Re: Reception Report of 10 May 76

This is to confirm your reception of KFGO the morning of 10 May 1976. What you heard was our monthly frequency check which is done on our non directional antenna. KFGO is a 24 hour operation with the exception of from 1AM to 5AM Mondays, Central Daylight Time. We are non directional during daylight, directional at night.

With the interest of getting this letter out as soon as possible (it's obviously late already!) please allow me to return your tape later after making a dub of it.

Thank you.
