October 4, 1967

Dear Mr. Andrews,

I was both interested and pleased to hear of your reception of WESR during our hurricane watch on, September 15 and 16, and I am happy to confirm same. Our transmitter is a 5 KW Gates Model BC5P2, with an RCA Type BTA-1-M non-directional antenna. Antenna height, 300'; location, latitude 37° 43' 02" North, Longitude 75° 41' 01" West.

Enclosed for your information, is a coverage map and an Eastern Shore Tour brochure. Best of luck in radio.

Very truly yours,

David M. Bralley, Engineer
