KELLY ANDREWS  
305 S. Jefferson St.  
Goldsboro, N.C.  
27530

Dear Kelly,

I am sorry that this acknowledgement has been so long delayed but it seems that every time that I sit down to answer some of these letters something else comes up that is more important to the operation of the station and this has to take a back seat. I do appreciate your interest in radio and the interest of many like you who try to pick up distant stations, but it does sometimes come at an inoportune time.

Once again thank you for sending in your report, you will find enclosed the acknowledgement form that you designed for us we also appriciated this, since it gave us an idea on what we could do in making a standard form which would make answering these inquires much more simple. I hope you have no objection for us using your idea.

Sincerly,

Ralph W. (Bill) Lotz  
Chief Engineer, WCCF
