PASADENA

March 1, 1943

Dear Mr. Cooper:

Thank you for your report on our recent DX program for the NRC. Am sorry you weren't able to get us better. We have had quite a number of good reports from the east coast, which really surprised us since we expected to get very few. At any rate, this is to verify your report and maybe we'll have better luck next time.

We operate daytime only and have no regularly-scheduled frequency check as the monitoring station is practically next door in Hollywood.

Yours truly,

Paul Spargo
