Dear Listener,

We are very pleased to confirm your reception report of January 22, 1976 reporting reception of this station.

It is always a pleasure to hear from Listeners like yourself and while we doubt that conditions will always favour our signal in your area, we hope that you will tune our way soon again and if at all you happen to be in our neck of the woods, please be sure to take some time off from basking in the sun as you enjoy the beauty of our Island and call on us. Our studios are at the Grove just outside Plymouth.

Cordially,

.....
R.W. White
Station Manager.
