Ernest R. Cooper
National Radio Club
438 East 21st Street
Carrier Route 56
Brooklyn, N.Y. 11226

Dear Mr. Cooper:

I am happy to confirm your reception of WGMS on May 7, 1973 at 2:47 AM. What you heard was me and my transmitter technician performing maintenance night activities.

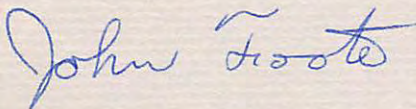

At that time of the morning we are usually running program tests on the auxiliary transmitter. These consist of music and station ID's, but no other announcements.

We have also been logged by Dave Schmidt, in Wilmington, Delaware, also a member of the National Radio Club.

Enclosed you will find a daytime coverage map, which is the only one I currently have available. The night pattern is basically of the same shape but much tighter.

Thank you for your interest in WGMS and classical music.

Sincerely,

John Foote, Chief Engineer
