Broadcasting House, London, W.1

TELEPHONE: LANGHAM 4468    TELEGRAMS AND CABLES : BROADCASTS, TELEX, LONDON

02/OME/JS

10th January 1955

Mr. Ernest R. Cooper,  
National Radio Club,  
438 East 21st Street,  
Brooklyn 26,  
New York.

Dear Sir,

Thank you for your letter dated 5th January 1955.

Brookman's Park is the main transmitter used for the London Home Service, but in addition Ramsgate carries this service on 1484 kc/s. This is a low-power transmitter of 2 Kws. Between 0710-0750 GMT the general pattern of programmes in the Home Service is as follows:-

0710 GMT	Programme Parade
0715-0750 GMT	Musical programme

We think therefore that it was most likely our London Home Service which you heard on the morning of 3rd January.

We are sorry to say that we do not verify any reports on reception of our programmes, but thank you for your interest in writing to us.

Yours faithfully,

(J. Siller)

for Senior Superintendent Engineer, External Broadcasting.

(For 1484 kc/s)
