Greensboro, NC 27406

Dear Kelly,

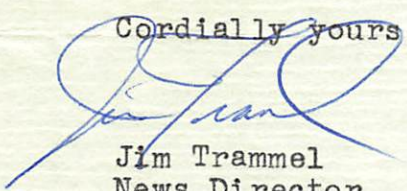

I am likewise happy to confirm that your details are correct and you heard us on January 13. Interesting that I should be the National Radio Club's official verification signer, since I am news director and not a technical person, but let that pass.

It's nice to hear from North Carolina, and especially from your area. I spent a very pleasant vacation roaming coastal North Carolina back last Labor Day, concentrating on the Outer Banks but making my way through Greensboro as well.

I think its safe to say that you're as far east as we've ever been heard. And it's even more miraculous with those other stations on the band.

We thank you for taking the time and trouble to contact us with your information. If you are ever in Lebanon, please stop by the station and say hi.

Cordially yours,

Jim Trammel
News Director
