438 East 21st St.  
Brooklyn, N. Y.

Dear Mr. Cooper-

We are pleased to have your report of the reception of K T M S on January 29, 1941. This letter will serve as your verification.

We are always pleased to hear reports of our reception from points distant from our station.

Since you have written to us, we have power increased from 500 to 1000 watts, which should make our signal even more stronger.

We use a directional antenna system, broadcasting from two towers, each 258 feet high. Although our signal is directed up and down the Pacific coast, we occasionally receive reports from the eastern part of the country.

Thank you for your interest in writing to us.

Sincerely yours,

STATION K T M S
