119 BRIDGE STREET . GROTON, CONNECTICUT . TEL. HILLTOP 5-2494

"1000 WATTS OF POWER
FROM THE COAST'S HIGHEST TOWER"

Sept. 2, 1958

Mr. Ernest R. Cooper, Editor
National Radio Club
438 East 21st Street
Brooklyn 26, N.Y.

Dear Mr. Cooper:

Thank you very much for your excellent report of reception. It is a pleasure to confirm for you. Evidently our transmission along the Sound and Coast is quite good for we have had reports from the Jersey Coast, one from a listener using a portable radio set!

WSUB began broadcasting July 26th on a sunrise to sunset schedule. We do not maintain a frequency measurement schedule. Our coverage map is in the process of preparation. When they are off the press, we'll mail a copy to you if you wish.

Great fame is coming to Groton these days as your letter suggests. Last Friday the NAUTILUS came home and was given a warm welcome here where she was built.

I hope you succeed in getting WILI and WINF although the interference on those frequencies is pretty horrible.

Cordially yours,

Lawrence A. Reilly
