Dear Mr. Andrews:

Thank you very much for your letter of June 4 reporting the receiving of KXLS in your area on May 29. The details which you logged do check with our logs for that day so that I believe that a verification can correctly be granted you.

KXLS-FM broadcasts in stereo on a frequency of 92.5 megacycles and upon completion of installation of a new antenna last weekend began broadcasting with 100,000 watts of Circular Polarized Stereo. KXLS is owned and operated by Dawson Communications, Inc. which also has KXXK, Dallas, Texas and KMOD, Tulsa, Oklahoma.

Thank you again for your letter reporting your findings to us.

Regards,

Gary Melton
