" and no CJOB. (JJR-MI)
- 690 WZAP VA Bristol – 4/9 0732 – Southern Gospel songs, "Praise 93-3" and no others in. (JJR-WI)
- 710 WNTM AL Mobile – 04/11 1328 – Another weak signal on the N/S wire, with ads for 'PureTalk' and to buy gold. FOX News. ID as: "Newstalk WNTM." Another Gulfcoaster at noon! Heard again much weaker on 4/14 @ 1333 with ads and a program called "Saturdays ... on WNTM." (EB-AL)
- 710 WNTM AL Mobile – 4/13 0255 – Out of 'Coast To Coast AM' with Top of Hour legal ID. Decent signal. U2 1000/1000. I wonder if anyone can pull this one in the darkness far from me. (TK-FL) [Their Daytime signal is directed due South for all the fishing boats cruise liners (hi), while their night pattern is a large circular lobe directed to the South-Southwest. WNTM should be widely heard along the Mississippi/Louisiana/Texas coastlines – BH]
- 760 KCCV KS Overland Park – 4/14 0750 – Poor, though solid, with REL teaching // stream. No WJR at all! (JJR-MI)
- 770 KATL MT Miles City – 4/25 0634 – Poor, playing a Bruno Mars song, then chatter including calls and into ads. No WABC. (JJR-MI)
- 770 KKOB NM Albuquerque – 4/10 0333 – Mostly very poor in semi-nulled WABC, with 'Red Eye Radio' feed. Up nicely for a moment with top-of-hour ABC News, while WABC continued for a minute or so across the hour with the 'James Flipp At Night' talk show, then local news (as in, no ABC News this top of hour, unlike KKOB). (TK-FL)

