PIEDMONT RADIO STATION

PIEDMONT, ALABAMA
December 1, 1953

Dear Ernest;

I am very happy to verify your report of reception of W P I D on the morning of november 26, 1953.

I remember your reception report of W P I D that you sent in at an earlier date. I thought that I had verified that one for I do remember that it was correct. If I didn't I am terribly sorry. Maybe this one will sort of make up for it.

You probably did hear an echo on the voice that morning for I think that Doug was running his monitor speaker too high. If you get a chance I wish you would tune us in again and see if it is still there.

You asked how Piedmont got its name---- Well it is just about what the name implies--- Foot of the mountain. I beleive the mountain chain is the Appliacian.(never did learn this durn thing to spell) I guess that you will know what I mean. The population is about four thousand. The town is rather small. The country around here is very pretty. You can find just about any kind of country that you want real close.

I wonder if I could ask a favor of you? I would like to have the DX'ERS publication. I forget the name of the thing but I really would like to have it. Of course I'll be glad to pay any charges that there might be. Can you help me?

Best wishes to you and all DX'ers. They can be a real help to all radio stations. If you would like to pass the word along that we are on early we will appreciate it and will of course, be glad to answer all reports.

Yours Truly,

*Hamilton Masters*Hamilton Masters
