My dear Mr. Cooper:

This is to verify your reception of our regular monthly frequency check transmissions during the period 1:15-1:30AM, MST, Monday, January 9, on 1490 kc.

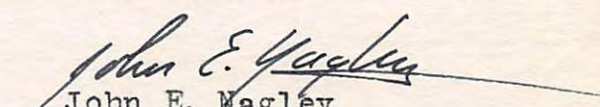

I appreciate your suggestion as to type of transmissions best heard during this type of broadcast and will keep it in mind if we encounter any difficulty during future tests.

We operate during the period 6:30 AM thru 11:00 PM daily, and we hold our frequency checks on the second Monday of each month between 1:15-1:30 AM, MST.

Prescott has a population of about 8,000 (the Chamber of Commerce claims about 14,000), and the city was named after Prescott the historian. KYCA has a service area of 25 miles radius day and night on 250 watts.

Thanks very much for your report and interest.

Very truly yours

John E. Magley
Chief Engineer
