Dear Kelly:

Thank-you for your letter.
This confirms your reception
of WAZE. We are currently operating
at 250 watts per hour pending F.C.C.
A approval of full-time authorization.

Since you receive us we have
moved our antenna to a new
site with better ground conductivity
& maybe you will hear us more often
now. Particularly since our sun-down
S.O. is 15 minutes later than
MAY ~~with~~ eastern day light stations.

Thank-you again.