NEWS TALK

**KBOI**

**670AM**

- 770 KKOB NM Albuquerque – 4/25 0635 – Poor, but fading up over KATL, with ‘America in the Morning.’ Only fit. WABC in the background. (JJR-MI)
- 770 KAAM TX Garland – 4/10 0350 – Up over WABC and KKOB for a spell with the squeaky voice of presumed David Spoon, listed as the brokered ‘David Spoon Experience’ Christian talk per website. Parallel station stream. (TK-FL)
- 780 WJAG NE Norfolk – 4/6 0725 – REL programming in WBBM null. Program match: ‘Principles for Living.’ (JJR-MI)
- 780 KKOH NV Reno – 4/11 0714 – “KKOH” just before rejoining ‘America in the Morning’ with their national weather forecast. All alone and definitely 50 kW non-directional in otherwise poor conditions. This is long before Reno sunrise but long after Chicago sunrise, so no sign of WBBM. I doubt that I’ve ever heard them here on night pattern as it sends very little signal in my direction. (JP-AB)
- 780 WWOL NC Forest City – 04/10 1955 – Religious music and ToH ID: “This is WWOL Forest City North Carolina . . . online . . . wwol..dot com.” Was interrupted by lightning strikes somewhere. **New, for North Carolina #17.** (EB-AL)
- 830 KGLA LA Norco – 04/12 2237 – South American music, quite danceable. Frequent jingles: “Tropical.” Fair with fading. **New at home QTH.** (EB-AL)
- 860 WDMG GA Douglas – 04/13 2257 – Spanish music and ID as: “Que Buena.” Fair in the peaks, with fading. **New, for Georgia #44.** (EB-AL)
- 870 WKAR MI East Lansing – 4/6 0800 – “. . . donate your car to WKAR” in passing. Alone. No KPRM yet, I guess. (JJR-MI)
- 870 KPRM MN Park Rapids – 4/25 0631 – Poor, with a vocal National Anthem, followed by a well-detailed sign-on. Still enjoy hearing sign-ons and sign-offs. (JJR-MI)
- 880 KLRG AR Sheridan – 4/17 0647 – Abruptly up, presumably on their 31 kW Critical Hour pattern, Queen mid-song to ‘Hair Of the Dog’ from Nazareth into ‘Blowin; Free’ by Wishbone Ash. Live-sounding announcer: “. . . I’m Bob Terrell . . .” and weather by Bob. “Arkansas Rocks” slogan a few times. Excellent. (TK-FL)
- 880 KJOZ TX Conroe – 4/17 0614 – Contemporary Spanish Christian Mexican-tinged vocals, “Radio Visión Latina 106.1” slogan after every couple of songs. (TK-FL)
- 900 WFIA KY Louisville – 4/9 0725 – With promos for ‘Big X Sports Radio’ and ‘WJIE.’ Both co-owned in Louisville area. Alone. (JJR-WI)
- 900 KSJK NE Columbus – 4/12 0748 – Poor, with ‘Infinity Sports’: talk of various games. Lost at 0751 to KTIS. Only fit. **Then in again on 4/25 @ 0614** – Very poor this time, with talk of the NFL Draft. Network ad for ‘Harrah’s Casino.’ Alone. (JJR-MI)
- 900 WKDA TN Lebanon – 4/16 0508 – Nostalgia format with ‘Pennies From Heaven’ by Bing Crosby, then male liner: “Your kind of music on AM 900, WKDA, Lebanon” into ‘Pass Me By’ by Peggy Lee. Another liner: “You found the Great American Songbook, WKDA, Lebanon.” Excellent on peaks and I suspect they’re on 5000 Watts day power vs. 136 Watts nighttime rig. **First time log.** (TK-FL)
- 910 WBZH WI Hayward – 4/15 0830 – Very poor, with “Civic Media on FB” into sports scores. No WFDF, etc. (JJR-MI)
- 910 WDOR WI Sturgeon Bay – 4/14 0828 – Very poor, though a clear “WDOR” noted in newscast. With others. No WFDF. (JJR-MI)
- 920 WXKD AL Brantley – 04/11 1406 – Ad for tires into Soul music. Very weak and mixing with another station (talk, likely WGKA). It takes DXer’s ears to match the music to // WZKD-950 which comes in strong from Montgomery, but after a while there is no doubt. Brantley is much further south, but WXQW-660 and WNTM-710 had already indicated that today is a good day for deep south Alabama on the 100’ wire. **New, for Alabama #78,** and off the unreported list you go! (EB-AL)
- 920 KWAD MN Wadena – 4/14 0745 – Poor, with ‘Weatherology,’ calls, farm info, and chatter. WMPL (30mi away) in the weeds. (JJR-MI)
- 920 WLIV TN Livingston – 04/14 1856 – Rocky country music. Partial ID: “. . . 101.9, AM 920 W\_I\_,” then “News presented by Livingston Regional Hospital.” **New, for Tennessee #52.** (EB-AL)
- 930 WKBM IL Sandwich – 4/11 0702 – Poor, with Legal ID and ‘Morning Air’ from Relevant Radio. With several others. (JJR-MI)
- 940 KIXZ TX AMarillo – 4/7 0730 – ‘AMerica’s First News,’ then a promo for the ‘AMarillo RV Road Show.’ (JJR-MI)
- 950 KTNE MN Saint Louis Park – 4/14 0825 – With (Santina Jackson) talk of Bernie Sanders. Poor, with some KOEL. (JJR-MI)

