Ernest R. Cooper, Editor
National Radio Club
438 East 21 Street
Brooklyn 26, New York

Dear Mr. Cooper:

This is to verify your reception of our DX test for the National Radio Club on the morning of January 16, 1956.

We are sorry that it took so long to answer you, but we were under the impression that we had sent you verification.

WSUX has been 1000 watts since April 5, 1957. We are a daytime station. Our frequency checks are taken care of by a monitoring service which sends a report monthly.

One minor correction, if you don't mind. Betty Evans identified Seaford as the NYLON CAPITOL of the world. They do raise some melons but are better known for their chickens in this part of the country than for their produce.

Thank you for your good wishes. We are sorry that you can't get us regularly. We appreciate your patience in waiting for this verification and ~~once~~ again, our sincere apologies.

73's

Bernard Gold
