Dear Mr Andrews,

This is to confirm your reception of WBSC on Sunday July 18, 1965, we were on the air for a frequency check.

Last weekend I was visiting in Jacksonville N.C. and received the station real good on my car radio.

We operate ~~on~~ with 10 KW non directional daytime power and 5 KW night time power directional. The time you received us we were operating during the experimental period with 10 KW and was non directional our transmitter is Gates 10B and we have a five tower directional array.

Sincerely,
W J Wafar
