Dear Airwave ears:

Upon receipt of your letter of March 23, I checked station logging information which is enclosed. As you can see, unfortunately WINF broadcasts Religious Orientated programming. As for the announcers name, WINF does not employ anyone with the name Dave Wolf or someone who uses the name. We will probably both agree that the call letters broke the channel during a coincidental break on other programming in the channel.

However, if in the future you have further evidence of reception feel free to write.

Receptively yours,

George Dombrowski Jr.
Chief Engineer