- 970 WTBF AL Troy – 04/11 1412 – After catching the WXKD trophy a few channels lower, I’m no longer surprised to hear sports talk on 970 from Troy, not far from Brentley but more power. Fair signal, but heavy splatter from local WERC-960. (EB-AL)
- 970 WDUL WI Superior – 4/10 0832 – Very poor, with ‘Bad Habit’ by Ed Sheeran and “Hot 98” through KQAQ. No WDAY toDAY! (JJR-MI)
- 980 KFVB CA Los Angeles – 4/2 0736 – Mexitunes, “La Mera Mera” canned slogans. Fair in the mix. (JW-CO)
- 980 KSVC UT Richfield – 4/2 0745 – Man with ID: “KSVC AM 980 and FM ??5 FM,” followed by ads; soon faded. Rough copy. (JW-CO)
- 1000 KTOK OK Oklahoma City – 4/8 0753 – Barely readable ID by man: “. . . News Radio 1000 KTOK . . .”; not sure what followed. Very poor band conditions lately. (JW-CO)
- 1010 WPCN WI Stevens Point – 4/7 0724 – “The True Oldies Channel, 92.1 and 1010 WPCN” into ‘Free Ride’ by Edgar Winter. (JJR-MI)
- 1020 WPEO IL Peoria – 4/9 0753 – With REL teaching. While close, not common at all. // program guide. (JJR-WI)
- 1020 KJJK MN Fergus Falls – 4/11 0816 – Very poor in fade up. ‘Bust a Move’ by Young MC “. . . on Channel 9-7-7. No KDKA. (JJR-MI)
- 1030 KBUF KS Holcomb – 4/6 0720 – “Ag Radio – KBUF,” weather: “80s on Tuesday.” Calls again. No WBZ. (JJR-MI)
- 1040 WPBS GA Conyers – 4/9 0715 – Male chatter in Vietnamese. No WHO at all. (JJR-WI)
- 1050 KLOH MN Pipestone – 4/11 0657 – “Blazin’ Country KLOH” between C&W songs. WTKA in at TOH. Fair. (JJR-MI)
- 1050 WFSC NC Franklin – 04/24 1912 – Classic hits ‘More Than A Feeling,’ ‘Get On With It,’ and ‘Captain Of A Heart.’ Song transitions with potential IDs neatly disappear during fade-out, until one stays up: “104.9 WFSC The Smokies’ Classic Hits.” Strong with fading on 120’ wire. **New, for North Carolina #22.** (EB-AL)
- 1060 KFIL MN Preston – 4/15 0730 – Fair, with Sign-on into the ‘I Love You Waltz’ replacing WHFB. (JJR-MI)
- 1070 KNX CA Los Angeles – 4/10 0504 – Man and woman alternating with state and local news stories, including something about a person arrested for shooting birds, then local weather and traffic. Parallel station stream as always. Poor this time, with WDIA present despite trying to null. (TK-FL)
- 1070 KNX CA Los Angeles – 04/24 0156 – Woman talks about “LAX,” then fade-out. On and off snippets behind WDIA’s music that may or may not have been KNX. Finally, a weather report “. . . here on KNX,” a story about immigrants, and ads including one for ‘RodentsStop Pest Control’ in Southern California. **First log in Birmingham.** Had been trying for a while. **California #1!** (EB-AL)
- 1070 CFXA BC Victoria – 4/15 0031 – All alone and strong, with “Sea Facts” ID after news from Canadian Press. Then an ‘iHeartRadio app’ promo. First time heard in over five years and, even then, I was only hearing audio below 100 Hz. At best, CFXA sends 200 Watts in my direction, leaving KNX to completely drown them out here, making me think I am hearing CFXA running non-directional while they do transmitter/tower work. They were gone when I checked at 0111, but Aurora conditions had weakened Vancouver and Seattle stations. “Facts” in their slogan dates back to a time when Fax was not a word that people had heard of. (JP-AB)
- 1070 CHOK ON Sarnia – 4/12 0728 – “Sarnia Country-CHOK.com.” Here, C&W could also be KFTI. Poor, but no WTSO. (JJR-MI)
- 1080 WWNL PA Pittsburgh – 4/10 0715 – REL teaching: talked over four minutess about a “twig.” No WNWI, etc. // stream. (JJR-MI)

- 1090 WKFI OH Wilmington – 4/11 0616 – Excellent on peaks, with Jerry Clower comedy monologue with live audience in progress, ending at 0625. Then live man with mention of temperatures in the mid-30s, into Ricky Scaggs’ ‘Country Boy,’ then a program promo for ‘Successful Farming Radio,’ and woman with “. . . Impact Weather” tagged forecast, followed by songs by the Bellamy Brothers and T. G. Sheppard. Parallel station stream and song scroll display. Excellent on peaks, with KAAY fully nulled. Thought this was a new one, but not so, logged a couple times before. But still, it’s only a D3 at 1000 Watts. (TK-FL)
- 1110 WBIB AL Centreville – 04/11 1426 – WBIB is usually very weak, but with today’s conditions they are booming in at almost local levels on the 100’ wire. A pleasure for the log; the Mexican plastic Pop music not so much. (EB-AL)

