Dear Kelly,

Mr. McCarthy is no longer at CHOO and I have taken over the job of replying to the DXers.

We get numerous reports of our signal reception from as far away as Finland and Japan. From your scripted information, I can verify that it was CHOO you received just after midnight on August 14th.

I am enclosing some literature on CHOO that I hope you will find of value.

All the best with your future endeavours.

Sincerely yours,
