Dear Kelly,

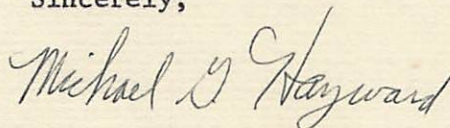

Jim Hartzler gave me your letter to verify, and it is with pleasure that I verify your' reception report. Our program log agrees with the sample which you have sent to us.

The only discrepancy, is the name of the NEWSWATCH announcer. You have him logged as Tim McQueen, his name is actually Phil McClain. The names sound alike, and considering the distance, it is a reasonable error.

I always enjoy hearing from DXers concerning our reception. I used to do a little of it myself, however I never thought to write for verification. I merely found a station, logged its' frequency and call letters and moved on to the next one.

Again I thank you for getting in touch with us.

Sincerely,

Michael Hayward
Assistant Chief Engineer