- 1130 WQFX MS Gulfport – 04/06 0320 – Couldn't figure out where this Black Gospel music was coming from until I checked the listed daytimers. The webstream of WQFX was a match. Let's assume they ran some important tests, burning the midnight oil. **New, for Mississippi #14. (EB-AL)**
- 1130 WPYB NC Benson – 04/14 1903 – Country music, matching webstream over several songs. Not strong, but mixing with WBBR Bloomberg "Eleven-Three-Oh." **New, for North Carolina #20. (EB-AL)**

Strong, but fighting with several co-channel stations. **New, for North Carolina #21. (EB-AL)** [These tunes would be more in the "Gospel" genre, not Country – BH]
- 1160 WCRT TN Donelson – 4/11 0659 – 'Bott Radio Network' promo, across top of the hour into a brokered program with seemingly no ID. (TK-FL)
- 1170 WGMP AL Montgomery – 04/11 1430 – Some Montgomery stations are booming in today, but not "The Gump." Very weak with fading, but after Rock music I can make out a partial ID: ". . . station . . . 104 . . . The Gump." The groundwave contours on fccdata suggest they should be as strong as WZKD-950, but no. Low power? (EB-AL)
- 1170 WCXN NC Claremont – 04/14 1849 – Angry preacher yelling a sermon, sounding like the 'Overcomer' but not sure. Matching WCXN webstream. Fair, but fading and WWVA QRM. **New, for North Carolina #18. (EB-AL)**

- 1210 WJNL MI Kingsley – 4/14 0735 – Fair, almost loud, with satellite-fed C&W and 'Wine Country Radio.' No WPHT all morning. (JJR-MI)
- 1210 WMPS TN Bartlett – 4/11 0708 – 'Sunshine On My Shoulders' by John Denver into 'Tennessee Waltz' from Patti Page. Parallel station stream and song scroll display. Way under WTKX's idle sports babble. (TK-FL)

- 1230 WTBC AL Tuscaloosa – 04/11 1431 – PSAs: 'Alabama roadworks,' 'unemployment benefits,' and 'construction in the heart of Tuscaloosa.' "This is . . . on The Tide 100.9 . . . WTBC phone lines . . ." Despite proximity, this is only the second log ever. Their weak signal does not live up to expectations based on theoretical contour. - 1413 **SPAIN** *RNE5 synchros* APR 14 0510 – Likely too late for the hugies, 500 kW in Moldova, 800 kW in Oman, besides tiny UKs from 10 to 500 watts, *RNE5s* of 25, 12 and 10 kW in Galicia, Cataluña, Andalucía. [Hauser-OK]
- 1503 **SPAIN** *RNE5 La Línea//Piñeira* APR 14 0509 – First RNE noticed, and not a major one heard before, either. Besides 1 kW in Trieste and 25 kW in Egypt, too late for that, the only ones left are a 10 kW and a 5 kW RNE Radio 5 Todo Noticias in Andalucía and Galicia! [Hauser-OK]
- 1584 **SPAIN** *SER Gandía//Ourense* APR 13 0500 – Fair; sounder to time pips, woman with time checks and news, parallel 1179, 1602, and a weak 1485 kHz. 1521 and 1539 *SER* also observed but not readable. [Conti-NH]
- 1602 **SPAIN** *SER synchros* APR 13 0500 – Fair, with synchro echo; time marker and woman parallel 1584 kHz. [Conti-NH]

*April 14 opening to Spain:* I suspect there were some sunrise-skip enhancement as today's SR in Lugo, Galicia, northwest corner of Spain, was 0550 UTC. Of the multi-sites applying on each frequency, I bet I was mainly hearing those in the northwest, lucking into a sweet spot. I also checked low end of the band, but nothing on frequencies like 684, 774, 855 which used to be easier, with higher-powered synchros. Suspect many of them have been downgraded or even terminated. Of course high-enders would propagate longer than low-enders. Also happened to be very little spring storm noise in North America. After catching all those JBA MW carriers traced to RNE Radio 5 on April 14 after 0500 UTC, I try again April 15 at 0500-0506, but not a bit in full bandscans up and down twice on both antennas. ## PAN-AMERICAN DX

