Mr. Ernest Cooper
438 EAST 21st STREET
Brooklyn, N.Y. 11226

Dear Mr. Cooper:

It was very good to hear from you in accordance with our recent frequency check on March 15, 1971.

As you probably already know, we operate with only 1000 watts, local, from sunrise to sunset. This is not very much power, but we are happy because we have better tone, quality, and actually sound better over the air than our compedator, in A ndalusia also.

I'M very sorry that we haven't got around to verifying your letters that you have sent in the past. We get a great number of letters each month from people such as you and we are very glad to hear from you and others also.

I was impressed with your concern of our verification to you because of the time that you took to get this letter off to us immediately, also to type us a card to fill out.

You will get this letter andaalso the card that you sent to us.

Our next test date is April 19, 1971. We would like you to listen to it at the same time and I'll be on the air and I'll play a song just for you.

I am only 18 years old. I've been employed in announcing for about 3 years now. I plan to go into broadcasting for a career. Again, thanks for tuning in and I hope to hear from you again soon.

Thank You,

Duane Ingram
