Mr. Kelly Andrews
305 South Jefferson St.
Goldsboro, N.C. 27530

Dear Mr. Andrews:

This will verify your receiving radio station WCHK
on July 26 at 1233 to 1240 EST.

We were conducting equipment test on our AM transmitter
to determine where some hum in the modulation was coming
from.

We operate simocasts on WCHK and WCHK-FM at 105.5 mc. WCHK
AM operates on 1290 kc. We have received a signal report
from Duluth, Minnesota on our FM signal with a 5 by 9
copy.

I can give you a programs schedule for the time period from
5:30 to 12:00 midnight because that is the time I am on
the air. From 5:30 until 6:30 we carry the Grand Old Opry
from Nashville, Tennessee. From 6:30 until 7:30 we have
Gospel Song Festivle which consists of Gospel music. Then
from 7:30 until 10:00 we have the Music-Co-Round show which
consists of Rock-and-Roll music. At 10:00 we have the Night
Time Show which is aired until sign-off at 12:00 midnight.
This is easy going instrumental music.

I hope this will satisfy your SWL logging requirements.
I personally hope you will be able to listen to our station
more often.

I remain,

Very truly yours,

Kerry Bramham