- 600 **CUBA** *R.Progreso*, San Germán APR 22 0359 – Poor, over/under WICC; choral national anthem and ID parallel 650, 730, and 760 kHz. Interestingly, normally strong 640 parallel not received. [Conti-NH]
- 650 **CUBA** *R.Progreso*, Ciego de Avila APR 12 0600 – Fair; over WSM and unID Spanish (not *R.Rebelde*); "Radio Progreso, la onda de la alegría," parallel 640 kHz. APR 22 0359 – Fair, with wobbling and sour audio; choral national anthem, not the instrumental anthem that had been

- unique to *R.Progreso*, parallel 600, 730, and 760 kHz. Normally strong 640 parallel not received. [Conti-NH]
- 660 **MEXICO** XECPR *R.Chan Santa Cruz*, Felipe Carrillo Puerto, Q.Roo APR 13 0900 – Good but with fast propagational fading in/out; regional Mexican music, live announcement by man, then pre-recorded announcement by woman mentioned Chan Santa Cruz. Thanks to Tim Hall in RealDX group for help with ID. [Conti-NH]
- 680 **COLOMBIA** HJZO *R.Nacional de Colombia*, Barranquilla APR 8 0301 – Fair with local WRKO cancelled; "...corazón, transmite Radio Nacional de Colombia." [Conti-NH]
- 680 **PUERTO RICO** WAPA, *Wapa Radio*, San Juan APR 22 0158 – Fair, over/under WCBM with WRKO cancelled; multi-station ID and jingle, "Wapa Radio," parallel 1070 kHz. [Conti-NH]
- 730 **MEXICO** XEX México, CMDX APR 13 0600 – Poor; choral national anthem. [Conti-NH]
- 760 **CUBA** *R.Progreso*, Guane//Mayarí Arriba APR 22 0359 – Fair; choral national anthem, not the instrumental anthem that had been unique to *R.Progreso*, then ID, "Radio Progreso, cadena nacional, la onda de la alegría..." parallel 650 and 730 kHz. [Conti-NH]
- 770 **CUBA** *R.Artemisa*, La Salud APR 12 0400 – Under WABC; canned ID and choral national anthem. APR 16 0359 – Fair; ID and anthem, then seemed to go off the air. [Conti-NH]
- 770 **CUBA** *R.Rebelde*, Victoria de las Tunas APR 12 0900 – Under WABC; cuckoo sounders, "Rebelde, la Habana," parallel 670 kHz. [Conti-NH]
- 770 **MEXICO** XEACH Monterrey, NL APR 7 0607 – Woman in Spanish, instead of KKOB or WABC. No U.S. stations on 770 are Spanish, so most likely 25/1 kW XEACH, among 3 other XEs in IRCA log: only one 24h, not silent. [Hauser-OK]
- 800 **BONAIRE** PJB *R.Transmundial*, Kralendijk APR 22 0159 – Fading in/out with local WNNW cancelled; prayer in Spanish. [Conti-NH]
- 810.51 unID APR 10 0617 – JBA carrier aside 810.00 WHB and hetting it. APR 22 0607 – Mystery JBA carrier hetting 810 WHB. [Hauser-OK]
- 850 unID APR 22 0158 – Fair with local WEEI cancelled; jingle too weak to copy, "La Más Loca, La Más Bella" by Ednita Nazario, not the music expected from the new HJKC *Novedad Radio*, so this was probably something different, maybe Puerto Rico. [Conti-NH]
- 869.62 unID APR 25 0536 – Carrier hetting 870, vs high storm noise level on indoor random wire. Unlike some other mysteries, suspect this may be of household or neighborhood origin, never heard before. But to note whether anybody else detect or I hear it again under other circumstances – such as not heard in the daytime. [Hauser-OK]
- 870 **CUBA** *R.Reloj* synchros APR 10 0631 – Whooper underneath WWL. [Hauser-OK]
- 870 unID APR 12 0600 – Under WWL, through *R.Reloj* Cuba wobble; "Angustia" by Ecuador artist Julio Jaramillo. *R.Cristal* Ecuador? Also heard a series of time pips, maybe from LRA1 Argentina, or HJLA Colombia. [Conti-NH]
- 1000 **CUBA** *R.Artemisa*, Artemisa APR 16 0359 – Poor with wobbling; choral national anthem parallel 770 kHz, then heard anthem from weak *R.Granma*. [Conti-NH]

