Dear Kelly:

Your logging of our station is correct.

WIDG is a 5000 watt daytimer at 940. We can not broadcast at night because of CBM in Montreal, which is a Canadian clear 50,000 watt also on 940.

We receive many letters from listeners as yourself, from areas as Denver, Buffalo, Chicago, etc. Yours is the first we have received from the Carolina's.

Sincerely,

Don M. Angelo
