Dear Ernie,

Thanks for your letter confirming our equipment test last Sunday night (Monday A.M.). We were trying out a composit rig we had dragged up out of somebody's celler and reconditioned as a stand-by unit. It is a beautifull monster. It was re-conditioned by the st ation owner, Mr. Jerry Scanlon, who is a consulting engineer in Memphis.

WCKY is off the air every monday morning for tests. That's when we make our checks. I'M glad you picked us up.

Cordially

Pat Buford
