WCPK
MUSIC RADIO 1600

"It's Beautiful At The Top"

CONFIRMATION

To: Mr Kelly Andrews
7016 Montauk Drive
Richmond, Va. 23225

The station you monitored
on January 16, 1979 was WCPK-
Chesapeake, Virginia.

Your report is 100% correct.

We are delighted to have your
DX Report since getting into
Richmond area on 1600 khz is
quite a feat and we congratulate
you on being able to null-out
WGOE. Have noted on good car
radio (outside antenna) that
we can get to point 18 miles
outside Richmond before the WGOE
side-band splatter takes over.

WCPK - 1600 khz - 1,000 watts
using Gates BC1G with pair of
833-A's in the final..fed to
short 126' antenna. WCPK has
received construction permit
for 5,000 watts - non-directional.
On air before summer.

FYI: Application for companion
FM (94.9 mhz, 50,000 watts) has
been in and out of hearings for
9 years. Expect something
positive soon.

Again, our CONGRATULATIONS to you.
The brochure on DX-ing is most
interesting. Thank you for your
comments on WCPK.

Cordially,
Raym