- 1080 **CUBA** *R.Cadena Habana*, Villa María APR 8 0259 – Poor with WTIC cancelled; familiar repeating sounders like an interval signal. [Conti-NH]
- 1090 **DOMINICAN REPUBLIC** *R.Amistad*, Santiago APR 22 0158 – Fair with WBAL cancelled; Christian vocals in Spanish, "Cuánto Daría" by Juan Morales Montero. [Conti-NH]
- 1100 **COLOMBIA** HJAT *Caracol Radio*, Barranquilla APR 22 0159 – Poor; promo's, "Caracol Radio, más compañía," and "...en Caracol Radio." [Conti-NH]
- 1110 **CUBA** CMKO *R.Angulo*, Holguín APR 12 0359 – Fair; choral national anthem, theme music with ID by man, "CMKO Radio Angulo, transmitiendo desde Holguín, Cuba," and doorbell chimes. APR 22 0300 – Poor; theme music and doorbell chimes. [Conti-NH]

- 1130 **VENEZUELA** YVRL *R.Ideal*, Maiquetía APR 8 0300 – Fair with WBBR cancelled; promo's and ID, "Radio Ideal... compañía las 24 horas, sintonizada con la vida," 0400 choral national anthem. APR 22 0100 – Fair; "Huele a Peligro" by Myriam Hernández, a pop song unexpected from *R.Ideal* which is an Iglesia Universal station, but measured offset frequency as listed. [Conti-NH]

- 1170 **COLOMBIA** HJNW *Caracol Radio*, Cartagena APR 17 0200 – Fair; sports play-by-play parallel a weaker 1100 kHz. [Conti-NH]
- 1549.815 **MEXICO** XEREL Morelia, Mich. APR 8 0250 – Presumed; into Durango SDR, aside 1550 pileup of weak signals, on waterfall a JBV trace at this previously measured carrier, which is also JBA, but far too weak for any audio. APR 10 0619 – JBA carrier hetting 1550s. APR 18 0601 – Hetting 1550 stations still detectable despite considerable storm and line noise. [Hauser-OK]

Despite lots of atmospheric noise, and a few electrical storms, I was able to log several new stations in middle of the MW band. I'm sure at least one was heard in previous years with different call letters, but I didn't have time to go back into the logbook and check. The complete list is at Domestic DX East.

Especially in noisy conditions, I find the combination of the Airspy HF with the preamp turned on and the YouLoop to be quite effective, but continue to be frustrated by its inability to record the entire MW band at one time. Once again, I had to replace the RG-402 conductors on the YouLoop and this time I secured it around a plastic hula hoop with zip ties and hung it in a south facing window. I also experimented with using the always reliable 3 foot amplified copper loop located about in another room about 20 feet away and oriented EW combined with the YouLoop. I pulled in a few stations I

might not have received on either antenna alone but the receptions were done unattended so I have no way of knowing if the combination really made a difference. Next project will be testing the combined loops with the RSPDx. I've tried the YouLoop alone with that receiver but the lack of a preamp seems to make a difference.

I'm getting better using the AM Co-channel canceler. It's fun to be able to get rid of a 50kw local even if no other stations appear underneath. It's helpful at reducing interference on adjacent channels which seems to have gotten worse. Until a year or two ago, I never had a problem hearing WWL 870 next to WHSQ 880 (which I'll always think of as WCBS) or WGN 720 next to WOR 710 but now these require either tuning in sideband mode, playing with the IF filters or using the IF offset on the canceler.

All these "challenges" are what keeps the hobby interesting. Wishing you all lots of good DX in the weeks to come.

## FCC Delete, Delete, Delete

Doug Smith W9WI

The Federal Communications Commission has not been immune to President Trump's government shakeup. On March 12, the FCC opened docket #25-133 – better known as "Delete, Delete, Delete." This docket asked for comments on every rule & regulation people felt the Commission should eliminate. Comments were due by April 11. As I check on April 22, I see 939 comments filed – although many of them do not address broadcasting. (Many were filed by hams, and telecommunications firms are also affected and have filed.)

Below are what I feel are the most important proposals. I read every comment that appeared to be filed by a broadcast interest. I may have missed some – many were filed by individuals, and I have no way of knowing if that individual was a broadcaster, a ham, or a consumer advocate. The most interesting ones are in italics.

