Kelly,

Sorry for the late reply, I cover for three radio stations in middle georgia, and sometimes it can get pretty busy.

This is to confirm your reception of radio station WDAX McRae Georgia on the morning of Jan 16, 1978, from 1:04:30 AM to 1:12:55 AM EST. WDAX is on the air each third monday morning of the month, 1:00AM to 1:15AM for frequency measurments.

We operate with 1000watts into a $\frac{1}{4}$ wave vertical tower, non-directional.

Thanks, Kelly, for your report.
