Nov. 5, 1975

Mr. Kelly Andrews  
819 Tipperary Drive  
Greensboro, NC 27406

Dear Mr. Andrews:

Thank you for your letter of November 2nd, reporting reception of this station.

Our program log of October 27, 1975 does indeed show IGA and S. J. Chevrolet as the last two spots before sign-off at 5:45 PM. We are happy, therefore, to confirm your reception report.

It is realized, of course, that this is a "freak", since we do not ordinarily get out that far. However, erratic long skip conditions have been noted recently on higher frequencies, beginning around sunset, no doubt due to the current phase of the sunspot cycle.

From all indications, this will be a good year for DX reception. We wish you the best of luck in the pursuit of your hobby.

Sincerely,

R. H. Miller  
Chief Engineer
