Dear Kelly,

It was good to hear from an old Wayne County boy up in the great state of Virginia, and I'm very pleased to tell you that your "reception report" was accurate down to the last detail.

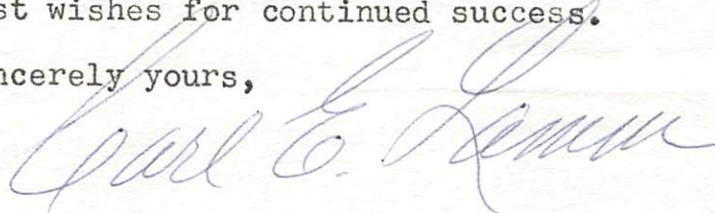

Enclosed, please find one of our old "coverage maps" that we've been using for about 15-years. The data is outdated, but the coverage is fairly accurate.

By the way, we recently bought a Dymek-McKay AM Radio that is really something for distant reception, especially when used with the McKay D-5 Antennae. Both units combined cost us around \$540.

Again, thank you for the fine "reception report", and our engineering department will be glad to read your fine letter.

Best wishes for continued success.

Sincerely yours,

Carl E. Lamm
