Goldsboro, North Carolina

Dear Mr. Andrews:

Please consider this letter confirmation of your reception of WOL-AM on August 14th, 1966, at 0110 EST.

Thank you for your aircheck tape which is enclosed.

I was formerly a DJ at WENZ in Richmond several years ago so it particularly interested me to know that WOL (250 Watts) was coming in over WENZ (also 250 Watts) especially since they are so highly modulated and compressed.

Best wishes,

Bill Sherard
