KCKN-FM Radio
94.1 Megacycles
Kansas City, Kansas

Dear Sirs:

I am happy to report my reception of KCKN-FM on Sunday morning, June 25, 1967 at 1213 EDT. This was my first logging of a station on E-skip; in fact, the first FMer I've logged that didn't border this state. By my estimation KCKN is 937 miles from my QTH here in Goldsboro. At the time of my log, KCKN was putting in a very good signal with only moderate fading. To positively confirm my reception, I have enclosed a reel of tape recorded single track at 3 3-4 ips.

The following details were also logged by me. Please check them against your logs of 6-25-67.

1213 EDT	Mrs. Miller Record Offer
1214	Kansas City Police Personnel Offer
1217	Alvin's Jewelers Ad
1220	Fairfax Furniture Ad

I hope this report is of interest to your engineers. If the above details and enclosed tape agree with your logs, I would appreciate a verification. Return postage has been enclosed for your convenience. If the tape is not needed, I would like it back for my own records. Also, any added details on KCKN-FM, such as power or antenna, would be appreciated. Thank you for your time and effort.

Yours truly,

Kelly Andrews
