

# KWFC 1340

---

MUTUAL BROADCASTING SYSTEM

---

HOT SPRINGS, ARKANSAS

Sept. 3, 1952

Mr. Ernest R. Cooper  
Brooklyn, N.Y.

Dear Mr. Cooper;

In Regards to your letter of Aug. 27, I am happy to report that KWFC was on the air making freq. measurments and equipment t~~st~~ as shown on my logs. Certainly glad to ~~hbb~~ know you were able to recieve us at that time and place. At the present we have a grate number of letters of this nature from all over, espically in your section. At the present KWFC is operating with 250 watts on 1340 kil. We are on the air from 6:00 until 11:30 aech day carrying Mutual about one   -half the time. We have new Collins equipment through-out which I have just finished installing.

Thanks for your letter and may I hear from you again if and when you are able to recieve KWFC. As Verified by our log we were on that morning from 3:00 until 3:45.

Yuors Truly

Dalton Sanders  
Chief Engineer

P.S. I have a very good friend up your way by the name of Raymond J. Richter. At the present he is living in Wappinger's Falls. His telephone No is 876W2. Give the boy a call and tell him you heard from me. I was up to see him last spring and intend to try to get back there some time in November.