Note the proposal (by public broadcasting interests) to eliminate the legal ID regulation! (frankly, while the DXer in me hates the idea, the broadcaster in me says this should have gone away decades ago...)

By service:

### AM:

- Consider all AM frequency change applications to be "minor" changes, not just those within 60 kHz.
- Eliminate minimum efficiency standards for antennas used by AM stations.
- Allow applications for the AM expanded band on a first-come, first-served basis, with a priority for existing stations below 1610KHz.
- *Create AM "Class V," for "Virtual AM stations." A Class B, C, or D station could convert to Class V. The AM station would leave the air, but would be allowed to operate FM translators within the area it served before going virtual.*
- Allow AM stations with FM translators to silence the AM station.

### LPFM:

- Create a LPAM service based on the technical model of Travelers Information Stations.

### Shortwave:

- Eliminate the requirement that shortwave broadcast stations target only foreign audiences.
- Reduce the minimum powers for shortwave broadcast stations from 50 kW to 5 kW for analog operation; 1 kW for digital; 100 Watts for analog on the 11-meter band; and 20 Watts for digital on 11 meters.

### Stations in general:

- *Allow non-commercial stations to sell airtime.*
- Eliminate rule canceling license if off over a year.
- Reopen closed FCC Field Offices to improve enforcement.
- Replace station-count ownership limits with covered land mass, population, and/or number of non-overlapping signals.
- *Eliminate the station identification rule.*
- Allow wireless microphones to operate in channel 37.

- Eliminate multiple-ownership regulations on AM stations, or on any station outside the top 100 markets.
- Create an expedited auction process when a license is canceled – to speed return of service from a new owner.
- Require the federal government to pay for stations’ EAS equipment.
- Allow non-licensees to reserve a callsign.

# Pro Sports Networks

Barry Finkel, 10314 S. Oakley, Chicago IL 60643-2409, [bsfinkel@att.net](mailto:bsfinkel@att.net)

Here is Major League Baseball (MLB) flagship information for the 2025 season from my Internet searches. Some of the team web sites did not list the names of the announcers, and frequently when they did, the biographies mentioned information such as "For the 17th season ...", which does not tell me if the bio page has been updated for the current season. I do not save the bio pages from each season. I am assuming that, if the announcer bio page is linked in the web site menu, then it is current; there is no need to update the bio if the announcers have not changed. And sometimes I cannot determine if an announcer is on radio only, TV only, or both. On the [mlb.com](http://mlb.com) site for many teams, the announcers are listed under the "Roster" tab.

Any copyright statement on an [mlb.com](http://mlb.com) page is probably placed there automatically, even if the page content has not changed for the current season.

Please send me announcer information (and corrections).

If a network list web page has a different URL than last year and is linked in the site menu, I treated the list as current for the 2025 season; I did not compare the list with last year's list.

[http://en.wikipedia.org/wiki/List\\_of\\_current\\_Major\\_League\\_Baseball\\_broadcasters](http://en.wikipedia.org/wiki/List_of_current_Major_League_Baseball_broadcasters) has broadcaster information, and that web site has been updated for the 2025 season (last modified on 5 April 2025, at 21:44 (UTC)). But some of the references date back to 2010.

In some cases I was not sure that the network list was for the 2025 season, as many lists were undated. If a list differed from the list I downloaded last year, I treated the list as new for this season, but the list to which I was comparing already had duplicates removed. Some lists have the same station listed two or three times, each with a different city (and maybe a different state).

Some of the stations are actually translators, and I might not list the stations' official six-character call letters. The Twins' list has "FM signal" instead of the six-character call letters; I had to use [radiolocator.com](http://radiolocator.com) to get the six-character translator call letters. I assume that David Yocis will convert any call letters that I do not have correct.

I did not find the 2025 network list for the Arizona Diamondbacks (the list is unlinked and the same as 2022) and there are a few other teams whose list was the same as last year. I know from "AM Switch" that stations are constantly changing formats, so if I see a network list that contains more than a few stations and is the same as last year I assume that the list has not been updated for the current season.

And I am not sure that I have all of the Spanish-language broadcasts listed.
