Kelly Andrews, Esq.,  
305 S. Jefferson Street,  
Goldsboro,  
N.C. 27530,  
U.S.A.

17th July, 1966.

Dear Mr. Andrews,

Many thanks for your reception report dated 29th June, 1966, including the tape of your reception and reply coupon.

The tape, which I am returning as you requested, featured "Cousin Juicy" (the nickname of one of our D.J.'s) who was delighted that you received part of his late show.

ZFBL operates on 960 KHz with a power of 1000 Watts located at 32° 19' 1" north Lat., 64° 50' 27" west Long. and transmits to the islands of Bermuda. I am enclosing a tourists map of Bermuda and regret that I do not have a brochure on ZFBL available at this time.

Good Dx'ing,

Yours sincerely,

B.J. ROCHE - CHIEF ENGINEER.

P.S. Last night Cousin Juicy dedicated part of his programme to you and your fellow Dx'ers.
