Dear Mr. Cooper:

In checking our files, we find there is no indication that your letter of July 22, 1947 was answered. Due to several changes in personnel during our early part of operation, it is possible that the procedure of acknowledging requests of verifications was overlooked for a period. In the event that you received no reply, please accept this as our acknowledgment.

KSMO operates on 1550 kilocycles on 1000 watts power, day and night. Our antennas consist of two 150-foot uniform cross section vertical towers.

We at KSMO appreciate your interest in writing us regarding your reception of our station.

Sincerely,

H. Neil Black
