Kelly Andrews
7016 Montauk Drive
Richmond, Virginia 23225

Dear Kelly:

Thank you for your letter reporting the reception of WMNA in Richmond on January 12, 1978. This was a surprise for us since WPIK with 5000 watts is on the same channel. I think they sign off 15 minutes earlier than we do and we have received some reports of reception during that period. One fellow sent us a tape of our signal in Baltimore just before sign off.

Your report is confirmed by our program log of that date. Our secondary coverage does not extend to Richmond. I think skip had something to do with your receiving us; however, that is rather early in the day for skip to be taking place.

February is here and we will be running some Heart PSA's.

Best regards,

Lyle C. Motley
General Manager
